<b>G. Tips on how to reduce bubbling and coding errors on a submitted BEDS PMF survey.</b>
Answer only those preprinted questions that are blank, incomplete or inaccurate.
Use a number 2 pencil only to complete the survey.
If preprinted data are correct, please do not re-grid responses.
When bubbling in a new BEDS Code, please enter all 12 digits of the new BEDS Code.
Personnel completing a BEDS survey for the first time must completely answer all survey questions.
A respondent must completely erase any mark(s) they wish to remove.
A respondent cannot reuse surveys from previous years and submit them for the current year.
A respondent cannot submit copies of BEDS surveys as originals.
Percent Time should be reported as a three digit field. (100 % should be reported as 100 and not 1).
If a respondent works 40 percent in a non teaching role, and 60 percent in a teaching role in the same LEA, he or she should report 100 percent in question 8 on the green teaching survey, 100 percent in question 7 on the red non teaching survey, and a total of 40 percent in question 10E on the red non teaching survey.
Respondents answering a survey question should bubble the appropriate oval and hand write the response in appropriate location above the response.
If a respondent has both teaching and non teaching roles in the same LEA, he or she must indicate the same number of years of experience in question 7 of the green teaching survey, and question 6 of the red non teaching survey.
When completing question 10D of the red non teaching survey, the total number of years experience in this assignment cannot be greater than question number 6, total educational experience including non public.
When answering question 10B on the red non teaching survey and question 11B on the green teaching survey, circle only one response. Please do not grid an E, M, or S and an actual grade level.
Question Number 11E on the green teaching survey only applies to Core Courses. If a course is not core a respondent only needs to answer question 10D on the green teaching survey.
Respondents should select the best assignment code from the assignment code booklet that best represents their assignment(s).
