

NYSAA Extension Summary

High School Math Extension 91511

Student: Jason
High School Math

CCLS Code: S-ID
Extension 91511

Extension: Identify given data on a graph. (91511)

Task: The student will identify given data on a graph (e.g., given a completed graph, the student circles the data). (AT91511A)

Note: In this sample, the graph with data is kept very simple and the teacher presents it to the student using real objects. The notation indicates what the student was asked to do, and how he responded.
