

Information about L2RPT Access via SEDDAS

Level 2 Reports (L2RPT) are designed to help districts verify student demographic, enrollment, program, assessment, course and graduation data as well as educator data that have been reported in the Student Information Repository System (SIRS) in support of accountability and other reporting requirements. The reports are refreshed by 6:00 a.m. each Monday until the reporting deadline for that dataset.

To help ensure the timely response of the reports, they are hosted regionally by the regional Level 1 Data Centers. For specific information about how to access your school, district, or BOCES reports in L2RPT contact your Level 1 Regional Information Center (RIC) or Big 5 City District data center. Data center support contacts are available here: <http://www.p12.nysed.gov/irs/sirs/ric-big5.html>

Access to L2RPT is managed by the NYSED Delegated Account System (SEDDAS), which allows designated LEA personnel to add users and manage access for their own employees. Information on SEDDAS accounts, permissions, and the applications managed by SEDDAS may be found at <http://www.p12.nysed.gov/seddas/seddashome.html>, specific information about L2RPT and SEDDAS is available at: <http://www.p12.nysed.gov/seddas/guides/l2rpt-quick-guide.pdf>.

Access to L2RPT is separated into different levels of access, or Roles, for each broad report category. Information on the different Roles is below. It is the responsibility of each district superintendent (BOCES), school superintendent (public school districts) and principal (public, charter and nonpublic schools) to ensure that access to data contained in L2RPT is granted via SEDDAS only to individuals who have a legitimate educational interest. The L2RPT Roles are as follows:

- **Free and Reduced Lunch:** this Role grants access to the Free and Reduced Price Lunch Eligibility on BEDS day verification report available in the BEDS folder.
- **L2RPT:** this Role grants access to verification reports containing student enrollment, attendance, demographic, assessment and course data for accountability, assessment and, enrollment reporting, and CTE, WATN, TSDL.
- **Staff Evaluations:** this Role grants access to the Staff Evaluation verification report.
- **Staff Human Resource Data:** this Role grants access to verification reports containing staff data other than evaluation that may be viewed as human resource related (Staff Snapshot and Staff Tenure).
- **Staff Data – Other:** this Role grants access to verification reports containing staff data other than human resource and evaluation, (Staff Assignment).

Most verification reports are available for either a school or a district, but certain reports are district-level only including BEDS reports for: State Aid (SIRS-312), enrollment by district of residence (SIRS-314), Pre-K (SIRS-316), resident enrollment by location (SIRS-319); and the Staff Evaluation report (SIRS-317).

For reports that are district-level only, staff with SEDDAS entitlement for a public school (not the district), will not be able to access these reports. The table below provides additional information about the reports.

Level 2 Verification Reports (L2RPT) Description and SEDDAS Role

The table below includes information about the verification reports available in L2RPT, the folder where each report is located, a brief summary of the report, the entities the report may be generated for, the years data are available, and the SEDDAS Role for each report.

The reports are listed in numeric order, the shading identifies reports that have similar content (accountability= orange, assessments = green, 9th grade cohort = blue, annual completion = pink, staff and course = purple, BEDS, attendance and FRPL = teal, reasonableness = grey, post secondary = tan).
