Certification and Approval

I hereby certify that I am the applicant's Chief Administrative Officer, and that the information contained in this application is, to the best of my knowledge, complete and accurate. I further certify, to the best of my knowledge, that any ensuing program and activity will be conducted in accordance with all applicable application guidelines and instructions, and that the requested budget amounts are necessary for the implementation of this project. I understand that this application constitutes an offer and, if accepted by the NYSED or renegotiated to acceptance, will form a binding agreement. I also agree that immediate written notice will be provided to NYSED if at any time I learn that this certification was erroneous when submitted, or has become erroneous by reason of changed circumstances.

Attn: Nell Brady, RFP #TA-14

Dear Ms. Brady:

Enclosed please find the original and one copy of the Buffalo City School District's application for SIG Cohort 5 2014 - 2017 for #99 Stanley M. Makowski ECC (*Transformation*).

If you have any questions or concerns, or require anything further, please do not hesitate to contact me using the phone number above or via email at BPSgrants@buffaloschools.org.

Thank you for your continued support.

Sincerely,

Diane Cart

I. District Level Transformation Plan – Buffalo City School District

A. District Overview –

i. Theory of Action and Key District Strategies

ii. District Approach

Provide a clear and cogent district approach and set of actions in supporting the turnaround of its lowest achieving schools and its desired impact on priority schools

iii. District Readiness

Describe evidence of district readiness to build upon its current strengths and identify opportunities for system wide improvement in its Priority Schools

When Superintendent Pamela Brown joined the Buffalo City School District (BCSD) team, this district was at a critical point in its evolution. The number of Priority schools had grown exponentially, resulting in the designation of BCSD as a focus district with more than 45 percent of its schools in Priority status. Deteriorating union relationships and the lack of an annual professional performance review and signed memorandum of understanding prevented the district from receiving millions of dollars in state and federal funds. This situation prevented much-needed resources from flowing to the schools and students most in need.

Much progress has been made in the 18 months since Dr. Brown assumed leadership of this district.

At the conclusion of her first year as superintendent of BCSD, Dr. Brown shared the results of a collaborative community engagement process that produced a strategic plan for the district. This plan embodies Superintendent Brown's vision for BCSD, which is guided by the commitment to a world-class education for every child. Through the strategic planning process, the BCSD community articulated commitments and core beliefs that now guide the district's supports to Priority schools and its accountability processes. See Attachment D1 for the strategic plan.

While the district strategic plan was being finalized, the superintendent also was finalizing a central office reorganization. A key component of this reorganization was the establishment of the Office of School Leadership to serve as a one-stop shop to support and monitor the progress of Priority schools.

Dr. Brown knows that dramatic change results from a laser focus on key strategies that will have an impact on instruction and learning. Working with the chiefs of school leadership, she identified "Three Big Rocks" to govern the work of the Office of School Leadership. These strategies are rooted in observing instruction, using data, and collaborating. As this grant application details, leadership and instructional capacity are being built through a series of training sessions and job-embedded coaching as well as through site visits for progress monitoring and improvement.

The district is not just ready to engage, it is moving full steam ahead. In addition to the reorganization of the Office of School Leadership, critical improvements have occurred in the

Office of Curriculum, Assessment and Instruction; Office of Strategic Alignment and Innovation; Office of Talent Management; and Office of Finance and Operations. For the first time, there is a districtwide curriculum, coupled with common formative assessments to support the implementation of the Common Core Learning Standards (CCLS). Through the Office of Strategic Alignment and Innovation, the district continues to implement the Diagnostic Tool for School and District Effectiveness (DTSDE) and provide supports for data-driven instruction. As the application details, the Office of Talent Management's services have been restructured to provide more support to schools and school leaders are empowered to be more active in their staff selections. The Office of Finance and Operations rolled out a new school-based budgeting process to provide schools with more autonomy in the management of their resources.

At the start of the 2014–15 school year, BCSD was operating with a new structure designed to deliver the supports, resources, and systems that schools need to provide all students with a world-class education.

B. Operational Autonomies

i. Operational Autonomies

Describe the operational autonomies the LEA has created for the Priority School in this application. Articulate how these autonomies are different and unique from those of the other schools within the district and what accountability measures the district has put in place in exchange for these autonomies.

ii. Adopted BOE Policies

Provide as evidence, formally adopted Board of Education policies and/or procedures for providing the school the appropriate autonomy, operating flexibility, resources, and support to reduce barriers and overly burdensome compliance requirements.

iii. Labor Management

Submit as additional evidence, supporting labor-management documentation such as formally executed thin-contracts or election-to-work agreements, or school-based options, that state the conditions for work that match the design needs of Priority School.

During the past year, BCSD made significant progress in creating more autonomies for all of its schools. This progress was driven by Superintendent Brown's belief that there are important differences in school communities and needs that require differentiated support by the central office. As a result, school budgeting and staffing processes were restructured to provide more autonomies for school leaders and centralized supports and monitoring of schools under the Office of School Leadership.

Staffing: For years, principals had little involvement in the selection of staff for their schools. Staffing needs would be communicated to central office, and content directors would screen and assign staff to schools. The function of the Office of Human Resources (now Talent Management) was simply to process paperwork. A new, comprehensive approach to hiring is in place that gives the responsibility for screening and selecting staff to the school principal. To support principals through this transition, American Institutes for Research (AIR) provided training to all principals in August 2013 on turnaround competencies for teachers, based on the work of Public Impact.

School-Based Budgeting: Also in the past year, BCSD implemented a new school-based budgeting system rooted in the belief that school funding and other resources should be differentiated based on students' needs. In addition to collaborating with other district offices, the Chief Financial Officer formed a Staffing/Student Funding Committee to provide advice and guidance during this process. The committee met on the following dates: November 19, 2012, January 7 and 28, 2013, and February 11 and 22, 2013. The committee continues to meet monthly during the 2013–14 school year. This collaborative process trickled down to the school level as well. Part of the budgeting process involves the principals engaging with the Site Based

Management Teams for each school. These teams include a cross-section of the school community including parents and students.

The central office allocates differentiated school funding based on the following key factors: projected student enrollment, special education student population, English language learner (ELL) student population, school configuration (elementary, K–8 model, middle, or high school), teacher-student ratios by grade configurations, and specialty school or program status. According to state mandates and the collective bargaining agreement, certain staffing levels must be adhered to; these are described in the attached School Based Budget Development Guide (Attachment D2).

The 2013–14 budget year was the first of a three-year phase-in process for site-based budgeting. Year 1 will bring transparency and equity to the process with greater central office support. School autonomy will be earned in later phases and in higher performing tiers as capacity and data systems are implemented. In February and March 2013, the district held transition meetings with principals and a voluntary tutorial was offered. Schools also received resources to help them develop their budgets. In April and May, each principal met with the community superintendent (now chief of school leadership), the director of staffing for budget, and the subject-area directors to review their budgets and school data to support their decisions. A survey was conducted to inform continued improvements to this process, and the results are being addressed.

Use of Time During and After School

The superintendent intends to build on the success of the district’s afterschool programs and is actively exploring options to improve the use of instructional time during the school day. With respect to afterschool programs, the district’s model includes an academic focus (intervention and enrichment) and an emphasis on strategies that support a whole-child approach to learning. BCSD is currently seeking to hire a director of extended learning to coordinate the delivery of high-quality, curriculum-based afterschool educational activities that are aligned with the CCLS and that support college and career readiness. (See Attachment D3 for details.)

During the grant-writing process, school leaders expressed a desire to improve upon the use of instructional time but were frustrated with union requirements and their own inexperience. This provides an excellent illustration of the type of support that the district can provide through the Office of School Leadership. Three specific options are in development or are already available.

First, early-start schools can request to move to a late start. Under this model, teachers continue to arrive at the earlier time and can be compensated for that extra time. Cost savings from the change in the transportation schedule would offset the increased expense of paying teachers for the extra time worked. Currently, one of the seven schools in SIG Cohort 5 is actively investigating this option and engaged in conversations with the teachers union. The other six schools in Cohort 5 are already late-start schools. This model can provide time for meaningful professional development and team collaboration. Students also may directly benefit through extended learning opportunities for remediation prior to the official start of the school day.

The second option is rooted in research that finds common planning time can have a dramatic impact on improving instruction. The district will engage with teachers and union representatives on a proposal that gives teachers the option to combine their preparation time during the school day into a longer common planning time. Through this combination of time, teachers would have

60 minutes per cycle. The increase in time will allow for the implementation of meaningful discussions, data review, professional development, planning, and reflection. Teachers would be compensated for their preparation period as this time is a part of their contract. SIG funds would cover this additional expense of one half-hour block per week.

The third approach under consideration is to hire an expert to support school leaders in developing a master schedule that has a more positive impact on instruction and learning. Research is clear that the master schedule is a critical component of student learning. However, principals and district staff often approach master schedule planning from a student-centered perspective that focuses on students' coursework needs. Experts with school leaders to take a more balanced approach that, with small changes, can have a big impact. Optimizing the use of master scheduling, schools will learn to use the hours within an instructional day more effectively. The expert will take Priority schools through a yearlong process of developing, implementing, and revising a master schedule based on progress monitoring data.

Program Selection: Because instructional programming is fundamental to every school's success, the district will retain a lead role in determining the core instructional programs at each school. BCSD selected Journeys/Senderos as its core curricular program for English language arts (ELA) in Grades K–6. However, with SIG funding, schools will have resources to secure materials for supplemental programs in order to realize their unique visions. Schools indicated that they need assistance in identifying appropriate partners, and the district is responding to that request for support. As a first step, during planning meetings to support schools in developing their school-level plans, district staff shared information available from the state on nationally recognized vendors. In addition, through an external-provider screening process, BCSD is creating its own approved provider list that is aligned to schools' strategic plans.

Educational-Partner Selection: School leaders have the autonomy to select their own partners, and the district is supporting them by establishing a vetting process to create a list of approved providers. In fall 2013, the district released a request for proposals (RFP) to identify external providers interested in partnering with Priority schools on professional development and school improvement services. The process of creating an approved provider list is a response to schools' requests for assistance with selecting appropriate partners. Representatives from each Priority school in SIG Cohorts 4 and 5 were asked to participate in the review process. After the proposals were reviewed and scored, a final list of approved vendors was identified. It is important to note that vendors were not required to be full solution providers for all categories, therefore the district took into account vendor's primary area of expertise to be fair and equitable. On January 21, 22, 30, and 31, 2014, the district hosted vendor demonstration days to give Priority school leaders an opportunity to learn more about each vendor. Upon award and finalization of contracts, vendors will be required to attend a partner collaboration meeting led by their school principal with the support of their leadership coach. This event will establish program coherence between all parties to ensure lines of communication are formulated and expectations are clearly defined.

Buffalo Public Schools

City Hall • Buffalo, New York 14202
Telephone: (716) 816-3625 • Fax: (716) 851-3554

Supporting Labor Management Document

The Buffalo City School District's application does not require the Labor Management Document as the proposed plan is allowable under the Collective Bargaining Agreement.

The District assures BTF that all terms and conditions of the Collective Bargaining Agreement and provisions of the Taylor Law will be adhered to and that any changes must be agreed to by the BTF in writing.

C. District Accountability and Support

i. Senior Leadership

Identify specific senior leadership that will direct and coordinate district's turnaround efforts and submit an organizational chart (or charts) identifying the management structures at the district-level that are responsible for providing oversight and support to the LEA's lowest achieving schools.

ii. Accountability and Support

Describe in detail how the structures identified in "i" of this section function in a coordinated manner, to provide high quality accountability and support. Describe and discuss the specific cycle of planning, action, evaluation, and feedback, and adaptation between the district and the school leadership. This response should be very specific about the type, nature, and frequency of interaction between the district personnel with school leadership and identified external partner organizations in this specific Priority School application.

iii. Timeframe

For each planned interaction, provide a timeframe and identify the specific person responsible for delivery

Senior Leadership

BCSD is a focus district, and Superintendent Brown has taken steps to enhance support to schools while holding instructional leaders accountable for results. A key part of her recent restructuring strategy is the establishment of the Office of School Leadership to serve as a one-stop shop for schools. Through this office, Superintendent Brown is building a talented and committed leadership team to partner with her in moving BCSD toward the ambitious goal of preparing all students for success. Principals call one number to have questions answered or receive support across a variety of district functions (e.g., curriculum and instruction, professional development, operations, facilities, technology, human resources, and finance). The chiefs of school leadership also coordinate closely with the Offices of Curriculum, Assessment and Instruction and Strategic Alignment and Innovation. (See Attachment D4.)

Chiefs of School Leadership: The chiefs of school leadership play a crucial role in ensuring that BCSD realizes its mission of college and career readiness for all students in Buffalo. Each chief supervises and supports approximately 15 schools, evaluating the principals and overseeing and supporting all school improvement activities. The chiefs of school leadership serve as strategic partners to the superintendent and other senior leaders in reimagining BCSD as a service-oriented team providing support to schools as the primary unit of change.

The chiefs of school leadership are a primary focus of the district's transition to an earned-autonomy model for schools. This model is being phased in during the next three years, with the goal of providing schools with the flexibility necessary to serve their students effectively. The chiefs oversee a team of professionals that serve as a one-stop shop for school principals. The supervising principals and directors of school leadership (see the following sections) play a key

role in supporting the chiefs in the execution of the responsibilities of this office, as embodied by the district's Three Big Rocks of Instructional Leadership (further detailed in Attachment D5):

- **Observing Instruction:** Visiting classrooms daily to monitor CCLS instruction and providing descriptive feedback.
- **Use of Data:** Using the Data Driven Instruction process to drive instructional planning and re-teaching.
- **Collaboration:** Fostering collaboration through grade level meetings, common planning time and instructional leadership meetings.

Supervising Principals: Each supervising principal works collaboratively with a chief of school leadership and staff in the Offices of Curriculum, Assessment and Instruction and Strategic Alignment and Innovation to support approximately 15 school principals. This position represents one of the district's key levers for turning around the lowest performing schools with responsibilities focused on improving instructional practices in schools. Instructional supports include but are not limited to support in any core curriculum area, grade-level meetings, common planning time, master scheduling, use of data, curriculum, teacher supervision, documentation, and instructional rounds. Supervising principals will supervise academic and instructional coaches that support 15 to 20 schools and will coordinate with instructional coaches in the Office of Curriculum, Assessment and Instruction.

Director of School Leadership: The director of school leadership is a strategic partner to the chiefs in reimagining BCSD as a service-oriented team providing support to schools as the primary unit of change. Operational support includes but is not limited to issues concerning child abuse in the educational setting, extra help substitutes, budgeting, staffing, finances, daily operations management, and supplies.

Supports for Priority Schools

The Office of School Leadership coordinates the following activities to support and monitor Priority schools:

- The supervising principal makes weekly on-site school visits to build school capacity and support for the school's principal and restructuring team.
- Monthly Priority school principals meetings provide topic-specific supports, based on data, and offer principals a forum in which to share successes and challenges. The agenda for these meetings includes standing items from the Office of Curriculum, Assessment and Instruction. The Office of Strategic Alignment and Innovation also contributes to the agenda with topics related to the implementation of the DTSDE.
- The Office of School Leadership coordinated a yearlong support system created in partnership with AIR, with SIG Cohorts 3 and 4, to develop leadership capacity through the district's Transformation Leadership Learning Network (TLLN). The objective of the TLLN is to enhance the turnaround competencies of building leaders and leadership teams as they work to transform their respective schools. Through the Systemic Supports for District and School Turnaround grant, AIR developed and vetted training on tools and processes that foster habits and institutionalize practices that form the building blocks of successful school turnaround strategies and lead to sustained improvement. The TLLN comprises the following supports:

- A kickoff meeting that focuses on the building blocks of school turnaround for district and school leaders
- Quarterly leadership workshops, designed to build leadership team capacity and to provide “just-in-time” support to meet school leaders’ pressing needs
- Monthly individualized non-evaluative coaching visits (1 onsite and 2 virtual sessions) with turnaround principals, focused on implementing the school plan and addressing school-specific issues. For Cohort 5 coaching will be provided by turnaround leadership partner Evans Newton Inc.

Additional supports are provided by the Office of Curriculum, Assessment and Instruction through team learning walks that provide coaching and support for teachers around content and instructional practices. This office also coordinates the delivery of targeted instructional coaching supports to Priority schools through practicum visits facilitated by a district instructional specialist. These visits occur after weekly professional learning community (PLC) sessions to ensure that new learning is operationalized back in the teachers’ classrooms.

The Office of Strategic Alignment and Innovation coordinates the district’s participation in the New York State Education Department (NYSED) DTSDE certification program. This team includes administrators from the Office of Curriculum, Assessment and Instruction; Office of School Leadership; and Office of Strategic Alignment and Innovation. To support this work, staff created a district capacity plan that includes the a website, monthly newsletters, and professional development on the DTSDE process. The capacity plan also includes checking in with schools to ensure that they are utilizing the reports to drive school initiatives. Site visits help schools prepare for their reviews.

Research for Better Teaching (RBT) provided initial training to staff in the Office of Strategic Alignment and Innovation to strengthen administrators’ and teachers’ capacities to use data to inform instruction. District staff are continuing those trainings. Through ongoing “Skillful Data Use” professional development, teachers learn how to implement a structured process of collaborative inquiry that increases their ability to use data. Schools data teams work to: (1) build a foundation for collaboration around student performance data, (2) identify student learning problems, (3) verify causes of student learning problems, (4) generate and monitor solutions, and (5) ensure an increase in student achievement. School-based data teams also learn how to lead collaborative inquiry in order to influence the culture of their schools to become places in which data are used continuously, collaboratively, and effectively to improve teaching and learning.

Accountability

BCSD is basing its cycle of planning, action, evaluation, and feedback on the Plan, Do, Study, Act model of continuous improvement. Schools will implement their plans with support from the Office of School Leadership. AIR is collaborating with district leadership to create a formal monitoring system focused on holding schools accountable for results. This process is currently being implemented on a quarterly basis. It is informed through weekly visits with schools that provide just-in-time supports for and serve as informal monitoring activities.

As the district implements the new structure and system, formal quarterly progress monitoring sessions will be held with each school. Once tools and processes have been adopted and implemented, in the 2014–15 school year, the district intends to move from quarterly to monthly

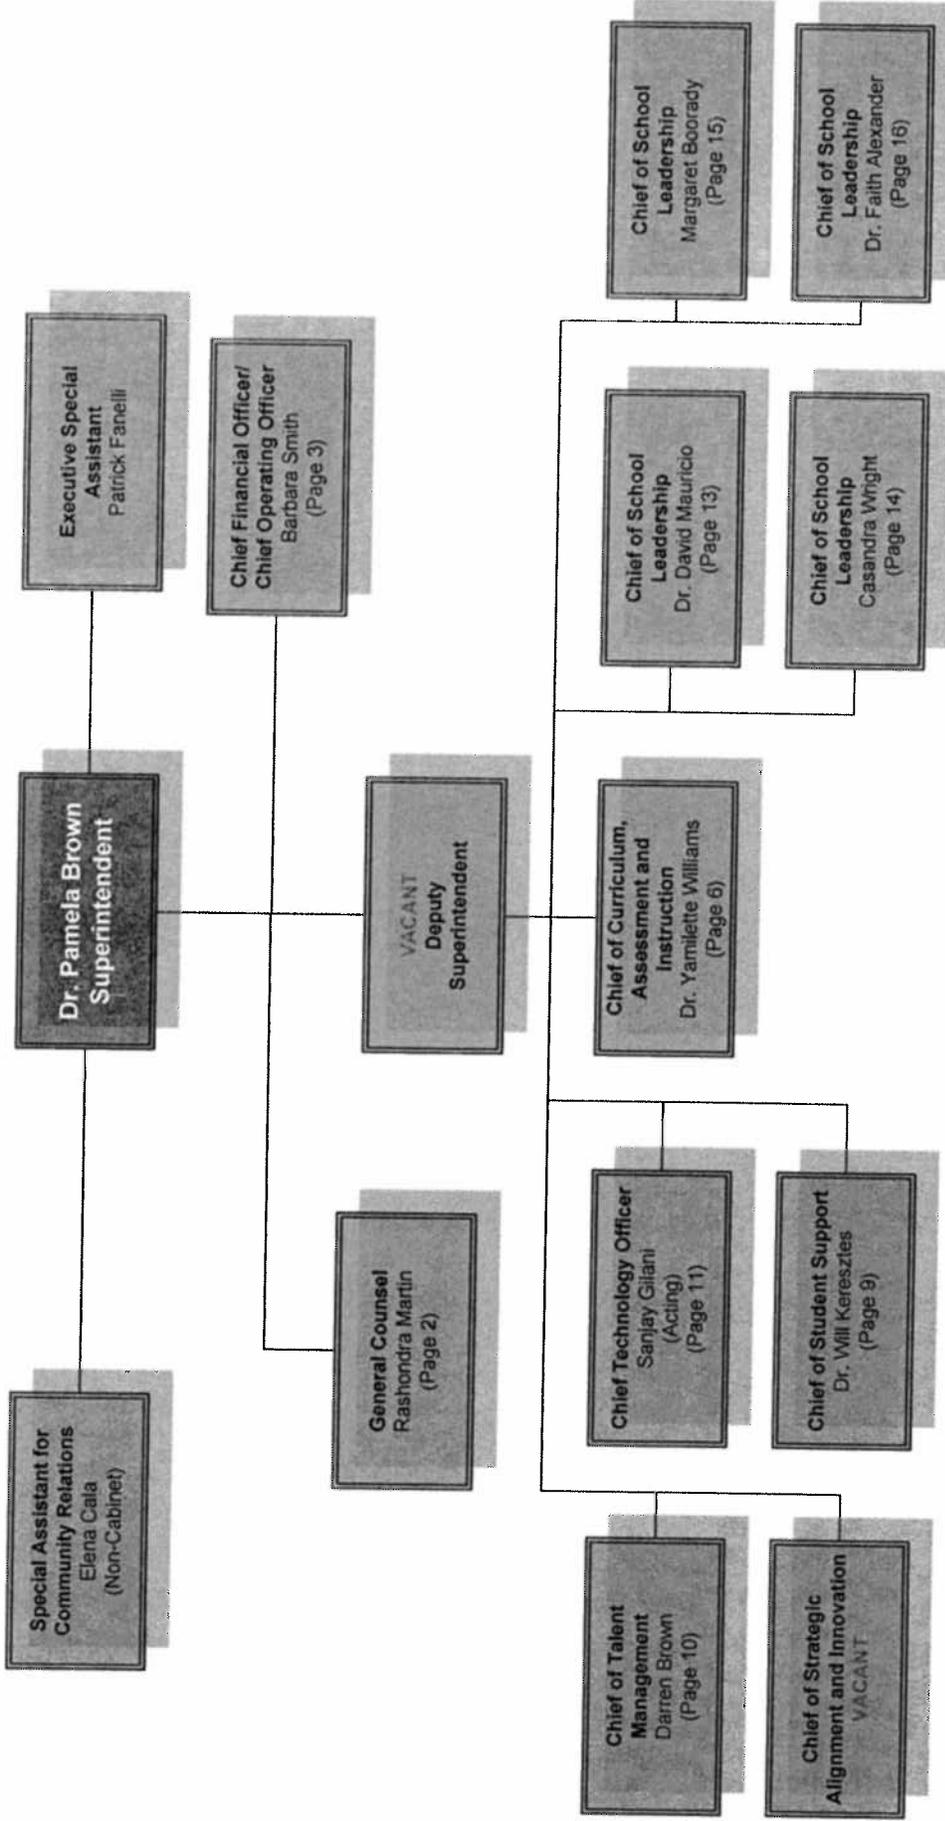

formal monitoring sessions with schools. These sessions seek to provide school leadership teams with guidance in making data-based school improvement decisions grounded in the DTSDE and School Comprehensive Educational Plans. The quarterly progress monitoring sessions are organized around four essential elements:

- **Data:** Gaining a clear picture of progress against benchmarks, annual targets, and goals
- **Questions:** Drilling down to root causes and issues influencing student performance
- **Action items:** Developing action items that address root causes
- **Follow-up:** Tracking progress on action items

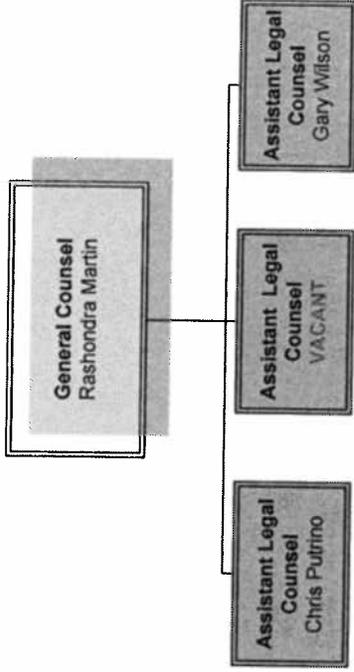

During the quarterly review sessions, principals meet with their chief of school leadership to monitor school strategies and implementation metrics and to problem-solve common challenges. These meetings focus on core strategies for improving student outcomes, as indicated in School Comprehensive Educational Plans or SIG applications. Although the key participants in the sessions are the chief of school leadership and the principal, either may request the participation of other Office of School Leadership staff or additional school leadership team members. (See Attachment D6 for more information.)

Please see Attachment D7 for a detailed explanation of the timeframe and individuals responsible for each planned interaction.

D. District Teacher Leader Pipeline

i. Recruitment Goals and Strategies

Identify and describe recruitment goals and strategies for high poverty and high minority schools to ensure that students in those schools have equal access to high-quality leaders and teachers.

ii. Hiring Process

Describe the district processes for altering hiring procedures and budget timelines to ensure that the appropriate number and types of teachers and principals can be recruited and hired in time to bring schools through dramatic change.

iii. Leadership Training

Identify and describe any district-wide training programs designed to build the capacity of leaders to be successful in leading dramatic change in low-achieving schools. In addition, describe how these programs are aligned to the specific implementation of the model chosen (Turnaround, Restart, or Transformation). Provide a history of these or similarly purposed programs in the district, how they are or have been funded, and identify whether the school principals chosen to lead the new school designs proposed in this application have emerged as a direct result of these programs. Please identify the goals in terms of quantity and quality of effective leader development.*

iv. Teacher Training

Identify and describe any district-wide training programs designed to build the capacity of teachers to be effective specifically in low-achieving schools. Provide a history of these programs in the district, how they are or have been funded, and identify whether the instructional staff chosen for the new school designs proposed in this application have emerged as a direct result of these programs. If the programs are newly proposed, please identify the goals in terms of quantity and quality of effective teacher development.*

v. District Training

Identify in chart form, the district-offered training events for items “iii & iv” above, scheduled during the year-one implementation period (September 1, 2013 to August 31, 2014). For each planned event, identify the specific agent/organization responsible for delivery, the desired measurable outcomes, and the method by which outcomes will be analyzed and reported. Provide a rationale for each planned event and why it will be critical to the successful implementation of the SIG plan.

*The district-wide training and professional development programs to be identified in this section are those that are offered by the district to a group or cluster of like schools (Turnaround, Restart, Transformation) and/or to cohorts of teachers and leaders who will serve in them (e.g., training for turnaround leaders; training for teachers who need to accelerate learning in Priority Schools where students are several levels below proficiency; training for school climate and culture in Priority Schools, etc.). School-specific and embedded training and professional-development should be detailed in Section II. I.

Recruitment

During the past year, BCSD restructured its Office of Talent Management. Staff are now implementing new recruitment strategies to attract leaders and teachers for high-poverty and

high-minority schools. Table 1 identifies specific goals to help the district meet this need and strategies that are currently in use or under consideration.

Table 1. Recruitment Goals and Strategies

Goals	Strategies
<p>Increase capacity of the Office of Talent Management.</p>	<ul style="list-style-type: none"> • The district hired a staffing manager responsible for maintaining the candidate pool for all subject areas, resulting in an increase in the total number of available candidates and minority candidates. Previously, recruitment, screening, and selection of candidates was a lower Priority for this office; it is now a major focus. • The department was restructured to create teams that focus on specific groups of schools. This mirrors the structure of the one-stop shop, providing support to each chief and his or her schools. • The office eliminated some lower level positions to allow for hiring of more skilled employees. • The district hired additional staff to support recruiting efforts and to oversee the implementation of other strategies.
<p>Strengthen partnerships with local colleges, universities, and other teacher preparation programs that have candidates who meet BCSD needs.</p>	<ul style="list-style-type: none"> • One of the restructured positions, the director of recruitment and employment services, is now responsible for strengthening partnerships. The position has been occupied by Karen Marchese for over six months. She has conducted outreach to develop stronger partnerships and build opportunities to speak to students. These relationships have led to on-campus recruitment opportunities beyond traditional student job fairs, as well as referrals from the career office. When students visit the career office, staff are more knowledgeable about district opportunities and better equipped to identify appropriate matches for students. • On December 11, 2013, the Buffalo School Board voted to approve a partnership with Teach for America to recruit candidates for positions that the district typically struggles to fill. M&T Bank has agreed to cover the fees for the first group of Teach For America teachers in 2014–15.
<p>Provide recruitment incentives.</p>	<p>The Teachers of Tomorrow grant provides a recruitment incentive of up to \$3,400 per year, for a maximum of four years.</p>
<p>Refine the BCSD interview process to better identify candidates for high-need schools.</p>	<ul style="list-style-type: none"> • The district recently implemented a digitized hiring and interview process. • The district’s restructured hiring process places responsibility for interviewing and selecting staff squarely with the school principal. To equip principals for this new responsibility, AIR conducted two trainings based on Public Impact’s work on turnaround competencies. Talent Management staff received training to assess principals’ interviewing techniques. Principals received training to help them with the hiring of teachers.

Goals	Strategies
<p>Broaden the geographic reach of advertised job openings.</p>	<ul style="list-style-type: none"> • The Talent Management department has increased its advertising budget by \$10,000 in order to post a large number of available positions nationally. Available positions were posted on Indeed, Simply Hired, Education Week TopSchoolJobs, the National Alliance of Black School Educators website, and other sites. • The Office of Talent Management is proactive in reaching out to other local districts to hire staff who have been laid off. • In spring 2013, 39 applications were received to fill principal vacancies at six schools. Three of those positions were filled by out-of-state candidates. Applications were received from Arkansas, California (2), Georgia, Missouri, Nevada, Texas, and Virginia as well as various districts in New York State (Rochester, Syosset, Somers, Bolton, Pittsford, Elba, and Irvington).

District-wide Training and Support

One of the first steps in supporting Priority school principals during the change process involves providing tools, training, and strategies to focus the majority of their time on instructional leadership. As described in Section C of this narrative, newly hired principals and other school leaders receive intense support from the Office of School Leadership through weekly school visits and monthly Priority school principals meetings. This will also include new principals from the cohort attending a 3 week summer institute at the New York City Leadership Academy as another learning opportunity to prepare them to take on a new priority school. This training is made possible through the recent award of the Leadership STEM grant secured by the Chief of Curriculum Assessment and Instruction. In addition, AIR partnered with BCSD the creation of the TLLN. This included quarterly training sessions and monthly on-site leadership coaching focused on implementing the school plan and addressing site-specific issues and concerns. This approach employs a gradual release model, whereby the frequency and duration of coaching supports are more intense at the outset and in Year 1 and gradually lessened in Year 2. In Year 3 – 2014/15, the Office of School Leadership will assume full responsibility for the management of the TLLN. SIG Cohort 5 principals will receive additional differentiated leadership coaching support from turnaround leadership partner Evans Newton Inc.

