

ROOSEVELT HIGH SCHOOL
EARLY COLLEGE STUDIES

“Always Moving Forward”

Dr. Edwin M. Quezada, Superintendent of Schools
Ed DeChent, Principal

November 4, 2016

Introduction

Dr. Edwin M. Quezada

Creating a Foundation for Success:
Innovation, Inspiration, Excellence for All

About Our School

FAQs

- 33 College Link courses offered through local colleges
- 516 students were enrolled in one or more College Link courses
- Approximately 55% of students earned one or more college credits
- Approximately 48% of Seniors were accepted to 4 year colleges

Theory in Action

Revolutionary and Evolutionary: The Effective Schools Movement

- Instructional Leadership
- Clear and Focused Mission
- Safe and Orderly Environment
- Climate of High Expectations
- Frequent Monitoring of Student Progress
- Positive Home-School Relations
- Opportunity to Learn and Student Time on Task

Restorative
Approach

Data Collection

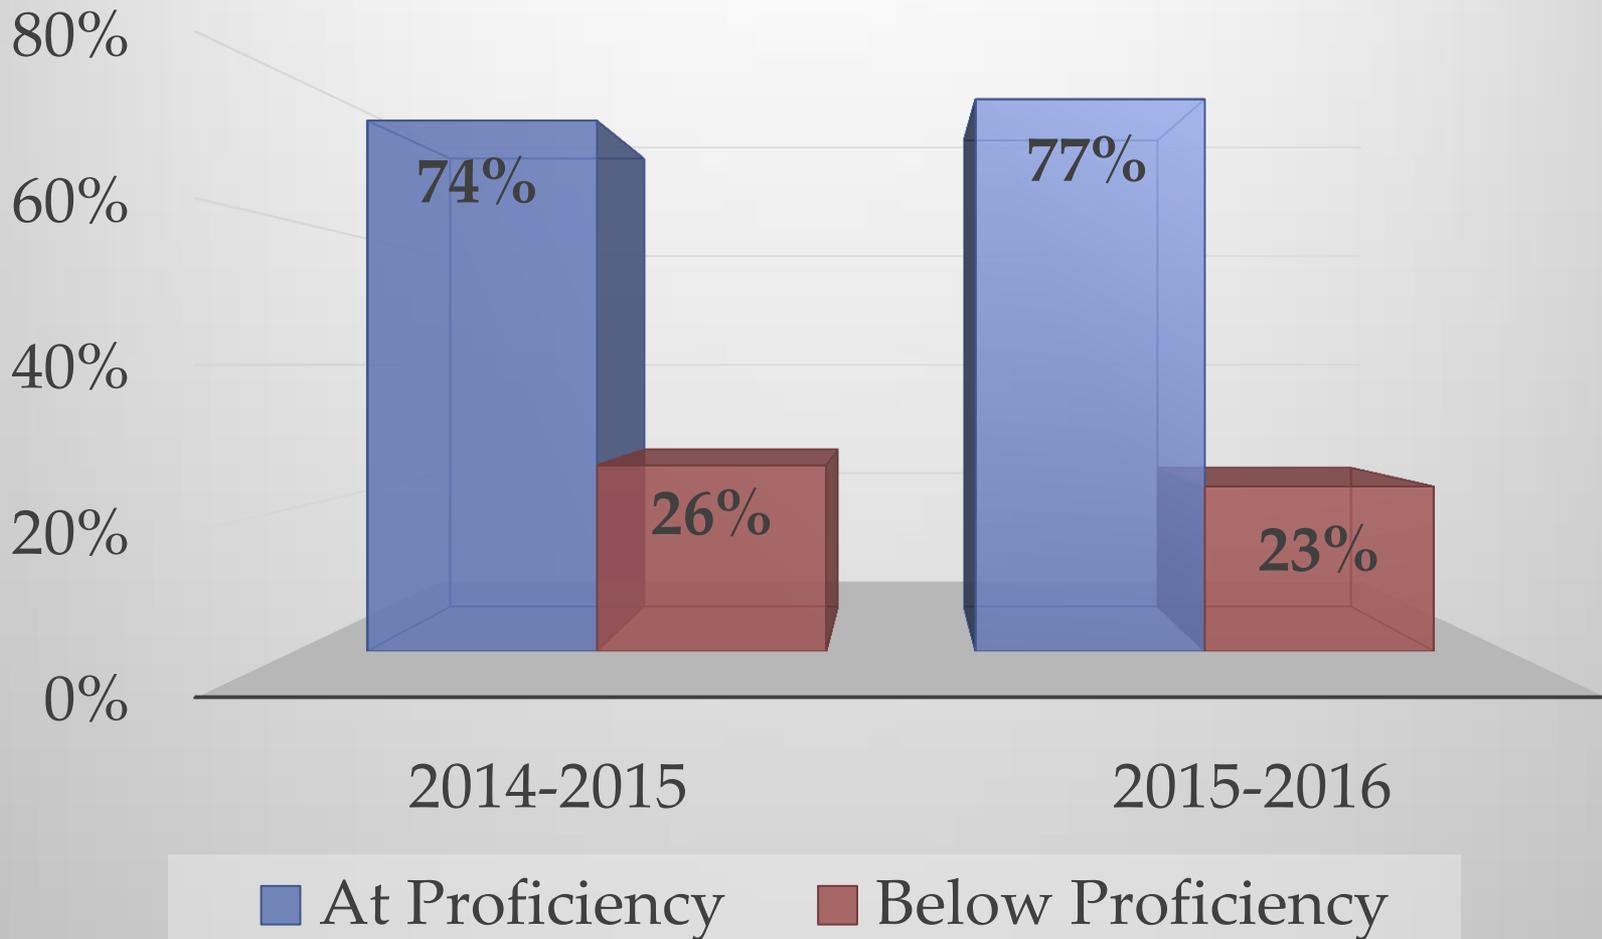

Frequent Monitoring of Student Progress and Climate of High Expectations

- Data team
- Observation and feedback cycle
- Quarterly assessments
- Monitoring of lateness and attendance with follow up
- Academic intervention for Regents review and Credit recovery in all grades
- Strategic scheduling based on student needs
- Early intervention through Early Warning signs reports

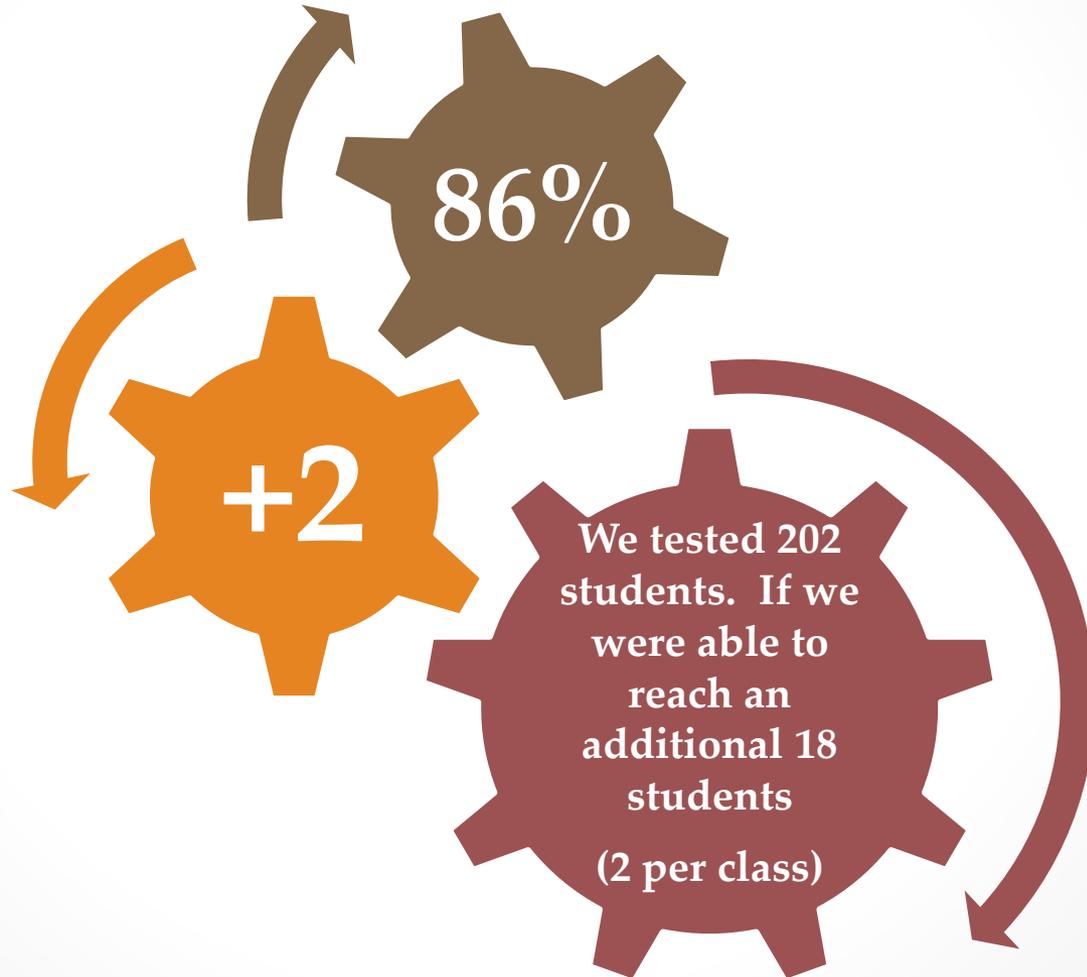

CC English Language Arts

The English Department recorded a 4% percentage increase in students meeting proficiency.

