Directors of Special Education
Chairpersons of Committees on Special Education
Organizations, Parents and Individuals Concerned with Special Education

From: Christopher Suriano

Subject: Placements of Students with Disabilities in Approved Out-of-State Residential Schools

The purpose of this memorandum is to provide updated policy, procedures, and forms relating to a public school district's responsibility to submit timely and complete applications, as prescribed in section 200.6(j) of the Regulations of the Commissioner of Education 8 NYCRR, for approval of State reimbursement of tuition costs for placements of students with disabilities in out-of-State approved residential programs. The information in this memorandum updates guidance issued in April 2017.

In accordance with these procedures, the Commissioner or a designee must make a determination of approval of State assistance for instruction of all public school students placed in approved private schools, including out-of-State programs. Approval of the System to Track and Account for Children (STAC) form is necessary to ensure timely State reimbursement of tuition costs to the public school and to provide the necessary authorization to municipalities to pay their portion of maintenance costs for a student's placement in a residential school. Failure to follow the procedures outlined in this memo may result in denial of all or a portion of State reimbursement of tuition costs.

Important policy and procedural information on the following topics is included in this memorandum:

I. Interagency Services for Students at Risk for Placement or Placed in a Residential School
II. Initial Applications for Private School Residential Placements
III. Reapplication Process for Placement of Students in Out-of-State Residential Schools
   • Out-of-State Residential Placements
   • Application Submission Information

1 8 NYCRR refers to Title 8 of the New York Code of Rules and Regulations
IV. Notification of Approval or Denial of State Reimbursement of Tuition Costs
V. Referral and Placement Processes
VI. Sharing of Student Records
VII. Placement of Students with Disabilities in Children's Residential Project (CRP) Programs
VIII. Technical Assistance

Please share this memorandum with staff responsible for the residential placements of students and others responsible for preparing application materials for State reimbursement of tuition costs.

I. Interagency Services for Students at Risk for Placement or Placed in a Residential School

Students at Risk of Residential Placement:

The decision that a student needs an educational placement in a residential school, either in or out of State, must be based on the committee on special education's (CSE) determination that there is no appropriate nonresidential school available to meet the educational needs of the student. Pursuant to Chapter 600 of the Laws of 1994, the New York State Education Department (NYSED) developed considerations for determining that a child is at risk of a residential school placement. State law and regulations require the school district to identify needed support services that may help families maintain children in their own homes and communities, and avoid placement in residential care, for as long as possible. School districts have an important role in working with other child care systems to collaboratively address the needs of children and their families. For additional information, see Attachment 1, Question 1.

For each student at risk of a residential school placement, the CSE must:
• provide information to the parent on community support services that may be available to the family; and
• with the consent of the parent (or consent of the student 18 years of age or older), invite the appropriate county or State agency to participate in CSE meetings concerning the appropriateness of a residential placement and other programs and placement alternatives.

Each application for private school tuition reimbursement for the 2018-19 school year requires the school district to provide, for each student recommended for initial placement in residential care, written assurance

• upon receipt of parental consent (or consent of a student 18 years of age or older), invited other agency representative(s) to participate in the CSE meeting.

Transition Services and Adult Service Planning:

To ensure appropriate and timely adult service planning for students who are at risk of or who are placed in residential schools, the school district must also:

• with the consent of the parent (or consent of a student if age 18 or older), invite appropriate community and State agency representatives when the purpose of the meeting is to consider postsecondary goals and transition services;
• provide written notice to the parent of the date upon which the student will no longer be entitled to receive tuition-free educational services and describe the opportunity and procedure for obtaining adult services (see 8 NYCRR section 200.4(i)); and
• seek parental/student consent and share records with the adult service agency from which the student may be eligible to receive adult services (see 8 NYCRR section 200.4(i)). For those students who are eligible for services from the Office for People with Developmental Disabilities (OPWDD), information about adult service planning is available on OPWDD’s website (https://opwdd.ny.gov/opwdd_services_supports/children/transition-students-developmental-disabilities).

II. Initial Applications for Approved Private School Residential Placements

Applications for initial placements in approved private residential schools approved after April 1, 2018 will include approval of the time period on or after April 1, 2018 through June 30, 2019. Any initial applications approved prior to April 1, 2018 require that the school district reapply and submit a new application no later than June 1, 2018 for the 2018-19 school year (July 1, 2018 through June 30, 2019) (see 8 NYCRR section 200.6(j)(3)(i)).