The Office of School Leadership began its new support system for schools in fall 2013, and the TLLN was launched in August 2013 with SIG Cohort 3 and Cohort 4 schools. The attached evaluations (Attachment D8) indicate that the principals believe the support they are receiving is helpful. Following the midyear reality check meeting, leadership coaches reported the following:

- Participants realized their responsibility for implementing and monitoring SIG components.
- Leadership teams gained a better understanding of why all initiatives cannot be implemented at the same time and that initiatives need to be phased in.
- Participants were able to review data and “discover” areas that were not fully on track, where they needed to do something different.
- Participants saw the power in continuing “quick wins” and how ongoing celebrations can motivate further progress.

At the district level, training programs for teachers focused on building capacity to do the following:

- Shape teacher leadership skills.
- Strengthen teacher content knowledge and technological skills to support implementation of CCLS.
- Master processes to improve the knowledge and skills required for DDI. This year, the district is providing ongoing training for teachers and coaches in Priority schools to build teachers' capacity—knowledge and skills, as well as courage and conviction—to promote learning and increase achievement.

The Office of Curriculum, Assessment and Instruction provides training and supports to teachers and leaders to implement the CCLS for ELA and mathematics, social studies state standards, the current and upcoming Next Generation Science Standards, visual and performing arts standards, and health and wellness standards. As mentioned in Section C, the Office of Strategic Alignment and Innovation provides ongoing professional development to support DDI. In addition, Teachers of Tomorrow grants provide up to \$4,000 in tuition reimbursement for science, mathematics, and bilingual education and \$10,000 per year for a master teacher program.

CCLS implementation training occurs through the delivery of training for the Journeys/Senders K–6 curriculum as well as for the state's curriculum modules for ELA (Grades 7–12) and mathematics (kindergarten through algebra) through EngageNY.org. Any required funding for CCLS work has been provided from a variety of sources, including Title I, Title IIa, Race to the Top, and SIG 1003(a) and 1003(g) grants. In 2012, SIG 1003(a) grants provided opportunities for identified schools to conduct additional summer training, during which teachers were able to participate in courses on implementation of CCLS for ELA and mathematics, along with an eight-hour course on implementation of school-based inquiry teams (SBITs) and DDI teams.

The district will provide ongoing training for teachers in writing and setting targets for student learning objectives, as required under New York State law 3012-c. These efforts have been funded by Race to the Top. When these funds expire at the end of this year, the district will continue support in this area.

Every BCSD school has a trained SBIT, consisting of the principal, school counselors, attendance teacher, coaches, and classroom teachers. The team receives ongoing professional development in a structured process of collaborative inquiry to increase professional community, effective uses of data, and student achievement. The approach focuses on development of the SBIT and guides the data teams through a process of building a foundation, identifying student learning problems, verifying causes of student learning problems, generating and monitoring solutions, and achieving results. Through this program, school-based data teams learn how to lead a process of collaborative inquiry and to influence school culture to be one in which data are used continuously, collaboratively, and effectively to improve teaching and learning. During and after completion of the course, school teams are supported by on-site coaching visits as needed.

See the required chart for details of district-offered training events for Priority Schools.

District-Offered Training Events Chart

Type of Professional Development	Frequency/Timing	Purpose/Description	Personnel
On-site school visits to enhance principals' observation and feedback skills	Weekly	A liaison will attend the school's leadership team meeting and tour the school with the principal, using an observation tool based on a state tool. A debrief with the principal will follow. This activity will enable principals to request specific support and liaisons to identify feedback.	Office of School Leadership staff
Data coach meetings	Weekly	Teachers and administrators will continue to receive support for DDI practices. Impact will be analyzed through the progress-monitoring cycle.	Office of Strategic Alignment and Innovation
Instructional Coach PLC and Practicums	Weekly	Practicums occurs after weekly PLC sessions focused on Curriculum, Instruction and Data to ensure that new learning is operationalized in SIG School PLC and classrooms.	Curriculum Assessment and Instruction Staff, District Instructional Specialist, Instructional Technology, Office of Strategic Alignment and Innovation
Learning walks	Monthly	All content directors and supervisors will stagger visits throughout the month, support leadership teams with feedback to teachers, establish action tasks, and follow up.	Office of Curriculum, Assessment and Instruction
Priority school principals meetings	Monthly, 2014–15	These meetings offer support and a forum for Priority school principals. Professional development will be tailored to provide just-in-time supports. Examples include support for developing and analyzing data from common formative assessments and training on the DTSDE process.	Office of School Leadership; Office of Curriculum, Assessment and Instruction; Office of Strategic Alignment and Innovation
TLLN	Ongoing	See Section C for a description of strategies to build leadership capacity.	Chiefs of school leadership and assistant superintendent of curriculum, assessment and instruction; SIG principals and leadership teams

Type of Professional Development	Frequency/ Timing	Purpose/Description	Personnel
Progress monitoring meetings	Quarterly, on a rolling basis for schools	These meetings provide school leadership teams with guidance in making data-based school improvement decisions. A data tool will inform progress.	BCSD central office and school teams
DTSDE training	Ongoing	This includes professional development on all aspects of the DTSDE process.	Office of Strategic Alignment and Innovation
Training and support for standards implementation	Ongoing	The district will provide implementation support for teachers and school leaders.	Office of Curriculum, Assessment and Instruction
Target setting for student learning objectives	Ongoing	Teachers will receive ongoing support in writing and setting targets for student learning objectives.	Office of Talent Management Office of Strategic Alignment and Innovation

E. District External Partner Recruitment, Screening, and Matching

i. Selection Process

Describe the rigorous process and formal LEA mechanisms for identifying, screening, selecting, matching, and evaluating external partner organizations that are providing support to this Priority school.

ii. Budget Timelines

Describe the LEA processes for procurement and budget timelines (or any modifications to standard processes) that will ensure this Priority School will have access to effective external partner support prior to or directly at the start of the year-one implementation period.

iii. District and Principal Roles

Describe the role of the district and the role of the school principal in terms of identifying, screening, selecting, matching, and evaluating partner organizations supporting this school. Describe the level of choice that the school principal has in terms of the educational partners available and how those options are accessible in a timeline that matches the preparation and start-up of the new school year.

During previous planning processes for SIG grants, schools indicated that they needed assistance in selecting effective service providers. In response to this need, the district established a list of providers that offer necessary services. Priority schools are required to select providers from this list. We refined the system by including more stakeholders in the review process and expanding the number of providers. Representatives from Priority schools in SIG Cohorts 4 and 5 were asked to participate in the reviews.

To establish effective turnaround partnerships, BCSD released an RFP on September 12, 2013 (responses due on October 15), and again on November 22, 2013 (responses due on December 11), to attract bids for several types of instructional services. (See Table 2 for a detailed timetable.) District personnel and principals provided suggestions for potential partners or providers. In some cases, potential partners had a previous or current relationship with a school. Twenty proposals were received in response to the RFPs. A rubric and rating sheet were developed, and reviewers represented a cross-section of district stakeholders, including district personnel, principals, and community leaders. (See Attachment D8)

Prior to reviewing proposals, reviewers were given the opportunity to examine the RFP and a chart that outlined the submissions. The reviewers also received an explanation of how to use the rubric and what to look for while reviewing. The completed rubrics were collected and tabulated. A final list of the twenty providers is attached (Attachment D9). On January 21, 22, 30, and 31, 2014, the district hosted vendor demonstration days so that Priority school leaders would have an opportunity to learn more about each vendor. The RFP process will be repeated so that the vendor list evolves and schools can find partners that fit their changing needs.

Table 2. Timetable of Partner Recruitment, Screening, and Matching for the 2014–15 School Year

Date	Activity
September 12, 2013 (RFP closed October 15, 2013)	RFP was released: <ul style="list-style-type: none"> • Posted on website • Distributed through normal RFP channels • Shared directly by schools with potential partners
November 15 and November 18, 2013	Schools in Cohorts 4 and 5 were invited to review and rate submitted proposals.
November 22, 2013 (RFP closed December 11, 2013)	New RFP was released: <ul style="list-style-type: none"> • Posted on website • Distributed through normal RFP channels • Shared directly by schools with potential partners
January 2014	<ul style="list-style-type: none"> • Schools in Cohorts 4 and 5 were invited to review and rate submitted proposals. • Materials on providers shared with Priority Schools. • Vendor Demonstration days held on January 21, 22, 30, and 31, 2014 for schools to meet vendors.
February 2014	District and school staff meet with approved providers and finalize selections.
March 2014	Schools finalize scope of work and proposed budgets.
April 2014	Partners' budgets and scopes of work reviewed by district staff.
May 2014	Partners' budgets and scopes of work are submitted to the school board for approval.
June 2014	Contracts are finalized with partners.

F. District Enrollment and Retention Policies, Practices, and Strategies

i. Enrollment Similarities and Differences

Identify and describe similarities and differences in the school enrollment of SWDs, ELLs, and students performing below proficiency in this Priority School as compared with other schools within the district. Discuss the reasons why these similarities and differences exist.

ii. Policies and Practices

Describe the district policies and practices that help to ensure SWDs, ELLs, and students performing below proficiency have increasing access to diverse and high quality school programs across the district.

iii. Priority School Enrollment

Describe specific strategies employed by the district to ensure that Priority schools in the district are not receiving or incentivized to receive disproportionately high numbers of SWDs, ELLs, and students performing below proficiency.

Enrollment

As shown in Table 3, enrollment of students with disabilities (SWDs) at Priority schools for the Cohort 5 SIG application hover around the district average of 19 percent. Twenty-eight schools in BCSD have percentages of students with disabilities that are lower than the district average. Thirteen schools (five of which are Priority schools) have the same percentage or higher. Each school follows the District's continuum of services to ensure that students with disabilities are in the least restrictive environment possible in their respective schools.

Table 3. School Enrollment Characteristics

Priority School	Enrollment	Percentage of ELL Students	Percentage of SWDs	Percentage Below Proficiency in ELA	Percentage Below Proficiency in Mathematics
3	700	28.9%	15.5%	93.1%	96.2%
17	412	0.5%	28.2%	93.0%	90.3%
30	792	38.1%	18.9%	92.7%	95.7 %
74	506	0.8%	21.9%	97.4%	98.4%
94	831	31.8%	17.2%	95.2%	94.7%
97	461	0.0%	24.5%	96.2%	96.2%
99	756	11.8%	21.8%	96.2%	96.6%

Students with limited English proficiency represent 13 percent of BCSD's total enrollment. However, freestanding English as a second language (ESL) and bilingual programs are consolidated in select district elementary schools to provide program continuity and monitoring and to facilitate the provision of professional development, extended learning opportunities, and native-language supports for students and families. Having an ESL team in a school building allows for more collaborative planning and teaching and allows schools to implement a "push in"

rather than a “pull out” model of instruction to students who speak a language other than English. In order to expand staff expertise in ESL services, district leaders are working in partnership with Niagara University under a Teacher and Leader Quality Partnership grant to help teachers obtain a second certification in ESL.

The district average for students performing below proficiency is 72.2 percent in ELA and 76.3 percent in mathematics. For the Priority schools identified in Table 6, these percentages exceed the district average by between 5 and 15 percentage points.

Policies and Practices Ensuring School Access

Students with disabilities who need RR/CT/ICT services have school choice, as do all other district students. Special education students, with the exception of New York State Alternate Assessment students, are accessing the general curriculum. All students with disabilities have the opportunity to take the entrance examinations for criteria-based schools and may attend if they meet the criteria. Each school in BCSD offers some level of service for students with disabilities. Students in Grades K–8 have access to response to intervention programming.

The district ELL policy outlines BCSD’s commitment to ensuring equitable educational opportunities for ELLs, beginning with appropriate identification and placement. In addition, BCSD’s CR Part 154 plan outlines its assurances with regard to the education of ELLs. BCSD concentrates bilingual and freestanding ESL programs in a limited number of elementary schools to maintain program quality; provide continuity from grade to grade; and target supports such as professional development, extended-day programs, and native-language supports. However, ELLs have access to all district high school programs. ESL services are provided at all district high schools with enrolled ELLs. (City Honors does not have any ELLs enrolled.)

Strategies to Address Disproportionality

Because more than 45 percent of BCSD schools are Priority schools, we must broaden and differentiate our approach to serving them. We know that in a district of this size, it is critical for schools to have the supports they need to implement their plans effectively while meeting district, state, and federal requirements. As part of a strategic planning process, the district superintendent is working to coordinate the strategies set forth in the Race to the Top systemic supports grant, SIG plans, and other plans, to ensure that all grants and programs operating in BCSD focus on increasing access to diverse and high-quality school programs for the district’s lowest performing students.

Two years ago, the associate superintendent for educational services, Dr. Will Keresztes, designed and implemented a plan for enrollment equity. The two schools with the highest percentage of SWDs were targeted to reduce that percentage, and the three schools with the lowest percentage were targeted for an increase. This has been successful in four of the five schools. In addition, this plan requires that consideration always be given to the percentage of students with disabilities when opening or closing classrooms. The placement office and special education administrators carefully consider the continuums in each building. Students with disabilities are encouraged to take entrance examinations for criteria-based schools regardless of their current level of service. There are no incentives in BCSD for taking SWDs.

With respect to ELLs, BCSD has formed a Multilingual Principal’s Task Force, which has been engaged in a strategic planning process that will be incorporated into the overall district strategic

plan. In addition, the director of multilingual education and her staff are participating in a statewide ELL leadership team that is working with the NYSED associate commissioner for ELLs to address issues that affect ELL populations throughout the state.

Student placement also is a Priority area for the district's Multilingual Education Advisory Committee plan. The plan includes action items related to student placement, including the development of an algorithm that will close out ELL enrollments when enrollment reaches an established percentage in all ELL program sites. Non-Priority schools are being identified for expansion of ESL programs.

G. District Level Labor and Management Consultation and Collaboration

i. Consultation and Collaboration

Describe in detail the steps that have occurred to consult and collaborate in the development of the district and school-level implementation plans.

ii. Form

Please see Consultation and Collaboration Form

The BCSD process to develop plans for each Priority school emphasizes consultation and collaboration with school leadership and teachers.

On October 15, 2013, and October 22, 2013, letters were sent home to families notifying them of community meetings scheduled for October 28 and 29 to discuss the SIG application process. Meetings with school staff were held first, followed by separate meetings for community members. The meetings were jointly led by district staff and school leaders. See Attachment D11.

The development of the school-level plans kicked off on November 1, 2013, with a planning session facilitated by AIR and district leadership was attended by teams of leaders and teachers from each school as well as Dennis Licherelli and Deana Fox from the Buffalo Teachers Federation (BTF) and Crystal Boling-Barton of the Buffalo Council of Supervisors and Administrators. In addition, each team at this session included a parent representative.

During the months of November, December, and January, AIR representatives worked with school teams and district staff to develop school-level SIG plans. On Monday, January 27, district staff asked principals to schedule two meetings with stakeholders to review the draft plans. The purpose of the first meeting is for stakeholders to provide feedback on the draft school plans. The purpose of the second meeting is to allow stakeholders to review the final drafts. The meeting schedule appears in Table 4.

Table 4. Meeting Schedule for Review of School Plans

School	Meeting – Draft of Plan	Meeting – Final Plan
#3	February 13 th , 2014 5-7 PM	February 26, 2014 @ 8:30 AM
17	February 11 th , 2014 3:45 PM (faculty meeting) February 12 th , 2014 3:45 PM (community meeting)	February 26, 2014 @ 4:30 PM
30	February 13 th , 2014 @ 4:00 PM	February 24, 2014 @ 5:30 PM
74	February 13 th , 2014 @ 6:15 PM	February 25, 2014 @ 5:00 PM
94	February 13 th , 2014 @ 5-7 PM	February 25, 2014 @ 4-6 PM
97	February 13 th , 2014 @ 10:00 AM	February 25, 2014 @ 3:45 PM
99	February 13 th , 2014 @ 4:30 PM	February 24, 2014 @ 4:30 PM

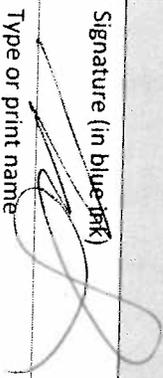

On Friday, February 7, first drafts of school plans were delivered for review by district and school staff and other stakeholders. On Monday, February 10, 2014, district staff delivered updated school narratives to each principal and informed principals that BTF President Phil Rumore asked for copies to be provided to the BTF delegate chairs for review. Principals were

specifically asked to share the draft with them. On Tuesday, February 11, follow-up e-mails were sent, asking each school principal to obtain appropriate signatures on the Parent Group President/Lead form.

Attachment A – Consultation and Collaboration Documentation Form

The U.S. Department of Education School Improvement Grant guidelines, under Section 1003 (g) require LEAs to consult and/or collaborate with various groups in the development of this SIG application. This form must be completed and submitted to NYSED as a part of this complete SIG application in order to document that appropriate consultation/collaboration has occurred or was attempted with constituency groups as follows:

1. Representatives of constituency groups who sign the form under their name/title are affirming that appropriate consultation has occurred. (The signature does not indicate agreement).
2. For representatives or constituency groups who have consulted with the LEA but whose signatures are unobtainable, supporting documentation providing evidence of consultation and collaboration efforts (e.g., meeting agendas, minutes and attendance rosters, etc.) must be maintained by the LEA and a summary of such documentation must be completed in the "Summary Documentation" box and submitted to NYSED on this form.

Principals Union President / Lead Signature (in blue ink)  Type or print name Crystal Barton Date 2/13/14	Summary Documentation if Signature is Unobtainable If the signature of the constituent identified above is unobtainable, provide a summary and description of the supporting documentation that provides evidence of consultation and collaboration on the Priority School Identified in this SIG application.
Teachers Union President / Lead Signature (in blue ink)  Type or print name Philip Rumore Date 27 Feb 2014	Summary Documentation if Signature is Unobtainable If the signature of the constituent identified above is unobtainable, provide a summary and description of the supporting documentation that provides evidence of consultation and collaboration on the Priority School Identified in this SIG application.
Parent Group President / Lead Signature (in blue ink) Date	Summary Documentation if Signature is Unobtainable If the signature of the constituent identified above is unobtainable, provide a summary and description of the supporting documentation that provides evidence of consultation and collaboration on the Priority School Identified in this SIG application.
Type or print name	

#99 Stanley M. Makowski ECC

Attachment A – Consultation and Collaboration Documentation Form

The U.S. Department of Education School Improvement Grant guidelines, under Section 1003 (g) require LEAs to consult and/or collaborate with various groups in the development of this SIG application. This form must be completed and submitted to NYSED as a part of this complete SIG application in order to document that appropriate consultation/collaboration has occurred or was attempted with constituency groups as follows:

1. Representatives of constituency groups who sign the form under their name/title are affirming that appropriate consultation has occurred. (The signature does not indicate agreement).
2. For representatives or constituency groups who have consulted with the LEA but whose signatures are unobtainable, supporting documentation providing evidence of consultation and collaboration efforts (e.g., meeting agendas, minutes and attendance rosters, etc.) must be maintained by the LEA and a summary of such documentation must be completed in the "Summary Documentation" box and submitted to NYSED on this form.

derived from six subject areas, with a powerful emphasis on inquiry-based learning. The PYP is flexible enough to accommodate the demands of the New York State curriculum and provides the best preparation for students to engage in the IB Middle Years Programme in secondary schools across the Buffalo City School District (BCSD). Through full implementation of the PYP curriculum framework and approach to teaching and learning, our students will inquire, make connections, develop conceptual understanding, think critically, work collaboratively, consider multiple perspectives, construct meaning, reflect, take action. The IB Program will be used to improve the rigor of our curricula. Unlike traditional academic formats in which teachers lecture to students, students at Stanley Makowski will constantly be involved in using critical thinking skills. Fully adopting the PYP curriculum framework will support teaching and learning that leads to improved student outcomes.

- **Supporting and nurturing the whole child.** School 99 will enhance a number of support services already in place at our schools. We seek to be a place where academics, health and social services, youth and community development, and community engagement lead to improved student learning, stronger families, and healthier communities. Through continued partnerships with community organizations, we will offer a range of supports and opportunities to students and families to ensure that students attend school consistently, students are actively involved in learning, families are increasingly involved with their children's education, and our school is engaged with families.
- **Generation Ready.** Generation Ready will work with the school principal, leaders, and teachers to provide customized, job-embedded, targeted professional development using evidence-based practices. Through this partnership, we will develop effective teachers in every classroom. Our staff will learn to implement evidence-based instructional practices through workshops, individualized coaching, and modeling of practices. Generation Ready introduces new strategies for teaching, demonstrates how strategies work, supports leaders and teachers as they practice the strategies, and observes teachers as they practice independently.
- **Teacher Collaboration.** Teacher collaboration at School 99 will include regular common planning time or grade-level team meetings for one hour per each six-day cycle. This time will be used to ground teacher work in the anchor standards of the CCLS, conduct test- or task-in-hand analysis of common formative assessments, and reflect on and share instructional strategies reflective of the shifts required by the CCLS. With targeted one-on-one and group support from the instructional coach and coaches from our chosen partner, Generation Ready, teachers will use this time to develop their capacity to use high-impact, engaging, and differentiated instructional practices to meet student needs.
- **Curriculum development and alignment.** The instructional staff and leadership will ensure that the taught curriculum (e.g., texts selected, instructional materials used, tasks assigned) incorporates the CCLS and reflects the necessary instructional shifts. Teacher teams will use a backward mapping process to develop guiding curricular documents (e.g., curriculum maps, scope and sequence, units of study) that are horizontally aligned to IB's six transdisciplinary themes and vertically aligned from one grade to the next.

B. Assessing the Needs of the School Systems, Structures, Policies, and Students

i. School-Level Baseline Data and Target-Setting Chart

Please see Attachment B for the School-Level Baseline Data and Target-Setting Chart.

ii. Student Population

Stanley Makowski Early Childhood Center has an approximate enrollment of 815 students in Grades PK–4. Of these students, 92.1 percent qualify for free or reduced-price lunch. Our student population includes 0.7 percent American Indian or Alaska Native, 76.7 percent black or African American, 5.6 percent Hispanic or Latino, 8.7 percent Asian, 5.4 percent white, and 2.8 percent multiracial students. Nearly 12 percent (11.8 percent) of students have limited English proficiency. Students with disabilities make up 20.4 percent of the population. There are eight special education classes and five integrated collaborative teaching classes.

Table 1 provides a detailed overview of student academic performance, as assessed by the New York State Testing Program in English language arts (ELA), mathematics, and science. The table below includes the percentage of students who were proficient or exceeded standards for their grade; the table further breaks down student performance indicating the number of students in each subgroup to meet or exceed grade-level and content area standards.

	Grade 3 ELA	Grade 3 Mathematics	Grade 4 ELA	Grade 4 Mathematics	Grade 4 Science
Total	5.6 %	6.1 %	2.3 %	0.7 %	
Male	4	6	0	1	53
Female	3	2	3	0	40
American Indian or Alaska Native	0	0	0	0	0
Black or African American	6	7	2	1	80
Hispanic or Latino	0	0	0	0	2
Asian or Native Hawaiian/ Other Pacific Islander	0	0	0	0	6
White	1	1	1	0	2
Multiracial	0	0	0	0	3
Students with disabilities	0	1	0	0	18
Limited English proficient	0	0	0	0	6

iii. Diagnostic School Review Process

The systemic, in-depth diagnostic school review of Stanley Makowski Early Childhood Center was conducted using the Diagnostic Tool for School and District Effectiveness (DTSDE). This on-site review compares a school and district's practices to the optimal conditions for learning, as defined by the DTSDE rubric, and provides an evaluative understanding of how the entire school community is functioning to address student achievement. BCSD led the DTSDE review process with support from outside educational experts.

School 99 fully participated in the DTSDE process in May 2013. The review process focused on three tenets: school leader practices and decisions, curriculum development and support, and teacher practices and decisions. All findings and specific recommendations from the review were shared with the school staff. DTSDE recommendations are being used to guide the professional development and curriculum goals for the current year.

In addition, a team of school leaders reviewed and discussed school review data at the BCSD School Improvement Grants (SIG) meeting on November 1, 2013, facilitated by American Institutes for Research. This team worked together to assess the strengths and systemic needs that emerged from review data in the following areas: (1) student social and emotional developmental health, and (2) family and community engagement. This meeting also included a facilitated session during which the team began to articulate a shared vision for SIG schools and how they will look at the end of the SIG implementation period in 2017.

As a result of this diagnostic review, the school community gained a thorough understanding of the critical strengths, needs, and system gaps that were used to drive the development of this transformation plan and what steps will lead to dramatic improvement in student achievement.

iv. Existing School Capacity, Strengths, and Needs

The following strengths and existing capacity, as well as systemic gaps and needs, were reported in the DTSDE School Final Report and identified during the district SIG meeting:

School Leader Practices and Decisions

A clear vision for student achievement, well-being and citizenship, grounded in the philosophy, beliefs and practices of the International Baccalaureate program, is uniformly shared and embraced by the school community. Structures and systems to support an environment of continuous improvement toward this vision are evident throughout the school community. A sense of ownership and pride in the mission of creating inquiring, knowledgeable and caring world citizens is present in the school culture. (DTSDE, May 2013, p. 6)

Curriculum Development and Support

A rich International Baccalaureate philosophy and set of practices serve as the foundation for the development of curriculum in the school. This curriculum, guided by the focus on inquiry, questioning and student engagement in big ideas and authentic questions, requires students to engage in the same deep-thinking identified in the CCLS. However, school-wide implementation of rigorous CCLS units that emphasize deep reading, writing and mathematical practices are not evident in the current curriculum. This impacts the teacher's ability to immerse students in

learning experiences with the necessary rigor and complexity to close achievement gaps and to address modifications for subgroups that prepare all students to become college and career ready. (DTSDE, May 2013, p. 9)

Teacher Practices and Decisions

Instructional practices in the classroom are aligned to standards and promote varying levels of student engagement and learning. The gap between what students know and need to learn so that all students succeed and become the inquirers, thinkers and global citizens the school strives for in the International Baccalaureate program will require a more intentional focus on the reading, writing and thinking skills identified in the CC Instructional Shifts in ELA/ Literacy and mathematical practices. While team structures to promote the sharing of best practices, data-driven analysis and professional learning to inform instructional practices are in place, teacher practices that promote deep analysis, rigor of higher-level thinking and student engagement that foster college and career readiness are not sufficiently evident in observed classroom practices. (DTSDE, May 2013, p. 12)

v. How the School and BCSD Will Prioritize Identified Needs During Implementation

The systematic school review enabled School 99 to identify connections between systems gaps and student achievement and to prioritize critical needs that, when addressed, will accelerate student performance and growth. Using a consensus decision-making process that values all voices and requires the team to come to full agreement, the team identified the following priority needs:

- **Vertical alignment and all-subject integration.** There is a need for more focused and structured opportunities for vertical planning, curriculum alignment, and interdisciplinary focus across elementary grade levels and subject areas, including art, music, and physical education.
- **Writing.** Teachers need targeted professional development for the purposes of increasing instructional capacity and effectiveness with respect to teaching the writing process and developing student writing skills and competencies that meet the CCLS.
- **Monitoring impact and effectiveness of training and professional development.** A robust system is needed to monitor the effectiveness and overall impact of professional development and instructional coaching at all levels. This must go beyond initial training and include tools and strategies for effectively monitoring impact on individual teachers.
- **Community partnerships.** A thorough review of our existing partnerships must take place, and decisions must be made to improve them. Potential new and beneficial partnerships must be explored.
- **Supports for English language learners (ELLs).** English as a second language resources need to be maximized for affected students, and all teachers need further training in the Sheltered Instruction Observation Protocol.
- **Parent and community engagement.** The school needs to function as a resource for the parents and community so that it can be a “one-stop shop” to address and meet the academic, health, and emotional needs of all students and their families. The

establishment of the early childhood center as an initial stepping stone to college and career readiness is paramount.

These priority needs are reflected in the goals for the SIG period. To realize the vision of this transformation plan, Stanley Makowski Early Childhood Center will maintain a tight focus on these priority needs. All members of the school community understand the core development areas and are invested in the changes that must occur.

A. School Overview

i. Mission, Vision, and Goals

At Stanley M. Makowski Early Childhood Center, our mission is to develop inquiring, caring, and knowledgeable young people who become lifelong learners and help create a better, more peaceful world. The commitment to our mission is reflected in the following essential beliefs:

- Every child deserves a safe, caring, and nurturing environment.
- All children can learn, given the necessary resources and support.
- Learners will flourish in an environment that recognizes, respects, and celebrates diversity.
- Staff, families, and students are accountable for the success of all learners.
- Continuous staff development in research-based practices is the basis for implementing change in our instructional program.

It is our goal to establish a rigorous academic community where all learners feel supported. As an International Baccalaureate (IB) school, Stanley Makowski has a vision of becoming a community resource where all are enabled to learn through the establishment of an inquiry-based and rigorous academic community, where all feel supported in the development of lifelong learners who are prepared to have a positive impact on the international community.

Our vision for improvement is reflected in our commitment to alignment, achievement, action, and innovation. The goals of our proposed model, to be achieved at the end of three years of implementation, include the following:

- Develop a rigorous instructional program in all core courses that is aligned with the Common Core Learning Standards (CCLS) and inquiry based.
- Implement a student-centered approach to academic, social-emotional, and developmental support.
- Provide and engage in regular, job-embedded professional learning experiences designed to improve teacher use of instructional practices that are reflective of the instructional shifts required by the CCLS and that reflect differentiation for students based on data.

All of our IB and CCLS planning and instructional practices will be aligned so that all activities are reflective of our work toward our achievement goals, mission, and essential beliefs. This alignment also will be demonstrated by direct observation of teaching and learning and measurable evidence. In addition, our inquiry philosophy must shift fully into action-oriented strategies, activities, monitoring, and reflective practices. When we reach this level of capacity in our teaching and leadership, then we truly become innovative and impactful.

ii. Key Design Elements, Core Strategies, and Key Partnerships

We have identified the following key design elements and core strategies to achieve our vision, mission, and goals:

- **IB Primary Years Programme.** The Primary Years Programme (PYP) is a curriculum framework designed for students ages 3 to 12. It focuses on the development of the whole child as an inquirer, both in the classroom and in the world beyond. It is defined by six transdisciplinary themes of global significance, explored using knowledge and skills

C. School Model Selection and Rationale

i. Rationale for Transformation Model, Key Design Elements, and New School Design

After reviewing the required elements, the district selected the transformation model for this particular school community because it is believed that this model will best position School 99 to succeed in dramatically improving student achievement. The theory of action of the transformation model states that the existing configuration of leadership and instructional personnel has not created a learning environment where students are succeeding. To dramatically change the environment for the benefit of the children currently enrolled in the school, the adults must change. Under the transformation model, change entails a change in leadership, as well as behavioral changes by instructional personnel. These changes required by the transformation model are addressed by BCSD's "Three Big Rocks" for school and district improvement:

- **Instructional leadership**, specifically the observation of instruction and effective feedback to nurture the best possible teaching in every classroom
- **Data-driven instruction**, or using data to continuously improve teaching
- **Fostering collaboration** through the effective facilitation of professional learning communities (PLCs) focused on student achievement

As mentioned in the District Overview, these Three Big Rocks were adopted to address common needs across the district's lowest performing schools. However, when operationalized at the school level in concert with the key design elements, they address the specific needs of the students and school community at School 99, as identified during the needs assessment.