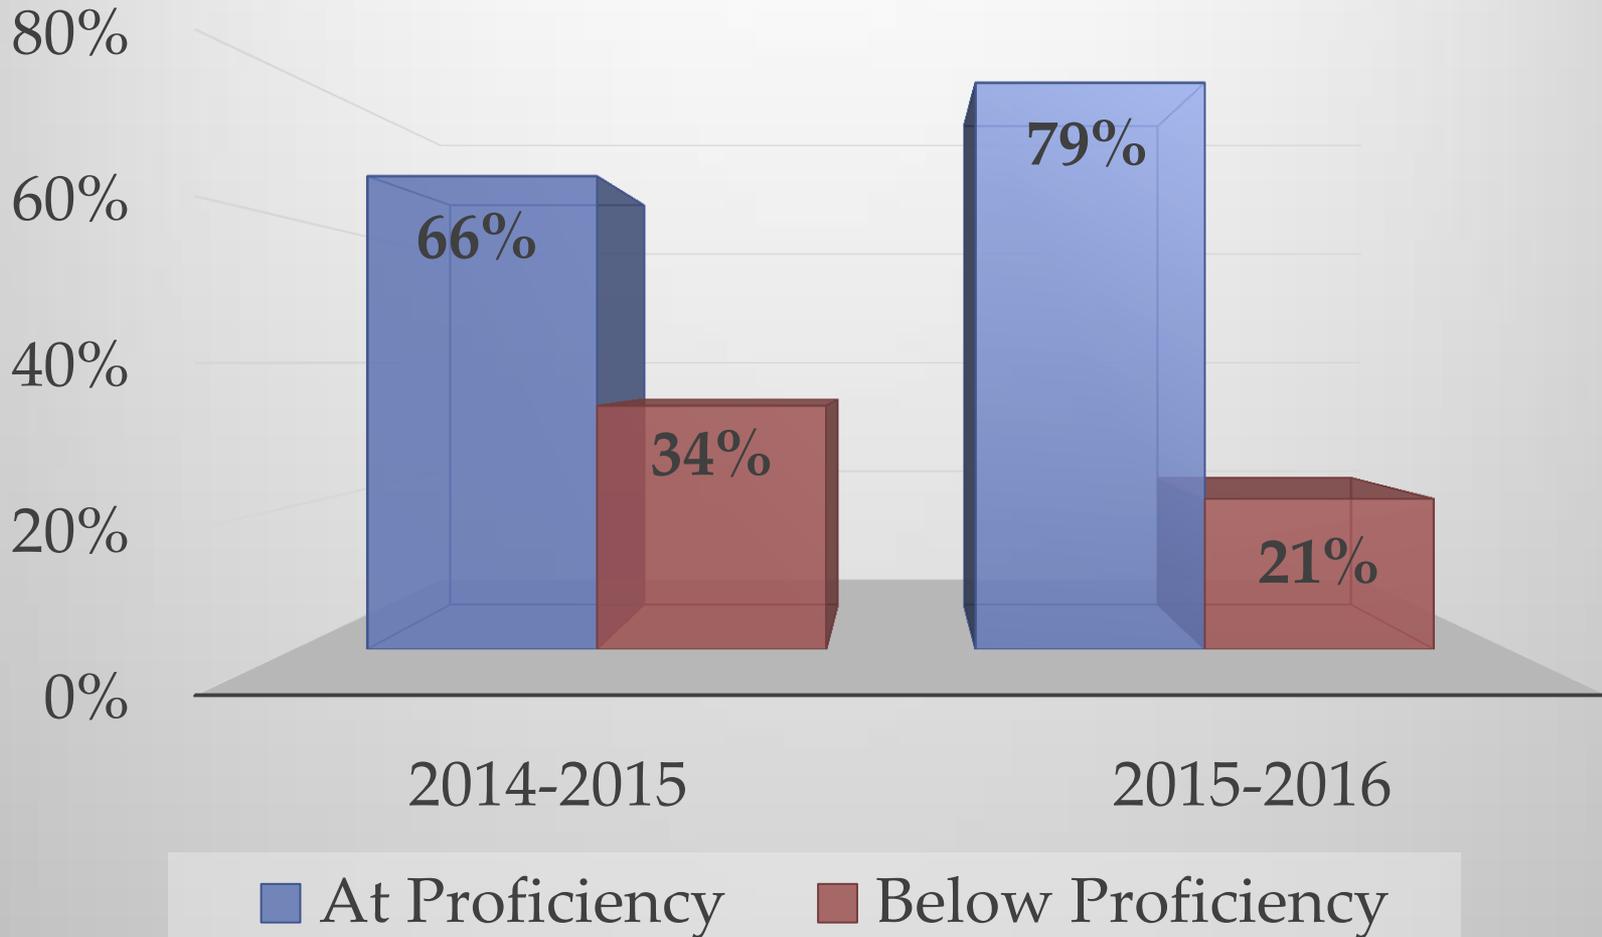

CC ELA 2 Succeed

Living Environment

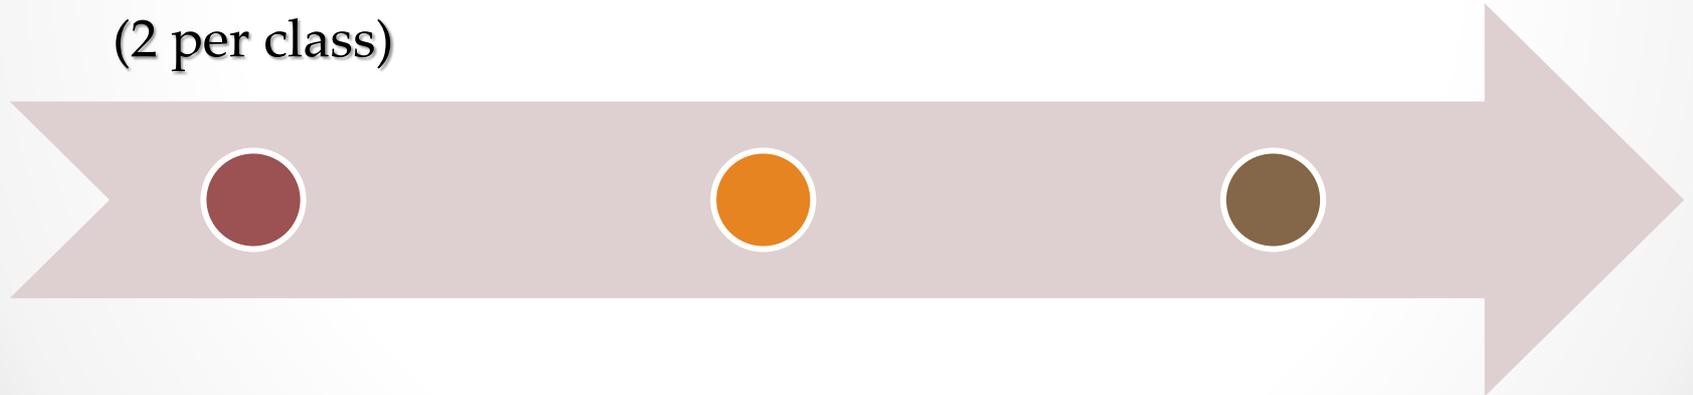

The Science Department recorded a 20% percentage increase in students meeting proficiency.

