**Subject:** PD-8 – Report of Students with Disabilities Subject to Disciplinary Removal During the 2009-2010  
School Year.

**Important: Due Date is Between July 1, 2010 and August 6, 2010.**

Attached is a PD-8 form for your use in reporting in-school suspensions, out-of-school suspensions and removals to interim alternative education settings (IAES) of preschool and school-age students with disabilities who are the responsibility of your school district/agency/program during the period **July 1, 2009 to June 30, 2010**. Also requested are the numbers of school-age students with disabilities and the number of nondisabled students who received educational services during expulsion and the number who did not. The instructions and tables contained in this form have been developed in a manner fully consistent with the Individuals with Disabilities Education Act (IDEA) and instructions provided by the United States Department of Education (USDOE).

All schools must submit this report electronically through the PD web-based system at <http://pd.nysed.gov> or through the File Transfer Protocol (FTP) process. **Paper copies of this report will not be accepted.** A User ID and password to access the PD web-based system has been mailed to the school district contact person identified in the PD web-based system. If your school has a new contact person, or did not get this information, please contact our office. **Please note, if your school district has the capability of submitting PD-8 data through the FTP process, the User Name and password for that process are different from the User ID and password that has been assigned to the contact person to submit PD data through the web-based system. If your school district needs a User Name and password to submit data through the FTP process, please contact this office.**

**The due date for this report is between July 1, 2010 and August 6, 2010.** Your timely and accurate completion of this report is required in order to ensure full compliance with federal reporting requirements.

- Compared to the PD-8 form issued for 2008-09, the PD-8 form for 2009-2010 is identical.

As required under IDEA, section 612(a)(22), the New York State Education Department will examine these data, including data disaggregated by race and ethnicity, to determine if significant discrepancies are occurring in the rates of long-term suspensions and expulsions of students with disabilities among the local education agencies (LEA) in the State. Based on data analysis, the State will review or require the review and, if appropriate, the revision of policies, procedures, and practices related to development and implementation of IEPs, the use of behavior interventions, and procedural safeguards to ensure that these policies, procedures and practices comply with IDEA. Also, in accordance with section 613(f) of IDEA, if suspension data are significantly disproportionate, based on race/ethnicity, the local educational agencies will be required to reserve 15 percent of their IDEA funds to provide comprehensive, coordinated early intervening services to serve children in the LEA, particularly children in those groups where there is significant discrepancy related to disproportionality.

During 2009-2010, Strategic Evaluation Data Collection, Analysis and Reporting (SEDCAR) personnel may be available to conduct a limited number of regional training programs regarding special education data collection. If you feel that such training would be useful to the data managers in your area, please contact your local Special Education Training and Resource Center (SETRC) or your Regional Information Center (RIC) representative.

The data collected through the PD forms and through the Student Information Repository System (SIRS) are used in one or more of the following reports and activities:

- State Performance Plan and Annual Performance Report for Special Education
- Public reporting of LEA results against State targets established in the State Performance Report. See the Special Education School District Data Profiles at <http://eservices.nysed.gov/sepubrep/>.
- Designations of school districts as “meets requirements”, “needs assistance”, “needs intervention” or “needs substantial intervention.”
- Calculation of minimum amount of per-pupil IDEA funds to be sub-allocated or spent on services.
- Chapter 655 Report to the Governor and the Legislature on the Status of the State’s Schools
- Special Education Quality Assurance Reviews
- School District Report Cards
- Calculations to identify instances of possible race/ethnicity disproportionality
- Re-direct IDEA funds for Early Intervening Services
- Other reports required by State or federal statutes
- Evaluation of programs and policies

If you have any questions or are in need of assistance in completing this report, please contact SEDCAR by using the contact information provided in the letterhead. Thank you.

