

Barbara M. Wallis, Bureau Chief
Test Administration and Communications
Office of State Assessment

April 2010

TO: Principals of Secondary Schools

FROM: Barbara M. Wallis

SUBJECT: Administration of the May 2010 Component Retests

IMPORTANT: The booklets for each day of the May 2010 Component Retest period will be shipped separately so as to arrive at schools (or approved storage locations) between 8:00 a.m. and 5:00 p.m. on the weekday preceding the administration of the component retests. See “Shipment of Component Retest Materials” below for further information.

This memorandum provides essential information about the administration of component retests. Accompanying this memorandum are the schedule for the May 2010 Component Retest period (DET 204), Directions for Administering and Scoring Component Retests (DET 241), Information Booklets for the Component Retests in English (DET 241E) and in Integrated Algebra (DET 241IA), and the list of regional centers for the component retest period (DET 271).

SHIPMENT OF COMPONENT RETEST MATERIALS

Each school requesting component retests will receive up to five shipments, one for each day for which component retests were requested. Please be sure that someone in your school or approved storage location is available to accept the component retest shipment between 8:00 a.m. and 5:00 p.m. on the days when deliveries are expected. Should any problems occur in connection with the delivery of materials, immediately send a fax with your school name and BEDS Code to Katie Gerhardt at **Measurement Incorporated** at 866-291-6612.

Enclosed in each delivery is a shipping notice listing the materials included. As soon as you receive the cardboard carton(s), check the shipping notice to ensure that all appropriate component retest materials have been received for each subject. If your inventory shows that the shipment contains excess materials or that it contains examination materials that you did not request, please notify **Measurement Incorporated** immediately via fax at 866-291-6612. It is the principal’s responsibility to maintain any excess materials under the same strict security as the examinations that your school will be administering, as outlined under “Safeguarding Component Retest Materials.” **Measurement Incorporated** will have a helpline available to handle inquiries from 9:00 a.m. until 3:00 p.m. each school day through May 12, 2010. The helpline number is 866-783-2281.

EMERGENCY SUPPLIES OF COMPONENT RETEST MATERIALS

If a shipment for your school does not include all the materials needed, additional materials must be obtained from a nearby regional center. The regional center must be contacted immediately to ensure that sufficient component retest materials will be available when your school's representative arrives. A list of regional centers is enclosed with this memorandum. At regional centers in New York City, emergency supplies of English editions of all component retest materials and selected translations will be available. At regional centers outside New York City, emergency supplies of English editions will be available. Translated editions of component retest materials are not ordinarily available at regional centers outside of New York City. Emergency supplies of braille and large-type editions are not ordinarily available at any regional centers. Schools requiring these special editions must send a fax requesting those materials and the quantity needed to Katie Gerhardt at **Measurement Incorporated** at 866-291-6612.

Component retest materials are available at regional centers only on the day of the examination. For component retests, all materials may be released by regional centers at any time between 8:00 a.m. and 1:00 p.m. on the day each examination is scheduled to be administered. In order to obtain testing materials at a regional center, an individual must present a letter of authorization written on his/her school's letterhead stationery and signed by the principal. The letter must identify the person picking up the materials and list the specific materials requested. Anyone obtaining testing materials must provide identification with a photograph and countersign the authorization letter before the materials will be released.

SAFEGUARDING COMPONENT RETEST MATERIALS

The principal of each school requesting component retests must make the necessary arrangements to safeguard the materials received for the school. Upon delivery, the cardboard cartons must immediately be placed in the Department-approved safe or vault at the storage location designated by the school. Secure test materials may be removed from the safe or vault only for inventory and for administration on the scheduled date. When the safe or vault where State examinations are stored is unlocked, it must be kept under continuous supervision by school personnel.

Department personnel may make unannounced visits to some schools after the testing materials have been delivered in order to verify that the materials are being properly stored. If a violation of storage procedures is found, all component retest materials will immediately be removed from the school and transferred to a location designated by the Department. The school principal will have to arrange to pick up materials from that location each day during the component retest period. The school will then be required to store all examination materials at a location designated by the Department for a period of at least one year. In certain instances, the Department may rescind the school's authorization to administer examinations.

ADMINISTERING AND SCORING COMPONENT RETESTS

The general procedures for administering and scoring component retests are included with this memorandum and may be photocopied for distribution to teachers; they are also available on the Department's web site at: <http://www.emsc.nysed.gov/osa/component.html>. Please be sure to make these directions available to test proctors in advance of the component retesting period. These directions will also be included with the shipments of component retests in May. The Department will post all of the materials needed for scoring the component retest answer papers on its web site on or about May 13, 2010. Schools should download these materials from the web site and print as many copies as they need. The Department will *not* be sending paper copies of the scoring materials to schools.

The specific hours during which component retests must be administered are indicated on the test schedule and on the test booklets themselves. For May 2010, the Component Retests in English are scheduled for 9:00 a.m.; Component Retests in Integrated Algebra are scheduled for either 11:00 a.m. or 1:00 p.m., depending on the specific component being tested. To allow sufficient time for directions and distribution of test materials, students should be instructed to be in their seats at least 15 minutes before the time specified for starting each test.

Schools may, at the discretion of the principal, adjust the start time for the component retests by no more than 15 minutes earlier or later than the specified time. Regardless of the starting time, schools may not permit students to spend more than the allotted 50 minutes working on each component retest booklet and may not permit students, under any circumstances, to leave the test room before the Uniform Statewide Admission Deadlines listed below.

Uniform Statewide Admission Deadlines

Test Time	Admission Deadline
9:00 a.m.	9:30 a.m.
11:00 a.m.	11:30 a.m.
1:00 p.m.	1:30 p.m.

AFTER COMPONENT RETESTING

During the component retesting period, schools must maintain the security of all test materials. At the conclusion of the testing period (May 12), schools may retain the test booklets for instructional purposes or otherwise dispose of them as they see fit. Student answer papers must be retained in the school files for at least one year, as any or all of the papers may be called for Department Review during this period.

DEPARTMENT REVIEW

Principals of selected schools requesting component retests will receive notice concerning Department Review by the end of the component retesting period. This notice will indicate the subject, either Comprehensive English or Integrated Algebra, for which answer papers must be submitted to the Department's contractor, **Measurement Incorporated**. In addition to answer papers, schools selected for this Department Review will be required to submit the completed worksheets used to determine eligibility for students who take the May 2010 Component Retests. All answer papers and completed worksheets not requested for Department Review must remain on file in the school for a minimum of one year from the last date of testing.