Living Environment 2 Succeed

We tested 249
students. If we
were able to help
an additional 24
(2 per class)

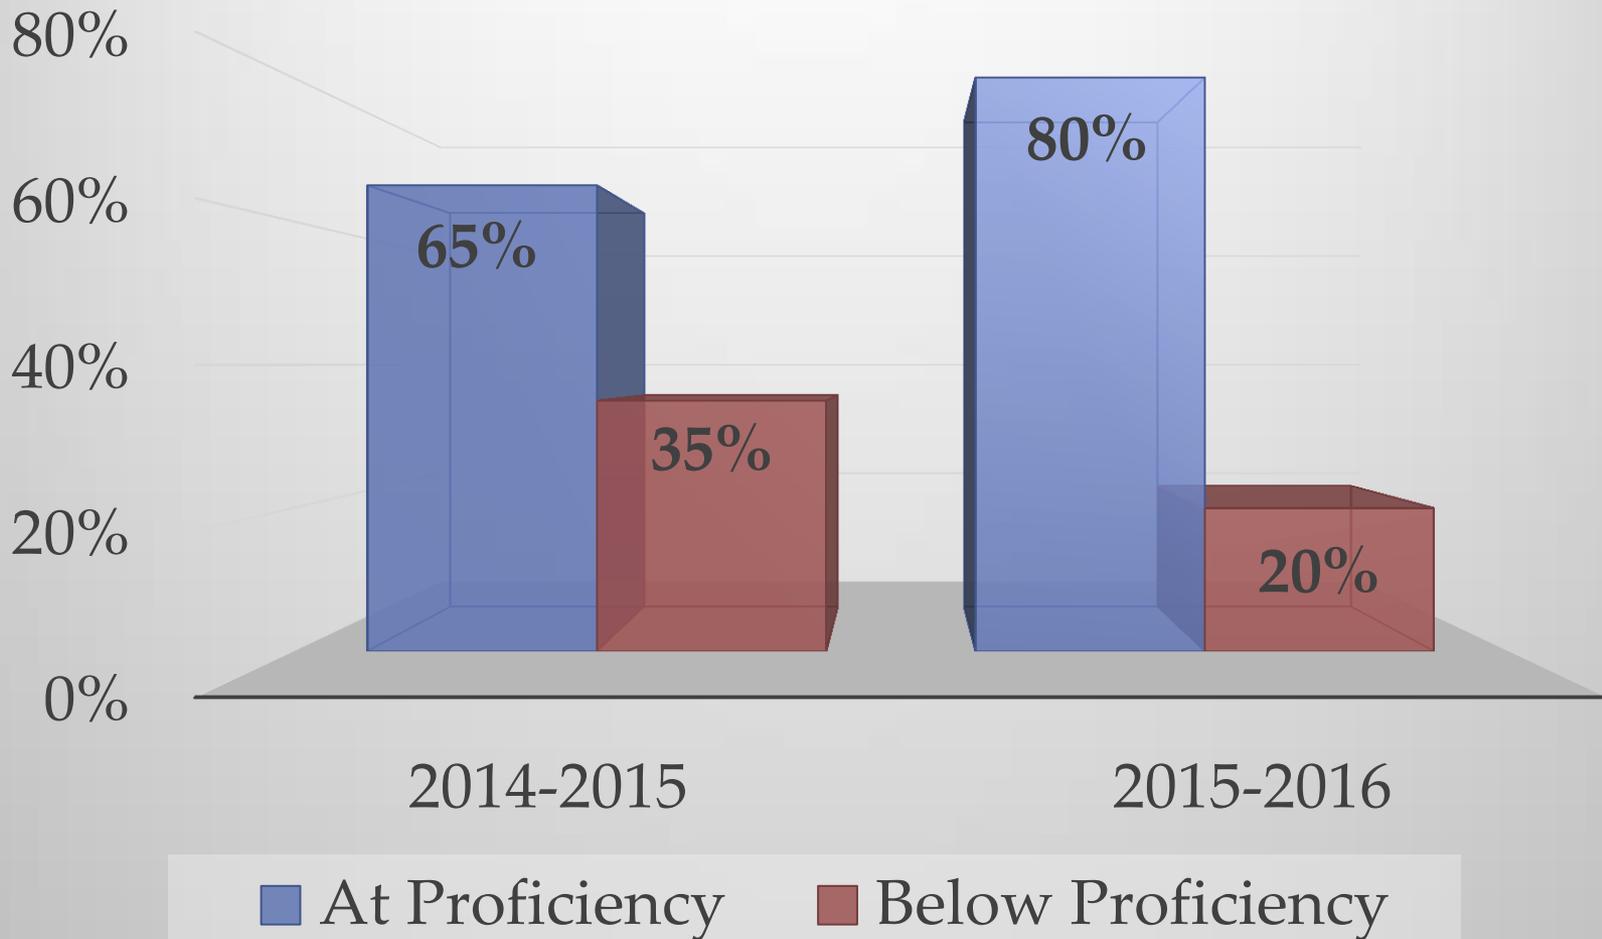

89%

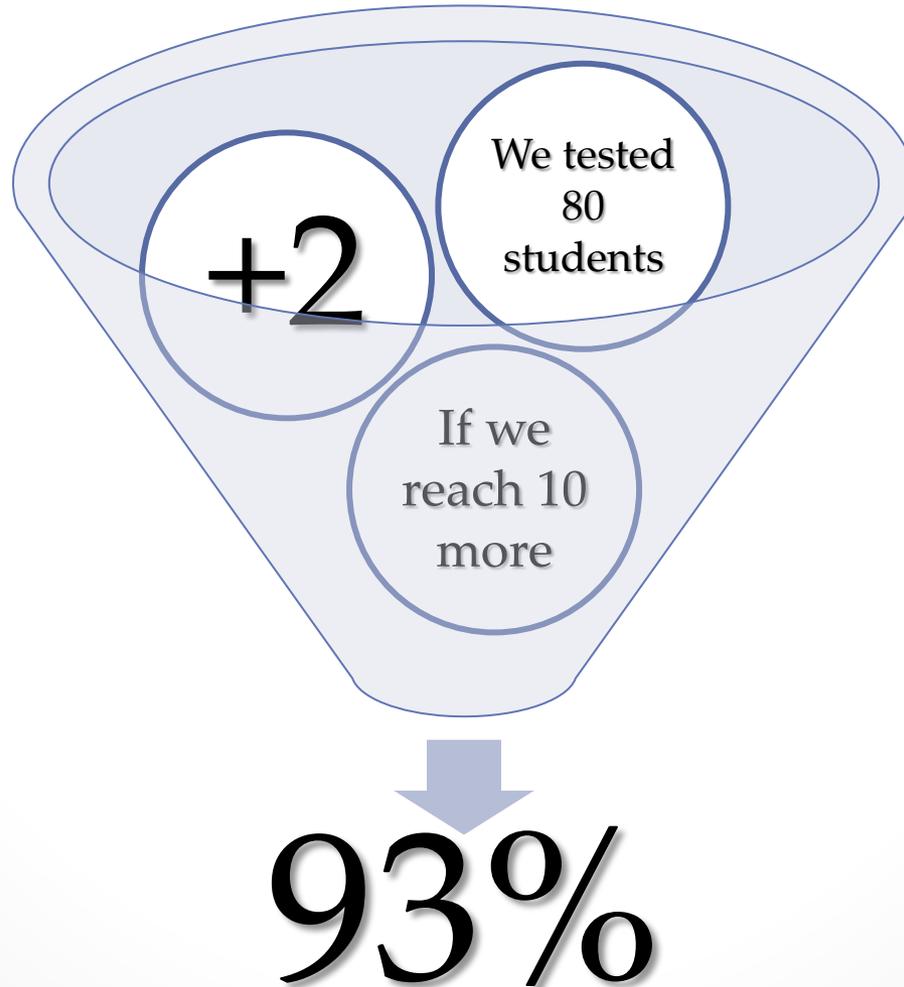

+2

Physical Settings Earth Science

The Science Department recorded a 23% percentage increase in students meeting proficiency.