Effective visionary leadership from the principal is almost always present in successful reform efforts. BCSD's "Three Big Rocks" provide a framework for priority management for principals as they focus on what truly makes a difference in school leadership. For the principal, the following are the highest priority activities for bringing all students to high levels of achievement:

- Make daily time in classrooms a priority.
- Clearly articulate and recognize the instructional shifts in practice, and provide feedback to teachers on instructional practices that are more aligned with the CCLS, including a close focus on the needs of ELLs as defined by the Bilingual Common Core Progressions.
- Create time for grade-level and content-area teams to ground their work in the anchor standards.
- Guide the management of school schedule, teacher professional development, and school culture to ensure interim benchmark assessments, teacher test- and task-in-hand analysis meetings, and teachers thoughtfully reteaching or adjusting practice based on analysis of student progress.

Our systematic in-depth review process revealed a need for schoolwide implementation of rigorous CCLS units that emphasize deep reading, writing, and mathematical practices, which

are not evident in the current curriculum. This lack impacts teachers' ability to immerse students in learning experiences with the necessary rigor and complexity to close achievement gaps and to address modifications for subgroups that prepare all students to become college and career ready. In addition, although unit plans have been developed these unit plans do not reflect the criteria for CCLS alignment identified in the Tri-State Rubric. Nor do they meet the expectations for rigor, text complexity, evidence-based writing, and explicit teaching of mathematical practices outlined in the CCLS.

Instructional practices in the classroom are aligned to standards and promote varying levels of student engagement and learning. However, the gap between what students know and what they need to learn so that all students succeed and become the inquirers, thinkers, and global citizens will require a more intentional focus on the reading, writing, and thinking skills identified in the Common Core instructional shifts in ELA/literacy and mathematical practices. Although team structures to promote the sharing of best practices, data-driven analysis, and professional learning to inform instructional practices are in place, teacher practices that promote deep analysis, higher-order thinking skills, and student engagement to foster college and career readiness are not sufficiently evident in observed classroom practices.

At the heart of our program rests our commitment to exemplary instruction as an IB World School. After much consideration, School 99 leaders have chosen as a curricular guide the IB PYP Program because these programs most accurately reflect the global focus that we seek in our curriculum design. This program will further raise the level of academic responsibility for our students and will serve as an important indicator of our students' preparedness for success in middle school, high school, college and the global workplace. The IB Program model supports School 99's commitment to meet our goals of developing a rigorous, inquiry-based instructional program in all core courses; and implement a student-centered approach to academic, social-emotional and developmental support. It will provide consistently rigorous learning experiences from grade-to-grade. Second, it will provide a sustained school culture that will guide all aspects of the school community.

The transformation model and key design elements will allow the school more time to see progress from the newly implemented support of instructional coaches, recently adopted curricular programs, and other initiatives. The adoption of the "Three Big Rocks" provides not only a framework for improved and focused leadership but also a structure that supports the improvement of teaching practice. Schools that have achieved the most success reveal what the leaders of School 99 have long understood: that a group of high-quality educators given the opportunity to work as a team can overcome a great many obstacles. Multiple studies have shown that masterful teaching repeated year after year in a student's development trumps the disadvantages of socio-economic status and bridges racial achievement gaps. The transformation model allows current staff to remain in place, while engaging in ongoing, job-embedded professional development designed to build their skills and capacity. This includes observation of teaching practices with specific, actionable feedback. Teachers will use a variety of data sources, including screening, interim assessments, and progress monitoring, to inform lesson planning based on students' strengths and needs, conduct test- and task-in-hand analysis, and reteach or adjust teaching practice based on analysis of student progress against the CCLS.

ii. Process by Which Model Was Chosen

The district began its model-selection process by developing a school profile that included the characteristics of Stanley Makowski and its students, leader background and core competencies, and instructional staff profiles. The district then conducted an assessment of the supply of external partners or providers available to lead the effort. BCSD gave additional consideration to district policies and collective bargaining agreements that currently address, limit, create barriers, and provide support for each of the intervention models.

BCSD then sought to identify the improvement strategy that would yield the most immediate and substantial gains in learning and school success for students now attending this school. Our evaluation was based on findings of the school review that was conducted by an integrated intervention team and of the needs assessment that was conducted in conjunction with a school-based management team.

The following questions guided the selection of the intervention model:

- How will the district support the school leader in making and sustaining strategic staff replacements?
- What is the district's own capacity to support the transformation, including the implementation of required, recommended, and diagnostically determined strategies?
- What changes in decision-making policies and mechanisms (including greater school-level flexibility in budgeting, staffing, and scheduling) must accompany the transformation?
- How will the district support the new leader in determining the changes in operational practice (including classroom instruction) that must accompany the transformation, and how will these changes be brought about and sustained?

Based on recommendations from the state-appointed distinguished educator Judy Elliot, BCSD has developed a district-level strategic plan that fully supports the requirements of the transformation model, including the following:

- Recruiting and hiring school leaders with the experience, training, and skills needed for dramatic school improvement
- Selecting and implementing an instructional model based on student needs
- Implementing district- and schoolwide systems to ensure the continuous use of data to inform and differentiate instruction
- Providing sufficient operational flexibility, including moving toward a decentralized, school-based system of professional development and budgeting
- Conducting monthly principal meetings for Priority school principals in order to build skill and capacity to use data to drive instructional decisions and to create opportunities for schools to break out by level (elementary, middle, high school)
- Building autonomy and authority for principals to make on-site, data-based decisions to accelerate improved student outcomes
- Reorganizing the district and implementing a district-level systemic supports grant to ensure ongoing technical assistance

D. School Leadership

i. Characteristics and Core Competencies of the School Principal

To ensure that School 99 will be transformed into a culture of learning and high student success, BCSD has identified specific leadership competencies for turnaround principals to successfully produce dramatic gains in student achievement. These competencies are outlined in *School Turnaround Leaders: Competencies for Success*¹ and address four major categories:

- **Driving for results cluster.** This cluster of competencies is concerned with the turnaround leader's strong desire to achieve outstanding results and the task-oriented actions required for success. Competencies in this cluster include:
 - Achievement
 - Initiative and persistence
 - Monitoring and directiveness
 - Planning ahead
- **Influencing for results cluster.** This cluster of competencies is concerned with motivating others and influencing their thinking and behavior to obtain results. Turnaround leaders cannot accomplish change alone but instead must rely on the work of others. Competencies in this cluster include:
 - Impact and influence
 - Team leadership
 - Developing others
- **Problem-solving cluster.** This cluster of competencies is concerned with a turnaround leader's thinking applied to organizational goals and challenges. It includes data analysis to inform decisions, making clear logical plans that people can follow, and ensuring a strong connection between school learning goals and classroom activity. Competencies in this cluster include:
 - Analytical thinking
 - Conceptual thinking
- **Showing confidence to lead.** This competency, essentially the public display of self-confidence, stands alone and is concerned with staying visibly focused, committed, and self-assured despite the barrage of personal and professional attacks common during turnarounds.

In addition to the competencies that have been proven to cause principals to be successful, the principal must zero in on the highest priority activities that in turn lead to better outcomes. The

¹ Public Impact. (2008). *School turnaround leaders: Competencies for success*. Chapel Hill, NC: Author. Retrieved from http://www.publicimpact.com/publications/Turnaround_Leader_Competencies.pdf

district has identified “Three Big Rocks,” or actions that will lead to high levels of achievement for all students:

- **Instructional leadership.** In order to meet the needs of the school and produce dramatic gains in student achievement, the principal must nurture the best possible teaching in every classroom through a cycle of observation and feedback. The principal must make daily time in classrooms a priority by spending one to three hours per day in classrooms collecting evidence and sharing evidence-based feedback with teachers on daily instructional practices to more closely align with the CCLS, including a close focus on the needs of ELLs as defined by the Bilingual Common Core Progressions.
- **Data-driven instruction.** The principal will use data to continuously improve teaching. This includes using end-goal tests, common formative assessments, progress-monitoring data, and other data to guide the management of the school schedule, teacher professional development, and school culture. The principal also will ensure that teachers and staff conduct test-in-hand analysis meetings and reteach or adjust teaching practice based on analysis of student progress against the CCLS.
- **Fostering collaboration.** The principal will foster constant sharing of ideas and resources through teacher collaboration within and across grades and subjects, to provide all students with access to a robust curriculum. The principal will create and protect time for grade-level and content-area teams to ground their work in the anchor standards.

ii. School Principal Biography

A native of Rochester, New York, William Boatwright received his B.A. in English with a minor in secondary education from St. John Fisher College in Rochester. Upon graduation, Boatwright was hired an English teacher at Thomas Jefferson Middle School in the Rochester City School District. In 2000, he became a founding staff member at the Charter School of Science and Technology. In 2002, he was promoted to his first administrative role, academy director, supervising instruction and school operations for students in the primary and junior grades at the Charter School of Science and Technology. In 2005, Boatwright earned his second degree, an M.S. in educational administration. He was awarded a Distinguished Leadership Award for his work in the graduate program.

From January 2005 to June 2006, Boatwright served as principal of Stepping Stone Academy Charter School in Buffalo, New York, a school in academic jeopardy. Under his direction, the school’s culture improved and student performance on state assessments increased during the final portion of its charter.

In February of 2008, Boatwright joined BCSD as an assistant principal at Bennett High School. In the summer of 2008, he was appointed principal of Harriet Ross Tubman School (PS 31), where he served for five years. In the fall of 2009, the school was removed from the state’s list of underperforming schools and was designated a school in good standing. In 2012 and 2013, the school received recognition for significantly improving student attendance. After serving at Tubman for five years, Boatwright assumed leadership at the Stanley Makowki Early Childhood Center in August 2013.

In addition to his principal work, Boatwright continues to stay active in the community and in education circles, serving as a participant on various committees and regularly giving presentations and workshops on various topics. His educational philosophy centers around two principles: the moral responsibility to do what is right by students and the establishment of order and structure to facilitate effective teaching and learning.

See Attachment S1- Up-to-date Resume

iii. Supporting Leadership Positions—Job Descriptions and Duties

See Attachment S2- Assistant Principal Job Description and Duties

iv. Current Supporting Leadership Profile

The supporting leadership at School 99 consists of an assistant principal, IB coordinator, and instructional coach. The in-depth diagnostic review process revealed that leadership practices and decisions at School 99 are effective. The supporting leadership supports the principal in establishing a clear vision for student achievement, well-being, and citizenship, grounded in the philosophy, beliefs, and practices of the IB program. The supporting leadership team has been instrumental in creating structures and systems to support an environment of continuous improvement toward the school's vision. The building leadership team met during the summer to review and analyze the New York State mathematics and ELA assessment data and Grades 1 and 2 Terra Nova data using the data-driven instruction protocol. This leadership team meets weekly throughout the year to look at data and to establish school goals. In addition, this group shares information about grade-level meetings and reflects on school decisions and plans. A new school leader was hired this year, and a plan was developed to use two school leaders, each with a different focus: One was assigned to oversee student support, attendance, and behavior management; the other oversees curriculum and instruction to ensure a constant focus in this area. The goal of this approach is to ensure that teachers receive the coaching and direction they need to shape classroom practice.

- Lead data analysis, data-driven dialogue and action planning with grade-level teams in order to continuously improve student performance and curriculum implementation.
- Direct and manage components of School Comprehensive Educational (SCEP) plan which include ELA, Math, Parental Involvement, and PBIS.
- Conduct regular formal and informal observations of teaching staff along with pre and post-observation conferences according to district and NYS protocols.
- Maintain effective communication through daily bulletin, written memos, individual conferences, and regular faculty and school based management team meetings.

Harriet Ross Tubman School #31, Buffalo, New York

8/08-8/13

Principal

- Supervise teachers and staff in grades pre-K through 8 in a building of approximately 500 students along with all school operations and procedures.
- Regularly conduct professional development, coaching, and feedback to teachers and grade level teams in the primary areas of explicit instruction strategies, Common Core Learning -Standards, APPR, and SLO implementation, along with individual teacher support based on student performance data and teaching performance.
- Lead data analysis, data-driven dialogue and action planning with grade-level teams in order to continuously improve student performance and curriculum implementation.
- Monitor ongoing student performance data through DIBELS, curriculum assessments, and parallel/practice assessments in order to drive and increase student achievement.
- Oversee and coordinate instructional support efforts of reading/math coaches, building reading and math teachers as determined by teachers' needs and as outlined in the district-wide student achievement plan.
- Conduct regular formal and informal observations of teaching staff along with pre and post-observation conferences.
- Direct and support strategies for student support, discipline, and safety.
- Maintain effective communication through daily bulletin, written memos, individual conferences, and regular faculty meetings.
- Facilitate regular school based planning team meetings.
- Communicate with parents regularly along with coordinating family activities and events with parent liaison and parent volunteers.
- Recognized two years in a row for increasing overall student attendance and daily attendance rate.

Bennett High School, Buffalo, New York

Assistant Principal

2/08-8/08

- Supervised teachers and staff in a community of approximately 300 students, grades 9-12.
- Facilitated and directed activities in the Education & Arts learning community, one of three magnet programs within the high school.
- Assisted teachers in the development and implementation of the inquiry-based and student advisory learning initiative through the Institute for Student Achievement (ISA).
- Served as member of school administrative team in direct support of the building principal and also responsible for regular site-based decisions and planning for effective school operation.
- Conducted formal and informal teacher observations along with providing instructional feedback.
- Maintained effective communication through written memos, individual meetings, and community meetings.

Stepping Stone Academy Charter School, Buffalo, New York

Principal

1/05-8/06

- Led the turnaround and renewal effort of a K-8 charter school which had previously exhibited poor academic performance over its first three years in operation.
- Reformed the teacher appraisal process, which included conducting regular formal observations, classroom support visits, feedback meetings, and written performance appraisals for teachers and staff.
- Created and managed an Instructional Leadership Team that provided ongoing professional development and support for new and developing teachers.
- Directed assessment preparation for staff and students along with providing resources and training for data analysis.
- Oversaw student achievement plan which led to significant improvement of scores on NYS assessments in the final two years of the charter, with 4th graders posting an overall 44% gain in ELA and 53% gain in Math, along with meeting several AYP goals.
- Provided oversight of school systems and improved overall school efficiency, organization, student support, discipline, safety, and emergency response.
- Prepared and presented monthly reports to Board of Trustees and regularly interfaced with school's management company and school oversight committee.
- Successfully operated within the constraints of a school budget, monitored student enrollment, made responsible decisions regarding staffing, resources, and services to the overall benefit of the school.
- Worked successfully with families and planned events with Parent Advisory Council.
- Successfully oversaw closure of school operations when the state made the decision to not renew the school's five-year charter at the end of 2006.

Charter School of Science & Technology, Rochester, New York

Academy Director

10/02-12/04

- Served as member of school administrative team and responsible for regular site-based decisions and plans directly affecting school operation.
- Supervised teachers in grades K-3 & 6-8 academies.
- Conducted formal and informal teacher observations and provided feedback to teachers.
- Facilitated weekly academy meetings that focused on professional development, student support, and assessment preparation.
- Designed and oversaw systems to maximize student transition, movement, and safety.

TEACHING EXPERIENCE:

Medaille College, Buffalo, New York

Visiting & Adjunct Instructor

8/06-12/10

- Taught graduate courses in the School of Education including core instructional practice, early field experience, action research, and diversity.
- Chaired Teacher Education Accreditation Council (TEAC) Committee.
- Advised graduate students and served as course leader for Core of Education class; monitored syllabus, core, and common assignments.

Charter School of Science & Technology, Rochester, New York

English/Language Arts Teacher

8/00-2/03

- Taught 7th & 8th Grade.
- Successfully maintained a positive and structured learning environment.
- Served as Lead Teacher for Junior Academy teachers in all subjects.
- Served as ELA Curriculum Coordinator; 8th grade scores increased 16% over the previous year.

Thomas Jefferson Middle School, Rochester, New York

9/97-8/00

English/Language Arts Teacher

- Taught 7th & 8th grade; improved students' basic skills and developed writing portfolios.
- Effectively managed the classroom and established effective rapport with students in a diverse setting.
- Substituted for House Administrator on several occasions.

COMMUNITY LEADERSHIP & INVOLVEMENT:

Presenter & Speaker, Various Events

9/97-present

- *The Fisher Creed Keynote*, St. John Fisher College, 8/00
- *Preparing for Student Teaching*, Buffalo State College, 10/05
- *Panelist, 2006 Think About Teaching Conference*, Rochester, NY
- *2006 Trio Achievement Celebration Keynote*, Medaille College
- *2006 Honors Convocation Keynote*, Medaille College
- *Perfecting Our Purpose*, Community Action Organization-Buffalo, NY, 1/07
- *Think About Teaching Conference Keynote Presentation*, Rochester, NY, 3/08
- *Panelist, 2013 NYS Senate Reform Committee of Education*, 10/13

E. Instructional Staff

i. Effectiveness Ratings for Staff

Stanley Makowski Early Childhood Center is currently staffed with approximately 60 teachers, 97 percent of whom are fully certified. Approximately one quarter of the instructional staff have master's degrees plus 30 hours or a doctorate. In addition, 97 percent of the personnel are teaching within their certification areas. Only 3 percent of the staff are teaching with fewer than three years of experience. During the 2012–13 school year, the average teacher attendance rate was 92 percent.

The table that follows describes the distribution of teachers based on the school's approved annual professional performance review (APPR) system.

Teacher Rating	Number (N=55)
Highly effective	27
Effective	11
Developing	0
Ineffective	0
Not identified	17

ii. Current School Staffing Profile

As identified during the systematic in-depth diagnostic school review, teachers at School 99 utilize instructional practices in the classroom that are aligned to standards and promote varying levels of student engagement and learning. Schoolwide implementation of rigorous CCLS units that emphasize deep reading, writing, and mathematical practices are not evident in the current curriculum. This impacts the teachers' ability to immerse students in learning experiences with the necessary rigor and complexity to close achievement gaps and to address modifications for subgroups. The gap between what students know and what they need to learn so that all students succeed and become the inquirers, thinkers, and global citizens the school strives for in the IB program will require a more intentional focus on the reading, writing, and thinking skills identified in the Common Core instructional shifts in ELA/literacy and mathematics. Although team structures are in place to promote the sharing of best practices, data-driven analysis, and professional learning to inform instructional practices, teacher practices that promote deep analysis, rigor of higher-order thinking skills, and student engagement to foster college and career readiness are not sufficiently evident in observed classroom practices.

In order to meet the needs of our student population and SIG goals, teachers must demonstrate knowledge of effective instructional practices and strategies organized around annual, unit, and daily lesson plans and promote high levels of student engagement and higher-order thinking. Teachers must provide coherent, appropriately aligned, and CCLS-based instruction that leads to multiple points of access, providing supports and extensions for all students to achieve targeted goals. Teachers must collaborate with colleagues in grade-level and content-area meetings to ground their work in the anchor standards of the CCLS. Our teachers also must use instructional

strategies that stimulate deep levels of thinking and questioning in students through the use of materials that contain high levels of text and content complexity and multiple strategies to provide a wide variety of ways to engage in learning. Our teachers must be able to conduct test-and-task-in-hand analysis and create a plan to reteach or adjust instruction based on that analysis of student progress. Teachers must have the skills to create a safe environment that is responsive to students' varied experiences, is tailored to the strengths and needs of all students, and promotes high levels of student engagement. All staff must be able to use a variety of data sources—including screening, interim assessment, and progress monitoring—to inform lesson planning, develop explicit teacher plans, and foster student participation.

So that teachers may meet the needs of the student population, the school will work to deepen teachers' instructional capacity through regular common planning time and job-embedded professional development in the form of coaching and modeling from the school-based instructional coach and consultants from Generation Ready.

iii. Characteristics and Core Competencies of Key Instructional Staff

Individual teachers have the largest single school effect on student performance. Documented experience also indicates that individual teachers can effect rapid and dramatic student learning improvements within their own classrooms. As BCSD transfers, recruits, and hires teachers, the district will search for and develop teachers with unique characteristics and competencies identified by Public Impact's *School Turnaround Teachers: Competencies for Success*.¹ The four competency clusters represent a consistent pattern of thinking, feeling, acting, and speaking that are essential to teachers' success in turning around School 99:

- **Driving for results cluster.** This competency cluster is concerned with the teacher's strong desire to achieve outstanding student learning results and the task-oriented actions required for success. Major actions include setting high goals for oneself and one's students; making persistent, well-planned efforts to achieve these goals despite barriers and resistance; holding others accountable for doing their part to achieve success; and putting in extra effort to ensure success when others fall short.
- **Influencing for results cluster.** This cluster is concerned with motivating others—students, other school staff, and parents—and influencing their thinking and behavior to improve student learning results. Teachers in school improvement environments will use a variety of influencing tactics—such as inspiring students who have become resistant and apathetic from repeated failure, grasping and responding to unspoken student needs and motivations, and simultaneously supporting and prodding colleagues to collaborate on the path to schoolwide success—as the situation requires. The relationships teachers form are for the purpose of influencing others to enhance student learning, not for the purpose of personal bonding.
- **Problem-solving cluster.** This cluster is concerned with a teacher's approach to planning, organizing, and delivering instruction. It includes analyzing data to determine student learning needs and next steps; considering alternatives for materials, methods, and levels of instruction; making clear, logical, step-by-step plans that both the teacher

¹ Public Impact. (2008). *School turnaround leaders: Competencies for success*. Chapel Hill, NC: Author. Retrieved from http://www.publicimpact.com/publications/Turnaround_Leader_Competencies.pdf

and students can follow; and clarifying the connection between school learning goals and classroom activity.

- **Personal effectiveness cluster.** This cluster is concerned with the teacher's self-management of emotions and personal beliefs that affect student learning. Major elements include exhibiting self-control when faced with stressful, uncomfortable, and unfamiliar situations; maintaining confidence in oneself and a willingness to keep improving despite the many small failures that are likely to accompany such a challenging role; actively embracing the constant changes needed to ensure student learning in a high-challenge, high-change situation; and holding and maintaining a strong belief in the human potential for learning and improvement, despite significant pressure to settle for less.

iv. **Process for Hiring and Placing New Staff**

Teachers selected as turnaround educators will demonstrate evidence of maintaining a model classroom and will have knowledge and experience in using data to inform instruction, planning instruction aligned with standards, and working with students from diverse backgrounds.

Teachers who wish to transfer from another BCSD school to a school implementing a transformation model within this SIG cohort will follow BCSD's "Guideline for Teacher Transfer and Staffing." This process is as follows: (1) The teacher submits a letter of voluntary transfer to the chief academic officer, which results in the teacher's name being placed on the seniority list by Office of Talent Management; (2) the teacher is notified by the supervisor or director of the vacancy; (3) the school principal consults the teacher's personnel file (this step is optional); (4) the principal accepts or declines the teacher. After the voluntary transfer process is complete, the principal will have the ability to hire for positions that are still vacant based on transformation school needs.

BCSD follows established recruitment and hiring guidelines for instructional staff. Opportunities to work with BCSD are posted on the website, announced in local and national publications, and advertised at recruitment fairs. Through these efforts, a pool of qualified candidates is created that is shared with school administrators when vacancies occur. Principals and their teams have the opportunity to interview and recommend candidates for employment. Additional notes about BCSD hiring guidelines include the following:

- The voluntary transfer process allows a teacher to pursue an override to a principal's decision not to accept him or her to fill a vacancy.
- Involuntary transfers are difficult unless documentation in the teacher's file indicates that the teacher's performance is not a good fit for the school's needs. The principal needs to be clear and explicit about expectations for instructional staff at the school when the principal and the teacher are engaged in the transfer conversation.

F. Partnerships

i. Implementation Partners and Their Roles

Generation Ready

A partnership with Generation Ready is critical to successful implementation of the school improvement plan and to the achievement of our SIG goals. This organization has 20 years of experience in raising student achievement and building thriving learning environments. Through our partnership with Generation Ready, we will be able to address one of our most pressing needs, developing our teachers' capacity to utilize instructional practices designed to address the gaps between what students know and what they need to learn so that every single one of our students experiences consistently high levels of engagement, thinking, and achievement. At present, teaching at School 99 is still largely whole group and teacher centered. Although teacher lesson plans reflect the use of data to differentiate instructional groups, classroom practices reveal that instructional practices are not differentiated to meet student needs in those groups.

Generation Ready will work collaboratively with school principals, leaders, and teachers to provide customized, job-embedded, and targeted professional development using evidence-based best practices. The most powerful professional development is directly linked to the classroom. Generation Ready will support our teachers in their daily practices, where it is most meaningful and relevant, focusing on students and how to facilitate learning in the classroom. Generation Ready will use a gradual release of responsibility model, in which coaches introduce new ideas and strategies, demonstrate how these ideas and strategies work, guide teachers as they try for themselves, and provide feedback on teachers' independent attempts.

Kaleida Health School-Based Health Center

As an early childhood center, we seek to be a place where academics, health and social services, youth and community development, and community engagement lead to improved student learning, stronger families, and healthier communities. Through our partnership with Kaleida Health, we will offer a range of supports and opportunities to students and families to ensure that students attend school consistently, students are actively involved in learning, families are increasingly involved with their children's education, and our school is engaged with families. Our school-based health center will provide primary care services, including comprehensive health assessments; diagnosis and treatment of minor, acute, and chronic medical conditions; and nutritional counseling. Mental health services include assessments, crisis intervention, counseling, and referrals as needed. Services are provided by a multidisciplinary team that includes a nurse practitioner, medical assistants, social workers, dietitians, a psychologist, education counselors, and physicians.

The International Baccalaureate (IB)

IB is a nonprofit educational foundation that provides programs to help develop the intellectual, personal, emotional, and social skills that children need to live, learn, and work in a rapidly globalizing world. IB offers professional development that focuses on program delivery. This professional development will emphasize assessment, teaching, and learning methodologies and

will explore best practice in the classroom. The goals of IB's workshops are to enhance the understanding of the IB philosophy and program model and to improve the quality of program delivery. An ongoing partnership with IB addresses the needs identified during the systematic, in-depth diagnostic review. One of the goals of the SIG implementation period is to align the IB curriculum with the CCLS to support more rigorous instruction. Currently, a rich IB philosophy and set of practices serve as the foundation for the development of the curriculum; however, schoolwide implementation of a rigorous curriculum and instruction that requires students to engage in deep reading, writing, and mathematical practices is not evident. This partnership with IB, along with the transformation model, allows us to continue to develop the capacity of our teachers who already have a good understanding and practical experience in the IB PYP curriculum.

ii. Evidence of Partner Effectiveness

Please see Attachment C for the Evidence of Partner Effectiveness Chart.

iii. How External Partners Will Be Held Accountable for Performance

Partner accountability is crucial to the successful implementation of the school improvement plan. With the support of the Office of School Leadership and the Office of Strategic Alignment and Innovation, our school will develop and implement a monitoring and evaluation plan to ensure that the external partner, school, and district implement the key design elements of the SIG plan with fidelity, work together, contribute equally to the partnership, meet goals, and build capacity. The primary goal for this evaluation system is to foster an environment of continuous improvement. The data made available through evaluation will be used by the school, district, and provider to review and renew—on an ongoing basis—the approaches used to improve student learning. The primary question of the evaluation will be the following: Is adopting this provider's services helping the school make progress toward its goals, especially regarding student learning outcomes?

Project Plan The school, district leadership, and partner(s) will work together to ensure that the school's contractual agreements serve as effective vehicles to purchase and anchor partner services. This process will focus on ensuring that the school's needs are clearly expressed and that services being requested from the provider are clearly defined. The school also will work with BCSD and the external partner to develop a project plan that includes the following: goals and objectives, expected outcomes, activities, roles and responsibilities, timeline, and budget.

Measurable Outcomes Accountability of our external partners is based on measurable outcomes that lead to student achievement. The evaluation of the successes of a provider's services will be embedded in, or aligned with, the accountability targets set forth in Attachment B. Together, the school and partners will identify measurable outcomes that define success. These will be the events, occurrences, or changes in conditions, behavior, or attitudes that indicate progress toward intended goals. Outcomes are not activity based, such as "conduct five training workshops." In order to develop outcomes, the school and partner will work together to identify what results are expected from partner activities.

Monitoring Meetings and Reports- Evaluation of a provider's services should be *ongoing*, not simply a once-a-year assessment of measurable outcomes. Ongoing evaluation and communication regarding this evaluation are vital to ensuring that implementation and outcomes are kept on track. This approach will prevent the school, the district, and our provider(s) from being surprised by a final evaluation that denotes unmet goals or unsatisfactory services. Regular monitoring meetings and reports provide an opportunity for all parties to do the following:

- Document and discuss the degree to which the planned services were delivered, and assess any variation to the implementation timeline, activities, and budget.
- Reflect on implementation successes and challenges, upcoming priorities, and impact.
- Conduct an analysis of relevant leading and lagging indicators from Attachment B that the services were intended to impact.
- Review supporting documentation to show additional evidence of progress.
- Determine course corrections if necessary.

In addition to these formal and structured processes for ensuring effective management of provider services, the school will use informal and organic methods to ensure effective oversight of provider services. School-based oversight may include assessing the timeliness and accuracy of verbal and written communications with the provider, observing provider service delivery techniques, and assessing the effectiveness and efficiency of work sessions and meetings held with the provider. The school leader also will solicit informal feedback from teachers, students, and families who have received services from the provider. The school will make every effort to offer the provider feedback throughout the period of performance so that minor issues can be resolved and the risk of significant issues can be minimized.

Contract Management and Oversight Additional contract management and oversight will be provided by BCSD. The district will designate one representative who will act as the primary contact for this project. The representative will be responsible for ensuring clear and effective communication among all parties, creating and managing contract documentation, collaborating

with the district Office of Finance and Operations, and ensuring that all procurement rules and regulations are followed. Throughout the course of the contract, the BCSD representative also will be responsible for conferring with any and all parties as necessary to resolve unanticipated issues or requirements that might occur during the course of the contract. Each district-level representative will create an end-of-year report that summarizes the provider's performance and documents any issues or areas for improvement. District and school leadership will review these end-of-year reports and use this information in making decisions about extending provider contracts.

G. Organizational Plan

i. Management and Team Structures

Please see School-Level organizational chart.

ii. Day-to-Day Operations

All adults at School 99 are vital to students' academic, personal, and social growth. All voices should be heard; decisions about policy and practice are most effectively implemented when they are reached by consensus, rather than by authority, compromise, or a traditional win-lose voting system. At the same time, it is not efficient for all staff members to discuss every issue. For this reason, governance at school is delegated and distributed. Smaller groups are responsible for different aspects of school operations and improvement.

Administration-The administrative team collaborates on whole-school concerns and planning. It elevates the instructional core by increasing teacher capacity, student engagement, and the rigor of student work. School leadership will be focused on the creation and support of a PLC that focuses on curriculum, instruction, and assessment as the primary vehicles for improving student achievement and school culture. The school's current leadership structure includes the principal, assistant principal, instructional coach, and IB coordinator. Their main role is to determine and follow up on daily and weekly priorities, develop individual and schoolwide schedules, plan instructional leadership activities, and provide teacher training, support, and professional development. Team members' specific roles include the following:

- **Principal.** The school principal will be responsible for day-to-day decision making; modeling and monitoring the school's mission and vision; and overseeing professional development, curriculum, and data analysis. Major decisions will be made by the school principal after considering recommendations by the instructional leaders and school leadership team. Decisions that are made by the school principal with consultation and recommendations from the leadership team will be implemented by the instructional leaders. Recommendations from the leadership team to the school-based management team will be communicated by the school principal.
- **Assistant principal.** The assistant principal is responsible for curriculum, instruction, assessment, and operational systems and structures. This will include teacher evaluations, professional development plans, teacher improvement plans, team meetings, data analysis, and intervention planning.
- **IB coordinator.** The IB coordinator is a critical pedagogical leader of the PYP at School 99. He or she is responsible for the whole-school implementation and organization of the program and acts as a data coach, instructional specialist, learning facilitator, and catalyst for change. The coordinator will play a key role in enhancing student learning by supporting instructional effectiveness through facilitation of teacher collaboration; individual coaching; and planning, facilitation, and assessment of professional development programs.