To obtain a timely determination of approval for State reimbursement of tuition costs for the initial placement of a student in an approved private residential school, the application for State reimbursement must be received by NYSED's Special Education Quality Assurance Nondistrict Unit within six business days of the student's start date in the approved private residential school. State regulations require NYSED to conduct a review of the student’s application to ensure that it meets the criteria for approval of State reimbursement of tuition costs, including documentation that the CSE’s proposed placement offers the instruction and services recommended in the student's individualized education program (IEP) and that such placement is in the least restrictive environment to meet the student's needs.

Regardless of NYSED’s determination regarding approval of State reimbursement of tuition costs, the school district is responsible to implement the CSE’s recommendation for timely placement in an approved private school.

For any initial or change in placement of a student with a disability under the age of 18 to an out-of-State residential school, a school district must submit an Interstate Compact on the Placement of Children (ICPC) Referral Packet to the New York State (NYS) Office of Children and Family Services (OCFS). Attachment 2 provides information on the Interstate Compact requirements.
III. Reapplication Process for Placement of Students in Out-of-State Residential Schools

NYSED is required to make a determination of approval of State assistance for instruction of public school students with disabilities placed in approved out-of-State private residential schools on a year-by-year basis. Therefore, school districts must reapply annually for State reimbursement of a student in a private residential school. **Reapplications must be submitted prior to June 1 of the year preceding the school year for which funding is sought.** Initial approval of State reimbursement of tuition costs for a private school placement does not automatically mean that the application will be approved for subsequent years.

Reapplications to NYSED for a student who is currently placed in an out-of-State approved private residential school must include annual documentation that there are no appropriate public or approved private facilities for instruction available within NYS.

**The CSE must adhere to all reapplication requirements as follows:**

1. The school district must seek placement of the student in an in-State residential school early enough in the school year in order to submit its application for State reimbursement of tuition costs to NYSED prior to June 1 of the year preceding the school year for which funding is sought. Therefore, the CSE must make **timely** referrals to appropriate in-State programs to ensure that documentation of acceptances and/or declinations from the in-State programs may be provided to NYSED prior to June 1 preceding the school year for which funding is sought.

2. At each student's annual review, the CSE must consider placement of the student in the least restrictive environment. State law requires that school districts annually seek placement in appropriate in-State programs prior to placement in out-of-State programs, and for each student, there must be a proposed plan and timetable for enabling the student to return to a less restrictive environment. State reimbursement of tuition costs for out-of-State placements is contingent upon documentation that there are no appropriate public or approved private facilities for instruction within NYS available for the student.

3. The school district must submit written documentation to NYSED, in the form of acceptance and declination letters, from all approved in-State schools that are potentially appropriate to implement the student's IEP.

4. In those cases where the CSE does not recommend a placement for the student in a particular school that has accepted the student because the in-State school is unable to meet the student's IEP needs, the school district must provide NYSED with information and documentation which support the CSE's actions based on sound educational reasons consistent with the student's IEP. While the concerns of the parent for the education of their child must be considered, a parent's disagreement with a placement or preference for another school is not, in and of itself, justification for the CSE not recommending an approved in-State program that has accepted the student.
5. For students who were placed out-of-State and for whom the CSE recommends a change in placement to an in-State school, the school district must notify NYSED’s Nondistrict Unit in writing prior to June 1, specifying the entry date and name of the new placement (e.g., XYZ School) and type of placement (e.g., in-State public or approved private school).

6. The following documentation must accompany the school district’s application for State reimbursement of tuition costs for out-of-State residential placements. Forms necessary to provide this documentation are available on the Office of Special Education’s website (http://www.p12.nysed.gov/specialed/applications/). For students turning age 21 during July or August, the only required documentation is a cover letter, application checklist and summer STAC-1 form.
   - CSE cover letter⁴.
   - Application checklist.
   - A proposed plan and timetable for enabling the student to return to a less restrictive environment or a statement of reasons why such a plan is currently not appropriate.
   - Statement of Assurance for Out-of-State Residential Placement, including the listing of the in-State schools that are unable to meet the student’s educational needs (referral chart and copies of all acceptance and rejection letters from the in-State private schools must be submitted; letters older than six months of the date of application submittal will not be accepted).
   - For initial applications of students for a residential placement, Statement of Assurance that the school district sought parental consent (or consent of a student if age 18 or older) to invite county or State agency representatives to the CSE meeting.
   - Student Profile.
   - Signed STAC-1 form with the date of placement. A separate STAC-1 form is required for July/August placements.
   - DCERT screen shot (Online STAC screen where school districts enter their private placement certifications).