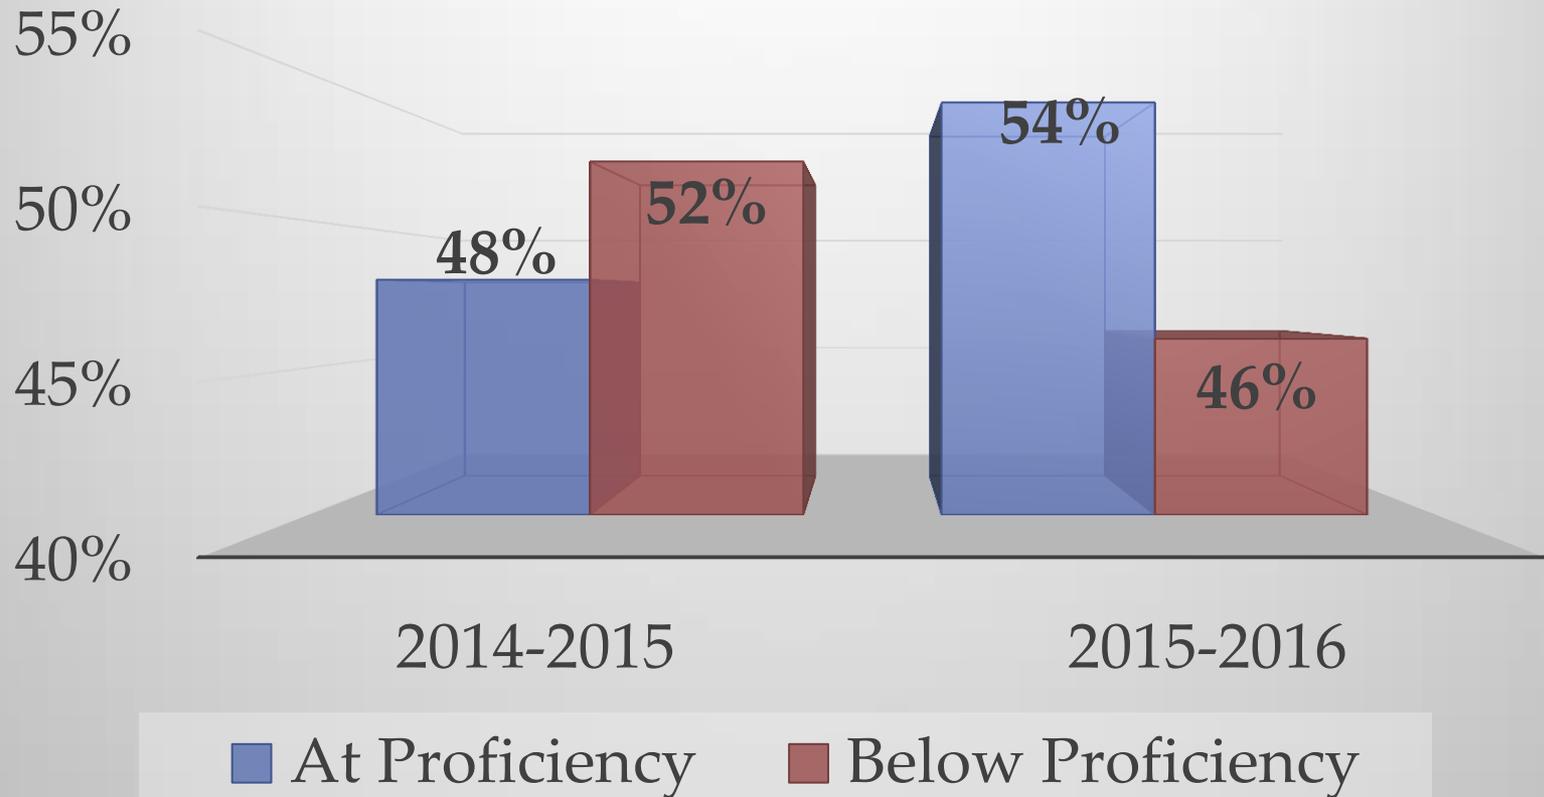

Earth Science 2 Succeed

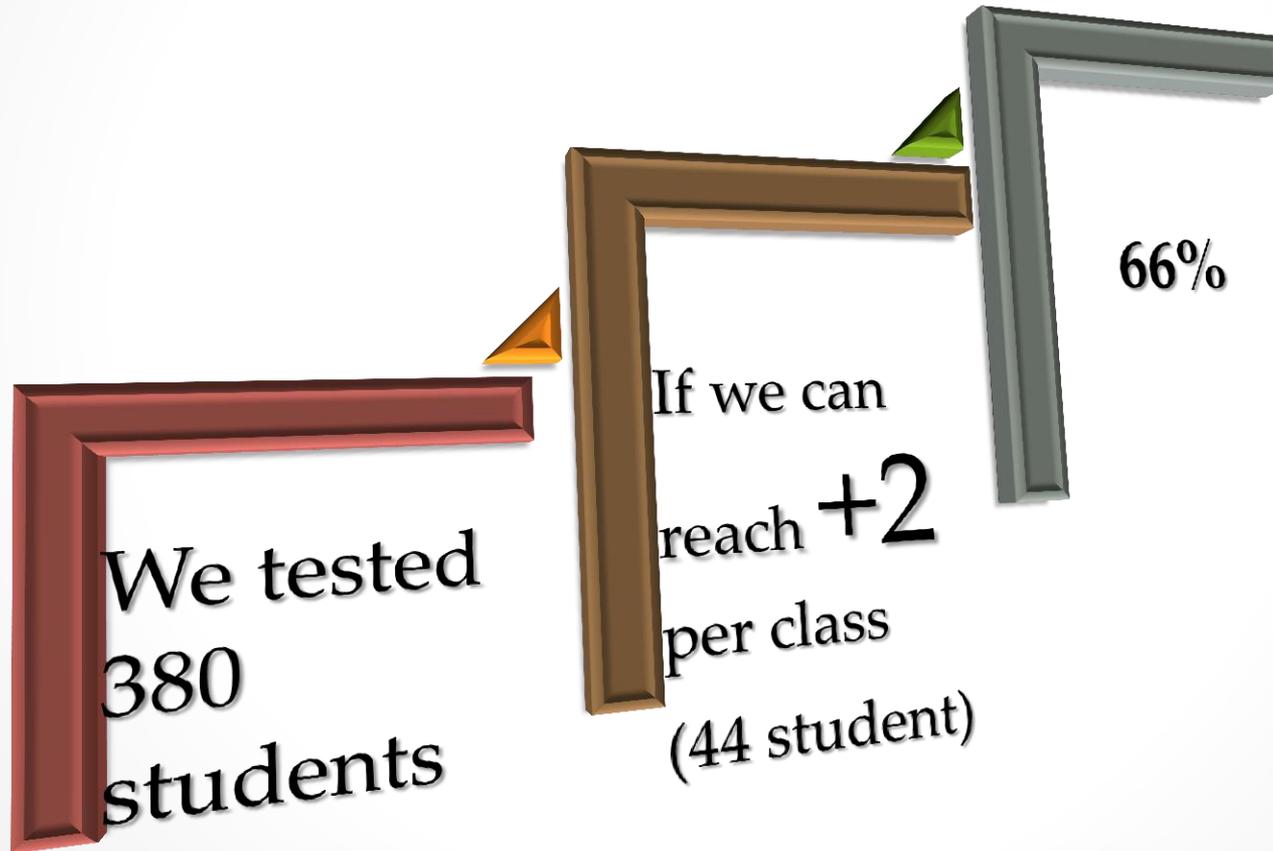

Global History & Geography

The Social Studies Department recorded a 13% percentage increase in students meeting proficiency.

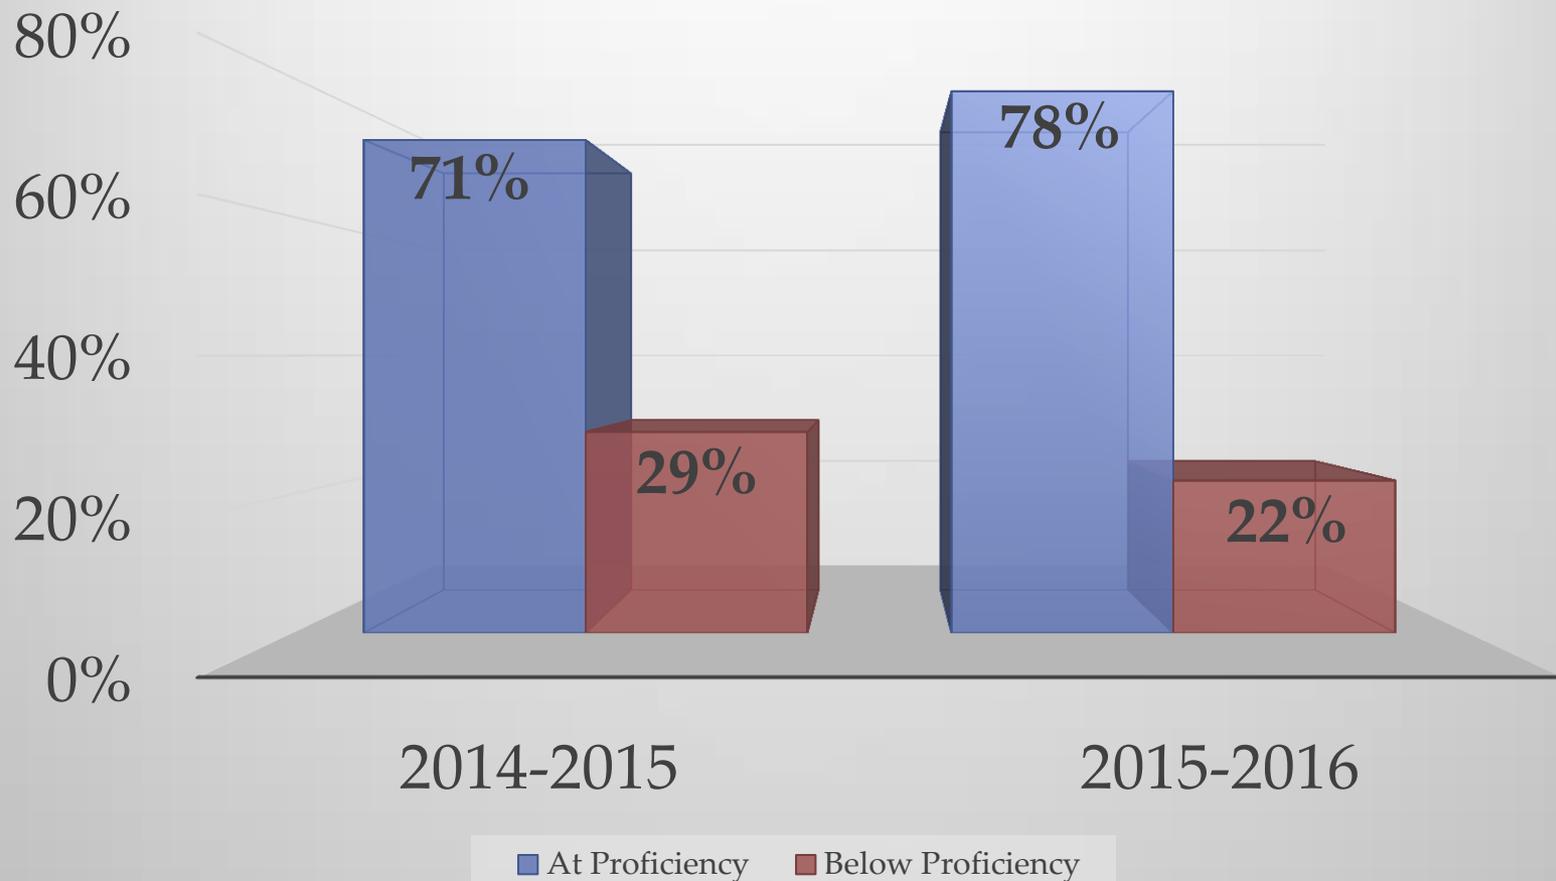

Global History 2

U.S. History & Government

The Social Studies Department recorded a 10% percentage increase in students meeting proficiency.