- **Instructional coach.** The instructional coach is responsible for the ongoing support of individual teachers and groups of teachers in implementing CCLS-aligned lessons and units. The instructional coach will collaborate with building administrators to execute all components of grade-level and common planning time meetings, including scheduling and facilitating meetings, using data, and deciding on the focus of meetings. The instructional coach will plan and lead ongoing job-embedded professional development that is aligned to the goals and strategies outlined in the school improvement plan.

School Leadership Team The school leadership team meets weekly and leads the development, implementation, and monitoring of the school improvement plan. The team will monitor the school's strategies using a variety of data, such as walkthrough data, student work (across grade levels), common formative assessment data, leading indicators, and measurable outcomes associated with intervention strategies. This team, through a cyclical process, defines and implements school strategies in order to improve student outcomes. This team also is responsible for communication between all school stakeholders regarding the status of SIG implementation, progress, and success. Members include the principal, assistant principal, IB coordinator, instructional coach, grade-level and content-area representatives, and other school-based staff (e.g., social worker, psychologist, school-based health center coordinator). By creating a culture of transparency and collaborative learning, the school leadership team sets the stage for continuous improvement.

Student Support Team-This team includes the guidance counselor, social worker, school-based health center coordinator, and psychologist. Teachers and other staff may join the team on an ad hoc basis. This team is responsible for providing students and families with appropriate services when students encounter academic, personal, and social dilemmas. This team meets once per six-day cycle to identify students in need of behavioral and social-emotional interventions, assign students to interventions, and monitor student progress. Data used to inform this team's decision making include attendance, office and discipline referrals, functional behavioral assessments, and other data as needed.

Teacher Teams-Teachers of the same grade will meet at least once per six-day cycle and will use protocols for discussions focused on student performance and progress. Teachers will collaborate with colleagues in grade-level and content-area meetings to ground their work in the anchor standards of the CCLS. The goal of these teams is to engage in lesson planning and lesson study, map grade and content curriculum, and share best practices. Teacher teams will monitor their instructional strategies and the effectiveness of the curriculum by examining data from universal screening, common formative assessments, progress monitoring, and daily checks for understanding. Individual teachers and teacher teams will develop plans to reteach or adjust practice based on analysis of student progress against the CCLS.

iii. APPR Plan

Under Education Law 3012-c, all probationary and contract teachers will be observed by the principal or an assistant principal who has been certified as a lead evaluator. Each teacher will be observed a minimum of twice during the year, including one unannounced classroom observation and one announced observation that includes a preconference and postconference meeting. The observation plan and calendar will be developed to make sure that all teachers are

receiving the right proportion of observations and supports according to their needs. At the start of the year, each principal will assign the assistant principal to the teachers whom he or she will be responsible for observing and evaluating.

Consistent with the New York State Metrics and Expectations, principals and other school leaders will ensure that teachers implement the approved APPR to ensure that teachers have a deep, reliable knowledge of how they are evaluated under the district's APPR plan. Principals will continue to develop their knowledge of the New York State United Teachers (NYSUT) Teacher Practice Rubric. The district's "Three Big Rocks" provide a leadership landscape within which instructional leaders will be able to effectively use all measures of student learning, observation, and other evidence constantly to cultivate changes in teacher practice and develop schoolwide instructional strategies aligned to key design elements of the school improvement plan.

No later than 10 days after the start of the school year, any teacher who received a composite effectiveness score that results in a rating of Developing or Ineffective will be placed on a teacher improvement plan. The teacher improvement plan is used to assist teachers in meeting district expectations in one, but no more than three, of the APPR criteria, which are aligned with the NYSUT Teacher Practice Rubric. The teacher improvement plan will be jointly developed by the teacher and the principal.

Together, the administrative team will develop a weekly-monthly-yearly observation calendar to guide his or her daily schedule. Administrators will systematically track action steps and hold teachers accountable to implement recommendations. Specific goals for teacher success will be set, and progress toward these goals will be tracked. This will allow the principal and the chief of school leadership, who evaluates the principal, to see trends in teacher strengths, challenges, and recommendations throughout the year.

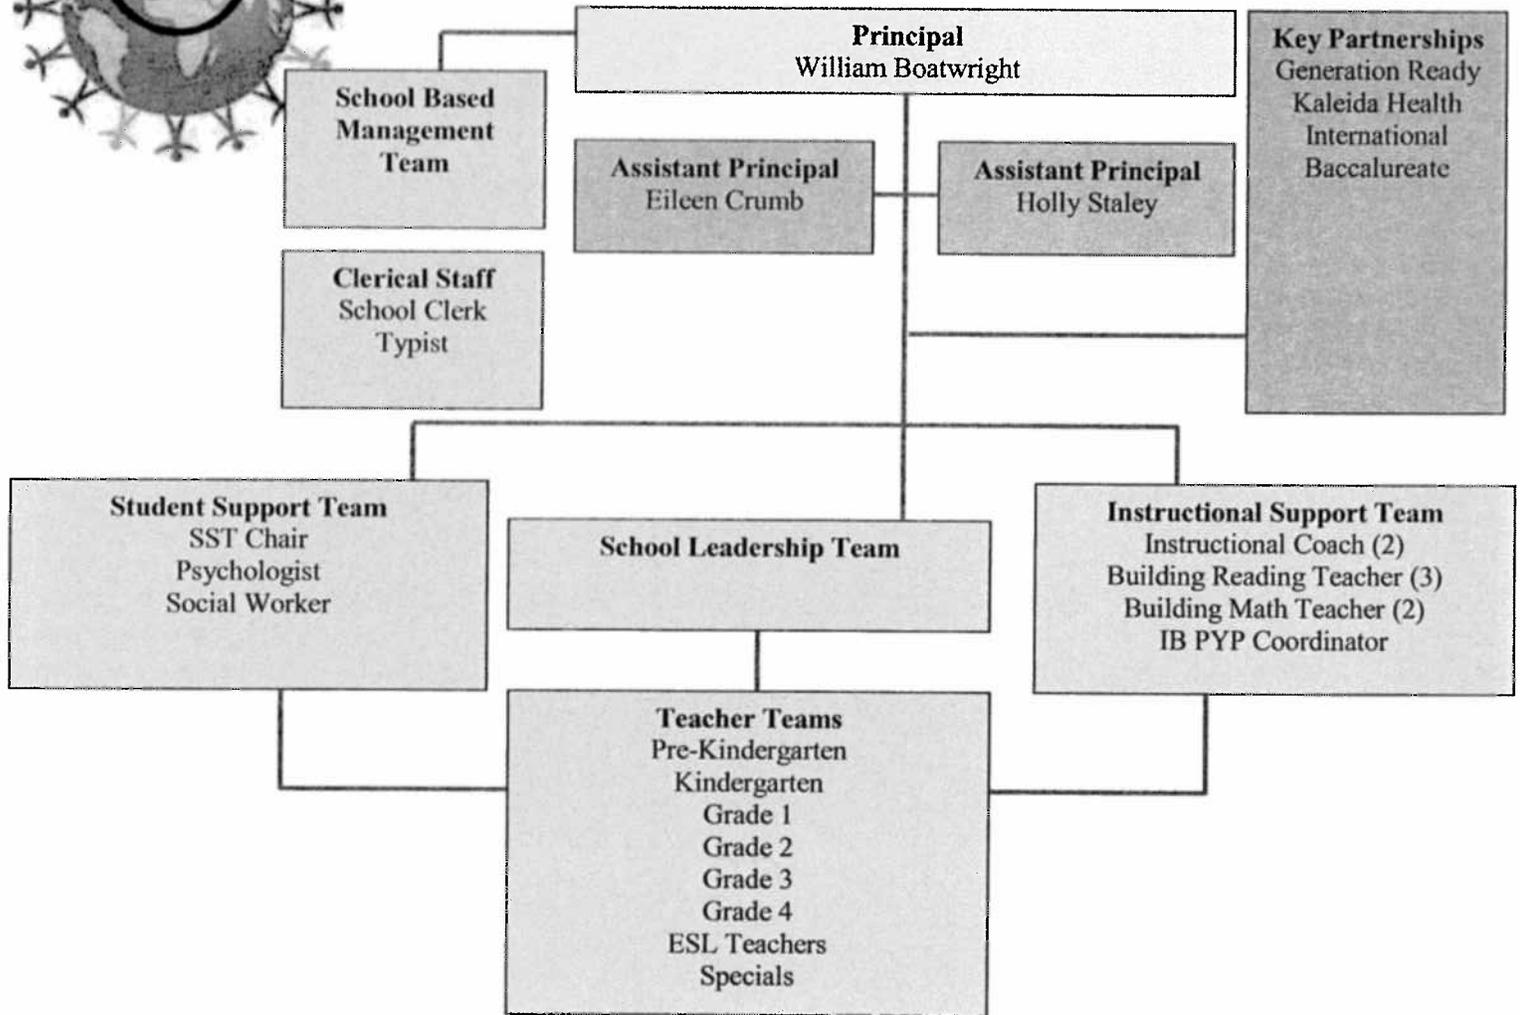

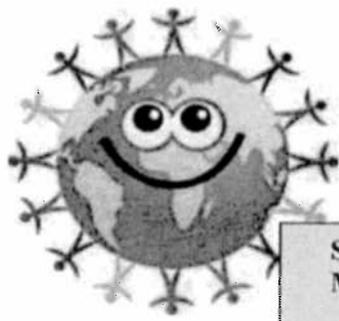

All teacher observations, approvals of student learning objectives, and teacher improvement plans will be housed in BCSD's Professional Growth Data System. Teachers and building administrators will use this collection of data as another platform for communication and feedback between face-to-face sessions.

All principal observations and 60 points of other measure are based on the Interstate School Leaders Licensure Consortium standards and are conducted through multiple school visits by the chiefs of school leadership, who have been certified in accordance with Commissioner Regulation 30-2.9. The visits will include a structured process that includes a review of school documents and classroom visits. One of the visits will be unannounced. The chiefs of school leadership also will keep a weekly-monthly-yearly observation calendar, using a process similar to the principal's calendar.

iv. Calendar of Events to Support APPR Implementation

Please see Full Calendar Schedule of Events for 2014-2015

IB World School

2014-2015 School Year
APPR Events - DRAFT Schedule*

	2013									2014											
	September	October	November	December	January	February	March	April	May	June	September	October	November	December	January	February	March	April	May	June	
Teachers with Ineffective or Developing Teacher Improvement Plan																					
New Teachers School SLO and LMA Trainings																					
Teachers Collect Baseline Data for SLO and LMA - preassessments & other data																					
Teachers Submit SLOs and LMAs for Approval																					
Administrators Approve SLOs and LMAs for Implementation																					
Beginning of the year meetings for SLO-setting and evidence collection for Artifacts																					
Administrators Monitor and Support Teacher Effectiveness - classroom obs																					
Artifact monitoring and evidence collection																					
District/School Formative Testing																					
Artifact wrap-up and summative evaluations																					
High School Regents Exams Administered																					
3-8 ELA State Testing																					
NYSESLAT - Speaking																					
3-8 Math State Testing																					
NYSESLAT - Listening, etc.																					
Grade 4 & 8 Science - Laboratories																					
Other SLO Summative Assessments Administered																					
Grade 4 & 8 Science - Written																					
Final Student Summative Results for All SLOs Reviewed																					
Teacher Summative Conferences and Evaluations Completed by Administrators* (pending any student data still to arrive)																					

Announced and unannounced observations; pre-conference, evidence collection, post-conference for observations, evidence collection

Note: All State testing dates are tentative. For questions related to assessments, please visit <http://www.p12.nysed.gov/apda/>

H. Educational Plan

i. Curriculum

As described in the DTSDE review, schoolwide implementation of rigorous CCLS units that emphasize deep reading, writing, and mathematical practices are not evident in the current curriculum. This impacts our teachers' ability to immerse students in learning experiences with necessary rigor and complexity to close achievement gaps and address the needs of subgroups. Furthermore, there is little evidence that students are routinely being exposed to units of study in ELA and mathematics that integrate the CCLS for close reading, evidence-based writing, academic vocabulary, and mathematical practices.

In order to ensure that the curriculum aligns with the New York State Learning Standards, inclusive of the Common Core State Standards and the New York State testing program, the instructional staff at Stanley Makowski will use a backward design process to develop ELA units of study and lesson plans focused on close reading and evidence-based writing. The units of study and lesson plans will align with the six transdisciplinary themes of the PYP program. Furthermore, the unit and lesson plans will be developed to meet the Tri-State Rubric expectations.

The IB curriculum design provides multiple points of access and engagement for teachers, administrators, and students that address the academic achievement of students with special needs and other barriers for our target population. School 99's implementation of the IB curriculum model provides an integrative and comprehensive design across subject areas that will provide inclusion and adaptation for multiple levels of learning, continuity between grades that will provide for ease of academic transition for our students, and key principles that shape and support the whole learner.

The PYP curriculum framework provides a balance between acquisition of essential knowledge and skills, development of concept understanding, demonstration of positive attitudes, and responsible action. One of the most significant and distinctive features of the IB PYP is the six transdisciplinary themes. These themes provide School 99 with the opportunity to incorporate local and global issues into the curriculum and effectively allow students to "step up" beyond the confines of learning within subject areas. Our curriculum across all grade levels will be organized around the following themes: who we are, where we are in place and time, how we express ourselves, how the world works, how we organize ourselves, and sharing the planet.

Writing-Based on the needs identified in the systematic review process, School 99 will receive explicit instruction in writing using *Step Up to Writing*. *Step Up to Writing* is a highly flexible writing program that supports writing across the content areas and grades as students receive explicit instruction, guided lessons, and independent practice. **The program uses multisensory writing strategies** and writing activities that help students become proficient in the areas of informational or explanatory writing, narrative writing and personal narrative, and opinion pieces. These strategies also foster development of critical thinking, reading comprehension, and listening and speaking skills, and they help establish writing as a process rather than as an end product. This provides a common approach to teaching writing across all grades and content

areas. In order for this new writing curriculum to be effective, professional development opportunities must provide for solid implementation and a deep level of knowledge.

Literacy- The New York State ELA curriculum for Grades PK–2: the Listening and Learning strand and Skills strand (from the Core Knowledge Language Arts, New York Edition) and Guided Reading and Accountable Independent Reading will be used as the anchor literacy programs at the school. For Grades 3 and 4, *Journeys Common Core* was selected because it integrates the Common Core State Standards into every lesson, helping educators plan, engage, teach, and assess students effectively and efficiently. The program builds a knowledge base for reading complex text by focusing on repeated reading, developing academic vocabulary, and close-reading skills. Student texts are designed to allow every student access to rigorous content. Through the use of cutting-edge digital learning tools, such as interactive whiteboard lessons, teachers maximize their effectiveness and get students engaged and excited about learning.

Mathematics School 99 will implement the New York State Mathematics Curriculum modules for Grades PK–4. These standards-based mathematics modules focus on each area of content in depth, providing time for students to develop and practice skills across a variety of activities and contexts that build on each other. They integrate the CCLS, rigorous classroom reasoning, extended classroom time devoted to practice and reflection through extensive problem sets, and high expectations for mastery.

In order to implement curriculum modules and programs with fidelity, school leaders and teachers will be engaged in ongoing curriculum planning to address student needs. Throughout the grant period, school staff will take the following steps to ensure that robust curricular guiding documents are developed and implemented schoolwide:

- Provide time and support (i.e., materials, training, and guidance) for teachers to engage in unit and lesson development throughout the year.
- Provide ongoing professional development for teachers to inform their planning. This professional development will include training on how to implement the instructional shifts for literacy, such as how to plan for close reading of text, how to write text-based questions, how to teach writing effectively, how to effectively train students to access complex text through grammatical and syntactical analysis, and how to address academic vocabulary. Instruction

ii. Instruction

As reflected in our core beliefs and vision for school improvement, we will engage in continuous staff development in research-based practices as the basis for implementing change in our instructional program. Current instruction is largely whole group and teacher centered; this was identified as a priority need in the DTSDE review. There is little use of differentiation or explicit instruction, and limited opportunities exist to extend and enrich learning for students. The instructional shifts in ELA/literacy and mathematics are not systematically used across the school. Through a coordinated set of professional learning opportunities, our teachers will identify, practice, implement, and receive feedback on instructional practices that provide explicit instruction and place students at the center of the learning experience.

Through the implementation of the PYP curriculum framework and IB approaches to learning, we will use inquiry to shift our instruction from teacher centered to student centered. Inquiry is defined as allowing students to be actively involved in their own learning and to take responsibility for that learning. It is a process initiated by the student or the teacher that moves the student from his or her current level of understanding to a new and deeper level of understanding.

In addition, to improve instruction, reflect the shifts required by the CCLS, and provide more explicit instruction, the following core actions will be used to guide planning and observable instructional practice:

- Focus each lesson on a high-quality text (or multiple texts).
- Spend the majority of lessons reading, speaking, listening, or writing about a text (or texts).
- Employ questions and tasks that are text dependent and text specific.
- Sequence questions to guide students in delving deeper into text and graphics.
- Provide all students with opportunities to engage in the work of the lesson.
- Provide students with opportunities for student conversations and tasks where students are encouraged to talk about each other's thinking.
- Ensure that instruction and materials explicitly and systematically provide all students with the opportunity to master foundational skills in ELA or the content of the lesson in mathematics.
- Use explanations, representations, or examples to make the mathematics of a lesson explicit.
- Provide time for students to work with and practice grade-level mathematics problems and exercises.
- Provide all students with opportunities to exhibit mathematical practices in connection with lesson content.

In order to improve instruction, teachers will be supported by an instructional coach. The instructional coach will promote improved school performance by developing the knowledge and skills of all teachers in the school. The instructional coach will spend his or her time modeling lessons, conducting learning walks, coplanning lessons and units with teachers, coteaching lessons, leading PLCs, and collecting and analyzing data on teacher practice and student learning. Therefore, the instructional coach is a key lever during the SIG period because he or she works with teachers to help them reach their full capacity and become exemplary in all aspects of teaching practice.

iii. Use of Time

See Attachment S3-Sample Daily Class Schedule.

The school day will start at 9 a.m. and end at 3:30 p.m. This will allow for 6.5 hours of instructional time. The core knowledge ELA program addresses literacy in two separate instructional strands, each of which represents one hour of instruction daily. Students in Grades K–3 require 150 minutes of instruction in ELA, whereas students in Grade 4 receive 120 minutes of literacy instruction. Students in Grades K–4 will receive 70 minutes of mathematics instruction; other students receive 80 minutes of instructional time in mathematics.

The use of time is balanced among four priorities: making every minute of the school day count, creating more time for teachers to collaborate to improve instruction and address student learning needs, adding individualized learning time and instruction focused on specific student needs, and including academic and global enrichment programming before and after school and during the summer.

Time for Teacher Collaboration and Professional Learning

School 99 will devote significantly more time to teacher development during the SIG period. The proposed schedule includes regular opportunities for teachers to meet with one another and with coaches and instructional leaders. Collaboration time will include a coherent plan for effectively using time allotted for professional learning activities to ensure relevance and focus on instructional goals. Protocols will be created and implemented to support teachers in analyzing student performance data and student work, and tools will be provided to improve teachers' planning around data use.

Afterschool Program- The major goals of the afterschool program are to improve student academic performance, provide an opportunity for students to use their out-of-school time safely and productively, provide an opportunity for youth to develop positive relationships with peers and adults, and provide students with athletic and cultural experiences to enrich their lives. Afterschool programs will run from 3:30 p.m. to 5:30 p.m. each day. This will provide an additional 120 minutes of instruction every day, which translates into 360 more hours (or 15 additional days) of instruction per year. One hour of the afterschool program will be dedicated to academic remediation and acceleration. The second hour of the program will focus on enrichment activities. The afterschool program will be led in conjunction with selected community organizations with expertise and skills in youth development and academic enrichment. To ensure that the program will be successful, the school will develop a shared vision, identify goals and program components, and determine how success will be evaluated. Programs and activities will be curriculum based and will support the curriculum of common-branch subjects.

Summer School- Within the framework of expanded learning time, summer learning programs are uniquely positioned to play a critical role in turning around Stanley Makowski Early Childhood Center. They present an opportunity to prevent summer learning loss, accelerate learning, improve student achievement, and eliminate the opportunity gap by exposing students to things they would never have the chance to do on their own. School 99 will implement an engaging summer school program that builds essential academic knowledge and skills in morning sessions and provides high-interest recreation and enrichment activities in the afternoon. SIG funds will allow School 99 to provide a cohesive expanded school year to all of its students using the following strategies:

- Increase the duration, intensity, and scope of the traditional summer school model by developing a comprehensive, research-based model that makes summer an essential component of the school improvement strategy.
- Change the focus from narrow remediation and test preparation to a blended approach of both academic learning and enrichment activities that provide hands-on, engaging programming to foster critical 21st century skills, including collaboration, innovation, creativity, communication, and data analysis.

- Extend the best practices of our literacy and mathematics programs so that the summer program aligns with what we believe works best for struggling students. Both reading and mathematics programs will use a number of resources, including educational technology.
- Strengthen and expand partnerships with community-based organizations and public agencies that provide summer activities to align and leverage existing resources, identify and meet service gaps, improve program quality, and develop shared outcomes for summer success.
- Include strategies to improve student attendance and engagement by providing healthy food, field trips, recreation, electives, attendance policies, and comprehensive supports.
- Target key transition periods such as the summers before kindergarten, third grade, and middle school to ensure that students are prepared for success in new environments.

iv. **Data-Driven Instruction and Inquiry**

The functional cycle of data-driven instruction and inquiry is a systematic approach to improving student learning throughout the year. The inquiry cycle includes assessment, analysis, and action and is the key framework for schoolwide support of all student success. All school staff, from the principal and leadership team, to grade-level and content-area teams, to individual teachers, will continuously ask:

- What is excellence? How proficient are we in our pursuit of excellence?
- Does what we say we are match up with observable evidence and our achievement results?
- If not, what are we prepared to do in order to live up to the expectations we have created for ourselves?

Student performance on various assessments will show us what our students know and are able to do and where the gaps are in their learning. Teachers will use formative assessments to check for student understanding minute by minute, day by day. More formal testing will be conducted quarterly, to check for student proficiency. As a school, we will use the data from assessments to close identified gaps. Teachers will analyze interim assessment results, plan improvements, and identify struggling students. Teachers will then rethink, reteach, and get extra help for students who need it.

The Using Data Process of Collaborative Inquiry (Using Data Process) offers schools a structured process for ongoing investigation of data, with the goal of improving teaching and learning. Collaborative inquiry is a process through which teachers and administrators work together in data teams to make sense of student-learning and other data and embrace and test solutions through rigorous use of data and ongoing reflective dialogue. Through the Using Data Process, data teams become vital centers of collaboration, meeting regularly to engage in data-driven dialogue and using multiple data sources, including common and formative assessments, to make critical, research-based instructional improvements and monitor their impact. These improvements, and ongoing monitoring of student learning, are the final and necessary steps to improve results for students.

The instructional leadership team will facilitate data-analysis meetings after each interim assessment and will maintain focus on the process throughout the year. Following test-in-hand analysis, teachers will plan new lessons based on data analysis; implement the plan to reteach standards and implement specific strategies; and use ongoing, in-the-moment checks for understanding to ensure progress.

Instructional leaders will develop schoolwide plans to address assessment results. These plans will delineate the coaching, instructional support, and professional development needed to address student learning needs. The instructional leaders will review and provide feedback on lesson, unit, and action plans; conduct classroom observations; and identify, share, and disseminate best practices, resources, and strategies as needed.

See Attachment S4- Schedule for Administering Common Interim Assessments

v. Student Support

School 99 will continue to refine its use of the data-driven instruction process at grade-level and school-level meetings to identify students at risk for academic failure. The school is at the beginning stages of its use of these protocols to analyze and use data effectively to inform instruction in the classroom or identify trends in student performance. However, as indicated in the DTSDE review, there is currently little impact on classroom instructional practice or targeting of individual student needs. A universal reading screen will be used to efficiently identify students at severe risk. The screening tool also will provide a benchmark for all students and serve as a mechanism to monitor progress over time. Those students identified as struggling readers will take a secondary diagnostic assessment to locate the specific areas of reading challenge.

Student reading progress thrives in a school that sets aside time during the school day to offer strategic tutoring to provide individualized reading support for each student. These periods are scheduled into the school day so that students can be flexibly grouped based on their individual reading needs. These periods will provide both intervention for struggling readers and support or acceleration for students at, approaching, or above grade level. Students will practice the strategies introduced in a literacy minilesson as they read texts at their independent reading level. In order to support the whole school population, the school will use the gradual release of responsibility model, where teachers scaffold learning to provide sufficient initial supports as students are learning new knowledge or skills. Instruction will gradually remove the supports and transfer responsibility to the learner so that the learning process moves from the teacher (“I do”), to teacher and students working together (“we do”), to students working independently (“you do”).

Many of the students at School 99 have limited access to comprehensive health services because of financial, geographical and other barriers. Our school-based health center will improve access to primary care. By bringing primary care services to our students, we can address critical health problems that make it difficult for them to learn. Furthermore, this allows School 99 to realize our goal of becoming a place where academics, health and social services, youth and community development, and community engagement lead to improved student learning, stronger families, and healthier communities. By providing this level of student support, we will achieve the following objectives:

- Promote good physical and mental health.
- Facilitate learning and improved school attendance.
- Promote healthy living by providing school-based primary and preventive health care.

vi. **School Climate and Discipline**

During the 2012–13 school year, there were 60 short-term suspensions and two long-term suspensions. Positive behavioral interventions and supports (PBIS) and response to intervention programs are currently in place to address discipline, and we have refined our referral system for students in need of Tier II interventions. However, the universal behavior program is not effective, as evidenced by the number of short-term suspensions. Almost 50 percent of students in Tier II continue to struggle to meet their goals. In order to realize our vision and support and nurture the whole child, our teachers will develop positive relationships with each and every child, reflected in a shared affect and enthusiasm about learning and spending time in the classroom. Teachers will consistently respond to students and effectively address students' questions, concerns, and needs (academically and socially); anticipate areas of difficulty; and provide appropriate levels of support. Our goal is to help students see adults as a resource and create an environment in which students feel safe and free to explore and learn. Moving away from our previously teacher-centered instructional practices, we will place an emphasis on students' interests, motivations, and points of view; promote students' autonomy; and encourage students to talk and share their ideas.

In order to address the behaviors and climate of School 99, we believe we must ensure that classroom systems, structures, and instruction are designed to meet individual student needs and reflect best practices in early childhood education. We believe that students are most likely to behave appropriately in the classroom when the following conditions are present:

- Rules and expectations are clearly and consistently communicated.
- Behavior management is proactive, rather than reactive.
- Students receive consistent praise for meeting expectations.
- Classrooms have clearly defined learning activities provided for students throughout the day.
- Everyone knows what is expected of them and how to go about doing it.
- Transitions happen quickly and efficiently.
- Teachers provide interesting and stimulating materials and instruction.
- Teachers provide instruction using many modalities.
- Teachers look for opportunities to engage students actively.

vii. **Parent and Community Engagement**

Parent and family engagement is critical to the success of School 99 during the SIG period. Developing and supporting the whole child requires concerted efforts to engage parents in the education of their children and in their schools by empowering families and providing them with

a variety of supports. We will develop a consistent and unified approach to family involvement through an organized and deliberate effort to reach all parents and families and to encourage them to engage with the school in ways that meet their needs and support high expectations for all students. This approach will include the following elements:

- **Develop a family-school compact.** This document will delineate how parents and teachers will share responsibility to build and develop a partnership that helps students meet high standards. The compact will serve to engage parents, in collaboration with staff and students, regarding strategies for increased student achievement.
- **Create a parent portal.** Campus Portal is an online tool developed by Infinite Campus that allows parents to access their students' grades, attendance, calendar, and other items. Parents also will be able to update their household's contact information through the portal and can designate how they would prefer to be contacted about absences and grades.
- **Use parent facilitators.** To help bridge the gap between schools and families, we will continue to use parent volunteers, called parent facilitators, to assist in school-to-home communication and parent advocacy. The parent facilitator will help school administrators and teachers collect and disseminate information, facilitate parent communication, recruit volunteers, and advocate for families.
- **Make the most of drop-off and pick-up activities.** Even though these times can be tumultuous, we will use them as opportunities to engage interested parents. We will greet our parents with enthusiasm and, when possible, acknowledge their arrival in some special way. For example, prompt the class by saying, "Look who's here! Let's say hello to Sarah and Mr. Henry." This serves several purposes: It makes Sarah feel welcomed, makes her dad feel more at ease about Sarah's being there, and teaches (and models) the importance of greeting and acknowledging others.
- **Host a variety of special events.** We will plan activities such as informal breakfasts, picnics, class trips, and fairs featuring educational books and toys throughout the school year. We will elicit ideas for these events from parents, which may encourage them to be more involved in developing and planning activities.
- **Communicate frequently.** Whether in person (parent-teacher conferences), through printed materials (flyers, newsletters, school bulletin boards), or online (school websites, group or individual e-mails), we will make frequent contact with parents. School 99 also will ask parents whether the information being shared is useful and how it can be improved, both in terms of content (e.g., about school activities, upcoming events) and format.
- **Identify and make useful resources available to parents.** Provide reassurance and guidance about behavior management, academic expectations, motor skills, and language development. Through our site-based health clinic, we will lead parents to these and other types of resources, either through a lending library in the school, through local agencies, or via helpful resources on the Web.

I. Training, Support, and Professional Development

i. School Involvement in Development of Plan

Our vision for professional development is a data-driven plan focused on improving student achievement. Everyone on staff will be supported in their efforts to improve practice, using student needs as a guide. Professional development will be generated, planned, and implemented by the instructional leaders at the school. Professional development will occur in regularly scheduled meetings, through individual and team coaching, and through consistent assessment and analysis of student work and progress toward learning objectives, targets, and school improvement goals.

ii. Implementation Period

The diagnostic needs assessment identified major areas of need for the students and teachers, which are reflected in our SIG goals. Professional development during Year 1 of the SIG implementation will support the goals of the transformation plan. Teacher collaboration at School 99 will include regular common planning time or grade-level team meetings for one hour per each six-day cycle. This time will be used to ground teacher work in the anchor standards of the CCLS, conduct test- and task-in-hand analysis of common formative assessments, and reflect on and share instructional strategies reflective of the shifts required by the CCLS. With targeted one-on-one and group support from the instructional coach and coaches from our chosen partner, Generation Ready, teachers will use this time to develop their capacity to use high-impact, engaging, and differentiated instructional practices to meet student needs.

Instructional Coaching- Instructional coaching at the school will be the main vehicle for developing the proficiency of all teachers in a set of high-leverage instructional and classroom management skills and for supporting and sustaining these skills through focused observations, actionable feedback, and differentiated follow-up and support activities such as coplanning and modeling of lessons. Observations made by the instructional coach are aligned to schoolwide professional development goals, student learning benchmarks and targets, and school improvement goals. Coaches will help plan professional development sessions around schoolwide instructional goals and will work with individual teachers and teams of teachers in defined areas of focus. These include but are not limited to establishing classroom rules and procedures, defusing disruptive behavior, and embedding student-involved assessment practices and instructional shifts in lesson and unit planning. The coach's observations will help to determine the professional development needs of the staff. The coach, in collaboration with the instructional leadership, also analyzes curriculum to help determine critical content and skills to preload with staff.

