2013 Grade 6 Mathematics Test Chinese Edition Only Book 2, All Forms (A, B, C, and D) Question 48

This notice pertains to Question 48 on the Chinese edition only of the 2013 Grade 6 Mathematics Test Book 2, all forms (A, B, C, and D).

Due to imprecision in the translation of this question, all students who used this edition of this test will be given credit for either of two answer choices.

At the time of the scoring of the multiple-choice questions, adjustments will be made by the Department's contractor so that all students who used a Chinese edition of this test, either by itself or in conjunction with an English edition, will be given credit for either of two answer choices for this question.

Please make sure to darken the circle for "Chinese" in the box labeled "Alternate Language" on the answer sheet for all students who used a Chinese edition of this test, either exclusively or in conjunction with an English edition.

We apologize for any inconvenience this may cause you and we thank you for your hard work on behalf of the students in New York State.
