

## STATEWIDE EVALUATION FINDINGS

### **Data Summary of Findings: 2<sup>nd</sup> Quarter (Ending September 30, 2012):**

There are currently no data summaries of findings because the evaluation is still in its infancy. The State Evaluation Team (SET) is comprised of Research Works, Inc. (RWI) as the lead agency and Glen Martin Research Associates (GMA) and Manhattan Strategy Group (MSG) as the sub-contractors. The team are compiling and collecting all necessary data from the ten programs that have been selected to be a part of the composite case study.

It is anticipated by RWI that the first data findings to be shared formally will be presented in the first annual report to be submitted to New York State Education Department (NYSED) on April 30<sup>th</sup>, 2013. During our next quarterly report, the Quarter Three Report, RWI is forecasting the provision of a needs assessment for professional development for rest of state grantees. RWI is currently working with the Rest of State Resource Center (ROS RC) to identify follow-up questions to grantees who participate in the ROS RC webinar and in-person professional development activities, as well as surveys of non-attendees to ascertain the areas in which they perceive a need for professional development support.