PLCs- A PLC is a collegial group of educators that is united in a commitment to student learning. PLCs will meet regularly to examine teaching practices, analyze student performance, and address achievement gaps. Learning takes place in the classroom, in the interactions between teachers and students; to improve student learning, it is necessary to focus on improving the quality of instruction in classrooms. PLCs are an important structure that supports instructional improvement, systematic data use, and a school culture focused on continuous improvement. In

addition to having benefits for students, PLCs positively affect the culture of a school by focusing on student learning. In team or discipline meetings, teachers will look at the student work in a particular discipline. Staff will use norms and protocols for looking at and talking about student work, focusing and reflecting on important questions about teaching and learning. The practice of reading, grading, and sharing teacher assignments and student work helps to build interrater reliability among the staff, as well as to develop a common understanding of rigorous coursework and high expectations.

Curriculum Development and Alignment- The instructional staff and leadership will ensure that the taught curriculum (e.g., texts selected, instructional materials used, tasks assigned) incorporates the CCLS and reflects the instructional shifts. Teacher teams will use a backward mapping process to develop guiding curricular documents (e.g., curriculum maps, scope and sequence, units of study) that are horizontally aligned to IB's six transdisciplinary themes and vertically aligned from one grade to the next.

Major Professional Development Partnerships

Generation Ready. Generation Ready will work with the school principal, leaders, and teachers to provide customized, job-embedded, and targeted professional development using evidence-based practices. Through this partnership, we will develop effective teachers in every classroom. Our staff will learn to implement evidence-based instructional practices through workshops, individualized coaching, and modeling of practices. Generation Ready introduces new strategies for teaching, demonstrates how strategies work, supports leaders and teachers as they practice the strategies, and observes teachers as they practice independently.

IB. IB provides PYP teachers with the chance to learn more about themselves and others as they work together in school situations. Effective collaborative practices are explored through analysis and sharing of flexible systems and structures; role play; practical, collaborative learning experiences; and investigation of the use of technology to promote collaboration. The collaborative process supports the transdisciplinary nature of the PYP. Collaborative planning in the PYP is about learning to build positive professional relationships that lead to improved student learning. In addition, IB training and professional development will focus on the "taught curriculum" component of the PYP model and seek to provide some answers to the question, "How will we learn best?" Participants are introduced to a variety of practical teaching strategies that will assist in facilitating differentiated inquiry learning in their classrooms. The participants will examine the links between an inquiry-driven curriculum, inquiry process models, construction of meaning, and active, responsible learning. Areas covered include questioning tactics, differentiation, and grouping and learning styles, underlined by the principles of backward design and effective assessment for learning. Inquiry extends beyond asking and answering questions. Teachers will develop an understanding of how mathematics and language concepts can be taught in creative, playful, and meaning-making ways that allow children to learn at their own rates. The written, taught, and assessed curriculum also is considered within the context of young children.

See Implementation Period Chart

iii. Evaluation Plan

Evaluation planning will be an integral part of professional development planning. In collaboration with BCSD staff, school leaders, and professional development providers, the principal will ensure that professional development, training, and support are closely aligned to the school improvement goals and strategies. Specific professional learning outcomes and related indicators, along with the expected outcomes in student learning and related indicators, will be identified prior to each professional learning activity. Interim outcomes, indicators, and benchmarks include the following: teacher perception, new knowledge and skills, changes in school organization and culture, and changes in student learning. Evaluations of training, support, and professional development will focus on the following three questions:

- Did the professional development take place as planned?
- What were teachers' perceptions of the professional development?
- Did the professional development achieve the intended outcomes?

Schools will analyze professional development outcome data, reflect on implementation fidelity, and determine necessary midcourse corrections to ensure that professional development is on track to support identified school improvement goals. Monthly, the school will reflect on the SIG plan goals and objectives alongside relevant, up-to-date school data. Rigorous, ongoing evaluations will help refine training, support, and professional development programs in the following ways:

- **Formative evaluations (monthly)** will gauge teacher satisfaction with professional learning activities, whether the activities took place as planned, and whether teachers mastered new knowledge and skills. Formative evaluations will help professional development providers determine whether activities are on track or whether some midcourse changes are necessary to achieve the intended outcomes.
 - Sign-in sheets to track teacher participation
 - Activity logs to track follow-up support for individual teachers and groups of teachers
 - Activity logs noting the frequency and duration of weekly observations and feedback on the classroom application of new instructional strategies, as well as their substantive focus
 - Surveys and evaluation forms to gauge teacher perception and whether teachers are likely to apply new knowledge and skills in their professional practice
- **Ongoing evaluations (quarterly)** will yield information about changes in school organization and culture that may result from teacher training, support, and professional development.
 - An analysis of benchmark assessments, common formative assessments, daily formative assessments, and student work
- **Summative evaluations (annually)** will focus on whether the professional development achieved the intended outcomes as reflected in changes in teachers' practice and changes in student learning.

- An analysis of end-goal assessments, NYS Testing Program.
- Review of teacher effectiveness ratings

J. Communication and Stakeholder Involvement / Engagement

i. Regular and Systematic Updates to Stakeholders

One of the core beliefs driving the transformation plan is the district- and schoolwide understanding that school staff, parents, and community members are partners in the change process. School improvement and turnaround present especially difficult communication challenges because of the intense emotions that surface and because they involve such dramatic change for so many people. There is no formula that will make these processes easy or trouble free. However, the district and school are committed to ensuring that all parents, community members, and other stakeholders are well informed regarding implementation of the SIG plan. In order to communicate effectively about SIG implementation, the school leader will work on three major areas:

- **Concentrate on big, fast payoffs.** Successful turnarounds first concentrate on a very limited number of changes to achieve early, visible wins for the school. School leadership does this to achieve success in an important area, motivate staff for further change, and reduce resistance by those who oppose change.
- **Communicate a positive vision.** Turnaround leaders motivate others inside and outside the organization by communicating a compelling case and sense of urgency for student achievement and a clear picture of success. It is critical that a consistent message of high expectations is received across the school community.
- **Measure and report progress frequently.** Turnaround leaders set up systems to measure and report interim results often. This enables the rapid discard of failed tactics and increase of successful tactics essential for fast results.

The school leadership team is the mechanism through which a school's leaders distribute leadership and cultivate buy-in around the vision for the school. The school leadership team will serve as the primary mechanism for regularly and systematically updating parents, families, and other stakeholders on the implementation of the SIG plan. Consistent communication and unwavering focus on the school's vision will serve as a framework for messaging. Each member of the leadership team will serve as a primary point of contact for a particular grade level or subject area, to ensure a consistent message.

School 99 will develop a communication plan that includes identifying each group of stakeholders and strategies for regular and systematic communication. (See the table on the following page.) The communication plan will be developed to include systems and structures that achieve the following:

- Lay the groundwork by talking with parents, students, teachers, and community leaders and residents early and often.
- Reach out to the community and establish a genuine two-way exchange of ideas about improving the school and ramping up student learning.
- Provide information that is easily digestible about the school's turnaround plans.

- Present information in formats that invite people to ask questions, exchange views, and make suggestions.
- Establish smaller, more informal discussions with key groups on a regular basis to help build better communication and mutual respect (at least monthly).
- Develop a visual display of student progress toward benchmarks.

Audience	Communication Considerations	Method, Time, and Place
Parents	<ul style="list-style-type: none"> • Their first concern is with the experience of their own children, and then with how their school measures up. • Balance reporting that includes strengths and weaknesses with information about what the school is doing to improve. • Provide concrete examples of what is changing or what is new. 	<ul style="list-style-type: none"> • Quarterly formal stakeholder meetings • Monthly informal school meetings • Parent activities (e.g., coffee with the principal, parent breakfasts) • Weekly newsletters (digital available) • School website
Teachers	<ul style="list-style-type: none"> • Teachers want to know how their own students are doing, whether their change efforts are paying off, and how they measure up. • Teachers who see no change need evidence that the change has positive results. Teachers who eagerly embrace change seek validation for their efforts. • Descriptive, nonjudgmental findings, supported by measures that are internal and external to the school and evidence of the relationships between activities and outcomes, can help teachers. 	<ul style="list-style-type: none"> • Quarterly formal stakeholder meetings • Monthly informal school meetings • Faculty and grade-level team meetings • PLCs • Data meetings following benchmark assessments • Data wall • Weekly newsletters (digital available) • School website
Community	<ul style="list-style-type: none"> • Political audiences, the board of education, the press, and community members who do not have students at the school are less interested in the details. • Message must be both important and credible. • These audiences are likely to want explanations and recommendations supported by data. 	<ul style="list-style-type: none"> • Quarterly formal stakeholder meetings • Monthly informal school meetings • Quarterly progress review sessions with the Office of School Leadership • Weekly newsletters (digital available) • School website

K. Project Plan and Timeline

i. Year 1 Implementation Period—Goals and Key Strategies

See Attachment S5-Year 1 Implementation Period-Goals and Key Strategies Chart

ii. Early Wins

Successful turnaround leaders identify a few high-priority goals that will yield visible results and serve to motivate and engage all stakeholders in the change process. These early wins must be targeted, be based on a review of data, and directly impact student learning outcomes. The early wins for School 99 will include the following:

- First-quarter gains in targeted grades, as measured by common formative assessments
- Lesson plans and unit plans that reflect the shifts required by the CCLS
- The use of high-impact teaching strategies and increased student engagement, as measured by classroom observations and instructional walkthroughs
- Existence of a school improvement plan, that clearly outlines goals, objectives, actions, measurable outcomes, and timelines

iii. Leading Indicators

Adapted from other school districts’ “charting the course” monthly meetings, School 99 will conduct regular performance management meetings, designed to ensure that schools and district staff work in concert to meet the needs of all students in a deliberate and impactful manner. At least monthly, school leadership teams will follow a systematic meeting process to use their limited time efficiently and effectively to gain an understanding of current performance (what the data shows), uncover root causes (why the data shows it), and create action items to address issues or concerns. In addition, the principal will meet with his chief of school leadership to discuss school strategies, implementation, and key metrics, as well as to problem-solve common challenges. These meetings will focus on core strategies for improving student outcomes, as indicated in the SIG application.

Data analysis and questions to identify root causes are essential components of school turnaround; however, reflection, problem solving, and common planning must lead to action. During each meeting, the team will discuss and commit to action steps or new ideas for how to better implement the strategy. Action items should be done in stages, with a combination of short-term and long-term actions. Recognizing quick successes on the short-term items will create momentum for longer-term actions. Once an action item has been implemented, it is important to evaluate ongoing progress in order to assess continuous improvement. Schools should look at both short- and long-term indicators to gauge effectiveness.

These meetings will be driven by the leading indicators of success outlined in Attachment B. School 99 will maintain a constant focus on the leading indicators and will closely monitor the fidelity and effectiveness of chosen programs and interventions outlined in the project plan. We

will create a culture of continuous learning and action—one that is focused on improving student outcomes through systematically turning data and information into insight and action.

BUDGET NARRATIVE – District-level

Budget Item	Budget Code	Year 1	Year 2	Year 3	Explanation of Costs	Sustainability
Chief of Strategic Alignment & Innovation 0.01 FTE	15	1,330	665	665	Provide overall programmatic leadership for all School Improvement activities/program and direction.	At the end of the three year grant period, the school's Chief of School Leadership will provide the programmatic leadership for all school activities and programs.
Director of School Review 0.02 FTE	15	1,912	956	956	Support the continuing development and operation of all Educational Partnerships Organizations (EPOs) and all SIG schools.	At the end of the three year grant period, the school's Chief of School Leadership will provide this support.
Supervisor School Turnaround 0.03 FTE	15	2,459	1,230	1,230	Assist with the implementation and calibration of the Diagnostic Tools for School District Effectiveness tool. Will assist with the planning and implementation of the tool for all priority and focus schools. Will manage the implementation of the grant program.	At the end of the three year grant period, the school's Chief of School Leadership will provide this support.
Instructional Specialist I 0.03 FTE	15	2,594	1,297	1,297	Provide additional direction and assistance in the implementation and planning for SCEP, will understand the BCSD systems, forms, processes, and responsibilities around school-based budgeting and engage in a process to align the school budget and other resources in support of the SIG and/or SCEP. Will manage the implementation of the grant program.	At the end of the three year grant period, the school's Chief of School Leadership and the One-Stop Shop will provide this support.

Budget Item	Budget Code	Year 1	Year 2	Year 3	Explanation of Costs	Sustainability
Project Administrator – Grants 0.02 FTE	15	1,414	707	707	Work with the school leadership team to complete SIG grant applications and fiscal/budgetary actions, such as amendments, etc., will submit reports through the Grants Department	Once the three-year grant period has ended, this position will not be necessary.
Supervising Principal 0.02 FTE	15	1,954	977	977	Offer administrative assistance and guidance to the Turnaround Principal(s) while working with assigned Chiefs of School Leadership and Strategic Alignment and Turnaround.	Once the three-year grant period has ended, the district's general fund will pay for this position.
Instructional Coach 0.09 FTE	15	5,445	2,723	2,723	Assigned to provide imbedded professional development	Teachers will become knowledgeable about instructional strategies which will support sustainability beyond the end of grant funding.
Senior Account Clerk Typist	16	1,969	984	984	Provide clerical assistance to the Director, Supervisor and Instructional Specialist I in the Office of Strategic Alignment and Innovation	Once the three-year grant period has ended, this clerical staff will not be necessary.
Administrative Secretary	16	444	222	222	Provide clerical assistance to the Chief of Strategic Alignment and Innovation	Once the three-year grant period has ended, this clerical staff will not be necessary.
Research Aide	16	993	497	497	Provide data research and technical assistance for the Office of Strategic Alignment and Innovation	Once the three-year grant period has ended, this position will not be necessary.
Budget Examiner	16	1,152	576	576	Will provide district wide review and analysis of each SIG to ensure timely/effective grant expenditure.	Once the three-year grant period has ended, this position will not be necessary.

Budget Item	Budget Code	Year 1	Year 2	Year 3	Explanation of Costs	Sustainability
Human Resource Specialist	16	1,185	593	593	Will assist Human Resources Department to acquire and align essential personnel for the continuing success of the school improvement grants.	Once the three-year grant period has ended, this position will not be necessary because highly qualified teachers will be recruited, hired and trained.
Contract Services: Niagara IT	40	1,500	750	750	Provides support and training for the enhance data dashboard	After three years, the use of data will be part of the new school culture and district coaches will provide data support.
Contract Services: Evans Newton Inc.	40	10,000	5,000	5,000	Provide Leadership Turnaround Coaching to support the implementation of proven strategies for informed leadership and to affect positive change in the school.	This will provide a pathway toward sustainable change in the school and will become part of the new school culture.
PLO/Conference Travel: Turnaround Leadership Meeting in Albany, NY	46	800	400	400	One administrator will attend the Turnaround Leadership meeting in Albany, NY.	The administrator will return to the district with new leadership skills and turnaround information. This will become part of the new school culture.
PLO/Conference Travel: Council of Great City Schools Conference	46	1,653	826	826	One administrator will attend the Council of Great City Schools Fall or Spring Conference.	The administrator will return to the district with new skills and turnaround information. This will become part of the new school culture.
Employee Benefits	80	11,646	5,822	5,822	Employee benefits include: Social Security, Retirement, Worker's Compensation Insurance, Unemployment Benefits, Health Insurance, Supplemental Benefits, and Life Insurance.	Same as salaries.

Budget Item	Budget Code	Year 1	Year 2	Year 3	Explanation of Costs	Sustainability
Indirect	90	1,550	775	775	Indirect Cost was calculated at the Approved Restricted Indirect Cost Rate of 3.2%.	Once the three-year grant period has ended, Indirect will not be necessary.
District Total		\$ 50,000	\$ 25,000	\$25,000		

BUDGET NARRATIVE SIG #99 School-Level

Budget Item	Budget Code	Year 1	Year 2	Year 3	Explanation of Costs	Sustainability
Teacher Curriculum Members	15	21,849	0	0	Per the collective bargaining agreement, teachers will be paid to meet after hours during the school year to align the curriculum with the Common Core Standards, create inquiry-based lessons, and ensure a student-centered approach to learning.	All work will be completed in the first year of the grant. Any additional curriculum updates will be funded by other sources, such as Title II A.
Teacher Ancillary-Summer Institute	15	51,200	5,200	5,200	Per the collective bargaining agreement, all teachers will be paid the daily rate for five days of professional development at the end of August. This summer institute will provide teachers with training and information from the turnaround partner, Generation Ready.	This is a one-time professional development opportunity to begin the school improvement grant activities. Additional professional development in future years will consist of sessions held after school hours to be funded by SIG and other sources, such as Title II A.
Teacher Ancillary – ELT Program	15	89,088	44,544	44,544	Per the collective bargaining agreement, teachers will be paid to teach students in an after school expanded learning time program, specific to the needs of the students at Makowski School #99.	Other funding, such as Title I funds will be used to continue the expanded learning time program in subsequent years.

Budget Item	Budget Code	Year 1	Year 2	Year 3	Explanation of Costs	Sustainability
Administrator Ancillary – ELT Program	15	5,738	2,869	2,869	Per the collective bargaining agreement, administrators will be paid to oversee the after school expanded learning time program, specific to the needs of the students at Makowski School #99.	Other funding, such as Title I funds will be used to continue the expanded learning time program in subsequent years.
Teacher Assistant – ELT Program	15	2,687	1,343	1,343	Per the collective bargaining agreement, a teacher assistant will be paid to support teachers and students in the after school expanded learning time program, specific to the needs of the students at Makowski School #99.	Other funding, such as Title I funds will be used to continue the expanded learning time program in subsequent years.
Teacher Ancillary – Summer Program	15	74,055	38,976	38,976	Per the collective bargaining agreement, teachers will be compensated \$27.84/hour for 3.5 hours/day for 20 days to teach students in the summer program. Makowski School #99's unique summer program will be tailored to its students' needs, planned by teachers during the school year.	Other funding, such as Title I, will be used to supplement the expanded learning initiative during subsequent years.
Principal Stipend – Summer Program	15	2,000	2,000	2,000	Per the collective bargaining agreement, an administrator will be paid a stipend of \$2,000 for the half-day summer program.	Other funding, such as Title I, will be used to continue the expanded learning initiative at the conclusion of SIG.

Budget Item	Budget Code	Year 1	Year 2	Year 3	Explanation of Costs	Sustainability
Teacher Assistant – Summer Program	15	1,176	588	588	Per the collective bargaining agreement, a teacher assistant will be paid to support teachers and students in the summer expanded learning time program, specific to the needs of the students at Makowski School #99.	Other funding, such as Title I, will be used to continue the expanded learning initiative at the conclusion of SIG.
Clerical Overtime	16	619	619	619	Per the collective bargaining agreement, one clerical staff will provide support for completing payrolls after hours during extended learning time.	Other funding, such as Title I, will be used to continue the expanded learning initiative at the conclusion of SIG.
Turnaround Partner – Generation Ready	40	52,140	30,000	30,000	Generation Ready will work with the school principal, leaders, and teachers to provide customized, job-embedded, targeted professional development, using evidence-based practices. The staff will learn to implement evidence-based instructional practices through workshops, individualized coaching, and modeling of practices.	As leaders and teachers become trained, Generation Ready can train teachers to be trainers in order to sustain the transformation in future years.
Student Transportation – Summer Program	46	67,500	67,500	67,500	Transportation will include transporting students to and from the school's summer program.	Other funding, such as Title I, will be used to continue the expanded learning initiative at the conclusion of SIG.

Budget Item	Budget Code	Year 1	Year 2	Year 3	Explanation of Costs	Sustainability
Employee Benefits	80	68,836	24,385	24,385	Employee benefits include Retirement, Social Security, Workers Compensation, Unemployment Insurance, Health Insurance, Supplemental Benefits (dental, vision), and Life Insurance	Same as salaries.

A World Class Education for Every Child

Ensuring Every Child is College and Career Ready

VISION

A World-Class Education for Every Child

Ensuring Every Child is College and Career Ready

MISSION

- To ensure that every student will have the knowledge, confidence, analytical thinking skills, character and hope to assume responsibility for her/his life and contribute to the lives of others; and
- We will champion excellence and innovative learning experiences in partnership with family and community; and
- We will hold ourselves accountable for educating our students and for working to motivate all members of the community to actively participate in the accomplishment of our mission.

CORE BELIEFS

- All children can succeed and must have a world-class education.
- Great leaders and teachers create environments that ensure schools thrive.
- Families and community members are our partners.
- Caring and effective staff have the knowledge and skills necessary to support students' learning and positive development and they possess a "whatever it takes" attitude.
- Victory is won in the classroom.
- Student needs will be met using evidenced-based comprehensive academic, social, and health strategies.

BPS THEORY OF CHANGE

- Culture that all students can succeed and of Excellence: Priority #1 – Student Achievement (?)
- Organizational, financial, instruction, professional development, and personnel alignment exists
- Recruiting, developing and equipping caring and effective staff
- Use of a rigorous instructional improvement system
- Data-driven planning
- Partnership with parents and the community is essential for meeting the BPS vision
- Accountability for results
- Cross government and sector planning and action

BPS PRIORITY AREAS

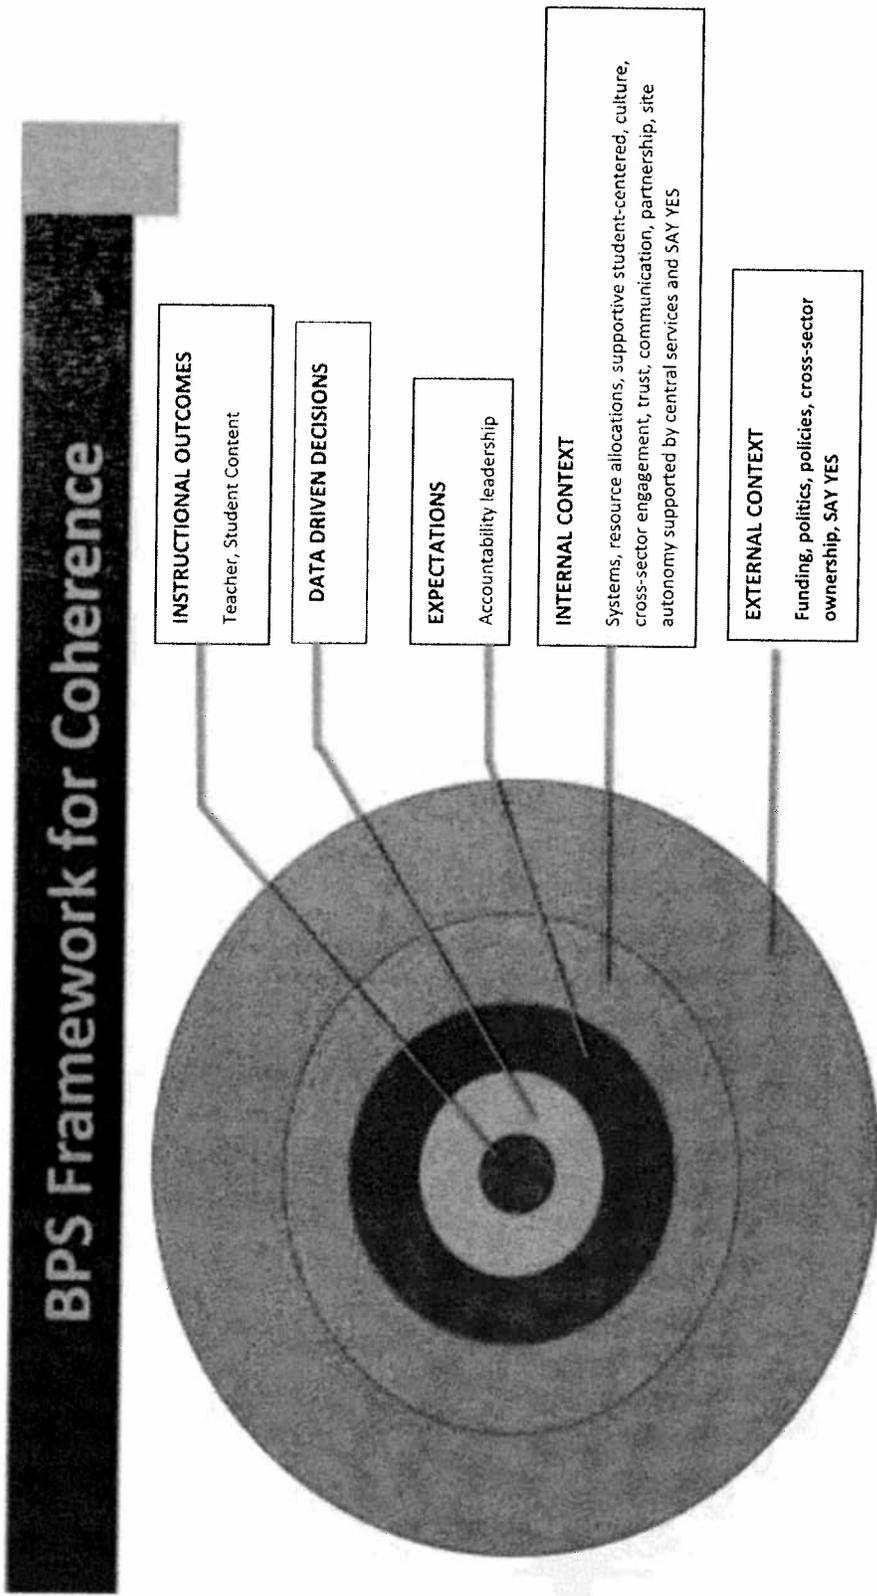

- World-class education: Academics, character, arts, athletics, world languages/cultures, and technology
- Rigorous and relevant curriculum, instruction and assessments, and professional development
- Recruiting, developing and equipping caring and effective staff – a “whatever it takes” attitude
- Central office and schools organized to support student success
- Family and community engagement
- Alignment of resources to the vision, goals and plan
- Use of data for planning, accountability, and recognition
 - Students – Progress monitoring / Common assessments
 - Employees – Performance management
 - Schools – Continuous improvement systems and capacity
- Intensive tutoring and acceleration
- Extended learning time

The Plan: Overview

To align Board of Education and District priorities, policies and procedures ensuring internal and external resources are coherent, thereby making certain that every child is successful. A data management system leading to a clear plan of action that will support excellence and high-quality educational practices that prepare students for success in college and careers.

Ultimate Goal:

An educational community that graduates every student as responsible, active citizens prepared for success in college, careers, and the global economy and as responsible, active citizens.

Buffalo Public Schools Strategic Plan Goals

STUDENT ACHIEVEMENT Academic, Health & Wellness

Buffalo Public School District will ensure all students will be an integral part of a healthy school community and graduate from high school prepared for success in college, careers, and citizenship.

FAMILY & COMMUNITY ENGAGEMENT

FAMILY GOAL: Engage and empower parents and families to increase meaningful involvement in their child's education and in decision making at the school and district levels.

COMMUNITY GOAL: Establish, nurture and maintain purposeful community partnerships to support student success.

TALENT MANAGEMENT

Recruit, develop and retain highly engaged and competent professionals who inspire students to achieve, and support excellence throughout Buffalo Public Schools.

OPERATIONS

All systems are designed, aligned, and work in concert to address individual student needs and to promote and ensure excellence.

FINANCIAL PLANNING

Ensure fiscal resources are utilized to efficiently and effectively support student achievement and district priorities.

The Challenge

Buffalo Public Schools does not have a systemic approach to or plan for preparing all students for college and careers. Its most recent strategic plan did not successfully align resources, accountability structures, school and student supports, or district systems to advance student achievement goals. Without a plan or appropriate supports in place, district departments and schools operate as islands. District operations are scattered; systems and staff work together infrequently and do not leverage their work for greater gain. District staff members are hesitant to take on new assignments as they await direction. While some programs and departments can and have made incremental improvements in specific areas, promising practices go unidentified. Decisions are not made in the context of a larger strategy. Critical data systems are not linked, nor are data effectively maintained or used to inform decisions about district strategy, operation, or instructional programming. Professional development is arbitrary and not prioritized based on identified student needs.

Student achievement results provide ample evidence that the BPS curriculum does not meet the needs of its students. Rigorous and relevant Advanced Placement and Career and Technical Education Programs are showing success but are not equitably available to BPS students. Some screening tools are used to identify and provide modified instruction to struggling students, but data show that those modifications have minimal impact on student success rates. While a few best practices were regularly observed in classrooms, data indicate that the instructional rigor in BPS needs to be ratcheted up. Teachers need more training on and support for high-impact strategies to improve the effectiveness of their instruction. The district's current Common Core implementation work offers an opportunity to develop instructional skill at scale.

Nearly 60 percent of a school's impact on student achievement can be attributed to teacher and principal effectiveness¹, making a robust and aligned talent management strategy a critical lever for improving BPS student outcomes. Processes need to be streamlined and the responsibility for talent management functions, now dispersed across district departments, will be held by Human Resources staff. Decisions about how to best prepare, recruit, select, support, evaluate, compensate, promote, and retain the best and brightest educators in BPS schools need to be grounded in data.

¹ Marzano, R. J.; Waters, T.; & B. McNulty (2005). School Leadership that Works: From Research to Results. Alexandria, VA: Association for Supervision and Curriculum Development.

The Opportunity

Transformational change will require that BPS stakeholders invest in a systemic approach to reform that includes an assurance to take programs to scale and fund them sustainably. The strength of Buffalo Public Schools is the number of caring, committed stakeholders, including staff, parents and community partnerships that are working to meet Buffalo students' academic, social, and emotional needs. Focusing this commitment in a collaborative, coherent manner promises greater prosperity for Buffalo Public Schools students, as well as its staff, families, and community. The Buffalo Public Schools District, with governmental and community partners, must organize to address the predictable academic, social and health barriers to college and career success. The District should commit to evidenced-based programs and professional development that will meet the needs of students, families and staff. Stakeholders should champion:

- Commitment to postsecondary completion for every child.
- Commitment to aligned programming "cradle to career."
- Partnerships with all levels of government, parents, higher education, philanthropy, business, and community and faith-based organizational leaders.
- Accountability for measurable results through transparent and accurate data systems.
- Effective and ongoing two-way communication to drive continuous improvement.

Developing the Plan

In January 2013, representatives of multiple stakeholder groups were asked to participate on Strategic Planning Task Force groups to develop recommendations for a five-year Strategic Plan. Members of the Task Force included parents, representatives from higher education, teacher and administrators, unions, the district central office, community-based organizations, and the religious, political and business communities. In addition, a Steering Committee that also was representative of all stakeholders was formed to serve as a critical friend and partner to the process. Task Force groups met regularly to develop and write goals, objectives, strategies and measurable outcomes with achievable timelines that will bring about transformational change for Buffalo Public Schools in the areas of Student Achievement, Health & Wellness, Family & Community Engagement, Talent Management, Operations and Financial Planning.

Executing the Plan

The BPS Strategic Plan will guide the actions and decisions of the schools and district for the next five years. Following the plan provides opportunity to not only change, but transform the District with an organized framework offering measurable goals and

strategies within achievable timeline. The plan also strengthens the resources and support from community partnerships with a focus on student achievement. The District Comprehensive Improvement Plan (DCIP) is strongly aligned to the BPS Strategic Plan and will further assist schools in realizing the transformational change necessary to ensure:

A World-Class Education for Every Child – Where Every Child is College and Career Ready.