------------------------------	---

### **Additional Instructions for Completing the PD-8 Report**

1. Report information for all students with disabilities (ages 3-21) who are the primary responsibility of your Committee of Preschool Special Education (CPSE) or Committee on Special Education (CSE) (or were enrolled in your Charter School), and who received in-school suspensions; or were suspended/expelled on an out-of-school basis; or were removed to an interim alternative education setting (IAES). Special Act School Districts and other approved private schools that provide educational services for students with disabilities pursuant to Article 81 should complete the PD-8 report only for students with disabilities provided special education services pursuant to Article 81. Charter Schools should complete the PD-8 report for all enrolled students with disabilities.
2. Data should be reported for the period July 1, 2009 to June 30, 2010. Students whose suspension/expulsion begins within the reporting period but extends beyond the reporting period must be included in this report. Also a student who commits an offense during this reporting period and is assigned a suspension/expulsion but receives the suspension/expulsion during the following reporting period must be included in this report.
3. Records of the amount of time students with disabilities are suspended should be maintained for all half day suspensions, but reported only if a student is suspended cumulatively for one or more days during the school year.
4. Please refer to Part 201 of the Commissioner's Regulations and *Procedural Safeguards for Students with Disabilities Subject to Discipline* at <http://www.vesid.nysed.gov/specialed/publications/lawsandregs/coverpage.htm>
5. If you have any questions or are in need of assistance in completing this report, please contact SEDCAR by telephoning (518) 486-4678, or e-mailing your questions to [vesidcar@mail.nysed.gov](mailto:vesidcar@mail.nysed.gov)

### **Definitions of terms found in Tables 1-3**

***In-School Suspension (ISS)*** (Tables 1 and 2, Column 4) – Instances in which the child is temporarily removed from his/her regular classroom(s) for disciplinary purposes but remains under the direct supervision of school personnel. Direct supervision means school personnel are physically in the same location as students under their supervision. This term does not include behavioral intervention such as “time-out” nor disciplinary detentions that are administered before or after the students’ school day.

***Out-of-School Suspension*** (Tables 1 and 2, Column 2) - Instances in which a child is temporarily removed from his/her regular school for disciplinary purposes to another setting (e.g., home, behavior center). This includes both

removals in which no IEP services are provided because the removal is 10 days or less and removals in which the child continues to receive services according to his/her IEP.

**Expulsion** (Tables 1, 2 and 3) – An action taken by the local educational agency (LEA) removing a student from his/her regular school for disciplinary purposes for the remainder of the school year or longer in accordance with LEA policy. Include removals resulting from violations of the Gun Free Schools Act that are modified to less than 365 days.

**Unilateral Removal to an Interim Alternative Educational Setting** (Tables 1 and 2, Section 1) – Instances in which school personnel (not the CPSE or CSE) order the removal of students with disabilities from their current educational placement to an appropriate IAES determined by the CSE or CPSE for the same amount of time that students without disabilities would be subject to discipline, but for not more than 45 school days, if the students carry a weapon to school or to a school function, knowingly possess or use illegal drugs while at school or a school function, or sells or solicits the sale of a controlled substance while at school or a school function or inflicts serious bodily injury upon another person while at school, on school premises, or at a school function. (See definitions in Part 201 of the Commissioner’s Regulations.)

**Removal by an Impartial Hearing Officer** (Tables 1 and 2, Section 3) – Those instances in which an impartial hearing officer orders the removal of students with disabilities from their current educational placement to an appropriate IAES for not more than 45 school days based on the impartial hearing officer’s determination that the public agency has demonstrated by substantial evidence that maintaining the current placement is substantially likely to result in injury to the student and/or to others. *Impartial hearing officer* means an impartial hearing officer as defined in subdivision (x) of section 200.1 of the Commissioner’s Regulations who is appointed to conduct an impartial hearing or expedited due process hearing pursuant to Education Law section 4404(1). Such term shall not include a hearing officer designated by a superintendent of schools to conduct a superintendent’s hearing pursuant to Education Law section 3214.3(c).

**Disciplinary Removal** – Any instance in which a child is removed from his/her educational placement for disciplinary purposes, including in-school suspension, out-of-school suspension, expulsion, removal by school personnel to an IAES for drug or weapon offenses or serious bodily injury, and removal by hearing officer for likely injury to self or others.

**Drug offenses** (Tables 1 and 2, Section 1, Column B) – The use, possession, sale, or solicitation of drugs as identified in 21 U.S.C. §812; these offenses do not include use, possession, sale, or solicitation of alcohol or tobacco.

**Dangerous weapon** (Tables 1 and 2, Section 1, Column C) – A weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except that such a term does not include a pocket knife with a blade of less than 2 ½ inches in length (18 U.S.C. §930).

**Serious Bodily Injury** (Tables 1 and 2, Section 1, Column D)- A bodily injury that involves a substantial risk of death; extreme physical pain; protracted and obvious disfigurement; or protracted loss of impairment of the function of a bodily member, organ or faculty (18 U.S.C. section 1365(3)(h)).

**Limited English Proficient (LEP)** (Table 2) - A child who meets the definition of a limited English proficient IEP child under the Elementary and Secondary Education Act, 20 U.S.C Section 7801(A)(25). LEP status should reflect the child’s status at the time of the removal.