U.S History 2 Government

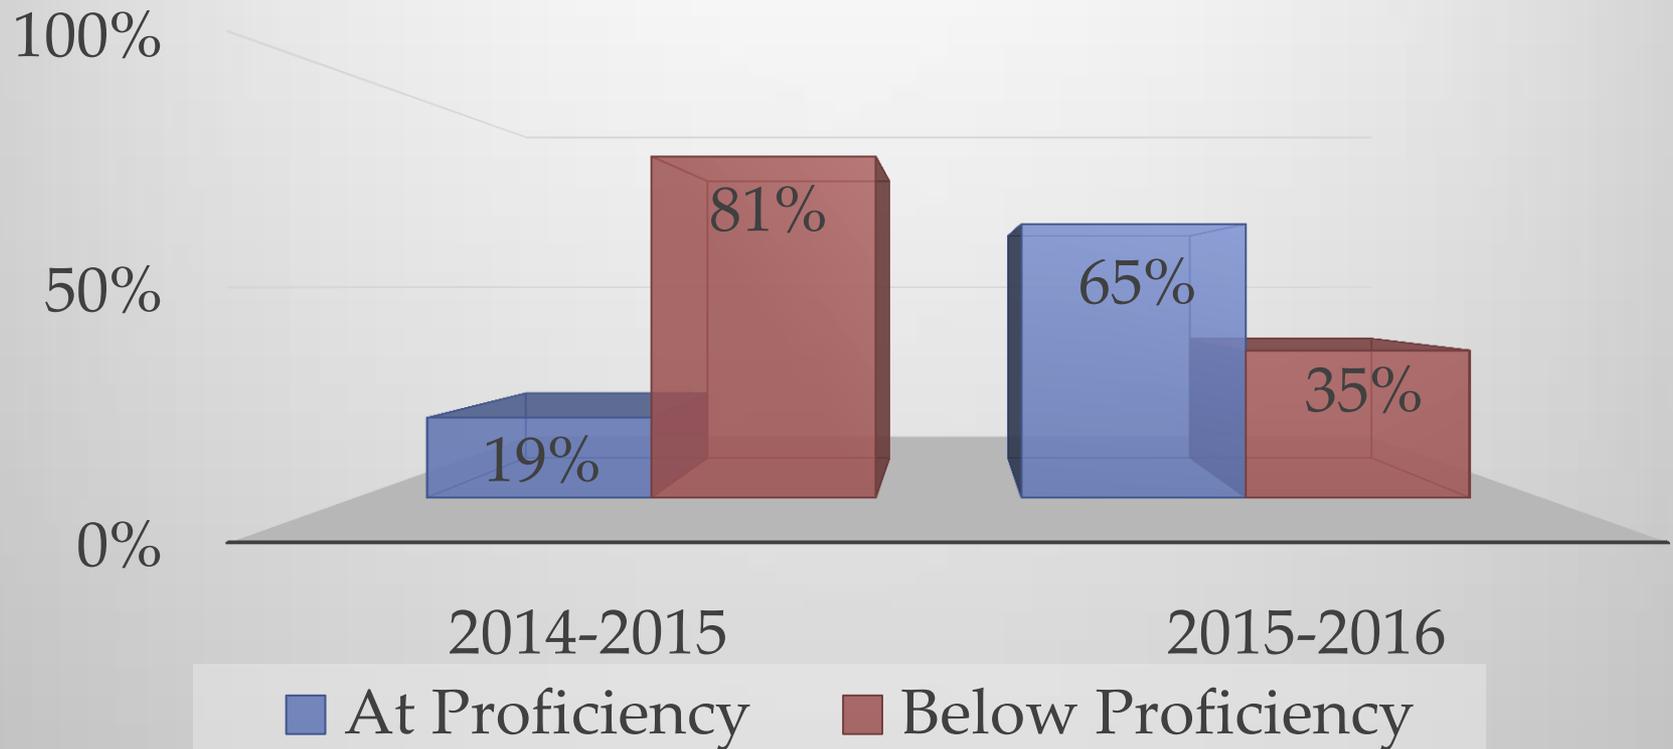

*We tested
246 students*

*If we reach
+2 per class
(14 students)*

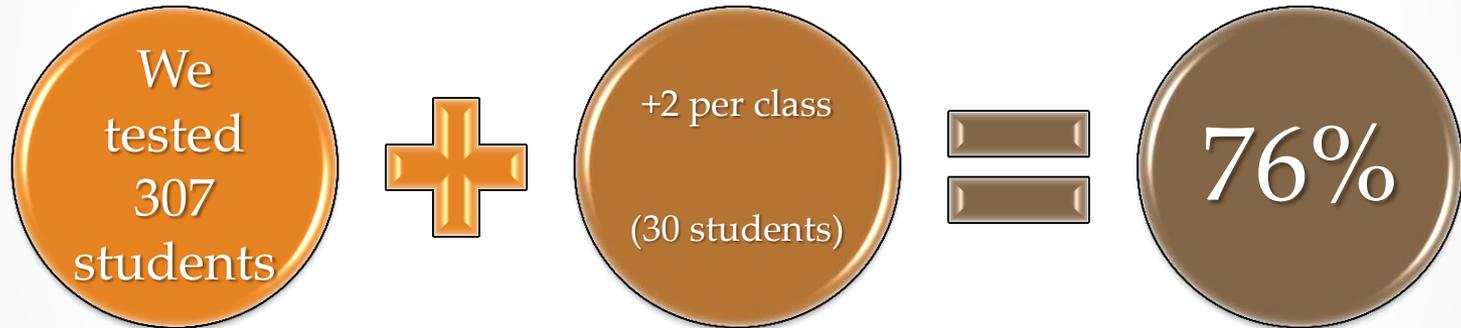

84%

Common Core Algebra

The Mathematics Department recorded a 242% percentage increase in the number of students meeting proficiency.