Targeted Outcomes Target <i>What are we aiming for?</i>	Measure <i>How will we measure it?</i>	Current data <i>Where are we now?</i>	BCSD Target for 2017-18 <i>Where do we want to be in five years?</i>
Prepared for fourth grade after Elementary School	% of students proficient in both ELA and Mathematics on the annual state test	ELA: 11.9% Math: 13.5%	Meet or exceed the State average of all students who score "proficient" and increase the number of students in BCSD scoring "Advanced" on state tests as determined by NYSED.
Prepared for High School at the end of eighth grade	% of students who proficient in both ELA and Mathematics on the annual state test	ELA: 13.5% Math: 6.7%	Meet or exceed the State average of all students who score "proficient" and increase the number of students in BCSD scoring "Advanced" on state tests as determined by NYSED.
Graduation Rate	% of students entering the 9 th grade cohort who graduate 4 years later	53.1%	Meet or exceed a sustainable graduation rate and reach 80% graduation rate as determined by NYSED policies and guidelines.
Prepared for college and career success at the end of 11 th grade	% of 11 th grade students who have <ul style="list-style-type: none"> • Scored $\geq 75\%$ on Comprehensive English Regents exam • Scored $>80\%$ on Integrated Algebra Regents exam 	ELA: 37.6% Math: 24.2%	Achieve the percentage of all students who are career and college ready as determined by NYSED College and Career Readiness Goals.

Goals, Objectives, and Strategies

STUDENT ACHIEVEMENT

GOAL 1: Buffalo Public School District will ensure all students will be an integral part of a healthy school community and graduate from high school prepared for success in college, careers and citizenship.

Objective 1.1

By June 30, 2018, 80% of all BPS students enrolled for a minimum of three consecutive years will achieve academic performance at or above grade level by the end of third grade and/or eighth grade in the core content areas of Reading and Math as determined by the New York State Education Department's (NYSED) learning standards and guidelines.

Objective 1.2

By June 30, 2018, 50% of BPS students will achieve 75% or higher on ELLA Regents Exam and 80% or higher on Math Regents Exam as determined by NYSED College and Career Readiness Goals.

Objective 1.3

By June 30, 2018, BPS will achieve a sustainable graduation rate of 80% or higher as determined by New York State Education Department's (NYSED) policies and guidelines.

Objective 1.4

By June 30, 2018, BPS will support a strong Career Pathways initiative that will build a talented workforce to improve the region's economic competitiveness.

FOCUSED OUTCOMES:

1. All staff create a shared sense of urgency that reflects the District Vision, Mission and Core Beliefs by providing opportunities for collaboration with constituent groups.
2. Adopt scientifically based research core curricula that are aligned with the Common Core State Standards in Reading, Math, and Science for all grade levels.
3. Annually administer norm-referenced growth-based assessments in Reading, Math and Science for all grade levels that are aligned with the Common Core State Standards and reflect diagnostic, progress monitoring, benchmark, and summative student achievement data.
4. Provide professional development and ongoing training opportunities for District and building level instructional staff in teaching scientifically based strategies across the all content areas; and as driven by data and nationally recognized best practices.
5. Provide evidenced-based research interventions that are aligned with the core curricula adoptions for all students at-risk for meeting state mandated grade level expectations in Reading, Math, And Science.

6. Equip all classrooms with grade level culturally and linguistically appropriate materials, resources, media, and technology that support students' mastery of skills in Reading, Writing, Math, Science, and Social Studies; and that will effectively assist with the implementation of the core curricula adoption.

HEALTH & WELLNESS

GOAL: 2

21

Buffalo Public School District will ensure all students will be an integral part of a healthy school community and graduate from high school prepared for success in college and careers.

Objective 2.1:

Beginning in 2013-14 school year, the number of students absent more than 18 days per year will decrease 5% annually.

Objective 2.2

Beginning in the 2013-2014 school year, the number of students identified as 'On Track' for social emotional, health and wellness items will increase 5% from the previous school year as evidenced by the Student Management System and the Youth Behavior Risk Survey. (Corresponding decreases in Office Discipline Referrals and suspension rates will be tracked)

Objective 2.3

Beginning in the 2013-2014 school year, BPS will begin implementing the District's Wellness policy.

FOCUSED OUTCOMES:

1. A system is established that cultivates, supports and sustains social and emotional developmental health.
2. The District uses data to identify areas of needs and leverages resources and develops partnerships that impact the health of students.
3. Students are able to express feelings of a safe and supported environment in their social and emotional growth.
4. School communities understand that social and emotional development directly relates to academic success.

HEALTH & WELLNESS

FAMILY & COMMUNITY ENGAGEMENT

FAMILY GOAL 3A:

Engage and empower parents and families to increase meaningful involvement in their child's education and in decision making at the school and district levels.

COMMUNITY GOAL 3B:

Establish, nurture and maintain purposeful community partnerships to support student success.

Objective 3.1

By 2015-16 school year, Buffalo Public Schools will implement in each school within the district, a continuum of effective family engagement strategies.

Objective 3.2

By 2016-17, Buffalo Public Schools will close the language barrier gap to effectively engage ELL families by committing to providing a continuum of interpretation and translation resources district-wide and with each school.

Objective 3.3

Buffalo Public Schools will increase effective partnerships with parents and families.

Objective 3.4

The Buffalo Public School District will increase effective partnerships with community—based organizations (including higher education).

FOCUSED OUTCOMES:

1. The District and schools are welcoming and responsive to families and community members in order to increase meaningful involvement.
2. Reciprocal communication with family and community stakeholders is developed and supported.
3. The District builds partnerships between families and community members to support student achievement.
4. Families are empowered and encouraged to increase involvement and decision-making concerning student achievement.
5. The entire community shares data in a way that supports the needs and successes of students and their families.

Objective 3.1 By 2015-16 school year, Buffalo Public Schools will implement in each school within the district, a continuum of effective family engagement strategies. In 2013-14, BPS will adopt a district-wide set of family engagement best practice standards in all schools.	2013-14	2014-15	2015-16	2016-17	2017-18	Accountability
	X	—————	—————	—————	—————	Office of Parent & Family Engagement

<p>In 2013-14, the District Leadership and Operations manual will provide guidance, which includes food services, transportation, building usage, memorandum of understanding, etc. for community-based organizations.</p>	<p>X</p>	<p>—————→</p>	<p>Office of School Performance</p>
<p>In 2013-14, data from the Student Monitoring System and Infinite Campus will be shared with "out of school time" providers to guide a needs assessment for services if parents sign a Release of Information Form.</p>	<p>X</p>	<p>—————→</p>	
<p>By the 2013-14 school year, out of school time providers and community-based organizations will be included in governance decision / meetings (e.g., PBIS, SBMT, etc.) at the school buildings where their services are located.</p>	<p>X</p>	<p>—————→</p>	
<p>By 2013-14 the District will facilitate and coordinate collaborative funding applications for out of school time programs</p>	<p>X</p>	<p>—————→</p>	
<p>By 2015-16 a peer-to-peer professional development training for school and district leaders will be established on developing, managing and sustaining community partnerships with emphasis on the importance of aligning day-school and out of school time.</p>	<p>X</p>	<p>—————→</p>

TALENT MANAGEMENT

GOAL 4:

Recruit, develop and retain highly engaged and competent professionals who inspire students to achieve, and support excellence throughout Buffalo Public Schools.

Objective 4.1

By June 30, 2016, all BPS central administrative offices will have identified, created and introduced a consistent process to help school communities navigate through each respective department in a simple efficient manner.

Objective 4.2

By June 30, 2017, BPS District will develop and implement a recruitment and hiring plan whereby candidates are sourced, screened, interviewed and assessed against a set of competencies that align with District objectives.

Objective 4.3

By June 30, 2016, the District (BPS) will create and implement a professional development plan/process that provides support and coaching to foster professional growth.

Objective 4.4

By June 30, 2015, BPS will have a professional development system that clearly defines a process for determining which professional development will be delivered by the district, the school/department and individual teachers / staff.

FOCUSED OUTCOMES

1. Develop an organizational chart, for Board of Education approval, that shows the staffing structure and reporting responsibilities for the BOE, administration, and staff.
2. Develop a personnel monitoring and accountability system that includes, but is not limited to: 1) an annual process for evaluation, 2) clear employment expectations, 3) several measurement pathways, 4) ample and timely feedback, 5) leveled demarcation of success, and 6) performance merits and consequences.
3. Develop and facilitate a professional development program that reflects the District's staffing needs and includes continued skill growth and talent capacity development in: 1) highly effective PK-12 learning environments, 2) educational systems management, and 3) culturally relevant teaching and learning.
4. The District has a comprehensive approach for recruiting, evaluating and sustaining high-quality personnel to ensure success of students.

OPERATIONS

GOAL 5:

All systems are designed, aligned, and work in concert to address individual student needs and to promote and ensure excellence.

Objective 5.1

By June 2014, the district will initiate a plan to develop a cohesive and dynamic culture that ensures district-wide equity.

Objective 5.2

By January 2014, each and every person in the district will embrace a shared responsibility and commitment to the success and well-being of every child.

Objective 5.3

By June 2016, the Buffalo Public School District will foster a learning culture by developing and implementing a uniform Pre- K-12 curriculum which integrates the arts, technology and citizenship.

Objective 5.4

By June 2015, the District will develop and maintain implementation practices across the Buffalo Public School system with consistency and fidelity utilizing data tracking system.

FOCUSED OUTCOMES:

1. The District has an organized approach and developed structure for accessing and deploying resources to meet the needs of all stakeholders.
2. Systems work in tandem in order to ensure an environment that is responsive to the needs of the entire school community.
3. All systems support student achievement.

Objective: 5.1

By June 2014, the district will initiate a plan to develop a cohesive and dynamic culture that ensures district-wide equity.

Ensure a common understanding that operations consists of all systems and components at every level, and that their interactions support one another.

FINANCIAL PLANNING

GOAL 6:

Ensure fiscal resources are utilized to efficiently and effectively support student achievement and district priorities.

Objective 6.1

For the next five school terms, 2013-2018, the District shall have a balanced budget with all departments by annually reviewing fiscal and program performance for reductions, savings and reallocation for submission and approval to the Superintendent and Board of Education.

Objective 6.2

For the next five school terms, 2013-2018, the Finance Department will implement a financial plan that is aligned with the District's Strategic Plan.

Objective 6.3

By December 2013 and every year thereafter, the Finance Department will present financial data in a transparent and understandable manner.

Objective 6.4

By November 2013, the District will right-size classes (and schools) as recommended by the audit.

Objective 6.5

By June 2015, the District will right-size direct reports per manager, phased in as recommended by the audit.

Objective 6.6

By September 2014, the District will develop an incentive program for participation in quality professional development that directly impacts student learning, achievement and efficiency.

Objective 6.7

By December 2013, the District shall implement the recommendation from the audit to automate processes in the Talent Management Department.

Objective 6.8

By June 2014, the District will implement the use of quality, external benchmarks starting with a gap analysis.

Objective 6.9

By February 2014 (for the 2014-15 Budget), BPS will pursue potential savings in several transportation areas as well as related student to school placement processes and policies.

WASHINGTON STATE
 DRAFT

Objective 6.10
 Between September 2013 and December 2015 resources and services of the City, County and School District shall be aligned as recommended by pro-forma currently being developed by the audit.

Objective 6.11
 Beginning in May 2013 and going forward, the District will petition legislative bodies for flexibility on the use of funds and ability to repurpose savings.

Objective 6.12
 Beginning in May 2013 and going forward, the District to pursue additional competitive government funds as they become available.

Objective 6.13
 Beginning in October 2013, phasing in 28 schools year one and 14 schools the next two years the District to provide quality after school/extended day programming (and transportation as needed) to children district wide.

FOCUSED OUTCOMES:

1. The District is organized and allocates resources in a way that leads to appropriate support of school communities.
2. Align resources and services of the City, County and BPS District as recommended by the audit.
3. Data is used to assess support resources and allocations to meet needs of school communities.

Acknowledgements

THANK YOU...

TO EVERYONE THAT PARTICIPATED IN THE 2013 BPS STRATEGIC PLANNING PROCESS.

Warmest thanks for all of your hard work and outstanding contributions as members of the Steering Committee and/or Task Force groups. Your time and energy is recognized as this demanding assignment unfolded over the last several months. You went the “extra mile” and the students of Buffalo Public Schools will benefit from your expertise and dedication.

Dr. Pamela C. Brown, Ed.D

Superintendent Buffalo Public Schools

Mr. Gene Chasin

Chief Operating Officer, Say Yes to Education, Inc.

WORKING

DRAFT

Appendix

Security Department

1. The Security Department's main objective is to provide a safe environment for the students and the staff members in the Buffalo Public Schools. Besides safety for the students and staff, security also makes sure District property is not vandalized and school buildings in and outside are not destroyed.
2. Security Officers are trained to assist in maintaining control for a variety of situations which can range from conflict resolutions, defusing potentially dangerous situations, to having to physically restrain anyone who is a danger to themselves and/or to others.
3. Security Officers are assigned to all the high schools but are often pulled out of their high school during the day to assist with problems in the elementary schools. The security department also maintains three district vehicles which assist with problems that arise throughout the day in the district.
4. With all the different issues and situations that students face each day, security officers are often looked upon to be mentors, counselors, rule enforcers and trusted adults so that students can talk with them about any problems they may be having.
5. Since 2005, the Security Department, led by Lorraine Conroy, has been closely associated with the Buffalo Police Department. Chief Kevin Brinkworth has been assigned to the Buffalo Public Schools for the last eight years, and he has led the coordination between the Police Department and the School District, which has been excellent. Since 2005, the security staff has changed in the following manner:

2005	School District Security Staff	<u>Current</u>
33	<ul style="list-style-type: none"> • Chief of Policy – Kevin Brinkworth • Officers working daily in Buffalo 	56
	<ul style="list-style-type: none"> • On duty officers assigned to Chief Brinkworth and BPS • Security systems with cameras throughout the District 	10
Few	Cameras	All schools
		5,067

6. Finally, besides providing security during the day, Security Officers also assist in maintaining a safe environment for a variety of after school and nighttime functions such as, but not limited to, sporting events, suspension programs, open houses, and other school sponsored events.

Transportation Department

The function of the Transportation Department is to help students access their educational opportunities. The department works to provide safe and cost efficient transportation services to all 30,000+ Buffalo City School District (BCSD), Agency, Non-Public and Charter School students at 112 sites within the City of Buffalo.

The scope of work includes downloading student data from Infinite Campus, determining transportation eligibility based on home to school distance; New York State Education Department (NYSED) regulations and District policy, developing safe and efficient bus routes via computerized routing software and notifying parents and school personnel via United States Postal Service. The department is constantly updating student data and adjusting route sets as we receive information from parents and school personnel. Transportation also supports school staff with scheduling and providing field trip busses and afterschool program transportation. Transportation staff track and monitor all accidents/incidents respond while also responding to all that involve possible injury.

Within the Transportation umbrella there are four separate support areas. These include the Transportation Routing Department, the Bus Aide Department, the Dispatch Department and the District Garage.

The District provides student bussing through Public and Private Contract carriers. Public transportation is provided through the Niagara Frontier Transportation Authority bus and rail systems. Private bussing is provided by First Student, Inc. The District Transportation Department is tasked with ensuring that these carriers are in compliance with NYSED and Department of Transportation (DOT) regulations, contractual matters both in customer service areas, and in accurate billing practices.

The Bus Aide Department employs approximately 500 part time bus aides that monitor and protect students on board our yellow busses. Bus Aides provide adult supervision to students that require an aide per their Individualized Education Plans and to non-special needs students in order to provide safer transportation in general. The BCSD transports students as young as Nursery school age and these 2 and 3 year old students ride in child safety seats. Bus Aides assist these young children with safe street crossings and ensure that they are safely secured in the seats. The scope of work includes Human Resources and payroll support functions such as interviewing prospective candidates and verifying payroll to providing NYSED mandated training.

The Dispatch Department is tasked with handling all inter-District mail delivery (Pony), school relocations, furniture and supply delivery. Dispatch personnel handle most of the Joint School Construction Board school relocations and work closely with the Plant department and school personnel to ensure that students receive the supplies and adequate learning environments needed to encourage academic success.

The District Garage maintains and repairs all District on-road and off-road vehicles and equipment. It is responsible for all non-warranty related parts ordering and repair. District mechanics inspect and monitor fuel delivery tanks and are responsible to ensure that all equipment meets Department of Environmental Conservation standards. The Transportation Department/Garage handles all fuel orders and tracks compliance for all DOT, 19-A, Department of Motor Vehicles, certifications.

The Buffalo Public Schools Information Technology Department

Synopsis

The mission of the Buffalo Public Schools Information Technology Department (IT) is to enable the systematic success of the district. The IT department seeks to be continuously agile, flexible and responsive to district plans and initiatives. This agility is based upon district and school needs, federal and state requirements, developing and changing technology, cost-effectiveness, and re-usability with the goal of always supporting and empowering teaching and learning.

Successful implementation of these services begins with effective technology planning (using Outcome Based Planning/Evaluation (OBPE) methodologies), which ensure that IT operations and initiatives are methodically managed and aligned with strategic goals.

Technology Vision

BPS integrates technology into all aspects of our organization to support an effective, collaborative teaching, learning and an efficient administrative environment.

- Technology is uniquely positioned to support a broad spectrum of learning needs and styles and is essential to targeted teaching and learning. For our students, this means that BPS must provide equitable access to technology that supports the development of 21st Century skills.
- For our teachers, integrated technology has provided tools for visual learning, collaboration and acceleration, while unobtrusively collecting formative assessment data. This data is essential to identify the learning and acceleration needs of individual students.
- For our administrators, integrated technology creates more efficient operation methods that reduce effort, lower cost, and improve decision making.
- *For our schools, Instructional Technology Coaches will foster an awareness of technology resources and facilitate the integration of technology in the classroom in ways that create interactive authentic learning experiences for our students. Our goal is to help develop learners who can locate, evaluate and synthesize information, using it to develop and support an idea or to create something new. It is our expectation that students will graduate as technology literate individuals possessing transferable skills that ensure that they are prepared to be active participants and lifelong learners in a global community.*
- For our stakeholders, integrated technology affords improved communications for all.

Technology Goals

The objective of the BPS IT department is to deliver a continuous, high-quality, technology enhanced education that provides the skills and knowledge that staff and students need for success in the 21st century. It also utilizes technology that supports the administrative goals and objectives of BPS. BPS's seven Technology Goals are as follows:

- Utilize current and emerging technology to improve student performance in all academic areas.
- Continue the implementation of core web-based applications for student information and management in all academic areas.
- Provide visual learning modality education in the classroom, media centers, and computer labs.
- Utilize technology systems to improve staff recruitment, retention, and professional development.
- Build management capacity in data analysis and data-based action to improve instructional practices.
- Utilize existing & new technology to improve communication with parents and community.

- Provide assistive technology for students with disabilities.

Active Projects

Following is the list of initiatives Information Technology is currently working on in collaboration with various departments to support operation and instructional division

- **BPS EdVantage / VersiFit Data Warehouse**
BPS EdVantage is the primary point of contact for decision support access to data from NYSED Assessments, Wireless Generation Assessments, MUNIS, Infinite Campus, eSIS, Primo, VersaTrans, IEP Direct, True North Logic, AESOP, Acuity, SchoolCity and SayYes.
- **Assessment Management System (Implementation and Maintenance)**
The Acuity implementation started in August 2012 and currently provides pre-test, post-test and formative benchmark test solutions for the district. Project resources are provided from CTB McGraw-Hill, BPS IT Department, BPS Office of Shared Accountability and BPS Teaching and Learning.
- **E-Rate Filing Coordination and Document Management**
This project encompasses the daily maintenance of the E-Rate hard copy and electronic files, coordination of e-Rate activities with BPS's E-Rate consultants, Educational Funding Group (EFG), and the annual filing and process control the support BPS receipt of Federal SLD/e-Rate reimbursement. The current project scope includes E-Rate year 10,11,12,13,14,15,16 filings (FY 2007 – 2014).
- **VoIP Phone System**
The district is currently in the process of converting all school buildings from the old Nortel phone system to the new Alcatel-Lucent VOIP phone system.
- **Microsoft Exchange Email Project Implementation**
This project will migrate all BPS E-Mail users from Lotus Notes to the Microsoft Exchange environment using Outlook Web Access (OWA) as the district's email provider. The cut-over is scheduled during the last week of June and the first week of July.
- **Data Center in Schools 94 and 97**
Buffalo Public Schools is implementing a broad-based virtualized computing infrastructure from Hewlett-Packard and VMware in order to transform how they supply a technology infrastructure for instruction and operations to all of its 58 schools. A key objective for the acquisition was to ensure a more flexible and secure desktop experience for BPS's 34,000 students and 6,000 faculty and staff by virtualizing the server and storage infrastructure that supports BPS. This effort will also achieve cost savings in the mid- and long-term, as well as help Buffalo's information technology staff streamline their efforts and better maintain the entire computer system. BPS recognizes that maintaining modern computing technology in the hands of students and faculty has never been more important for providing the level of skills and learning required for students to achieve college and career readiness in the 21st century.
- **System Configuration Manager**
Microsoft System Center 2012 Configuration Manager will help BPS deliver user experiences across a wide range of devices, while also ensuring that the district meets corporate control and compliance requirements.
System Center Configuration Manager will eliminate several other vendor products for:
 - Implement Microsoft virus protection
 - Implement Microsoft Identity Manager
 - Implement Office 365 for all students

- Implement latest version of Office products to District employees
- **Implementation of (Write Clicks) New York State Funded Programs**
Through a competitively-procured New York State Learning Technology Grant, Buffalo Schools has undertaken a project of Instructional Technology Coaching. Instructional Technology Coaches are teamed with classroom teachers to introduce cutting-edge technology into classroom environments to respond to the increasing demands of the Common Core Learning Standards.
- The Common core Learning Standards (CCLS) have fundamentally changed teaching and learning as we know it by adding greater rigor and expectations for students to graduate college and career ready, but everyone may not be aware that the CCLS also place a greater emphasis on technology. A close examination of the CCLS reveals numerous embedded technology proficiencies throughout the curriculum. The CCLS weave and spiral basic technology skills throughout content areas and demand students use technology to facilitate learning. Further reading of the CCLS shows that students at all grade levels are expected to produce and publish documents, interact and collaborate, communicate using web tools, and evaluate information presented in different media formats. Therefore, in practical terms, instructional technology should not be considered a separate discipline, but part of the overall instructional solution through assessment, skill building, and learning.*
- **School Computer Refresh**
The Buffalo Public Schools uses a 5-year refresh cycle for school computers and teacher laptops. So each year approximately 20% of the District's outdated school technology is being replaced with school technology that meets new technical requirements for District software resources. In addition, the IT Department coordinates the installation of new computers and peripheral devices in schools as part of the Joint Schools Construction Board (JSCB) school reconstruction project.
- **NYS Computer Based Testing (CBT) – BPS Preparations**
The Partnership for the Assessment of Readiness for College and Careers (PARCC) has recently provided technology guidelines to inform schools and districts as they make technology decisions to best meet the instructional needs of their students. The information from PARCC is intended to answer questions about whether existing computer inventories and new instructional hardware that schools may purchase, as they implement the Common Core States Standards, will also meet **PARCC's 2014-15 requirements for the online test**. Areas of IT consideration and supervision surrounding 2014-2015 CBT include (but are not limited to):
 - District Bandwidth
 - Computer and Network Security Requirements
 - Testing Software and Web Browser Requirements
 - Testing Device Specifications
- **Learning Object Repository (LOR)**
The Learning Objects Repository project is an online learning management system that is useful for enhancing the teaching and learning process. It can be used to deliver fully online courses but also can be used to facilitate hybrid courses or to supplement regular classroom learning. The intent is for teachers to use this online platform to create their own courses or to use and adapt one of the courses already available.
- **Stakeholder Communication**
The BPS IT department will develop and disseminate scheduled newsletters "Bits and Bytes" (Bi-Annual) and host an annual Technology Fair to showcase the technology that exists in BPS classrooms.
- **HR Scanning and Document Management / Student Transcript Scanning**

- The BPS IT department will support the Human Resources department to acquire and implement an automated records scanning and information management tool to automate the HR records management process. Additionally, the BPS IT department will support the district to acquire and implement an automated student transcript scanning and information management tool to automate the student transcript management process.*
- **Transcript Scanning**
The BPS IT department will support the district to acquire and implement an automated student transcript scanning and information management tool to automate the student transcript management process.
 - **Registration System Replacement**
The BPS IT department will support Central Registration in the acquisition, customization and implementation of a replacement on-line registration system integrated to the district's current student management system.
 - **APPR / PGS Support**
The BPS IT department will support Teaching and Learning to continue to implement an automated tool to assist with the APPR / PGS recordkeeping and reporting.
 - **BPS Internal IT Audit**
On a rotating cycle, BPS conducts internal audits for policy compliance and based on this audit created an action list to address any items found to be non-compliant.
 - **Information Technology System Support and Maintenance**
The BPS IT department is currently maintaining a number of systems that require resources to 1) maintain peak operational performance, 2) install systems patched and updates, 3) maintain district wide and application specific security and access, 4) maintain a hardware environment to support the district's computing, processing and reporting needs. These projects include:
 - Active Directory and Desktop Computer Imaging
 - AESOP Support
 - AV Support
 - Charter School Enrollment Verification
 - Current Phone System Support
 - Data Systems Connectivity (SIF)
 - ERate 14, 15 and 16 Monitoring
 - Food Service Point of Sale (POS)(Primero)
 - Interactive White Boards
 - Inventory (School Dude)
 - ITC – Technical and Operational
 - IT Help Desk
 - IT Operations - Data Center (Payroll, Accounts Payable, Printing)

- Infinite Campus
- Library System Support (Alexandria)
- Lotus Notes Maintenance
- MUNIS Maintenance (Financial, HR, Payroll, Personnel)
- Network Support (Wired and Wireless)
- Questica Budget System
- SynerVoice (Community Notification System)
- Professional Growth System Support
- Xerox Post Implementation Support and Ongoing Maintenance

Public Relations

Elena Cala

Special Assistant to the Superintendent for Public Relations

Public Relations Department Scope and Objectives

June 20, 2013

The Public Relations Office gathers and utilizes District topics and news items in order to promote goodwill and build a rapport between the District and its students and employees, the public, and the community. The department manages all aspects of communication internally, and externally between the District and the public, including coordinating media, crisis communications, electronic communications and social media.

The Special Assistant prepares the superintendent and members of the Buffalo Board of Education for public events including school-based events, community roundtables, community partner meetings, and board meeting by providing any combination of mediums such as PowerPoint, speeches, and talking points and awards.

Additionally, the Special Assistant maintains content on the District Website through text generated by herself and/or others, along with providing district photographs, informing the public at-large of the new programs and innovations taking place at the building level and in Central Office. The Special Assistant is also instrumental in the planning and implantation of District events such as the grand reopening of schools and events that are planned in conjunction with our community partners.

This office makes arrangement for translations and interpretation services at public meetings hosted and co-hosted by the superintendent. In addition, the Office of Public Relations helps to form and facilitate outgoing messages through the District's automated calling system, as well as assisting building administrators in formulating written correspondence to their school communities. The office also gathers data for and produces the superintendent's Weekly Central Office Update.

The Public Relations Office works closely with the IT department and outside vendors in the production and broadcast of visual communications to staff and the general public.

The Public Relations Clerk maintains the district calendar (web and hard copy), processes Freedom of Information requests from the public, and coordinated public notices in local publications in addition to helping to coordinate Say Yes meetings and events. In addition, the PR Clerk manages the department budget and provides secretarial backup to the superintendent's secretaries.

1. INTRODUCTION

Welcome to the 2013-14 Fiscal Year Budget Development Guide. This guide is intended to provide school administrators with useful information about how resources are allocated to their schools' and explains the development of school budgets, outlines central office program requirements, provides instructions on the use of fund types, and describes the process for completing the budget template during the budget process.

The 2013-14 Budget Process will be the first year of a three year phase in of site based budgeting. Year 1 is intended to bring transparency and equity to the budget process with greater central office support. School autonomy will be earned in later phases and in higher performing tiers as capacity and data systems are built to facilitate the process.

The Guide will explain how allotments of positions and dollars are determined for each school, and what latitude schools have to make decisions about how these resources are used. This document distinguishes between two major school budget categories: resources that are provided to schools, which they then make decisions about how to budget and use; and resources whose use and allocation is budgeted centrally, even though the resources are deployed in schools.

The major budget components in each of these categories are explained in more detail in subsequent sections of this document.

2. FUNDING SOURCES

The District has two major funds that support school operations:

1. The General Fund, often referred to as "Operations and Maintenance" or "O&M" is the primary fund of the District and supports the general day to day operations of the District. 80% of the revenues in the General Fund come in the form of state aid. It is intended to provide basic and mandated services to schools.

Within the General Fund are set-aside funds such as Contract for Excellence ("C4E") and Magnet ("Mag"). Set-aside funds are included in the overall General Fund budget but may have restrictions on what they can be spent on.

2. The Special Projects Fund is more commonly known as the Grants Fund and includes several grants from state, federal and local sources that are intended to be supplemental in nature and are provided for specific types of expenditures. The grants allocated to most schools include Title I, Title III and School Improvement Grants.

Funding sources and relevant spending restrictions are discussed in the specific budget sections later in the Guide.

3. BASELINE STAFFING

Baseline staff will be allocated to schools based on state mandates and contractual obligations according to the following table. Departments, in collaboration with Principals and Community Superintendents will allocate staff for Occupational and Vocational programs, English Language Learners and Related Services for Special Education students as outlined in section Four. Depending on available funding, schools will be allocated additional "flexible" general fund dollars to staff and support their schools based on plans approved by the Community Superintendents. The process for submission and approval of school budgets are discussed in section Five.

Assistant Principals		Minimum 0.5
School Configuration	Enrollment	Base-Line Allocation
Pre-K – 4 th grade	1-449	0.5
	450-749	1.0
	750-1,050	2.0
	1,051 and above	3.0
Pre-K – 8 th grade	1-299	0.5
	300-749	1.0
	750-1,050	2.0
	1,051 and above	3.0
5 - 12 th grade	1-299	0.5
	300-600	1.0
	601-950	2.0
	951 and above	3.0

Guidance Counselors	Minimum 0.5
School Configuration	
K – 8 th grade	0.5
9 – 12 th grade	0.5 for every 150 students

Class Size	
School Configuration	Teacher : Student Ratio
Pre-K	1:18 and 1.0 Pre-K Assistant
K – 6 th grade	1:30
7 – 8 th grade	1:30
9 – 12 th grade	1:30

Library Media Specialist		Minimum 0.5
School Configuration	Enrollment	Base-Line Allocation
All Schools		0.5
7 – 12 th grade	501-700	0.8
	701 and above	1.0

School Clerical		Minimum 1.0	
	Enrollment	Clerk	Typist
All Schools	1-499	1.0	0.0
	500-699	1.0	0.5
	700-999	1.0	1.0
	1,000 and above	1.0	2.0

Special Area Requirements			
Grade	Subject	Classes Per Cycle	% of School Year
K – 3 rd grade	Art	1.0	All Year
	Music	1.0	All Year
	Physical Education	1.0	All Year
4 – 6 th grade	Art	2.0	All Year
	Music	2.0	All Year
	Physical Education	2.0	All Year
7 th grade	Art	3.0	Half Year
	Music	3.0	Half Year
	Physical Education	3.0	All Year
	Health	3.0	All Year
	Home & Careers	3.0	All Year
	Technology	3.0	All Year
8 th grade	Art	3.0	Half Year
	Music	3.0	Half Year
	Physical Education	3.0	All Year
	LOTE	6.0	All Year
	Home & Careers	3.0	All Year
	Technology	3.0	All Year

FTE Equivalent	Periods Per Day	Days Per Cycle
0.17		1.0
0.2	1.0	
0.33		2.0
0.4	2.0	
0.5		3.0
0.6	3.0	
0.67		4.0
0.8	4.0	
0.84		5.0
1.0	5.0	6.0

Typically a 0.6 FTE is sent in the mornings and a 0.4 is sent in the afternoons.

