PART I: SCHOOL PROFILE: COLLECT YOUR DATA

Districts should provide schools with the most up-to-date disaggregated assessment data available, including state assessment data, other local assessments, and demographic data for use in analyzing school improvement needs. These data may include internal use of scores not yet released by NYSED. In addition, schools should access data on attendance (teacher and student), tardiness, behavior issues, feedback from walk-throughs and other reviews and information that will be useful in improvement planning. Please feel free to modify this section to make it meaningful for your specific school.

PART 2: ANALYZE!! (CAUSAL ANALYSIS AND PLANNING FOR IMPROVEMENT)

There are TWO SECTIONS in Part 2 ANALYZE!! The directions for these parts are included here rather than in the Guidance document to make it easier to refer to them.

Directions for Section A:

Section A will guide you through an analysis of the quantitative and qualitative data collected in Part 1 and the *possible causes* of the school's achievement gap and potential best practices that will support school improvement. The leadership team should plan to meet several times over an extended period of time to analyze data and information and to research and evaluate promising improvement strategies. Refer to the Guidance Manual to determine which sections of the CEP must be completed. The Appendices in the Guidance Manual also provide additional resources.

- Complete at least the section(s) for which the school was targeted (e.g. math and/or ELA), **and** the Literacy Across the Curriculum section.
- Only high schools are accountable for the “graduation rate” section.
- Also identify critical schoolwide issues that are not strictly ELA, Math or Graduation Rate, (e.g. school safety or attendance) that impact student achievement. Use the “Other” section to analyze those factors.

District and school administrators should assist the school in determining what data the Leadership Team will analyze. This should be done by considering all the factors already described in Part 1 of this document including:

- An evaluation of school processes and procedures,
- Parent and student surveys,
- School Quality Review (SQR) Reports, External School Curriculum Audits (ESCA) and Joint Intervention Team (JIT) Reports if appropriate,
- Any other information that is critical in the school such as:
 - *Student performance in feeder schools.*
 - *Specific areas of strength and weakness (including major findings of item skills analyses)*
 - *Analysis of effectiveness of intervention programs.*

NOTE: Use SECTION B (this page and the following one) to summarize the previous pages and support the transition into the Action Plan (Part 3). Use the earlier sections of this document to complete these pages.

SECTION B: Identify Key Priorities for School Year 2010-2011

Once Part 2 A has been completed, the school has an organized needs assessment. The next step is to consider the findings and implications of that needs assessment and identify the school’s educational priorities. These priorities should be focused and realistic. They are the “big picture” needs that have been identified as key areas for improvement. Establishing priorities for improvement will assist in the identification of annual (short-term) goals and the development of specific, measurable objectives for improving student outcomes.

After key priorities have been identified, **identify the research-based strategies the school will implement to address each of the priorities.** Indicate how selected strategies reflect research on teaching and learning and high functioning of schools. Emphasize strategies/activities that enhance instructional practices and build capacity of administration, teachers and other instructional staff.

PART 4: DISTRICT CORRECTIVE ACTION PLAN (MANDATORY FOR SCHOOLS IN CORRECTIVE ACTION 1 AND 2)

Corrective Action level schools have not made AYP for at least five years, despite developing and implementing school improvement plans in previous years. At the Corrective Action level the DISTRICT and STATE exert more control of the school and make changes necessary to enable the school to improve. NYSED requires a thorough school level audit of enacted curriculum during the first year of Corrective Action. The district is required to perform a careful analysis of the school as well and to develop specific corrective actions based upon a careful analysis of why the school is not improving and what sanctions must be applied. The Corrective Actions chosen should be those that will ensure that the school meets AYP. The district and school should begin analyzing the reasons for lack of progress and begin planning as soon as possible, definitely by the summer before the school enters Corrective Action and provide a draft Corrective Action Plan to NYSED by 8/31. NYSED will facilitate the External School Curriculum Audit (ESCA) as early in the first year of Corrective Action as possible. The plan will be reviewed, adjustments made based on Audit results and resubmitted.

The USDOE identifies as possible Corrective Actions:

- Identifying and removing those staff members that are part of the school’s failure to improve (consistent with existing contractual provisions).
- Closing the school and reopening it as a charter school or as a new public school.
- Hiring an outside provider to administer the school.
- Implementing any other major restructuring of the school’s governance that is consistent with the principles of restructuring, which might include:
 - Significant and increased professional development focused on best practices (for staff and administrators),
 - Consistent educational leadership, with administrators in classrooms on a daily basis,
 - Restructuring how district fiscal resources are allocated to ensure that schools with high numbers of high-risk students receive additional funding to support the extraordinary needs of those students,
 - Ensuring staff members have rapid, easy to understand access to student data and training and time to develop data-based decision making,
 - Significantly extending instructional time,
 - Mandating a major change in curriculum, instructional strategies, supervision, scheduling or any other major systems change,
 - Ensuring staff members have regular team planning time to focus on analyzing data and planning for instruction,
 - Changing the structure of the school’s scheduling.

PART 5: DISTRICT RESTRUCTURING PLAN (MANDATORY FOR ALL SCHOOLS IN RESTRUCTURING)

RESTRUCTURING Year 1 and 2:

Districts and NYSED are jointly responsible for the improvement of schools at the Restructuring Level. Unlike Corrective Actions, Restructuring requires a district to make extensive, rapid change in the school to avoid continued failure and the possibility of closure. The school must rapidly improve. NYSED will require a Joint Intervention Team (JIT) to evaluate the school's program during the first year of Restructuring and again when they reach advanced restructuring status. The district is required to perform a careful analysis of the school, and develop a major restructuring of the school based upon a careful analysis of why the school is not improving and what sanctions must be applied. Restructuring should be systemic and far-reaching and include significant district changes necessary for the school to make an immediate, major change. The district and school should begin analyzing the reasons for lack of progress and begin planning as soon as possible, definitely by the summer before the school enters Restructuring and provide a draft plan to NYSED by 8/31.