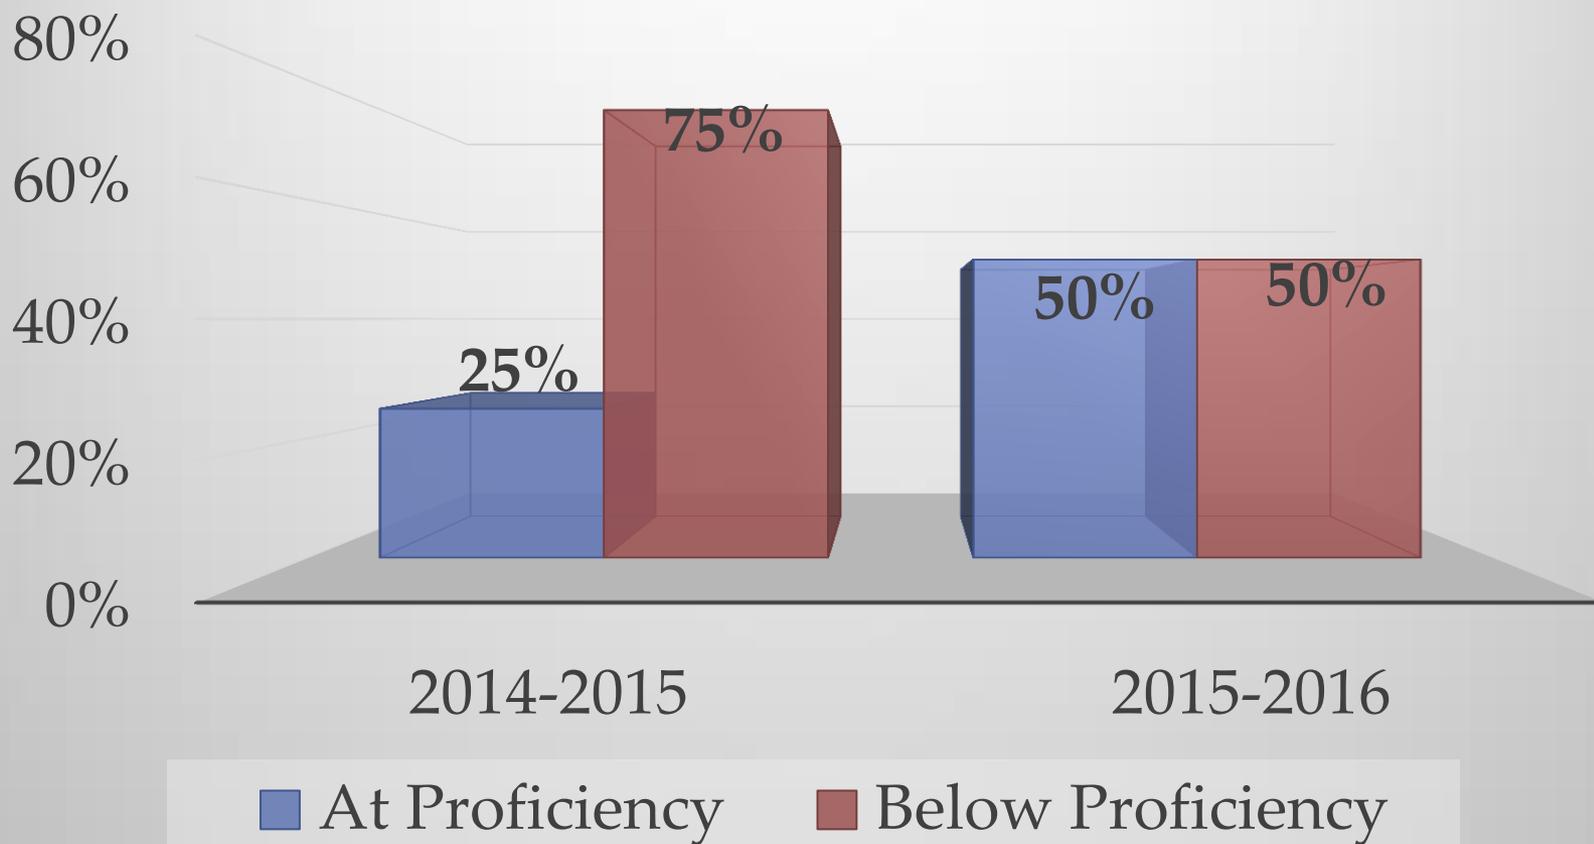

C+C=2 Algebra

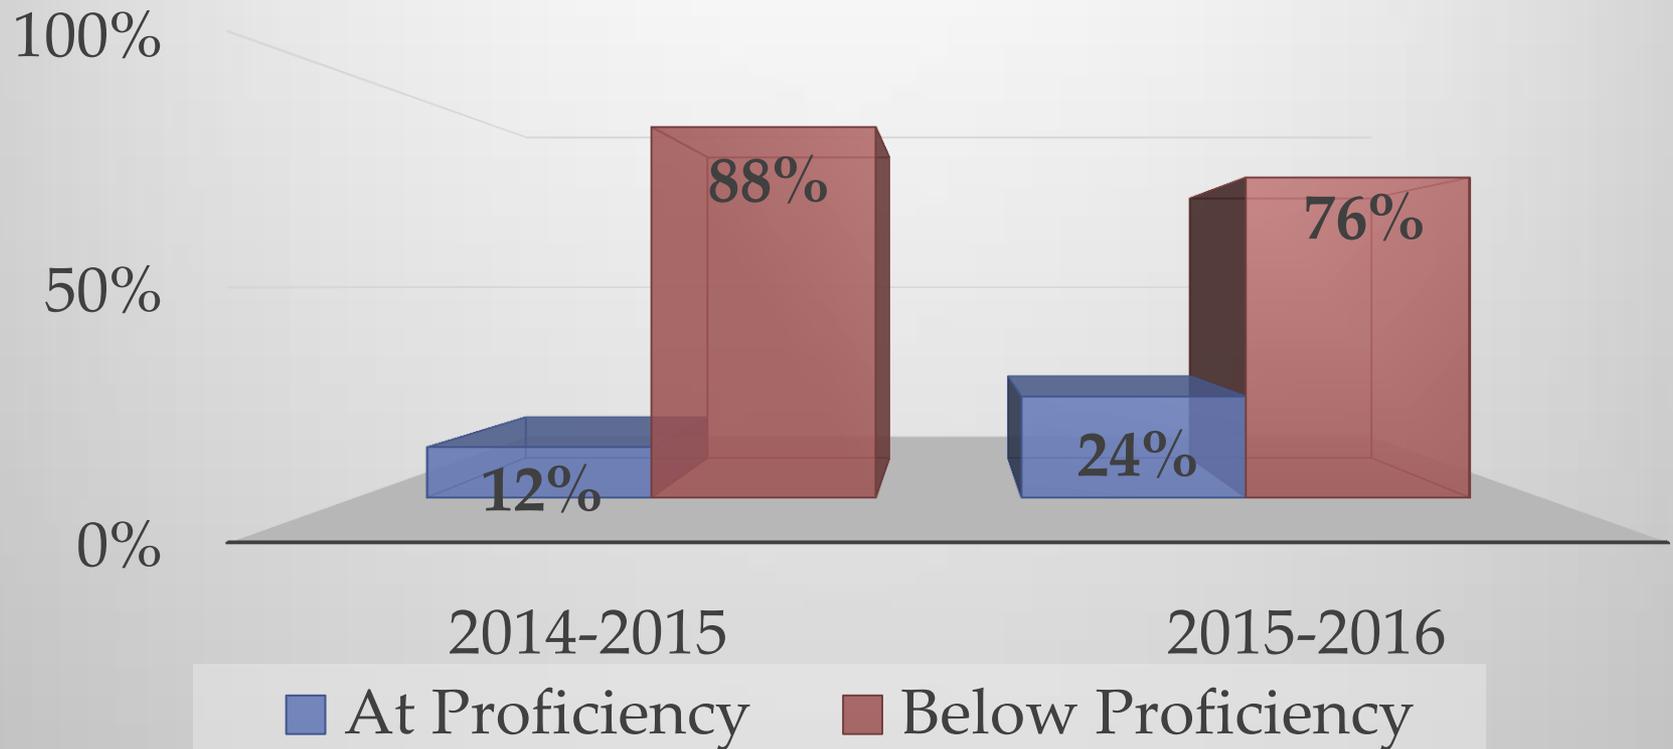

Physical Setting Chemistry

The Science Department recorded a 100% percentage increase in students meeting proficiency.

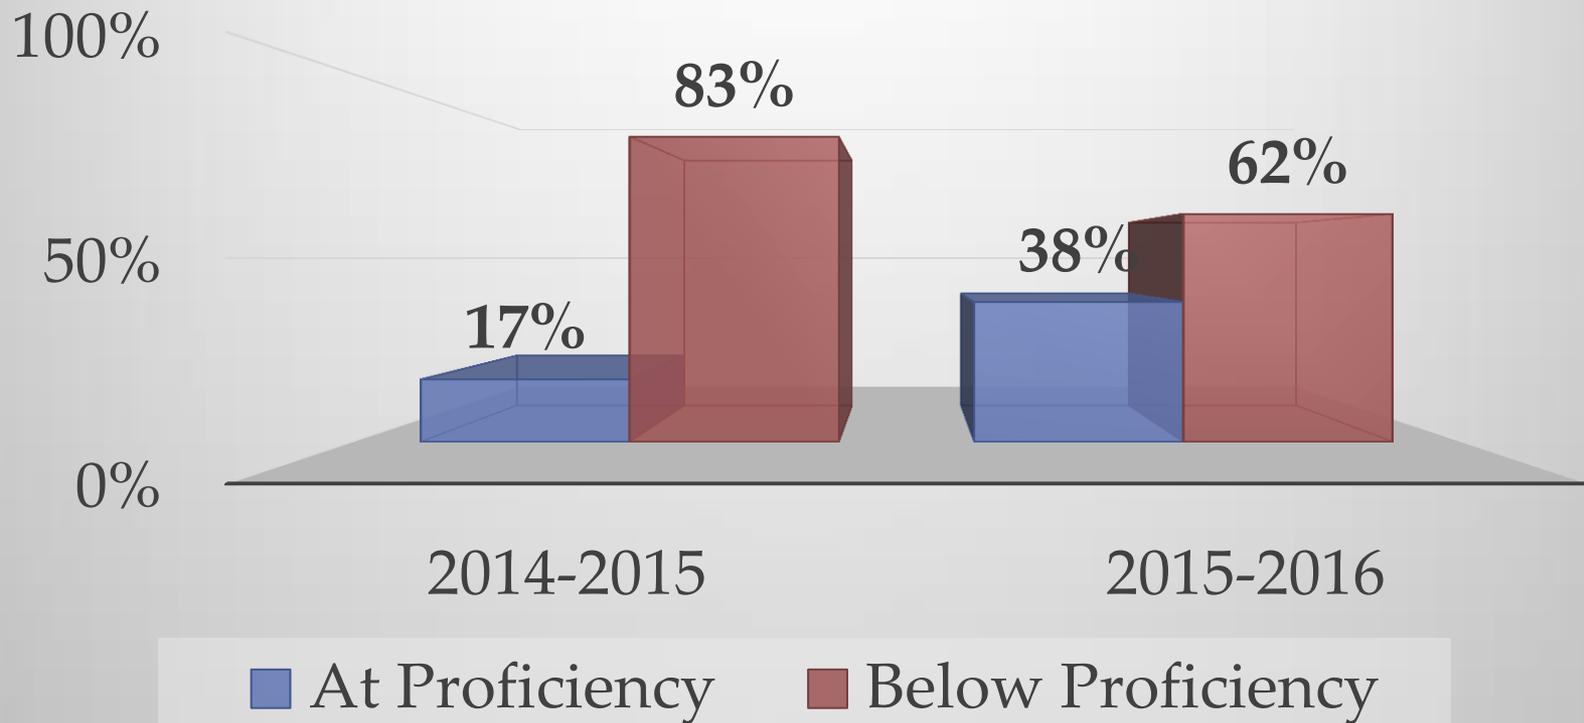

CC Geometry

The Mathematics Department recorded a 100% percentage increase in the number of students meeting proficiency.