Secondary FTE Calculation (Grades 7 – 12)			
1	# Secondary Students		96
2	Class Size		30
3	# Classes per Period	#1 divided by #2	4
4	Periods per Day (Excluding Lunch)		8
5	# Classes per Day	#3 multiplied by #4	32
6	Teaching Period Load		5
7	Secondary FTEs	#5 divided by #6	6.4
8	# of Secondary Self Contained Classes		1
9	0.5 FTE per Self Contained Class	#8 multiplied by 0.5	0.5
10	Total FTEs Needed	#7 added to #9	6.9

Special education classroom teachers will be assigned by the Special Education Department based on students Individual Education Plans (IEP's) in the baseline staffing process.

3A. EXPLAINING THE INPUTS IN THE BASELINE STAFFING

There are a number of central factors that are accounted for when BCSD calculates initial school budget allocations. These include:

- Projected Student Enrollment
- Special Education Student Population

- English Language Learner (ELL) Student Population
- School Configuration (Elementary School, K-8 Model School, Middle School, or High School)
- Teacher-to-Student Ratios by Grade Configurations
- Specialty School/Program Status

Each one of these factors determines the initial budget allocation for your school. These different factors are highlighted below. Explanations for each factor can be found later in the guide.

Enrollment Projections

The primary driver for your school's initial budget allocation is projected student enrollment. Projected student enrollment is determined by analyzing the current year's enrollment data by school to estimate enrollment for the upcoming school year. 2012-13 BEDS enrollment data was provided by the Office of Shared Accountability as of January 25, 2013. Principals provided updated enrollment data for the current fiscal year as of February 8, 2013.

2013-14 projections also take into account more nontraditional factors that can significantly affect enrollment, such as school closures, school reconstruction, grade expansions or reductions. Individual school enrollments are totaled and compared to the Districts overall trend over the past three years.

Principals will be asked to validate the projected enrollments during the Staffing Meetings held with the Community Superintendents. Should a Principal believe the projected enrollments provided by the Director of Staffing for Budget differ significantly from their projections, they should discuss the variances with their Community Superintendent and bring supporting data to the Staffing/Budget Meetings. It should be understood that the total of individual school enrollments should not be significantly different than the District's overall enrollment trend – ie – significant enrollment growth should not be projected without documentation and indication of where the students are transferring/enrolling from. Staffing adjustments will be made based on actual enrollment as of 2013-14 BEDS day.

4. CENTRALLY ASSIGNED INSTRUCTIONAL STAFF

Departments, in collaboration with Principals and Community Superintendents will allocate staff for Occupational and Vocational programs, English Language Learners, Related Services for Special Education students and Student Support Teams in accordance with the procedures described below.

4A. OCCUPATIONAL AND VOCATIONAL PROGRAMS

The programs will be staffed using different staffing ratios for: Trades, Business and Differentiated programs.

Certified Programs of Study require that the students take a minimum of 6 courses and the required NYSED Career & Financial Management (CFM) Course. These programs of study lead to Industry certification and Regents with advance designation. Once a student' cohort starts a program the district is obligated to allow for that cohort to complete the course of study before the program can be eliminated. All levels of instruction no matter the number of students cannot be combined due to the discreet curriculum and safety concerns at each level. For CTE program to be added an industry advisory committee is required to review the curriculum, facilities and equipment to ensure that they meet industry standards and that the Career pathways has a positive employment outcome for students. If the district decides to eliminate a program an advisory committee review is required as well; and the last enrolled cohort must have the ability to complete the program of study.

4B. ENGLISH LANGUAGE LEARNERS

Teachers for ELL will be assigned based on the units of service required under Commissioner’s Regulations Part 154 and in consideration of best practices for English language development programs.

English Proficiency Levels Based on LAB-R or NYSESLAT	Grades: Kindergarten to 8			Grades: Grades 9 - 12		
	Units of ESL	Units of ELA	Units of NLA	Units of ESL	Units of ELA	Units of NLA
Beginning	2	0	1	3	0	1
Intermediate	2	0	1	2	0	1
Advance	1	1	1	1	1	1

4C. RELATED SERVICES FOR SPECIAL EDUCATION

Related Service personnel for students with disabilities include teachers of the Speech and Hearing Handicapped or Teachers of the Speech and Language Delayed, Occupational Therapists, Physical Therapists, Teachers of the Hearing Impaired/Deaf, and Teachers of the Visually Impaired/Blind. Individualized Education Plans (IEPs) mandated counseling is the responsibility of the Social Worker assigned to the building Student Support Team. Staff is assigned to schools based on services mandated on the students IEP. FTE count is adjusted throughout the year as mandated services increase or decrease.

4D. STUDENT SUPPORT TEAMS

Student Support Teams (SST’s) generally consist of a Chairperson, a Psychologist, a Social Worker, a School Counselor and a clerk. Since 2007, the department has articulated the district goal of providing a full time SST in every school. At the point that this is accomplished, addition of staff beyond a full time team will be considered based upon the unique needs of a particular building.

4E. EXPLAINING THE INPUTS IN THE CENTRALLY ASSIGNED STAFF

Occupational and Vocational Education Population

Business:

Certified Programs of Study – minimum 6 classes taken over 4 years w/ CFM

Electives: individual courses taught for credit but not leading to Industry certification

Trades:

All Trade programs are Certified Programs of Study – minimum 6 classes taken over 4 years w/ CFM

Differentiated: 12:1:1 or 15:1:1 co-taught with a CTE teacher and Special Education teacher

CTE teacher	Number of students	Period Taught	Max. students
Trade	24	6 (2 period Block scheduled)	72
Business	30	5	150
Differentiated	12 to 15	6 – trade or 5- business	72/90 or 60/75
CFM A & B	24-trade or 30- business	6 – trade or 5- business	150

*If a trade teacher has a 3 period block max load could be 72 to 96

Special Circumstances:

Work experience Coordinators: Each school should allow for a minimum of 1 period a day for a CTE teacher with a Work based Coordinator Extension on their license to place students in work related experience as required by NYSED and NYSDOL.

Programs with special focus or community involvement will require additional staff. For example: Emerson – Restaurant, McKinley – House project requires 2 senior carpentry teachers & McKinley Horticulture due to the size of the facility requires 2 teachers and others as needed.

English Language Learner Student Population

Similarly to Special Education student population, English Language Learner (ELL) student population support needs are determined by a review of the number of ELL students currently enrolled and their level of English proficiency (Beginner, Intermediate, Advanced). Staffing for ELL students is guided by the Department of Multilingual Education (DME) staffing ratios, program design, and best practices. The student-teacher ratio is approximately 40:1. Base funds are allocated according to the given ratio, then adjustments are made based on program design and grade span. Other adjustments are made to accommodate for co-teaching, the most effective model of service delivery.

For example, if a school has 40 students across grades kindergarten through grade 1, the school will receive funds for one full-time ESL teacher. A school with 40 students across grades K-8 may require more teachers due to scheduling capacity. Schools with larger ELL populations generally have one teacher across one or two grade levels, while schools with under 10 students may have a part-time daily teacher or itinerant teacher who provides services on alternating days in the six-day cycle.

Adjustments to ESL services may be necessary during the year as students populations change.

Schools are not permitted to repurpose funds designed to support ELL needs.

Special Education Student Population

Staffing for the Special Education student population is determined by a review of all current IEPs. Staffing to meet IEP needs is mandated by the Regulations of the Commissioner of Education, Part 200 staffing ratios and teacher caseload requirements as well as current best practices.

The department annually audits teacher caseloads assuring that FTE are assigned in the most efficient, cost effective way possible. If necessary, the department will make recommendations to principals which result in revisions to the school master schedule. In this way, the maximum number of students can be assigned to a teacher caseload.

Staffing adjustments may occur during the year as student needs increase/decrease. **Schools are not able to repurpose funds designed to support Special Education needs.**

5. STAFFING AND SCHOOL BUDGET PROCESS

Staff for grades 7 through 12 schools will be allocated as a total number of FTE's to cover their student enrollment for every period of the day. Staffing requests and scheduling must comply with subject area courses mandated by the State Education Department (SED) first. The remaining allocated FTE's can be chosen by the Principal in consultation with and approval by their Community Superintendent. Principals should complete their School Budget Worksheet (a sample is at Appendix B) and submit it electronically to the Office of School Performance (Attention Lori Repman) and Keith Robertson, Director of Staffing for Budget by April 15th.

The process for submission and approval is as follows:

- Principals will work with their School Based Management Team (SBMT) to make decisions on the use of their school-based budgets.
 - Principals will lead the process of completing the School-Based Budget Form.
 - Each budget expenditure request must include a correlating SCEP citation, supporting data and a rationale for the request written into the free write box on the form.
- Each principal and their select team members of no more than four (4) individuals will present their budget requests at a meeting with the community superintendents, Director of Staffing for Budget and subject area directors.
- The community superintendents will make a decision on the budget requests:
 - Approve the Full Budget Request
 - More Information Required for Approval
 - Disapprove select Items – Principal must select another expenditure for consideration

NOTE:

High School courses shall be closed if enrollment is less than 20 for grades 11 and 12 and 25 for grades 9 through 12.

PROGRAM ADDITION AND REMOVAL:

To add or remove a program from their school (e.g., CTE program), a principal must complete the following steps:

- Principals will work with their School Based Management Team (SBMT) to make recommendations to remove or add a program.
 - Principals will lead the process of completing the Program Addition or Removal Form (see Appendices C and D)
 - The form will be emailed to their community superintendent
- Each principal and their select team members of no more than four (4) individuals will present their request at a meeting with the community superintendents and relevant subject area director.
- The community superintendents will confer with the Chief Academic Officer to make a decision and communicate with the principal.

NON-NEGOTIABLE STAFFING LEVELS:

Based on state mandates and the collective bargaining agreement, certain staffing levels must be adhered to. The table on the subsequent two pages outlines the non-negotiable staffing levels.

NON-NEGOTIABLE STAFFING LEVELS: The following table outlines staffing and scheduling requirements that must be adhered to:					
Subject Area	Grades K-3	Grades 4-6	Grades 7-8	Grades 9-12	Class Size
Physical Education	One 30 minute class / 6 days	Two periods (length 40-45 minutes depending on building schedule) / 6 day cycle	Three periods (length 40-45 minutes depending on building schedule) / 6 day cycle	3 periods (length 40-45 minutes depending on building schedule) / 6 day cycle	Budget for formula has allotted staff based on sections at each grade level Swimming - 25 for safety, contract allows for 35 "Second set of eyes" trained in the defibrillator
Music	One 30 minute class / 6 days	Two periods (length 40-45 minutes depending on building schedule) / 6 day cycle	One-half unit (one period daily for at least one semester or one period three days) / 6 day cycle	One unit of credit in art and/or music (one period daily for a whole year or comparable amount of time)	
Art	One 30 minute class / 6 days	Two periods (length 40-45 minutes depending on building schedule) / 6 day cycle	One-half unit (one period daily for at least one semester or one period three days) / 6 day cycle	One unit of credit in art and/or music (one period daily for a whole year or comparable amount of time)	
CTE Certified Programs (Trade & Business)			One period daily for one semester (Alternates with Technology)	Grade 9 CFM -one period /full year Certified Business and Trades* Courses: Grades 10-12 CTE Career Path – minimum – two periods/full year Grades 9-12 - Differentiated CTE Programs - one period /full year Any business course can be an elective – one period/full year *Trade Teachers may teach 6 periods	

Subject Area	Grades K-3	Grades 4-6	Grades 7-8	Grades 9-12	Class Size
Technology			One period daily for one semester (Alternates with Home and Careers)		
Foreign Language			One unit of credit (one period daily for a whole year)		
Librarian	3 days 6/day cycle	3 days 6/day cycle	8 th Grade only – enrollment of 100 – 300 .4 periods / 6 day cycle	500 – 900 student 5 periods/daily 700 – 1,000 9 periods/daily 300 – 500 student .5 (3 days out of a 6 day cycle)	
RTI	The students who are not proficient must be provided with appropriate intervention services. Level of proficiency and group size must be considered when providing RTI	The students who are not proficient must be provided with appropriate intervention services. Level of proficiency and group size must be considered when providing RTI		Any student not at proficiency must receive appropriate and effective Academic Intervention Services in core subjects	
ELA	90 minutes of Literacy Period 60 minutes of Differentiated Period	60 minutes of Literacy Period 60 minutes of Differentiated Period	40 minutes of ELA AIS for select students		
Math	90 minutes of instruction	90 minutes of instruction			
Social Studies	Minimum of 40 minutes three times /6 day cycle	Minimum of 40 minutes three times /6 day cycle	One period daily full year		
Science	Minimum of 40 minutes three times /6 day cycle	Minimum of 40 minutes three times /6 day cycle	One period daily full year		

6. FLEXIBLE CONTRACT FOR EXCELLENCE FUND BUDGETS

Schools that do not receive supplemental funding via School Improvement Grants (SIG) will receive supplemental funding via the Contract for Excellence set aside. Schools will receive a per pupil allocation for students with Level I and II English Language Arts (ELA) and Math scores. Per pupil allocations will also be provided for students who are ELL, in grades K-3 or Grades 10-12. A student can be counted twice. Additionally, schools whose SIG funds expire in 2012-13 will receive transitional funding. For 2013-14, the amounts will be as follows:

	Level 1 ELA & Math	Level 2 ELA & Math	ELL	Students in Grades K-3	Students in Grades 10-12	SIG Transition
Allocations per pupil	\$200	\$100	\$50	\$50	\$50	
Lump sum allocation						\$250,000

Flexible funds can be spent on the allowable expenditures listed below, after submission of the School Budget Worksheet and approval of the Community Superintendent as outlined in section Five.

6A. EXPLAINING THE INPUTS IN THE FLEXIBLE CONTRACT FOR EXCELLENCE FUNDING

For the 2013-14 school budgets, the number of Level I and II students in ELA and Math was obtained from the Office of Shared Accountability January 25, 2013 and represent the students currently enrolled in schools with the previous year’s assessment results.

Enrollment for ELL, grades K-3 and 10-12 represents 2012 BEDS and was obtained from the Office of Shared Accountability.

Due to the availability of data, prior year enrollment data will be used for school budgets.

6B. STATE GUIDELINES FOR CONTRACT FOR EXCELLENCE ALLOCATIONS

The Contract for Excellence (C4E) is a set aside of the District’s Foundation Aid as prescribed and adjusted in Education Law, section 211-d. The annual contract amount shall be used in accordance with allowable programs and activities and affirm that such programs shall predominately benefit students with the greatest educational needs including, but not limited to:

- a. Limited English proficient students and students who are English language learners;
- b. Students in poverty;
- c. Students with disabilities; and
- d. Students with low academic achievement

Allowable programs and activities:

- a. Student time on task
 - i. Guidance counselors
 - ii. Attendance teacher
 - iii. Academic Intervention Services – Science or Social Studies Teacher
 - iv. Building Math or Reading Teacher

- b. Teacher and principal quality initiatives
 - i. Instructional coaches shall provide teachers with support in content areas and may provide professional development to teachers in pedagogy and/or classroom management, to improve student attainment of State learning standards

- c. Expansion or replication of effective model programs for students with limited English proficiency, in accordance with the following:
 - i. English as a Second Language Teacher
 - ii. English as Second Language Coach for Teachers
 - iii. Materials in native language
 - iv. Translation services
 - v. Translation equipment/supplies

Public process

Each school shall develop their plan for their portion of the C4E funds in consultation with their School Based Management Team.

7. SUPPLEMENTAL FUND BUDGETS

7A. TITLE I ALLOCATIONS AND SPENDING (STAFFING AND SUPPLIES)

Title I schools choose how to use their Title I school allocations based on the following guidelines.

Supplement Not Supplant

Title I funds may be used for a variety of services and programs, with a special focus on instruction in reading and mathematics. Title I funds must be used to **supplement** funds that are made available from non-federal sources and not to **supplant** funds from the O&M budget. This is true of all federal funds. Most schools will use Title I allocations largely to choose supplemental school staff. Staff supplanting is most evident when federal funds are used to support a position that a district is legally mandated to provide, or to support a position that was funded by O&M in the prior year.

Targeted Assistance v. Schoolwide Programming

A Title I school runs either a Targeted Assistance program or a Schoolwide program. In a Targeted Assistance program, funding is targeted for students who show evidence of the greatest academic need. Title I school allocation funds for a Targeted Assistance school should be spent on servicing only the targeted population. Schools determined to have a population that is at least 40% economically disadvantaged and that have completed a prescribed planning process can run a Schoolwide program, in which the use of Title I funds is not so restricted. A school does not simply have the option to choose which type of program it will run; the Schoolwide planning process must be completed for a school to run a Schoolwide program. In 2012-13, 40 of the 55 Title I schools ran a Schoolwide program. Each Title I school should know which type of program it runs and consider how selected staff will interact with the school population.

Title I Allocations – School Allocations and Parent Involvement Allocations

The count of economically disadvantaged students in a school has a direct impact on the amount of “Title funds” that the school receives in its school budget allocation. This count is determined through the use of “direct certification” information collected by the government, including Temporary Assistance to Needy Families (TANF)/Food Stamps and other data that indicate student need for free meals. The district’s overall 2013-14 Title I allocation is first reduced by set-aside amounts, including totals for Title I Administration, Focus District School Improvement, and other efforts. The remaining amount is then divided by the total number of economically disadvantaged students to generate a Per Pupil Allocation (PPA). The PPA is multiplied by the number of such students in a school to determine that school’s allocation.

A school can use its school allocation to select supplemental full-time staff and instructional supplies. The following staff titles are available: Title I Teacher Assistant, Guidance Counselor, Reading/Math Support Teacher (elementary), and AIS ELA/Math Teacher (secondary). Each title is assigned a dollar value, regardless of the employee filling the title. Using the School Budget Worksheet, a school may budget any number of such titles that fit within its allocation. The Principal will work with the Director of Staffing and the Office of School Performance as needed to ensure that partial FTEs are matched to create whole positions. The school should devote the remainder of its allocation to instructional supplies, which should align with programming to improve academic achievement of all students in Schoolwide programs and identified students in Targeted Assistance programs. The Office of School Performance will review school plans for the use of Title I allocations." This will allow OSP to check the reasonableness of e.g. a school request to devote a large portion of its resources to supplies

Some staff are not part of school allocations. Pre-K staff and Instructional Coaches are part of set-asides that are allocated by the district.

Again, Title I is supplemental school programming. Any Title I budgeted staff are in addition to a school’s baseline staff, as determined by Finance and Human Resources. To avoid supplanting, Title I staff are also in addition to a school’s prior year O&M staff: if School A has 1.0 O&M Guidance Counselors in 12-13 and has a baseline of 0.5 in 13-14, that school may not budget any Title I Guidance Counselors without first budgeting another 0.5 from O&M to match the prior year’s O&M staff. Staff must strictly adhere to their posted job duties and the additional guidance that subject area directors provide regarding positions that are funded by Title I. All supplies must be used in programming to improve the academic achievement of students at risk of failure to meet academic standards.

In addition to Title I School Allocations, schools receive Title I Parent Involvement allocations. Parent Involvement is a set-aside portion of the Title I budget that is divided among schools based on each school’s portion of the total district count of economically disadvantaged students. A school may use these funds to afford a variety of resources, including training, meeting, and supply items, that explicitly align with its parent involvement planning.

7B. TITLE III ALLOCATIONS AND SPENDING (ENGLISH LANGUAGE LEARNER PROGRAMS)

There are two Title III grants: Title III Limited English Proficient and Title III Immigrant. Schools choose how they will most effectively serve their English Language Learner and Newcomer Immigrant populations based on the following guidelines.

As with Title I, each Title III grant has a total allocation that is partially budgeted for off-the-top, district-wide expenses, in these cases for Multilingual Department efforts, notably Jumpstart programming. The remaining budget amounts are divided among schools, again through the use of PPA calculations. The Title III LEP total allocation is based on ELLs enrolled in the previous year; Title III Immigrant, on Newcomer Immigrants – ELLs who have arrived in the last 3 years. School allocations are based on 2012 BEDS Day ELL and current active Newcomer enrollments.

Title III LEP School Allocations

- Schools with 30+ ELLs receive a Per Pupil Allocation
- Schools with fewer ELLs are part of a pool that receives services through remaining funds

Title III Immigrant School Allocations

- Schools with 25+ active Immigrant students receive a Per Pupil Allocation
- Schools with fewer are part of a pool that receives services through remaining funds

Title III funds can only be used to provide *supplementary* services to ELLs and Immigrant students.

Priority areas for the use of Title III funds are as follows:

- Developing new and/or enhancing programs for newcomers
- Developing new and/or enhancing transitional bilingual education programs
- Developing new and/or enhancing dual language programs
- Developing new and/or enhancing programs for students with interrupted formal education (SIFE) and long-term ELLs
- Improving teaching and learning in core subject areas
- Improving native language and English teaching and learning
- Enriching parent engagement activities and securing appropriate translation and interpretation services
- Providing students with supplemental guidance
- Implementing strong student supports to increase graduation rates
- Integrating ELLs in secondary school reforms

ALL Title III supplemental services must include *all* of the following three components:

1. **Direct Instruction:** activities must be used to support language development, English and native language instruction, high academic achievement in math, and/or core academic areas.
 - The Title III supplemental instructional services must be based on student need
 - These supplemental services should complement core bilingual and ESL services required under CR Part 154
 - Direct supplemental services should be provided for before school, after school, and/or Saturday programs
 - Teachers providing the services must be certified bilingual education and/or ESL teachers
2. **High quality professional development** that is of sufficient intensity and duration to have a positive and lasting impact on the teachers' performance in classrooms

- Professional development activities should be well-planned, ongoing events rather than one-day or short-term workshops
- 3. **Parent engagement** and supports must ensure that there are appropriate translation and interpretation services to meet community needs.
 - These are in addition to mandated activities, such as parent orientation during ELL identification process

Examples of Allowable Services:

Direct Instruction:

- After School Program
- Saturday Academy
- Instructional Supplies to support extended learning opportunities
- Technology solutions

Professional Development:

- Professional learning opportunities (teacher as student, discussion leader, etc.)
- Teacher Aide/ Assistant Training
- SIOP Training
- Step Up to Writing
- Contract services
- Instructional Supplies to support professional learning
- Teacher resource materials

Parent Engagement:

- Parent workshops
- PTO materials in multiple languages
- Instructional supplies (e.g. take-home learning materials)
- Translation/interpreting services

Examples of services that are NOT allowable:

- Travel
- Office supplies
- Food supplies
- Awards, prizes
- Any materials and services provided to all students through the O & M budget, or to other students through Title I or other funding.

Please be advised that each program budget must account for the following ancillary costs:

- Instructional supplies
- Teacher/ administrator pay as student
- Discussion leader pay
- Custodial/ engineer costs
- Substitute costs
- Administrative costs

All programs and supplemental services are contingent upon the approval of the Community Superintendents in collaboration with the Director of Multilingual Education.

8. SPECIALTY SCHOOLS AND PROGRAMS

There are currently seven schools within BPS that require specialty funds to support their programs. Non-formula funds are included in the initial school budget allocations for these programs.

School No.	School Name	Program Name	Expenditures Related To	Amount
32	Montessori	Montessori	Montessori Training & Supplies	\$40,000
64	Olmsted	Gifted & Talented	Ancillary time for psychologist admission testing, testing supplies	\$40,000
99	Makowski	Early Years IB	IB Dues, Training, Supplies, Coordinator	\$150,000
187	Performing Arts	Visual and Performing Arts	Ancillary time, contracts, equipment and supplies for performances, Coordinator	\$130,000
195	City Honors	Middle Years and Diploma IB	IB Dues, Training, Supplies, Tests, Coordinator	\$250,000
212	DaVinci	College Partnership	College Tuition	\$160,000
335	Middle College	Early Middle College	College Textbooks and Tuition, student interviews	\$560,000

9. SUPPLY ENHANCEMENT ALLOCATION INFORMATION

Instructional supplies and materials are allocated to the schools in a number of different ways; by number of teachers in a particular subject area, by number of students assigned to a school building, type of school and by the number of new classrooms or courses. For the purposes of this section, Elementary students are in grades K through 8; High School students are in grades 9 through 12; Vocational Schools provide programming for high school students which integrate rigorous academics with relevant career and technical skills, as well as, workplace attitudes and behaviors and Specialty Schools include Occupational Training Center, School #84 and Western New York Day Treatment Center.

9A. SCHOOL ALLOCATIONS

1. Instructional Material Allocations based on Number of Students in a School Building

Each school is allocated funds based on the BEDS number of the prior year. The allocation for postage and petty cash is adjusted in January and reflects the new October BEDS information. Each school will receive an allocation for petty cash, postage, subscriptions, library, supplies and textbooks.

A. Petty Cash and Postage

Petty cash and postage will be allocated in two installments; the first installment in July and the second in January, after the adjusted BEDS information has been entered.

	Petty Cash		Postage	
	Teacher	Principal	Elementary	Secondary
Total Allocation	\$5.00	\$1.00	\$1.25	\$2.00
1 st Installment	\$3.00	.75	.75	\$1.50
2 nd Installment	\$2.00	.25	.50	.50

B. Subscriptions, Library Materials, Supplies, Textbooks

Subscription, library, supply and textbook allocations are entered in MUNIS and available as of July 1st of the current school year.

	Subscriptions		Library	Supplies			Textbooks
	Elementary	Secondary	All Schools	Elementary	Secondary	Special School	All Schools
Allocation	.50	\$1.00	\$6.25	\$20.00	\$33.00	\$60.00	\$15.00

Budget Department. If you have questions or concerns regarding the status of your requisitions, please contact the Purchase Department.

If you need to place an equipment order (object code in the 200 range), please submit a budget transfer request to move funds from your 500 account prior to submitting the requisition.

Math Investigation materials will be ordered by the Math Department as in the past, however, the cost of these materials will not come from your schools allocation.

D. Deadlines

Requisition Deadlines	
Textbooks	1 st Monday in February
All other materials	April 15 th

Sometimes it's not always clear what a textbook is and what's considered a supply. Hopefully the following information will help you make that determination.

E. Guidance on Textbooks versus Supplies

The District must follow guidelines established by the New York State Education Department when charging textbooks and supplies to accounts. A textbook is any book or book substitute which a pupil is required to use as a text or a text substitute in a particular class or program as a primary source of study material intended to implement a major part of a State or local curriculum.

Specific types of Textbooks are:

- Hard-covered
- Paperback books
- Manuals
- Courseware or other content-based instructional materials in electronic format
- Workbooks designed to be written in and used up
- Newspapers or news magazines (which have a general circulation, are printed and distributed at least biweekly, have a paid circulation within the school district, are entered with the U.S. Postal Service as second-class matter, are available to schools on the date of publication at a discount of not less than 33 1/3 percent from the regular price, and are accompanied by study guides on a regular basis from the publisher at no extra charge to the school district.)

Specific types of Supplies are:

- Teachers' editions of textbooks
- Review books
- Tests & testing materials
- Reference materials (such as encyclopedias, almanacs, atlases and general or special

dictionaries (except the dictionaries individually assigned to all pupils in a particular class or program as a textbook substitute are considered as textbooks)

- Supplementary textbooks, fiction, novels, magazines, newspapers (except as provided above, and audiovisual materials normally housed in the school library or instructional materials center for short-term use by pupils)
- Materials in kit/set form
- Internet on-line service
- Books or materials advocating or supporting a religious belief

Additional information can be found at – http://stateaid.nysed.gov/tsl/html_docs/txtbk03.htm

9B. CENTRAL ALLOCATIONS

The following types of allocations are handled by subject area Supervisors and Directors:

1. Teacher Supply Allocations

Teachers in the areas of Art, Music, Home & Careers, Technology, Science Labs, Physical Education and Special Education are allocated supplies appropriate to their program. Please contact the subject area director or supervisor for the procedures on how to use this appropriation. The allocations are as follows:

Type of Teacher	Allocation/Teacher
Art	\$300
Music	\$200
Science Lab	\$200
Physical Education	\$200
Home & Careers	\$1,350
Technology	\$1,350
Special Education	\$150

2. New classroom or course

A new classroom is any elementary classroom (K-6), special education classroom or any new course in a core area that was approved during the staffing process for the current school year. (Art, Music and Physical Education are not considered new classrooms)

Department Directors and Supervisors are responsible for ordering new classroom textbooks and supplies. Please contact the appropriate departments during the month of June with your textbook and supply requests.

APPENDIX C – PROGRAM/COURSE ADDITION REQUEST FORM

BUFFALO PUBLIC SCHOOLS
Program/Course Addition Request Form

School _____ Date _____
 Person Completing Form _____ Title _____
 Title of program/course being requested for consideration _____

Timeline:

- **Proposals for the upcoming school year must be submitted to Community Superintendent by April 8**
- **Community Superintendent reviews the proposal with CAO and content director or supervisor with recommendations**

Description of the proposal:

- School or department will submit a 5-10 page summary of the program aligned to the SCEP and include the following:
 - **Section 1: Purpose of the program**
 - **Section 2: Relevant data** the including the SCEP targets that were used to determine the need for the program
 - **Section 3: Identify 3-5 *S.M.A.R.T. Goals** for the program
 - Specific, Measureable, Attainable, Realistic and Timely
- *For more information search **SMART Goals** on the internet
- **Section 4: Identify students** who will be enrolled in the program (include number of students, academic achievement levels, sub-groups, pre-requisites needed, etc.)
- **Section 5: Identify staffing** required to implement the program
- **Section 6: Expected Outcomes** of the program that will be used to evaluate the effectiveness of the program
 - Must be aligned to the SMART Goals above, CCLS, District initiatives
 - Must include information as to how the following variables will be evaluated (Academic Achievement, Attendance, Suspension, parent involvement, etc.)
- **Section 7- Other** relevant information (if available)

APPENDIX D – PROGRAM/COURSE DELETION REQUEST FORM

BUFFALO PUBLIC SCHOOLS
Program/Course Deletion Request Form

School _____ Date _____
 Person Completing Form _____ Title _____
 Title of program/course being requested for Deletion _____

Timeline:

- **Proposals for the upcoming school year must be submitted to Community Superintendent by February 1st**
- **Community Superintendent reviews proposal with CAO and content director or supervisor with recommendations**

Description of the proposal

- School or department will submit a 2 - 5 page summary of the program aligned to the SCEP and include the following:
 - **Section 1: Purpose of the program**
 - **Section 2: Identify whether the goals and expected outcomes based on SCEP targets were met**
 - **Section 3: Relevant data that was used to determine the rationale for deletion**
 - (Academic Achievement, Attendance, Suspension, parent involvement, etc.)
 - **Section 4: Identify students who were enrolled in the program (include number of students, academic achievement levels, sub-groups, etc.) and the impact of the deletion on their course work and graduation requirements**
 - **Section 5: Identify Staffing that was connected to the program.**
 - Note: FTEs will be eliminated if the deletion of the program is approved.
 - **Section 6: Other relevant information (if available)**

D3- Job Posting for Director of Extended Learning Time

**BOARD OF EDUCATION
DEPARTMENT OF HUMAN RESOURCES
BUFFALO, NEW YORK 14202**

**RECRUITMENT BULLETIN
OCTOBER 7, 2013**

DIRECTOR OF EXTENDED LEARNING

NOTICE OF POSITION

POSITION: The Superintendent of Schools, Pamela C. Brown, Ed.D., is interested in receiving applications from qualified candidates for the position of:

DIRECTOR OF EXTENDED LEARNING

APPLICATION: Candidates interested in applying must complete an online application on the district web site at: www.buffaloschools.org

QUALIFICATIONS: Candidates must have a Master's degree, and a New York State School District Administrator (SDA), or School District Leader (SDL) certificate by the time of appointment.