**Out-of-State Application Submission Information**

In order to obtain a timely determination, the school district’s submission of an initial application for State reimbursement for placement of a student in an out-of-State residential school must be received by the Nondistrict Unit **within six business days of the date the student enrolled in a particular NYS approved out-of-State residential school** based on the recommendation of the CSE.

The school district can reapply for State reimbursement to the Nondistrict Unit anytime following a student’s annual review, but prior to **June 1 of the year preceding the school year for which placement is sought** (i.e., June 1, 2018 for the 2018-19 school year).

While electronic submissions to the Nondistrict Unit are preferred, NYSED’s email server cannot guarantee secure transmittal of email messages at this time. Please consult with your information technology staff, and if your email server allows for transmitting electronic data, please use it.

---

⁴ At a minimum, the cover letter should include: reason for the application to a residential school and the steps the CSE took to ensure that the screening and referral process was completed.
messages securely via Transport Layer Security (https://www.checktls.com/) (TLS) protocols, you can submit applications electronically. If you cannot send an email securely via TLS, in order to protect student confidential information, you must mail the application. Select one method for submission (email or standard mail).

Email or standard mail initial and reapplications for residential placements to:

Email: OOSAPP@nysed.gov

OR

New York State Education Department
Office of Special Education
Nondistrict Unit
89 Washington Avenue, Room 309 EB
Albany, NY 12234
Attn: 2018-19 Out-of-State Residential Application

IV. Notification of Approval or Denial of State Reimbursement of Tuition Costs

Upon receipt of the initial application or reapplication, NYSED will notify the CSE of its determination within 15 business days. If State reimbursement of tuition costs for the placement is approved, the school district will receive a copy of the approved STAC-1 form from NYSED. It is the school district's responsibility to forward a copy of the signed STAC-1 form to the approved private school confirming funding approval of tuition costs for the 2018-19 school year. If NYSED denies State reimbursement of tuition costs for the placement, the school district will have 20 business days to correct the deficiencies identified in NYSED's initial denial letter.

Regardless of NYSED's determination to approve or deny State reimbursement of tuition costs, the school district is responsible to implement the CSE's recommendation for placement in an approved private school. Therefore, the school district cannot use State denial of State reimbursement of tuition costs as a reason not to secure a timely placement of the student in a NYS approved private school. Regardless of NYSED's approval of reimbursement of tuition costs, NYSED will process the STAC-1 form that authorizes municipalities to fund their portion of the maintenance costs.

A school district may submit a request to NYSED for an administrative review of a denial of an application for State reimbursement of tuition costs no later than 40 days after written notice of the initial denial of the school district's application (8 NYCRR section 200.6(j)(3)(iv)). If school districts do not follow the administrative review timelines, NYSED will dismiss the review as untimely.
V. Referral and Placement Process

The school district’s CSE is responsible for the placement of a student with a disability in his/her least restrictive environment. However, the referral and placement process for private residential schools requires the cooperation of the NYS approved private schools and parents.

Each NYS approved out-of-State residential school serving students from NYS must fully cooperate with the efforts of school districts seeking to place students in approved private schools within NYS. Out-of-State schools must make students available for screening and intake procedures, provide access to educational records and facilitate observation of the student in his/her current educational setting at the request of the school district.

Parents are integral partners in the referral process and are expected to cooperate fully in the intake interview and screening process for the residential school. While the CSE must consider the concerns of the parents in the placement process, the school district must take responsibility to secure an appropriate placement for the student in the least restrictive environment, even in the instance where a parent does not fully engage with the referral and placement process. In-State and out-of-State schools should notify school districts if this is occurring.

VI. Sharing of Student Records

Pursuant to 34 CFR section 99.34 implementing the Family Educational Rights and Privacy Act (FERPA), an agency or institution subject to these requirements, such as a local educational agency, may disclose educational records of a student receiving services under Part B of the Individuals with Disabilities Education Act to a school in which the student seeks or intends to enroll, provided that (1) the agency makes a reasonable attempt to notify the parent (unless the disclosure is initiated by the parent) or (2) it is the policy of the agency or institution to forward education records to other agencies or institutions that have requested records and in which the student seeks or intends to enroll. Under these circumstances, prior consent of the parent is not required for the sharing of student education records pursuant to section 99.31 of FERPA.

VII. Placement of Students with Disabilities in Children’s Residential Project (CRP) Programs by Committees on Special Education

Placement of students by CSEs in CRP programs requires special procedures. Documents to request a CRP placement may be obtained by contacting the Nondistrict Unit via email: OOSAPP@nysed.gov.

