

Board of Regents Invites Public Comment on Special Education Funding

How should the State allocate funding to help school districts with the costs of educating students with disabilities?

How can State special education funding:

- help students with disabilities meet high academic standards;
- help integrate students with disabilities with their nondisabled peers; and
- ensure adequate resources, through a State and local partnership so that all students have the opportunity to achieve State learning standards.

The New York State Board of Regents invites your comments to help them fashion their proposal to the Governor and Legislature. You are invited to attend one of the following sessions. For more information, please contact Michael Plotzker at 518-486-3769.

Long Island

September 20, 2004 5:00 - 7:00 pm
