

**Nonpublic School Safety Projects Eligible for State Support
(under Chapter 57 of the Laws of 2013)**

Projects Eligible for Aid Include the Purchase and Installation of:

External Lighting to Illuminate Primary Entry Doors.

Acceptable electronic security systems:

- Internal security cameras.
- Access control systems. These may include:
 - an intercom to speak with visitors,
 - remote electronic door unlatching systems,
 - external cameras,
 - interface with the building management system and
 - central lockdown buttons, etc.;

Acceptable door hardening items:

- Door replacement;
- Door Hardware replacement;
- Door frame replacement;
- Sidelight removal;
- Sidelight frame replacement;
- Change size of door or window vision panels to limit opening size;
- Change door or sidelight glass materials;
- Bars, Grills or other protective measures over existing glass to prevent access; or
- Glass films including security films or tinted films.

Projects Ineligible for State Support Include:

- The installation of bullet resistive glass in perimeter windows other than entrances.
- Student and staff security badge systems are considered an operational expense, not eligible for aid.
- Systems to scan visitor ID (such as driver's licenses) and compare those results with law enforcement databases are considered an operational expense and
- Other Construction Expenses.