CRP programs are interagency education and residential programs approved by NYSED and OPWDD to provide in-State educational and residential programs for students with

5 NYS CRP Programs: Birch Family Services, AHRC – Nassau Brookville Center for Children’s Services, Center for Discovery, Developmental Disabilities Institute, Devereux Red Hook, Easter Seals New York, Heartshare Human Services of New York, Maryhaven, SCO Family of Services-The Christopher School, UCP of Ulster Co, UCP of Greater Suffolk, Upstate Cerebral Palsy.

severe developmental disabilities currently in out-of-State residential schools or at risk of placement in out-of-State schools. Admission to CRP programs is limited to those children identified by the CSE as needing educational and residential services who also meet the residential eligibility criteria for the Intermediate Care Facility for the Developmentally Disabled (ICFDD) as established by OPWDD. The placement of students in such programs is contingent upon NYSED's and OPWDD's approval of the student's eligibility for CRP placement.

If a CSE is considering a residential placement for a student in a CRP program, the school district must discuss this option with the parent and obtain parental consent to participate in the CRP. The school district then contacts the local OPWDD Developmental Disabilities Regional Office concerning the referral of the student to the CRP program. The school district should assist the parent in the application process to OPWDD to determine eligibility for services. (see ICF/MR Level of Care Eligibility Determination (LCED) Form Instructions (https://opwdd.ny.gov/sites/default/files/documents/LCED_Instructions.pdf)). The school district can email OOSAPP@nysed.gov to request the form for placement in a CRP. To ensure timely review of this request, electronic submissions are preferred, but only permitted if your email server can transmit secure messages (see page 6 for further explanation). Select one method for submission (email or standard mail).

VIII. Technical Assistance

NYSED does not provide a service by which it matches students to approved private schools for a school district. It is the school district's responsibility to access the list of in-State and out-of-State approved private schools (http://www.p12.nysed.gov/specialed/privateschools/home.html) through NYSED's website and to contact each school directly to obtain information to assist in the referral and placement process. However, staff from the Nondistrict Unit are available to provide technical assistance to school districts regarding the residential placement process and may be able to assist school districts to identify potential residential programs for students who may be difficult to place.

Questions concerning these procedures should be directed to the Nondistrict Unit at OOSAPP@nysed.gov. Thank you for your cooperation and attention to this matter.

• Attachment 2 – Interstate Compact Requirements
Questions and Answers

1. What factors should a committee on special education (CSE) consider prior to recommending a student for a residential placement?

The determination that a residential school placement is the least restrictive environment for the student, thus removing a child from his/her home and community, must come only after a CSE has made the least restrictive environment considerations required for all placement recommendations. In accordance with State law and regulations, school districts must also consider the availability of community support services where students could access additional support for families and the supports and services that may be available from other State agency resources. For additional information on students at risk of residential placement, see Implementation of Chapter 600 of the Laws of 1994 Regarding Students with Disabilities At Risk Of or In Residential Schools (http://www.p12.nysed.gov/specialed/publications/policy/chap600.pdf).

2. What information should the school district know about an approved out-of-State residential school prior to making a placement recommendation for a student with a disability?

While the State approves certain schools and provides general supervision of such schools, it is the school district's responsibility to ensure that a particular residential school program is appropriate to implement the student's individualized education program (IEP). School districts should consider information provided by the school which includes, but is not limited to:

- the school's intake process for determining a student's current educational status (e.g., earned credit, courses taken, assessments completed, etc.);
- how the school will provide education consistent with New York State's (NYS) Learning Standards and Part 100 (general education) course requirements;
- whether the student will receive the required 5½ hours of instruction at the secondary level (grades 7-12) or 5 hours at the elementary level;
- the school's system of positive behavior management and how the school will provide functional behavioral assessment information and implementation of behavioral intervention plans consistent across residential and school programs;
- how the student can take NYS assessments and the required coursework for credit toward a NYS high school diploma;
- whether the school district of residence must make arrangements for a student to take NYS assessments in a school district closer to the out-of-State school, travel back to the school district of residence to take the NYS assessments, or send a NYS-certified teacher to the out-of-State school to administer the NYS assessments;
- how the student can be awarded a diploma, either from NYS or, when determined appropriate, from the host state;
- how and when the residential school will provide regular student progress reports to the school district and to the student's parent;
- how the student's teacher(s) will participate in the required CSE meetings; and
• how the school district ensures teachers have access to a copy of the student's IEP and are informed of their IEP implementation responsibilities.