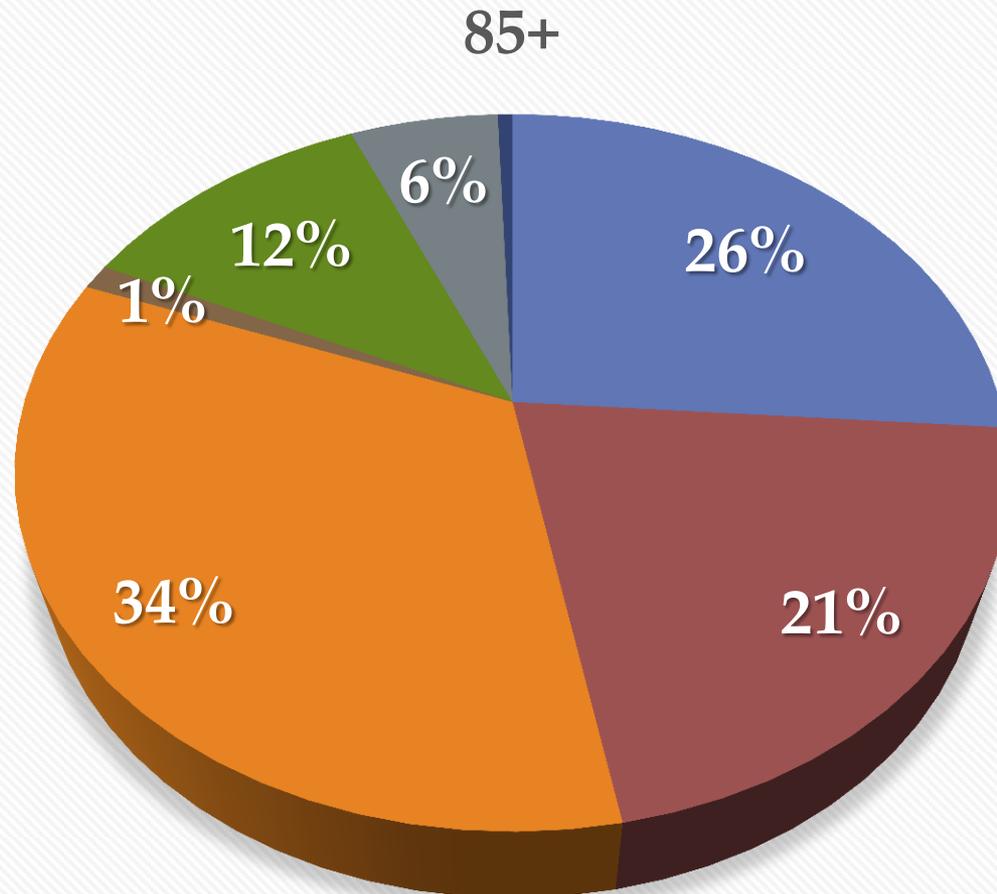

Algebra II Trigonometry (2005 Standard)

The Mathematics Department recorded a substantial increase in student achievement.

Mastery Level

■ ELA ■ Global History ■ U.S. History ■ Algebra ■ Living Environment ■ Earth Science ■ Chemistry

Professional Learning Communities

Instructional Leadership and Clear and Focused Mission

- Implementation of team models and common planning
- Professional Development during Staff Meetings
- Professional Development Team
- On-going teacher-led professional development
- Student-centered approach
- Peer-to-Peer observations
- Curriculum refinement to improve rigor and relevance through Career and Technical Education

Instructional Leadership

- **Keeping Learning on Track**
- **Thinking Maps**
- **EDWorks** has designed a system of embedded professional development and leadership experiences focused on delivering school wide improvements in student engagement, teaching practice and instructional support in persistently low-performing sites. The system is proven to accelerate learning outcomes in some of the country's most challenging schools.
- **EDWorks** provides teachers and administrators instructional strategies for high payoff wins for greater student success, including brain based research, literacy across the curriculum, Backwards Unit Design, and Common Core standards alignment;
- **EdWorks** guides schools as they infuse Smart Scholars Early College High School principles to ensure that a rigorous course of study is designed for students in Smart Scholars classes.

Instructional Leadership

- **Smart Scholars** in 2009 in collaboration with Westchester Community College supported a cohort of 40 students through an early college high school that provides students with the opportunity to accelerate the completion of their high school studies while earning a minimum of twenty-four and up to sixty transferable college credits at the same time.
- **Smart Scholars** targets students who are traditionally underrepresented in post-secondary education. Students receive additional academic support from the school/college partnerships to ensure they are at grade level and ready to participate in rigorous high school and collegiate courses. This “dual or concurrent enrollment” program serves to increase high school graduation and college completion rates, while reducing student tuition costs as a result of the compressed time needed to complete a college degree.

What are Thinking Maps?

- ❖ **Thinking Maps** are eight visual-verbal learning tools that provide students at Roosevelt High School ECS with the skills needed to be independent thinkers, problem solvers and decision makers.
Each Thinking Map provides a common visual language for students and teachers.

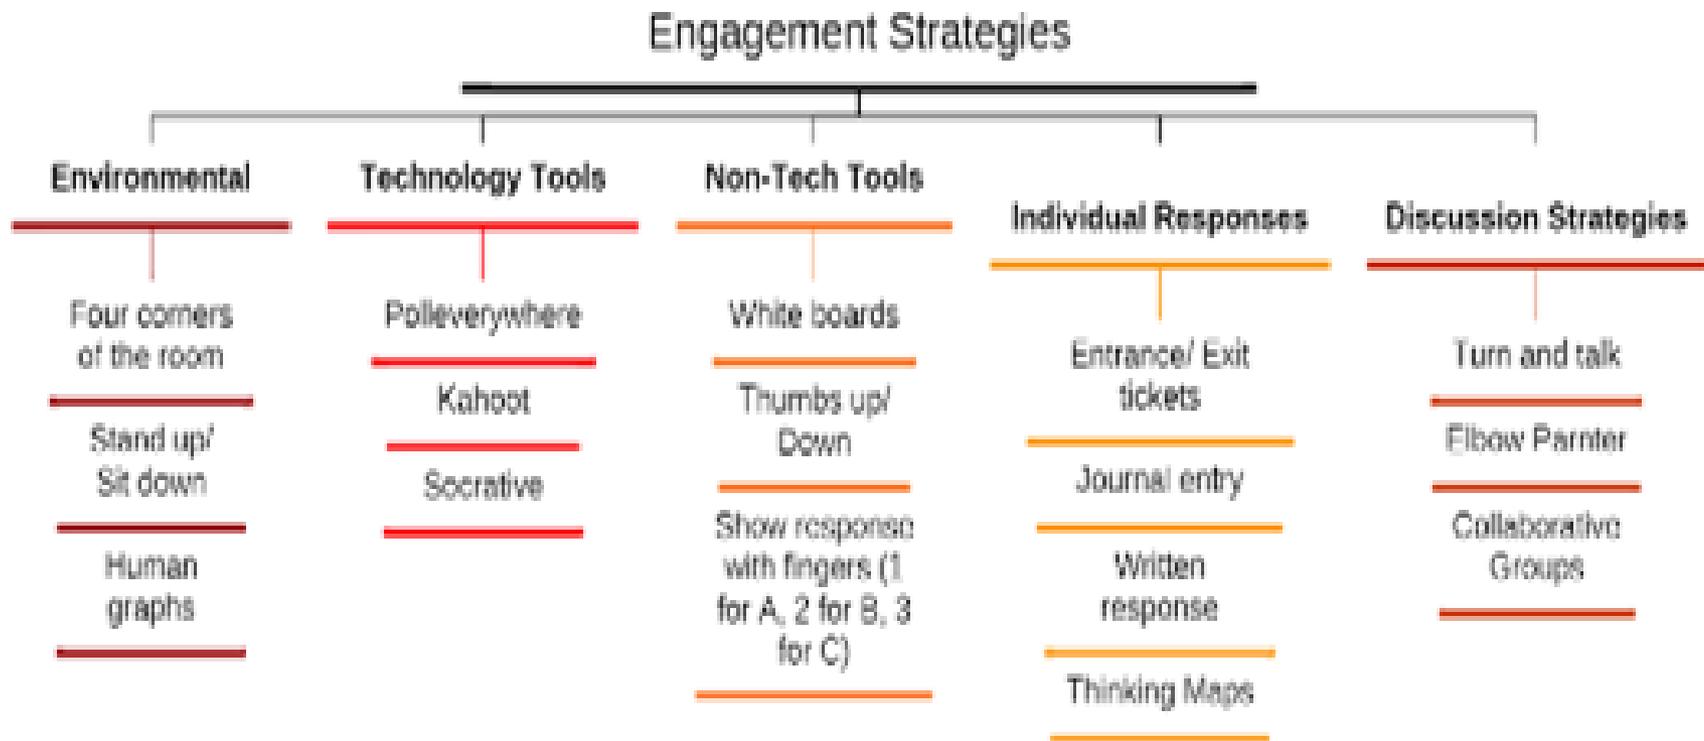

Moving Forward for Students

Magnet programs to enrich instruction meeting the needs of students

- **Career and Technical Education** - Automotive, TV Production and Graphic Design
- **Yonkers International Academy** - Grades 9 & 10 newcomer program with English as a New Language component
- **Academy of Achievers** – serving Autistic students

Additional Professional Uses

Tree Map: Different Strategies for Student Engagement

<http://www.marzano-center.com/blog/article/5-ways-to-incorporate-student-monitoring-into-lessons-with-examples/>

Final thoughts...

