GLOSSARY
STATISTICS FOR PUBLIC SCHOOL DISTRICTS

Need/Resource Capacity (N/RC) Category Code: A code indicating to which of six Need/Resource Capacity Categories a district belongs. Districts are placed in an N/RC category based on their N/RC Index. The N/RC Index is a measure of a district's ability to meet the needs of its students with local resources. This measure is calculated by dividing a district's estimated poverty percentage by its Combined Wealth Ratio. Additional information can be found in *Part IV* of the *Statewide Profile of the Educational System*.

The Need/Resource Capacity Categories are:

1. ***New York City*** Public Schools;
2. ***Large City Districts*** – Buffalo, Rochester, Syracuse, and Yonkers;
3. ***High Need Urban-Suburban*** Districts;
4. ***High Need Rural*** Districts;
5. ***Average Need*** Districts; and
6. ***Low Need*** Districts.

- **Percent Free/Reduced Price Lunch:** The number of students in kindergarten through grade 6 participating in the free-and-reduced-price lunch program divided by the enrollment in full-day kindergarten through grade 6 as of October 2004. Not all school districts participate in the program, and the percentage of eligible students who apply varies across participating districts. Therefore, statistics contained in the table may underestimate the number of eligible students. A blank indicates that Percent-Free/Reduced-Price-Lunch data were not available. A pound sign (#) appears when the percentage of participants is greater than 100. This may occur when half-day kindergarten students participate in the lunch program. A dropout is defined as any student who left school before graduation for any reason except death and did not enter another school or high school equivalency preparation program. If a district did not have enrollment in grades 9–12 in 2004–05, the dropout rate is blank. In New York City, only the high school districts and the City as a whole have a dropout rate reported. FISCAL DATA

- **Expenditures per Pupil Unit:** Total expenditures, including those charged to the General, Debt Service, and Special Aid Funds. The pupil measure is based on average daily membership and includes students enrolled in district programs; disabled students educated in district, BOCES, and approved private school programs, including the State schools at Rome and Batavia; students educated in other districts for which the district pays tuition; resident students attending charter schools; and a full-time equivalent (FTE) count of incarcerated youth in a county jail for whom the district in which the county jail is located must provide an educational program, 2003–04. Prekindergarten and half-day kindergarten students are weighted at 0.5. The components needed to calculate

expenditures per pupil unit are not collected for districts with fewer than eight teachers. Source: Sixteenth Annual School District Fiscal Profile database. Additional information can be found in *Part III, Section 2* and *Part IV, Section 3* of the *Statewide Profile of the Educational System.*

- **New York State Revenue Share:** District revenues from State sources divided by total revenues, 2003–04. Source: Sixteenth Annual School District Fiscal Profile database. Additional information can be found in *Part III, Section 2* and *Part IV, Section 3* of the *Statewide Profile of the Educational System.*

- **Combined Wealth Ratio:** The Combined Wealth Ratio (CWR) compares district wealth to the State average wealth, which is defined as 1.0. A district with a CWR of less than 1.0 has wealth below the State average. Conversely, a district with a CWR of more than 1.0 has wealth above the State average. The CWR is calculated as follows: (0.5 multiplied by the Pupil Wealth Ratio) + (0.5 multiplied by the Alternate Pupil Wealth Ratio). The Pupil Wealth Ratio is equal to the actual value of property in 2000 divided by a weighted pupil count. The Alternate Pupil Wealth Ratio is equal to the 2000 Adjusted Gross Income of a district divided by a weighted pupil count. The weighted pupil count is based on the adjusted average daily attendance of K–12 students resident in the district plus weightings for students with special educational needs, students with disabilities, and secondary school students; half-day kindergarten students are weighted at 0.5. The CWR is not used in determining State aid for districts with fewer than eight teachers and is not calculated for these districts. Source: Sixteenth Annual School District Fiscal Profile database. Additional information can be found in *Part IV, Section 3* of the *Statewide Profile of the Educational System.*

  Level 1: Test scores indicate that these students have serious academic deficiencies. These students demonstrate no evidence of proficiency in one or more of the standards and do not reach proficiency in any of the standards.

  Level 2: Test scores indicate that these students will need extra help to meet the standards and pass the Regents examinations. These students demonstrate some knowledge and skills for each standard or full proficiency in one or more, but not all, of the assessed standards.

  Level 3: Test scores indicate that student performance meets standards and, with continued steady growth, these students should pass the Regents examinations. Students demonstrate knowledge and skills for each applicable standard.

  Level 4: Test scores indicate that student performance exceeds the standards and students are moving toward high performance on the Regents examinations. Students demonstrate superior knowledge and skills in each standard area.