3. If a student earns a diploma from an out-of-State school, does this end his/her eligibility for schooling with NYS?

Yes, if the diploma is considered a regular high school diploma by the host state’s Department of Education. However, earning a high school equivalency diploma does not terminate a student's entitlement to a free appropriate public education.

4. If a student is eligible for a diploma from an out-of-State school, who makes the arrangements?

These arrangements would be the responsibility of the approved out-of-State school where the student is enrolled.

5. What are the school district’s responsibilities to ensure a student placed in an out-of-State residential school takes NYS assessments?

The school district of residence is responsible to arrange for a student to take NYS assessments. They may do so through arrangements in a public school district closer to the out-of-State school, returning the student to the school district of residence to take the NYS assessment, or sending a NYS-certified teacher to the out-of-State school to administer the NYS assessment. Contact the New York State Education Department's (NYSED) Office of State Assessment (http://www.p12.nysed.gov/assessment/) to obtain technical assistance in making such arrangements.

6. What recourse does a school district have if a parent impedes the school district in its effort to secure a placement of the student in an in-State program?

If a parent is impeding the referral process of a student to an approved private school program, the school district should meet with the parent to discuss his/her concerns and explain why the school district is seeking a less restrictive placement for the student. Ultimately, the school district must take affirmative actions to make arrangements for the student to complete the referral process. If an in-State program accepts the student, the CSE must consider the concerns of the parent in making the placement recommendation. However, a parent’s refusal to accept a placement recommended by the CSE cannot be the sole reason to continue a student in an out-of-State placement. Continuing placement of a student in an out-of-State program when there is an appropriate in-State program available is likely to result in the denial of State reimbursement of tuition costs for the placement.

7. If the student's placement recommendation changes from an out-of-State program to an in-State program, must the school district provide the parent with prior written notice?

Yes.

8. Must the parent provide written consent for a particular placement?
Except for placement in a Children’s Residential Project (CRP), the school district does not need parental consent for a change in placement. However, as stated above, the school district must provide the parent with prior written notice of its recommendation and the parent has due process rights to disagree with the CSE’s recommended placement.

9. In the event a prospective school conducting the intake process does not have all the necessary student records from the student’s current school of attendance, should the approved private school make its decision regarding acceptance based on the information available as submitted by the public school district?

The school district is responsible to ensure that the prospective private school has the appropriate information from the student’s record. In the event the application to the private school is incomplete, the approved private school should respond in writing to the school district that it is unable to make a decision based on insufficient student records.

10. Which school district is responsible for the CSE functions when a student is placed in an out-of-State child care institution by a local Department of Social Services (DSS)?

The school district where the child is living at the time the child is placed in the out-of-State facility is responsible for the provision of education services, including CSE functions, if the student is a student with a disability. Education services for these children may be provided by a tutor, by contract with a school connected with the residential program or by contract with the local public school district in which the facility is located. Fiscal responsibility for the education of the student is a cost to the social services district, except that the school district where the student resided at the time of placement in the care and custody of social services is responsible for a basic contribution deduction for students with disabilities placed in an NYSED approved out-of-State school. (See page 26 of Education Responsibilities for School-Age Children in Residential Care (http://www.p12.nysed.gov/specialed/publications/EducResponsSchoolAgeResidence.pdf)).
Interstate Compact on the Placement of Children

For any initial or change of placement of students with disabilities under the age of 18 in out-of-State residential schools, a school district must submit an Interstate Compact on the Placement of Children (https://ocfs.ny.gov/adopt/interstate_compact_Placement_of_Children.asp) (ICPC) Referral Packet to the New York State (NYS) Office of Children and Family Services (OCFS). The referral packet must include:

- Cover letter (3 copies) explaining the reasons for the request;
- Completed ICPC-100A (5 copies) with signatures from an authorized school official AND one of the custodial parents (Section III); (please note the section that is specific to medical coverage while the student is placed out-of-State, which the committee on special education should discuss with the parent as part of the placement process);
- Social summary (3 copies) may be one or more of the following that describes the student's current functioning and need for a residential placement: individualized education program, psychological evaluation or psychiatric report; and
- Birth certificate and facility acceptance letter (3 copies of each) (this applies only for referrals to Connecticut and Massachusetts).

Submit the ICPC Referral Packet to:

Interstate Compact on the Placement of Children
NYS Office of Children and Family Services
52 Washington Street
Room 331 North Building
Rensselaer, NY  12144

If you have questions or need a copy of the ICPC Referral Packet, contact Carol McCarthy at OCFS at Carol.McCarthy@ocfs.ny.gov or (518) 473-5754.