**Race/ethnicity** (Table 2)- Students with disabilities’ race/ethnicity must be reported consistently on all PD forms and other Department data collection instruments such as the Basic Education Data System (BEDS) enrollment report.. Each student must be reported in only one of the race/ethnicity categories described below. We recommend the parents be provided an opportunity to designate their children as belonging to one race/ethnicity category. If they are unable to choose among the categories, school district personnel must use their best judgment and report the student in the category based on the group to which the student appears to belong, identifies with, or is regarded in the community as belonging. Please note, reporting students in the “multi-racial (not of Hispanic origin)” category is optional.

<b>American Indian or Alaska Native</b>	A person having origins in any of the original peoples of North or South America (including Central America) and who maintains tribal affiliation or community attachment.
<b>Asian or Pacific Islander</b>	A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. This area includes, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam. The Pacific Islands include Hawaii, Guam, and Samoa.
<b>Black or African American (Not of Hispanic Origin)</b>	A person having origins in any of the Black racial groups of Africa.
<b>Hispanic or Latino</b>	A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.
<b>White (Not of Hispanic Origin)</b>	A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.
<b>Multi-Racial (not of Hispanic Origin)</b>	This is not a required reporting category, however, if school districts report students in this category in the fall 2009 BEDS enrollment report and in student data submitted through the Student Information Repository System (SIRS) report, they must also report students in the same category in this report. The definition of this category is, a person having origins in two or more of the categories of people classified as American Indian or Alaska Native, Black or African American (not of Hispanic Origin), Asian or Pacific Islander, or White (not of Hispanic Origin). Note: Any person of Hispanic or Latino origin, in whole or in part, should be reported as Hispanic or Latino.
<b>Total</b>	The unduplicated total across the race/ethnicity designations.

### **Instructions for Tables 1 and Table 2**

- Report data in Table 1 (by disability category) and in Table 2 (by race/ethnicity, gender and LEP status) for all preschool and school-age students with disabilities removed to an IAES or suspended or expelled, in school or out-of-school. All disciplinary removals are to be reported for the period July 1, 2009 to June 30, 2010.
- In Tables 1 and 2, the number reported on each Line of Column 1A should be less than or equal to the sum of numbers reported on each Line of Columns 1B, 1C and 1D.

### **Specific Instructions for Table 1- by Disability**

1. In Table 1, columns 1 through 5, report the number of students with disabilities in each column by disability category.
2. In column 1A, report the number of students with disabilities, ages 3-21, who were unilaterally removed for drug or weapons offenses or serious bodily injury by school personnel (NOT the IEP team) from their current educational placement to an IAES (determined by the IEP team). Children with more than one unilateral removal should be counted only once in column 1A.
3. Columns 1B, 1C, and 1D are counts of removals. Each student reported in column 1A should be reported at least once in columns 1B, 1C, or 1D.

4. In column 1B, report the total number of times the students reported in column 1A were unilaterally removed for drug offenses.
5. In column 1C, report the total number of times the students reported in column 1A were unilaterally removed for weapons offenses.
6. In column 1D, report the total number of times the students reported in column 1A were unilaterally removed for inflicting serious bodily injury on another person while at school, on school premises, or at a school function under the jurisdiction of the LEA.
7. If a student reported in column 1A was unilaterally removed to an IAES more than once then this student should be counted more than once in columns 1B, 1C, or 1D. If, in the course of a single incident, a student committed more than one type of offense, then report the student in each of the appropriate columns. For example, if the student committed both a drug offense and a weapon offense during the same incident, report the drug offense in column 1B and report the weapon offense in column 1C. Every student reported in columns 1B, 1C, and/or 1D should be counted once, and only once, in column 1A.
8. Students who were removed from school by school personnel for drugs, weapons, or serious bodily injury for 10 days or less and were NOT sent to an IAES, should be reported as having been suspended. Do not include these children in column 1A.
9. Students who were removed from school by school personnel for drugs, weapons, or serious bodily injury and who were sent to an IAES for 45 days or less should be reported in column 1A. This includes students who were sent to an IAES for 10 days or less.
10. In column 2, report the number of students ages 3-21, who were removed to an IAES based on an impartial hearing officer determination of likely injury to themselves or others. Students removed by an impartial hearing officer more than once should be counted only once in column 2.
11. Column 3 is a report of students ages 3-21 with out-of-school suspensions or expulsions.
12. In column 3A, report the number of students ages 3-21 with out-of-school suspensions or expulsions summing to 10 days or less during the school year for any offense or combination of offenses. No student should be reported more than once in column 3A.
13. In column 3B, report the number of students ages 3-21 with out-of-school suspensions or expulsions summing to more than 10 days during the school year for any offense or combination of offenses. No student should be reported more than once in column 3B.
14. NOTE: No student should be reported in both column 3A and column 3B. The sum of 3A and 3B is the total number of children with out-of-school suspensions or expulsions during the school year.
15. Column 4 is a report of students ages 3-21 with in-school suspensions.
16. In column 4A, report the number of students ages 3-21 with in-school suspensions summing to 10 days or less during the school year for any offense or combination of offenses. No student should be reported more than once in column 4A.
17. In column 4B, report the number of students ages 3-21 with in-school suspensions summing to more than 10 days during the school year for any offense or combination of offenses. No student should be reported more than once in column 4B.