The district must:

- Change the governance of the school to include either the diminution of school-based management and decision making and/or increasing their monitoring and oversight of the school's operations and educational program.
- Provide technical assistance that continues to emphasize: 1) instructional strategies based on scientific research; and 2) the importance of data analysis in decision making.
- Reallocate/supplement district resources to support the implementation of the Restructured School.
- Make major, significant changes in the structure and operation of the school based on a thorough analysis of data and other evidence.

The possible restructuring options are similar to those for corrective action.

- Identifying and removing those staff members that are part of the school's failure to improve (consistent with existing contractual provisions).
- Closing the school and reopening it as a charter school or as a new public school.
- Hiring an outside provider to administer the school.
- Implement any other major restructuring of the school's governance that is consistent with the principles of restructuring, which might include:
 - Significant and increased Professional Development focused on best practices (for staff and administrators);
 - Consistent educational leadership, with administrators in classrooms on a daily basis; Restructuring district fiscal resource allocation to ensure that schools with high numbers of high-risk students receive additional funding to support the extraordinary needs of those students;
 - Ensuring staff have rapid, easy to understand access to student data;
 - Significantly extending instructional time;
 - Mandating a major change in curriculum, instructional strategies, supervision, scheduling or any other major systems change; and
 - Ensuring staff has regular time together in teams to focus on analyzing data and planning for instruction.

ADVANCED RESTRUCTURING SCHOOLS (YEAR 3 PLUS):

Schools that fail to make AYP during the first two years of restructuring must develop a new plan, based on the results of a new Joint Intervention Team (JIT) review, results of other interventions or audits and the decision of a Distinguished Educator (D.E.). The D.E. has the power to make a decision, with the only appeal directly to the Commissioner of Education. Based upon the D.E.'s findings, a school may be required to phase out or begin closure proceedings.

MANDATORY DISTRICT RESTRUCTURING PLAN

DIRECTIONS: Answer the following questions fully, providing specific details, funding amounts and sources, and evaluation processes.

- 1. Describe in detail how the school will be Restructured, how the district will report and evaluate progress, and how this will ensure that the school is able to make its AYP.**

- 2. Explain, in detail, how the district will govern and support this school to ensure it makes AYP.**

- 3. Detail what additional resources (support from personnel, additional funding, staffing, etc.) the district will provide to ensure this school is able to make AYP.**

- 4. Provide specific information on how the Regional Networks and other community partners will be able to support this Restructuring.**

- 5. Describe the supports needed from NYSED.**

- 6. Using the forms provided on the next page, develop a two year District Restructuring Action Plan. After the District completes this plan the school should develop the school plan using the Action Plan templates in Part 3 to develop school level plans based upon the District Action Plan. Also, work closely with the school as they develop their school-based plan to ensure it matches the district plan. The final plans (District and School) submitted to NYSED will be based upon a similar causal analysis and must include the templates in Part 3 in addition to the forms below. The District actions, however, must reflect a serious restructuring of the entire school and focused district supervision and support. Separate the years and indicate “Year 1,” “Year 2, etc. on the Action Plan templates.**

PART 7: CEP Second Year Update Form

NOTE: Only schools that submitted a new CEP the prior year AND are entering Year 2 of their phase (Improvement 2, Corrective Action 2, Restructuring Year 2) OR made AYP are eligible to submit this form. Other schools must submit the full CEP based on their status.

DISTRICT	SCHOOL
SCHOOL YEAR	DATE RECEIVED NYSED
I confirm that the changes in this document by this school are approved by the school superintendent Superintendent Signature:	

CEPs are initially written as 2-year plans. Schools must revise their CEP at the end of the plan's first year of implementation, based on an evaluation of evidence of improvement and submit a record of changes to NYSED by 8/31 for the next school year.

- If the school's status changes in the school year due to the school being identified for an additional subgroup or subject area, the district/school must include an analysis of and plan for the newly required elements. (For example, if a school was originally identified for ELA for SWD, but then is identified for ELA for Hispanic students and for mathematics, that school would need to update plan to include both a focus on ELA for Hispanic students and then complete the mathematics section.
- If the school is continuing with the same subject area and subgroups, they must submit an updated Action Plan with an explanation of reasons for changes.
- Districts must review and revise the Corrective Action Plan and/or the Restructuring Plan annually, based on the progress of each school at those levels and submit the revised plan with the school updates.
- If the school made AYP in all designated areas, they may choose to continue their previous CEP with NO changes. This is the only instance where a revision is not required.

I. Please check all of the following that apply for this school:

- School is identified for additional subgroup(s) within the original subject(s).
 - Schools in this group must complete and attach a root cause analysis (Part 2) and Action Plan (Part 3) for additional subgroup(s).
 - If the school is at the Corrective Action or Restructuring level, the district must also complete and submit an addendum to their Part 4 or Part 5.
- School is identified for additional category (subject area).
 - Schools in this group must complete and attach the sections of the CEP template required for schools identified for that category. See original directions for details.
 - If the school is at the Corrective Action or Restructuring level the district must also complete and attach an addendum to their Part 4 or Part 5.
- School has not been identified for any additional subgroups or subjects but did not make AYP; this revision updates the previous year's plans and is based on additional evaluation of the impact of the CEP's implementation. Schools in this group must attach evidence of the evaluation of the previous year's plan and reasons for changes and an updated Action Plan (Part 3).
- School made AYP in all areas for which they are identified and choose to continue implementing their CEP with no revisions.