- ❖ **Thinking Maps** are one of the many tools used at Roosevelt High School Early College Studies to promote metacognition amongst our students and to teach students to think and reason independently.
- ❖ **Thinking Maps** also serve as tools for formative and summative assessment by gauging student progress while lending to differentiation and supporting student critical thinking skills.

Common Planning

- Engage in discussion about students on their caseload and hold parent meetings
- Plan interdisciplinary units of study and establish cross-disciplinary teaching practices
- High quality/teacher-led professional development
- Participate to Data Collection and data review process on a regular basis

Academy (nice graph)

Parental Involvement

Positive-Home School Relationships

- Community School Model – bi-weekly events to bring families together: Family Recreation Fridays, Community Unity Carnival for Autism, Community Closet
- Strengthened home-school communication through Software and APPs
- Parent Center - open all day with computer and Wi-Fi access
- Workshops that meet the needs of our school community
- Nepperhan Community Center Partnership
-

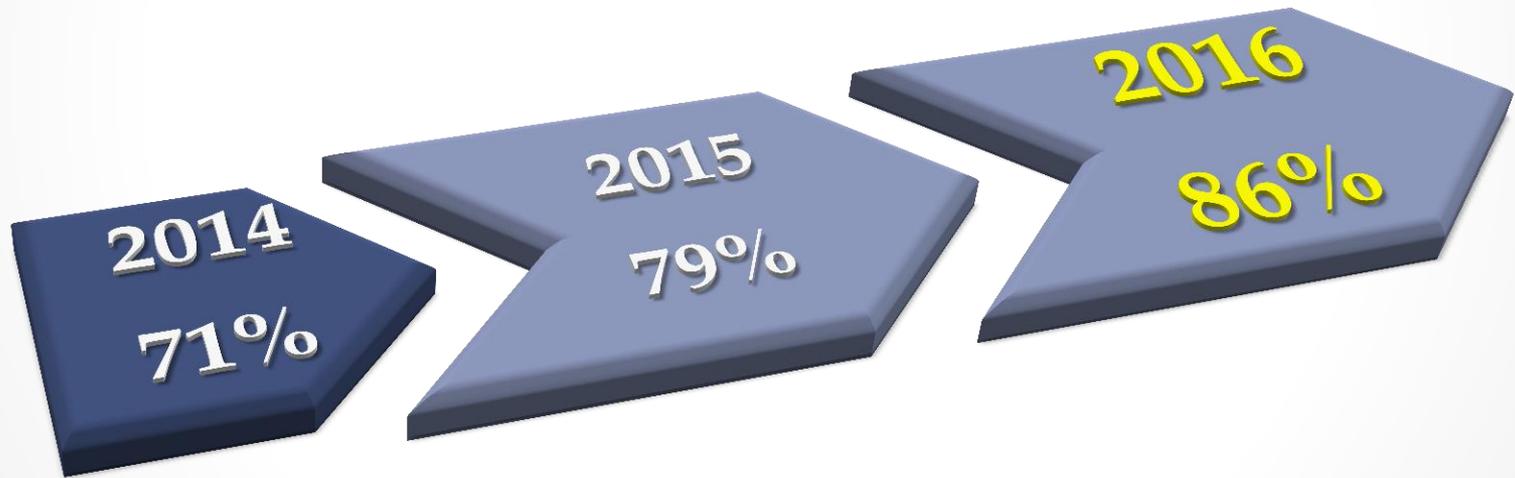

Student Support Services

Opportunity to Learn and Student Time on Task

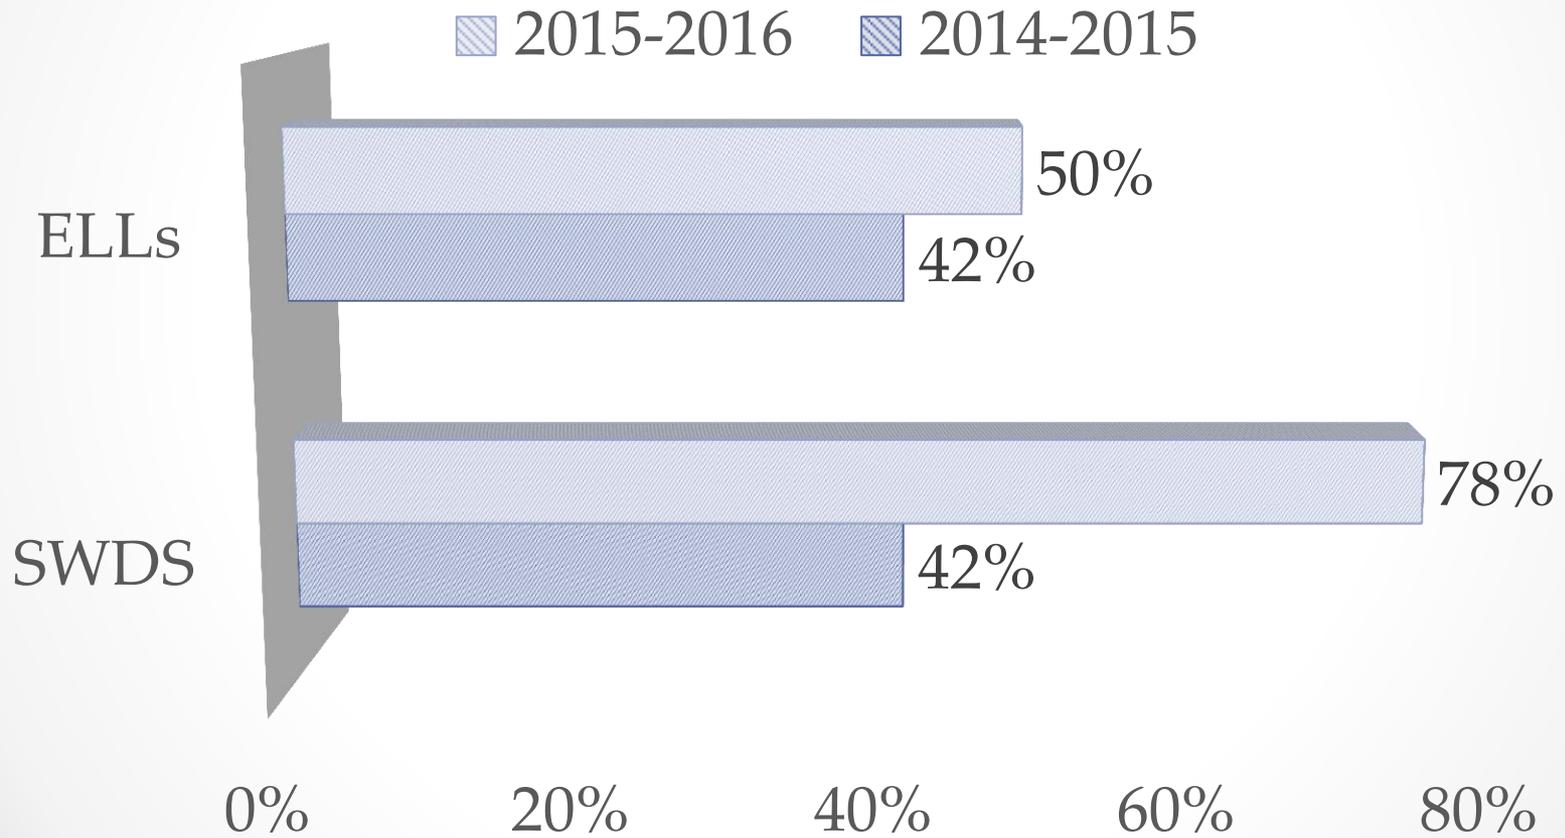

- Student-centered learning environment that contributed to positive school climate
- Student recognition
- Student involvement in recreational activities and school events
- YPIE College Center
- Reflection program for Restorative Practice approach
- Prevention rather than intervention
