

New York State Department of Education

Curriculum, Instruction and Instructional Technology Standards-Based Resources

Virtual Learning System

VLS

<http://eservices.nysed.gov/vls/welcome.do>

VLS is intended to encourage the use of the Internet as a tool for teaching and learning and to assist classroom teachers in locating Internet resources for instruction. It offers the full text of New York State's learning standards with their key ideas and performance indicators, as well as alternate performance indicators for students with severe disabilities. It also provides resources for classroom teachers, including sample tasks, learning experiences and lesson plans.