18. NOTE: No student should be reported in both column 4A and column 4B. The sum of 4A and 4B is the total number of students with in-school suspensions during the school year.
19. NOTE: If a student has both in-school and out-of-school suspensions in the same school year, that same student can be reported in both column 3A or 3B and column 4A or 4B.
20. A student should be counted in only one of the first three columns (1A, 2, or 3) for the same offense. If a student is unilaterally removed for drugs and reported in column 1A, then do NOT report the student again in column 3 for the same incident. Similarly, if a student is removed by an impartial hearing officer for likely injury and is reported in column 2, then do NOT report the student again in column 3 for the same incident.
21. A student who is subject to both an in-school and an out-of-school suspension for the same offense should be reported in both columns 3 and 4.
22. A student with more than one offense could be counted in more than one column (1A, 2, or 3). For example, a student who was unilaterally removed to an IAES and, later in the school year, was subject to an out-of-school suspension for more than 10 school days for a separate offense, should be reported in both column 1A and column 3.
23. Column 5 is a report of disciplinary removals. In column 5A, report the number of times any student with a disability was subject to any kind of disciplinary removal during the school year. When counting disciplinary removals, include in-school suspensions, out-of-school suspensions, expulsions, removals by school personnel to an IAES for drug or weapon offenses or serious bodily injury, and removals by an impartial hearing officer for likely injury to self or others. Note that column 5A is a report of disciplinary events, NOT students. If a student has more than one disciplinary removal in the school year, then each removal should be reported in column 5A. Report each student with a disciplinary removal only once in either column 5B, 5C, or 5D according to the cumulative number of days of removal during the school year.
24. In column 5B, report any student whose cumulative length of removal during the school year totaled 1 day or less.
25. In column 5C, report any student whose cumulative length of removal during the school year totaled between 2 and 10 days.
26. In column 5D, report any student whose cumulative length of removal during the school year totaled more than 10 days.
27. All students reported in columns 5B through 5D should have one or more disciplinary removals reported in column 5A. For example, a student who was suspended three times for three days each during the school year (a total of 9 days) should be reported 3 times in column 5A and once in column 5C.
28. NOTE: The sum of 5B, 5C, and 5D is the total number of students with one or more disciplinary removals during the school year. Each student reported in columns 1A, 2, 3, or 4 should be reported only ONCE in column 5B, 5C, or 5D, based on the cumulative number of days the child was removed during the school year.

### **Specific Instructions for Table 2 – by Race/Ethnicity, Gender and LEP Status**

The columns found in Table 1 are repeated in Table 2, and all students reported in Table 1 must also be reported in Table 2 three times: once by race/ethnicity, with the total on Line 7; once by gender, with the total on Line 10 and once by limited English proficiency, with the total on Line 13. Every column total in Table 1 must be equal to the corresponding column totals on Lines 7, 10 and 13 of Table 2.

### **Specific Instructions for Table 3**

1. In column A, report the number of students **with** disabilities ages 3-21 and the number of students **without** disabilities in grades K through 12 who were subject to expulsion during the school year and who received educational services during the expulsion.
2. In column B, report the number of students with disabilities ages 3-21 and the number of students **without** disabilities in grades K through 12 who did **NOT** receive educational services during the expulsion.
3. NOTE: Students with disabilities must receive educational services during any removal of more than 10 school days. The only students with disabilities who should be reported in column B are those who were removed for less than 10 school days after an expulsion (e.g., students with disabilities expelled under the Gun Free Schools Act whose expulsions were modified to less than 10 school days).
