Using the TAA Application for Staff and Course Data for the 2019-20 School Year

Staff Account Creation and Account Resets in the Teacher Authorization and Access Application (TAA)
https://eservices.nysed.gov/taa/

For the 2019-20 school year electronic Personnel Master File (ePMF) collection, data must be submitted through the Staff Snapshot template to Level 2 to appropriately link staff to their district. All teaching and non-teaching professionals with data loaded by school districts, BOCES and charter schools into Staff Snapshot will be able to create TAA accounts, review their data and submit a PMF form to NYSED. Only teaching staff are required to create TAA accounts and submit a PMF form and/or access Teacher Student Roster Verification (TSRV) data accessed through the Teacher Access and Authorization (TAA) system.

For staff with current active accounts, you may log in with your username (email address) and password. No further account action will be required unless you cannot recall your password and security questions and need to reset your account. After requesting an account reset, you would then need to utilize the new Token process.

If staff persons do not have active TAA accounts or require an account reset, they must have a valid Staff Snapshot record in the Student Information Repository System (SIRS). Once new staff persons click on the “Create Account” button in TAA and begin the process, a token (link) will be generated and sent to the staff person’s Staff Snapshot work email address allowing the staff person to start the account creation in the TAA system. If a staff person requires an account reset, click “Reset Account” and follow the instructions. A token will be sent to the staff person’s Staff Snapshot email address to reset the account. For more details on the token process refer to guidance at http://www.p12.nysed.gov/irs/beds/PMF/home.html.

NYSED does not provide the following:

- TEACH IDs;
- Usernames;
- Passwords; or
- Answers to security questions.

*Your district has your 7 digit TEACH ID.

The process is summarized in the chart below.

ePMF Forms

ePMF forms will continue to be generated based on a valid Staff Snapshot record for teachers and can be accessed within the TAA application. The district Staff Snapshot template is the official source of data for ePMF.

The employment and educational experience data elements loaded into a teacher’s Staff Snapshot record will prepopulate a teacher’s ePMF form. Teachers will not be able to change this information on the ePMF form. Corrections will have to be made in Staff Snapshot and the change will carry over to the ePMF form during the collection period.

In 2019-20, the Department is creating PMF forms for non-teachers from Staff Snapshot and Staff Assignment data. While non-teachers are not required by NYSED to create TAA accounts, they will need to do so to view their data. LEAs may require their non-teachers to create accounts, review their data and submit forms. These staff will not be able to submit their forms until Staff Assignment data is loaded.

The following items: Last name, First name, TEACH ID, and Date of Birth are derived from the TEACH system. If some of this is incorrect, you should contact the Office of Teaching Initiatives in the Department. Website: http://www.highered.nysed.gov/

The following items: Gender, Race/Ethnicity, Educational experience (Degree status and Professional Development), and Employment Information (Years employed in district, Total years employed, Percent time employed, Number of months employed, Current annual Salary) are derived from your district’s Staff Snapshot. Please contact your administrator if there is an error in what is reported.

Non-teaching professionals should only select PMF BEDS teaching assignments if they are teaching as well. Non-teaching assignment data will prepopulate this form from SIRIS data loaded in Staff Assignment by the district, BCCES, or charter school. The PMF form cannot be “Submitted” until the Staff Assignment data is present.
TSRV Roster Data - Staff Student Course

Roster data or Teacher Student Data Linkage (TSDL) is required to comply with State and federal laws to create a State Longitudinal Data System (SLDS) and assist with teacher and principal evaluations (APPR- Annual Professional Performance Review). Data will only be present for teachers for the courses below when the LEA has loaded their data to the NYSED data warehouse.

- A record for classroom teachers (district, BOCES, and, charter school teachers) providing instruction in grades 4-8 ELA/ Math and Math Regents courses must be reported in the Staff Student Course Template. Only these courses can be reported.

- For 2019-2020, only assessment dates are required when reporting as opposed to reporting both assessment and end of year (6/30) dates as was required in prior years.

Reminders

Administrators with entitlements to TAA can review staff submitted data via the TAA application using their SEDDAS credentials. The school district, charter, or BOCES CEO (as listed in the NYSED SEDREF database) is able to entitle users to TAA/TSRV/PMF through the NYSED Business Portal using the SED Delegated System (SEDDAS).
