# Grade 8

# **English Language Arts**

### Performance of English Language Learners (ELL)

English language learners (ELL), formerly referred to as limited English proficient (LEP), are students for whom English is a second language. Schools assist these students in learning English so they can participate effectively in the academic program. ELL students without sufficient proficiency in English are not required to take the grade 8 ELA test. Their progress in learning English is measured, using standardized tests, and reported.

Grade 8	English Proficiency Below Effective Participation Level	Making Appropriate Progress
June 1999	6	6

<sup>\*</sup> Similar Schools are schools grouped by district and student demographic characteristics. More information is on the School Profile page of this report. Further explanation is available at <a href="http://www.emsc.nysed.gov/repcrd2000/similar.html">http://www.emsc.nysed.gov/repcrd2000/similar.html</a>.

comprehension.

<sup>1</sup> These students with disabilities were exempt from this test because of their disability. This exemption is stated in their Individualized Educational Program (IEP).

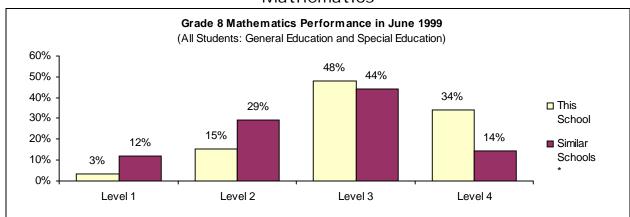

<sup>2</sup> These students were not required to take the grade 8 ELA test because they were English Language Learners (ELL) who performed below the 30<sup>th</sup> percentile on another appropriate English reading assessment. Other grade 8 ELL students must take this test.

<sup>3</sup> These students were enrolled at the time of testing, but were not present to complete some part of the ELA assessment.

<sup>#</sup> To protect student confidentiality, the pound character (#) appears when fewer than five students in a group were tested. If fewer than five were tested in one subgroup, then counts appear only in the "All Students" category.

# Grade 8

# Grade 8 Mathematics Levels - Knowledge, Reasoning, and Problem Solving Standards

Graue o	Grade 6 Mathematics Levels - Knowledge, Reasoning, and Problem Solving Standards					
Level 4 (760-882)  These students exceed the standards and are moving toward high performance on examination. They show superior knowledge and skill for each key idea for intermediate students commencement-level skills. They consistently demonstrate proficiency and accuracy in processes They clearly communicate mathematical insights, use a wide range of mathematical problem-soliand identify the most efficient means to a solution.						
Level 3 (716-759)  These students meet the standards and, with continued steady growth, should pass the examination. They show knowledge and skill for each key idea for intermediate students, a commencement-level skills. They use prime numbers, factors, rational numbers; apply formulas; visual dimensional shapes; understand and use the Pythagorean theorem and trigonometric functions.						
<b>Level 2</b> (681-715)	These students need extra help to meet the standards and pass the Regents examination. They show some knowledge and skill for each key idea for intermediate students. They use basic reasoning, understand percentages, visualize two-dimensional shapes, understand properties of polygons and use patterns.					
<b>Level 1</b> (517-680)	These students have serious academic deficiencies. They show no evidence of proficiency in one or more of the key ideas for intermediate students and incomplete proficiency in all seven key ideas. They can use variables and make and use simple measurements. They may use simple operations and understand simple graphical displays. They can identify some patterns and functions.					

<sup>\*</sup> Similar Schools are schools grouped by district and student demographic characteristics. More information is on the **School** Profile page of this report. Further explanation is available at <a href="http://www.emsc.nysed.gov/repcrd2000/similar.html">http://www.emsc.nysed.gov/repcrd2000/similar.html</a>

2

<sup>1</sup> These students with disabilities are exempt from this test because of their disability. This exemption is stated in their Individualized Educational Program (IEP).

<sup>2</sup> These students are not required to take this test because they are English language learners (ELL) who perform below the 30<sup>th</sup> percentile on an appropriate English reading assessment and there is no test form available in their native language. Other ELL students must take this test, but may take an alternative language form if such is available.

<sup>3</sup> These students were enrolled at the time of testing, but were not present to complete some part of the mathematics

<sup>#</sup> To protect student confidentiality, the pound character (#) appears when fewer than five students in a group were tested. If fewer than five were tested in one subgroup, then counts appear only in the "All Students" category.

Eligible For Free Lunch	31	4.1%	41	5.5%	52	6.7%

<sup>&</sup>lt;sup>1</sup> Some district-employed staff serve in more than one school. These shared people are not reported here.

# School Accountability Measures

The Regents expect schools to meet or exceed 90 percent on each benchmark shown here. Regulations require school districts to develop and implement local assistance plans (LAP) to bring every public school up to these levels. These plans must include activities to improve the performance of all students, including students with disabilities. LAP for district public schools are available for public review at the district office.

All students continuously enrolled from October until the date of State testing at this school are included in these measures. Students with disabilities are included<sup>1</sup>. Also, schools with fewer than 20 students in a grade may combine results for three consecutive years to reduce the impact of small-population variability. Local school officials have this information.

### English Language Arts Performance of Students in Grades 4 and 8 for 1998-99

		ously Enrolled Students To Take State ELA Tests	English Language I Reported Using Alternativ		Danahmark	
	·   -		English Language Proficiency Below Effective Participation Level	Making Satisfactory Progress	Benchmark Percentage	
			(c)	(d)	(b+d)/(a+c)	
Grade 4					NA	
Grade 8			6	6	99%	

### Mathematics Performance of Students in Grades 4 and 8 for 1998-99

	Continuous	Benchmark	
	Tested At Or Above Level 2 In Math		Percentage
	(a)	(b)	(b/a)
Grade 4			NA
Grade 8	249 241		97%

### Demonstrated Competency of Students in Grade 11 for 1998-99

Competency Area	Grade 11 Enrollment June 1999	Regents Level (higher)	RCT Level (lower)	Benchmark Percentage <sup>2</sup>
Alea	(a)	(b)	(c)	(b+c)/a
Reading				NA
Writing				NA
Mathematics				NA

280407-03-0013 March 06, 2000 4

All students with disabilities who are enrolled in this school are included in these measures along with general education students, regardless of classroom environment and level of special education services. These calculations match those used to identify the schools farthest from State standards [potential schools under registration review (SURR)] and Title I schools that are making adequate yearly progress.

<sup>&</sup>lt;sup>2</sup> The State data system does not separate these Grade 11 results based on duration of enrollment. Some schools with high mobility grade 11 populations may not have their LAP status correctly identified in this report. These numbers are, however, indicative of performance in all schools.

<sup>#</sup> To protect student confidentiality, the pound character (#) appears when there are fewer than five students in a grade tested or enrolled. If fewer than five English language learners were reported (English Language Arts Performance table), the counts are replaced by the pound character (#).
