

2019 - 2020 STEAM Workshops: Unlocking Strategies that Build Life-Long Learners

Provided by Makeosity, Inc, STEAM and Instructional
Technology PD and Coaching

Facilitated PD Days including workshops and Small
Group and one-on-one Consults

Up to 45 PD days offered on-site for teachers and school leaders
from September 16, 2019 through December 15, 2019

New & exciting technology is finding its way into classrooms, but are students truly harnessing the powers of innovation to their fullest potential? Our Workshops and on-site consults guide educators to unlock strategies that integrate STEAM into curriculum to impact school-wide and classroom learning, bringing future-readiness to the forefront of instruction.

Menu of Topics for PD Days

- Implementing a blended learning classroom to support school-wide STEAM learning K-8
 - Utilizing Google tools in STEAM activities
 - Supporting teachers in developing a sustainable coding/robotics program
 - Implementing Lego Robotics into the classroom (WeDo & Mindstorms)
 - Launching Hour of Code in your school (Code.org)
 - Creating a STEM program in the K-2 classroom (Ozobots)
- Interactive learning through the use of online simulations (PhET, Gizmos, NASA)
- Creating digital portfolios to collaborate, collect & share data (Google sites)

Please bring a device: iPad, laptop, Chromebook for all sessions

Participants will receive up to 3 CTLE Credit hours for workshop sessions
On site consults limited to one teacher for each appointment
Availability is based on a first come first served basis.