Candidates must have a minimum of five (5) years combined certificated teaching and supervisory experience, with a minimum of one (1) year at the Supervisory level. Candidates with prior experience in an urban school district with a large racially and ethnically diverse population are preferred.

DUTIES: Directs all general education summer and extended day programming, including:

- The incumbent is responsible for the development and implementation of the District's Extended Learning program for students in elementary, middle and high school.
- She/he is responsible for overseeing the delivery of high quality, curriculum-based, after-school educational activities that are aligned with the Common Core learning standards and support college and career ready students.
- The successful candidate will design extended-day learning opportunities to assist struggling schools. She/he is also responsible for supervising and providing strategic leadership to Site Managers in the implementation and daily operation of the Extended Learning Time program (ELT), developing strategies to ensure ELT program staff are well-qualified to provide engaging and innovative learning opportunities that improve the performance of students district-wide.
- The Director is a strong leader and team-builder, working collaboratively with principals, teachers, parents, along with all internal departments impacting the Extended Learning programs. The Director will also be the district liaison with

several Community Based Organizations and SAY YES Buffalo to ensure high quality after-school programs are in all Buffalo Public Schools.

- She/he should be knowledgeable and committed to the role of extended learning in helping students stay on track to graduate from high school and succeed in college.
- She/he has overall accountability for the quality and success of Extended Learning Programs and their alignment with the mission of the Buffalo Public Schools.
- Provides professional development to principals and teachers on Federal mandates.
- Monitors and assists in the evaluation of programs that provide intervention to students District-wide.
- Prepares reports based on data analysis of the District's Extended Learning Time programs.
- Other duties and responsibilities assigned by the Division Chief.

APPOINTMENT:

Appointment will be made by the Superintendent following assessment of training, experience, credentials and evaluation of service. Personal interviews shall be scheduled where appropriate.

SALARY:

Administrator's schedule based on BCSEA contract.

FUNDING:

Pending funding

D6-Progress Monitoring

The Quarterly and Monthly review processes will utilize the available and current district data and reporting processes, and will include collaborative planning, training, and guided implementation, beginning with 11 SIG Priority schools (Phase I). This will extend to include remaining Priority schools in March 2014 (Phase II). Transition planning for 2014-15 is a priority work for May-June, when AIR will gradually release responsibility for the monitoring system to the Office of School Leadership (OSL)

The Chiefs of School Leadership will implement and sustain the quarterly review process with training from the American Institutes for Research. Chiefs and their selected team members will review the data that was gathered during the DTSDE interview. Quarterly visits will include data related to the actions, strategies, recommendations in a schools SIG plan or School Comprehensive Educational Plan (SCEP) gathered through classroom observations, observations of teacher team meetings, Student Support Team meetings, School Leadership Team meetings, and/or a review of relevant qualitative (lesson plans, guiding curriculum documents, team meeting protocols, etc.) and quantitative data (CFA and other achievement, attendance, discipline incidents, etc.).

Site Based Monitoring	On-going	<p>All Priority and Focus schools receive a comprehensive review conducted by the Chiefs of School Leadership using the DTSDE protocol and tools to aid the in:</p> <ul style="list-style-type: none"> • Identifying strengths & weaknesses • Creating recommendations for improvement <p>Schools use this information to develop strategies, objectives, and performance measures for improvement.</p>
Quarterly Monitoring	Rolling basis – school monitoring occurs four times a year starting with Cohorts 3 and 4 and eventually extending to all schools	<p>Teams from the Office of School Leadership (OSL) visit Priority School, beginning with the eleven Priority Schools in Cohorts 3 and 4, to assess the implementation of recommendations from the annual visit. OSL Teams will meet with principal and school leadership teams to review “charting the course-type” data: CFA and other student proficiency and performance data by grade level content, teacher, and reporting sub groups, attendance and discipline by grade, and other performance measures to determine progress toward proficiency targets.</p> <p>Interventions will be reported by school teams, adjustments and new interventions recommended; action plan for next steps will be created and monitored by the school team with progress reported at next monthly review.</p>

D7- Chart of Accountability and Supports

Attachment D7. Support and Accountability for Priority Schools

Preimplementation			
Type of Activity	Frequency/Timing	Purpose/Description	Personnel
Planning meetings	April–July	These organizational meetings with the school’s restructuring team provide an opportunity to identify roles and responsibilities, map out a timeline for updating the school plan, and finalize the plan.	District staff; SIG principals and leadership teams
Partner Kickoff Meeting	Summer	This meeting led by the school principal with support from their leadership coach will bring all partners of respective school to the table to establish program coherence between all parties to ensure lines of communication and expectations are clear.	SIG Principal, Superintendent, Chiefs of School Leadership, Chief of Curriculum Assessment and Instruction, Office of Shared Accountability
Cohort 5 TLLN kickoff (planning)	Summer	This team will build competencies in school turnaround.	Chiefs of School Leadership and assistant superintendent of curriculum, assessment and instruction; SIG principals and leadership teams, turnaround specialist partner

Year 1 Implementation - Support and Accountability for Priority Schools			
Type of Activity	Frequency/Timing	Purpose/Description	Personnel
On-site school visits	Weekly	A liaison will attend the school's leadership team meeting and tour the school with the principal, using an observation tool based on a state tool. A debrief with the principal will follow. This activity will enable the principal to request specific support and the liaison to identify feedback.	Office of School Leadership staff
Data coach meetings	Weekly	Teachers and administrators will continue to receive support for DDI practices.	Office of Strategic Alignment and Innovation
Instructional Coach PLC and Practicums	Weekly	Practicums occurs after weekly PLC sessions focused on Curriculum, Instruction and Data to ensure that new learning is operationalized in SIG School PLC and classrooms.	Curriculum Assessment and Instruction Staff, District Instructional Specialist, Instructional Technology, Office of Strategic Alignment and Innovation
Learning walks	Monthly	All content directors and supervisors will stagger visits throughout the month, support leadership teams with feedback to teachers, establish action tasks, and follow up.	Office of Curriculum, Assessment and Instruction
Priority school principals meetings	Monthly, 2014-15	These will provide support and a forum for Priority school principals.	Office of School Leadership; Office of Curriculum, Assessment and Instruction; Office of Strategic Alignment and Innovation

Year 1 Implementation - Support and Accountability for Priority Schools			
Type of Activity	Frequency/Timing	Purpose/Description	Personnel
Leadership workshops	Quarterly, 2014-15	These full-day workshops are for leadership teams.	BCSD staff; SIG principals and leadership teams
Progress monitoring meetings	Quarterly, on a rolling basis for schools	These sessions seek to provide school leadership teams with guidance in making data-based school improvement decisions.	BCSD central office; school teams
DTSDE training	Ongoing	The district will provide professional development on all aspects of the DTSDE process.	Office of Strategic Alignment and Innovation
Reality check	January 2015	This midyear meeting is an opportunity to assess progress and readjust.	BCSD staff; SIG principals and leadership teams
End-of-year check	June 2015	At the end-of-year meeting, schools will assess progress and finalize a Year 2 plan.	District and school team

Executive Summary of Transformation Leadership Training Network Summer Session

Purpose of the Summer Sessions

American Institutes for Research (AIR) launched the Transformation Leadership Learning Network (TLLN) in summer 2013. The attendees of the first session held in June were the leadership teams from each invited school. Administrators from all Buffalo Public Schools and central office staff attended the second session held in August in conjunction with the Administrator's Leadership Conference.

The objective of TLLN is to enhance the turnaround competencies of building leaders and leadership teams as they work to transform their respective schools. The June and August sessions focused on the building blocks for success: a 30-60-90 day implementation plan with quick wins, the crucial elements for successfully implementing a school's plan, and school leadership team structure and operations. In addition to training workshops for school leaders, AIR also provided training for district staff focused on the New York State Diagnostic Tool for School and District Effectiveness (DTSDE). This session was delivered in conjunction with the August Administrators' Leadership Conference.

Evaluation Method

All participants in each session were asked to complete evaluation forms. Each evaluation form contained common scaled and open-ended questions related to the overarching objectives as well as unique scaled questions related to specific session objectives. When common scaled questions were posed in multiple sessions, the responses were calculated first for each separate session and then averaged across sessions. Any response greater than 75 percent favorable was deemed as "met." Any response less than 75 percent favorable was deemed as "partially met." Responses with less than 50 percent favorable ratings were deemed as "not met"; however, there are no results meeting this criterion. Overall, the AIR workshops have met the intended objectives. Table 1 provides the percentages of favorable ratings on selected objectives from each training session. Table 2 describes and summarizes the open-ended responses for each workshop.

Snapshot of the Responses

The response rates for each workshop ranged from 53 percent to 74 percent, as shown in Table 1. The response ratings from participants regarding sessions that focused on building school plans and leadership teams and implementing the work were consistently well received by the participants, with favorable ratings in the upper 80 to 90 percentiles. Although not an official TLLN component, the DTSDE training was included during the conference. Critical feedback related to the district DTSDE training session indicates that more work with district staff is necessary to build understanding of this new monitoring and reporting system.

Table 1. Training Session Attendance and Response Rates

Session Title	Number of Sessions Provided	Total Attendees	Response Rate
Transformation Leadership Learning Network Kick-off (<i>June</i>)	1 (2-day session)	65	74%
Increasing District Effectiveness: A Learning Session on the New York State Diagnostic Tool for School and District Effectiveness (<i>August</i>)	1	54	68%
Discover the Stages of Implementation (<i>August</i>)	5	177	71%
Build an Effective School Leadership Team (<i>August</i>)	5	142	73%
Understand the Role of the Building Leader in Instructional Coaching (<i>August</i>)	5	163	53%
Unpack Your Improvement Plan: Moving from Compliance to Quality Implementation (<i>August; TLLN cohort schools only</i>)	1	28	64%

Summary of Responses and Analysis

Table 2. Feedback on Selected Objectives for the June and August Training Sessions

Objective	Progress	Data
AIR seeks to help Buffalo Public Schools create an effective professional community for school leaders. (<i>All sessions</i>)	Met	An average of 93% of the participants agreed or strongly agreed that—through the conference—they felt part of a professional community.
AIR seeks to develop trainings that support school and district reform initiatives. (<i>All sessions</i>)	Met	An average of 90% of the participants agreed or strongly agreed that the training related directly to their reform initiatives.
AIR seeks to build skills that principals and school leaders need to be effective. (<i>All sessions</i>)	Met	An average of 90% of the participants agreed or strongly agreed that the training was helping them build their skills.
AIR seeks to help school leaders establish a clear vision, roles, and responsibilities of leadership teams. (<i>June session</i>)	Met	Most of the participants (88%) agreed or strongly agreed that their team has a clear vision and understands their roles and responsibilities.
AIR seeks to help school leaders better understand the DTSDE tenets. (<i>Increasing District Effectiveness</i>)	Partially met	Most of the participants (65%) agreed or strongly agreed that the training helped them better understand the DTSDE tenets.
AIR seeks to help school leaders identify action steps to move higher on the DTSDE scoring rubric. (<i>Increasing District Effectiveness</i>)	Met	Most of the participants (84%) agreed or strongly agreed that the training helped them develop action steps to score higher on the DTSDE rubric.
AIR seeks to help school leaders identify specific steps that support the high-quality implementation of improvement plans. (<i>Discover the Stages of Implementation</i>)	Met	An average of 93% of the participants agreed or strongly agreed that they are able to identify specific steps that support the high-quality implementation of improvement plans.
AIR seeks to help principals identify actions they can take to build effective leadership teams. (<i>Build an Effective School Leadership Team</i>)	Met	An average of 91% of the participants agreed or strongly agreed that they were able to identify two steps they could take to build effective leadership teams.
AIR seeks to help principals identify the strengths of their leadership teams. (<i>Build an Effective School Leadership Team</i>)	Met	An average of 87% of the participants agreed or strongly agreed that the training helped them identify the strengths of their leadership team.
AIR seeks to help principals understand the elements of instructional coaching and the coaching process. (<i>Understand the Role of the Building Leader in Instructional Coaching</i>)	Met	Most of the participants (95%) agreed or strongly agreed that they are able to explain the essential elements of instructional coaching and the coaching process.
AIR seeks to create tools that school leaders can and will use. (<i>Unpack Your Improvement Plan</i>)	Met	Most of the participants (94%) agreed or strongly agreed that they will use the tools provided during the training.
AIR seeks to help school leaders understand the steps for implementing their plans. (<i>Unpack Your Improvement Plan</i>)	Met	Most of the participants (89%) agreed or strongly agreed that the training helped them understand the steps to implement their plans.

*Responses less than 75 percent favorable = partially met objective. Responses greater than 75 percent favorable = met objective.

In-depth Analysis and Feedback on Individual Sessions

Transformation Leadership Learning Network Kickoff Event

The June workshop took place over two days and was attended by leadership teams and principals appointed to the schools at that time. Several schools were undergoing transitions in leadership; some leadership team members attended and actively participated despite principal vacancies in their respective buildings. A few newly appointed principals were able to attend on Day 2. Forty-seven of the 48 participants provided responses to the open-ended questions on the evaluation. The objectives of the two-day workshop focused on fostering effective and trusting team dynamics; defining the purpose, roles, and responsibilities of the leadership team; understanding turnaround leadership competencies; understanding the change process and phases of implementation; and unpacking the School Improvement Grant (SIG). Table 3 presents the scaled responses for this session.

Table 3. Scaled Responses for the June Session

Objective	Progress	Data
AIR seeks to help school leaders establish a clear vision, roles, and responsibilities of leadership teams.	Met	Most of the participants (88%) agreed or strongly agreed that their leadership team has a clear vision and understanding of their roles and responsibilities.

Key Highlights

A total of 47 participants provided responses to the open-ended questions for this session.

- When asked which activities were most helpful, 38 percent of the participants stated that the team-building activities and the opportunity to get to know each other’s strengths were the most helpful.
- Thirty-eight percent of the participants also cited unpacking the SIG application as the most helpful aspect of the training. However, seven of the 48 participants felt confused by the unpacking activity and were unsure how to align SIG with DTSDE tenets.
- About 15 percent of the participants felt that learning about implementation and working with the AIR coaches was most helpful.
- Twenty percent of the participants indicated concern about rolling out the SIG plan, and nearly one third expressed a desire for more time to plan with the team or AIR coaches.
- Twenty-five percent of the participants stated that, in general, the information shared was very helpful and informative.

The following are some representative quotes about what the participants found most helpful:

- “The Color [team-building] activity was extremely eye-opening and can be easily used again in the future.”
- “Group discussion regarding implementing new ideas and programs within our school.”
- “I really enjoyed unpacking the SIG and aligning with the tenets. This gave me the time to understand and make sense of everything.”

August Session 1: Increasing District Effectiveness: A Learning Session on the New York State Diagnostic Tool for School and District Effectiveness

This session was presented during the Buffalo Administrators' Leadership Conference. In this workshop, central office staff members engaged in activities designed to increase their understanding of the comprehensive district DTSDE rubric. The participants engaged in reflective discussions with fellow district staff and identified actions and supports needed to attain effective and highly effective performance levels. Table 4 presents the scaled responses for this session.

Table 4. Scaled Responses for August Session 1

Objective	Progress	Data
AIR seeks to help school leaders better understand the DTSDE tenets.	Partially met	Most of the participants (65%) agreed or strongly agreed that the training helped them better understand the DTSDE tenets.
AIR seeks to help school leaders identify action steps to move higher on the DTSDE scoring rubric.	Met	Most of the participants (84%) agreed or strongly agreed that the training helped them develop action steps to score higher on the DTSDE rubric.

Key Highlights

A total of 37 participants provided responses to the open-ended questions for this session.

- Seventy-three percent of the participants indicated that the opportunity to discuss district work related to the DTSDE tenets and statements of practice with district colleagues was helpful for making connections across district offices, as well as identifying areas of deficiency and potential action steps.
- A few of the participants stated that the session was a good refresher on DTSDE because they had worked with it previously. However, twice as many participants noted that this was their first introduction to DTSDE and appreciated the opportunity to gain familiarity with the instrument.
- Approximately 20 percent of the participants indicated they wanted more time to work with the tool and needed more information about the DTSDE tenets and professional development to support improvement.

The following are some representative comments about what the participants found most helpful:

- "I found the roundtable discussions very valuable; listening to the goals of my colleagues was eye opening."
- "I enjoyed the share out, which helped to see links between departments."
- "I really enjoyed the sharing out. It gives everyone an opportunity to learn the needs of other tenets, not just your own."

August Session 2: Discover the Stages of Implementation

This session was delivered during the Buffalo Administrators' Leadership Conference and was grounded in research by Fixsen, Naoom, Blase, Friedman, and Wallace (2005). It aimed to provide participants with an understanding of implementation science, the stages of implementation, and the core components needed to deepen the quality of implementation in current practice. Principals, assistant principals, and central office staff engaged with a professional reading and used a current example of practice to ground discussions about the stages of implementation. Table 5 presents the scaled responses for this session.

Table 5. Summary of Scaled Reponses for August Session 2

Objective	Level	Data
AIR seeks to help school leaders identify specific steps that support the high-quality implementation of improvement plans.	Met	An average of 93% of the participants agreed or strongly agreed that they are able to identify specific steps that support the high-quality implementation of improvement plans.

Key Highlights

A total of 135 participants provided responses to the open-ended questions for this session.

- Although a small handful of the participants felt they were not familiar enough with Data-driven instruction (DDI) to contribute examples to the activity, nearly 60 percent of the participants stated that the session provided them with insight about the process of effective implementation, and the discussion with fellow administrators was helpful.
- A few the participants noted that more time for discussion and more detail about each implementation stage would have been helpful.
- Several participants indicated a desire for assistance and support to address roadblocks to implementation, in particular roadblocks that emerge from fear and uncertainty that can emerge from change initiatives.

The following are some representative comments about what the participants found most helpful:

- “Going through the five stages really helped to see how to adopt a new initiative or program.”
- “Proper steps before the implementation of a new program”
- “The posters were helpful because they provided visual and action steps.”
- “Having time to converse with other administrators on the process”

August Session 3: Build an Effective School Leadership Team

In this session delivered during the Buffalo Administrators' Leadership Conference, the participants learned how a school leadership team (SLT) can be an effective driver of school improvement. Principals could reflect on the status and work of the SLT in their buildings and compare and contrast SLTs with other school teams. The participants left the session with tools, strategies, and action steps for building an effective leadership team in their buildings. Table 6 presents the scaled responses for this session.

Table 6. Summary of Scaled Responses for August Session 3

Objective	Progress	Data
AIR seeks to help principals identify actions they can take to build effective leadership teams.	Met	An average of 91% of the participants agreed or strongly agreed that they were able to identify two steps they could take to build effective leadership teams.
AIR seeks to help principals identify the strengths of their leadership teams.	Met	An average of 87% of the participants agreed or strongly agreed that the training helped them identify the strengths of their leadership team.

Key Highlights

A total of 104 participants provided responses to the open-ended questions for this session.

- Approximately 33 percent of the participants indicated that the session was helpful for them to achieve clarity about the purpose and the roles of an SLT as well as organize the SLT's work for the upcoming school year.
- Nearly 20 percent of the participants stated that time for discussion and collaborating with their administrative teams was helpful.
- Fourteen participants stated that the materials were useful in helping to organize SLTs, and seven participants specifically noted the presenters' examples from practice and experience as being helpful insights about SLTs.
- About 10 percent of the participants suggested that more time to discuss and plan for their SLTs was needed. Fifteen percent of the participants stated that additional guidance and support in fostering effective SLTs is an area of need. Several of these participants suggested that observing a high-functioning SLT would be helpful.

The following are some representative comments about what the participants found most helpful:

- "The difference in the roles of SBMT [site-based management team and SLT] were helpful and validating. The worksheets provided valuable insights into improving our current team."
- "I believe you covered the foundation of what we need to create an effective SLT."
- "Well done. Forcing us to nail down particulars of SLT was very helpful and useful."
- "I enjoyed listening to material that will be used immediately."

August Session 4: Understand the Role of the Building Leader in Instructional Coaching

Delivered during the Buffalo Administrators' Leadership Conference, this session focused on the role of the building leader in supporting an instructional coaching program in their schools. The participants were introduced to the essential elements of an instructional coaching program and the coaching process. They then defined the roles and the responsibilities related to instructional coaching and observed a demonstration of a data collection tool for monitoring the impact of coaching interactions. Table 7 presents the scaled responses for this session.

Table 7. Summary of Scaled Reponses for August Session 4

Objective	Progress	Data
AIR seeks to help principals understand the essential elements of instructional coaching and the coaching process.	Met	Most of the participants (95%) agreed or strongly agreed that they are able to explain the essential elements of instructional coaching and the coaching process.

Key Highlights

Sixty-five participants provided comments on the open-ended questions to this session.

- About 60 percent of the participants stated that gaining insight about a framework for effective instructional coaching practices and the opportunity to discuss plans in their buildings with other principals was helpful.
- Fifteen percent of the participants specifically mentioned that the tools introduced in the training were helpful—most notably the 30-day plan and the AIR online coaching tracking tool.
- Slightly more than 20 percent of the participants expressed a desire for more time to discuss specifics and obtain examples and exemplars from practice.
- Several participants indicated a need to acquire greater clarity about the role of instructional coaching in their buildings, noting that the role has changed.
- A handful of administrators expressed concern about contractual agreements and grievances around instructional coaching.

The following are some representative comments about what the participants found most helpful:

- "I now have a good understanding of what is a good/great coach!"
- "Coaches: This information opened my eyes and confirmed the urgency to support staff."
- "I love that this workshop is completely relevant."

August Session 5: Unpack Your Improvement Plan: Moving from Compliance to Quality Implementation

This session was delivered during the Buffalo Administrators' Leadership Conference and was attended by principals and assistant principals in the TLLN cohort of schools. It aimed to equip principals and assistant principals with knowledge, tools, and processes for the effective rollout of improvement plans. Facilitators modeled a process for unpacking the SIG into a manageable 30-60-90 day implementation plan that can be replicated and continued with SLTs. The participants also were introduced to the research-based practice of quick-wins to gain momentum for effective transformation. Table 8 presents the scaled responses for this session.

Table 8. Summary of Scaled Reponses for August Session 5

Objective	Progress	Data
AIR seeks to help school leaders understand the necessary steps for implementing their improvement plans.	Met	Most of the participants (89%) agreed or strongly agreed that the training helped them gain an understanding of the steps to implement their plans.

Key Highlights

Sixteen of 28 participants provided comments on the open-ended questions to this session.

- When asked what activities in this planning session were helpful, nearly 70 percent of the participants indicated that having time to become familiar with the SIG, engaging in implementation planning, and identifying quick wins for the start of the school year were most helpful.
- Twenty-one percent of the participants noted that time to collaborate with fellow administrators and the AIR leadership coaches was helpful.
- Approximately 40 percent of the participants stated that the planning tools and resources as well as the guidance on writing SMART (specific, measurable, action-oriented, relevant, time-bound goals) were helpful.
- Responses about aspects of the session that were not helpful focused on the noise level in the room (too loud) and the desire for more time to work on SIG planning.
- Two participants specifically noted that they would need support (from the AIR leadership coach or elsewhere) to identify priorities to focus improvement efforts.

Appendix. Survey Responses—All Sessions

**Transformation Leadership Learning Network
Wednesday–Thursday, June 26–27, 2013**

Table A.1. Survey Responses

Questions	Response 1		Response 2		Response 3		Response 4		Total Responses
I felt part of a strong professional community.	34	70.83%	12	25.00%	2	4.17%	0	0.00%	48
I was supplied with relevant and meaningful information and knowledge.	27	56.25%	17	35.42%	4	8.33%	0	0.00%	48
I had the chance to practice needed skills.	16	33.33%	24	50.00%	7	14.58%	0	0.00%	48
I saw the links between our reform initiatives and topics covered in this training.	24	50.00%	19	39.58%	5	10.42%	0	0.00%	48
I feel I am building leadership skills and understandings to help me be more effective in my leadership role.	27	57.45%	16	34.04%	4	8.51%	0	0.00%	47
I recognize the role of Turnaround Leadership and teacher competencies in transforming our school.	29	60.42%	14	29.17%	5	10.42%	0	0.00%	48
I have an understanding of the phases of implementation and how they apply to our reform efforts.	24	50.00%	16	33.33%	6	12.50%	2	4.17%	48
I feel our leadership team has a clear vision and understanding of our roles and responsibilities for leading the transformation of our school.	18	37.50%	24	50.00%	6	12.50%	0	0.00%	48
I recognize the connections between the SIG plan and the SCEP (school comprehensive education plan).	22	45.83%	21	43.75%	5	10.42%	0	0.00%	48
Total	221	51.28%	163	37.82%	44	10.21%	2	0.46%	431

A rating of 1 indicates that the participant strongly agrees with the element listed, whereas a rating of 4 indicates that the participant strongly disagrees with the element listed.

Open-Ended Responses

1. What activities/discussions/presentations today were helpful in understanding the process and your role in leading school transformation?
 - “Activities that provided team skills; receiving information in the SIG grant”
 - “Mini activities—color game and string game: understanding that everyone represents a color, and we all need one another to succeed”
 - “Unpacking the SIG grant; reading/creating a visual for carrying out the plan”
 - “Close read of tenets of reform”
 - “Unpacking the SIG”
 - “Identify individual and team strengths”
 - “Discussions with Ursula”
 - “Team building for laughs and individual conversations regarding our building specifically”
 - “Individual conversations with the AIR representatives”
 - “Discussion on understanding the population we are going to be working with”
 - “Color activity and the tangled shoestring activity”
 - “Team building is crucial in moving forward.”
 - “Colors, roles of team members, unpacking the grant”
 - “The color activity was extremely eye-opening and can be easily used again in the future.”
 - “Getting perspective, i.e., the steps to full implementation”
 - “Beginning to get a handle on the SIG and SCEP”
 - “Liked the beginning group activities—use towards staff development”
 - “Dissecting the SIG; still need to look more in-depth into”
 - “Breaking down our SIG grant more”
 - “The color activity was an interesting team building activity that will help us as we move forward.”
 - “Color activity! Knowing where people are grounded and comfortable is key to working effectively together”
 - “I love the opening team-building exercise on Day 2. I enjoyed the training and felt it was very informative.”
 - “The Phases of Implementation discussion (presentation) was great!”
 - “We were able to break down the plan.”
 - “Unpacking the SIG grant”
 - “The aligning of the tenets with the domains 6 stages—identify where we are ‘stuck’; aligning SIG to NYSED SQR and SCEP tenets”
 - “Implementation”
 - “Everything worked together”
 - “The phase of implementation”
 - “All of them”
 - “Color activity”
 - “Giving us time to work together as a team on the initial phase of our SCEP”
 - “I learned a LOT! All the information was great!”
 - “Group discussion regarding implementing new ideas and programs within our school. I thought breaking down the six steps was useful.”

- “Unpacking the SIG”
 - “Define roles and responsibilities for school leadership teams. Identify areas of priority.”
 - “Team time after lunch”
 - “Looking at SIG with respect to the tenets”
 - “Jigsaw of the article; unpacking the tenets based on the SIG”
 - “Loved the color theme; great idea using posters to present”
 - “I really enjoyed unpacking the SIG and aligning with tenets. This gave me the time to understand and make sense of everything. Also, I won’t be spending time in school.”
 - “Show true color”
 - “Team building with AIR members and admin staff”
2. Were any parts of today’s training less helpful?
- “Talked at us too much; directives not clear with SIG papers”
 - “Training was extremely supportive and informative; trainers were honest and presented interesting information.”
 - “No”
 - “Parts of unpacking SIG grant unclear”
 - “We needed a little more structure working independently.”
 - “No”
 - “No”
 - “Group activity was tough—only focusing on one part; I think we should have read the entire article and then broke up into groups.”
 - “Less team building, more planning for next year”
 - “Transferring SIG into SCEP. We wanted to have more discussion since this was the first time diving into the SIG since the rewrite.”
 - “Unpacking the SIG needed more detailed instructions.”
 - “Nope”
 - “Unclear direction”
 - “Unclear directions”
 - “The article on phases of implementation”
 - “All was helpful in its own right.”
 - “N/A”
 - “The article on phases of implementation”
 - “None”
 - “Teamwork --> Plan --> Sidebar conversation”
 - “Not really”
 - “No”
 - “All useful”
 - “The shoelace activity”
 - “I liked small groups with our own school best.”
 - “The shoelace activity”
 - “I just wanted to get into the planning process for our school.”
 - “No”
 - “No”
 - “No. It was very beneficial.”

- “Too much time is spent on the SIG plan without enough guided instructions.”
 - “Too loud to fully concentrate”
 - “I cannot think of any.”
 - “I felt at a disadvantage because I was asked to join the team in May. Most of the work had been done already (proposal).”
 - “Nothing; good info”
3. What questions, confusions, or needs do you have? What additional information would be helpful?
- “Questions would be around implementation”
 - “A lot of unknowns”
 - “Is there future training after this? Is it school based or will it be like our training today?”
 - “SIG grant, when will it be carried out—components of the grants, specifics?”
 - “How will reform be rolled out?”
 - “Big picture—how will it be implemented?”
 - “How do we get the staff we need for September when our grant is not approved yet?”
 - “Questions that I have cannot be answered.”
 - “What is the time frame for getting SIG accepted? When will the new principal be determined?”
 - “How/what to roll out in September”
 - “Still not sure how to get the plan going. What specifically do we have to do to get things up and rolling? I know it might be coming, but it is nerve-wracking!”
 - “More time with my team! We need more time.”
 - “Structured, planned AIR lead time that can really get us on track for September”
 - “What is our plan for the first 30 days and so forth? Will we be ready for this fall?”
 - “Planning so we are ready for September”
 - “?”
 - “How/where some of the SIG fits into the SCEP”
 - “We have a lot of unanswered issues in our building; we need to get together prior to opening day.”
 - “I just hope the district follows through with implementation and provides the resources necessary.”
 - “When will we have more time to work with you?”
 - “How do we move forward with this process over the next few months? Need a dashboard to track implementation from data sources.”
 - “Where and how do I fit into the picture as a turnaround leader who is not the leader?”
 - “How to prioritize goods”
 - “N/A”
 - “Still learning”
 - “None”
 - “Worried about developing solid implementation plan with funding still up in the air”
 - “We need to get together as a team to keep the momentum going!”
 - “No”
 - “None”

- “We will let you know.”
 - “Strategies used in other turnaround schools to improve specific areas of weakness, i.e., attendance; additional support when editing SCEP.”
 - “If this is to be implemented in September, we need more time and guidance before then.”
 - “More explicit directions on how to do the unpacking. Examples of what might fit best in each of the boxes.”
 - “Still a lot of questions as to what will happen in the summer.”
 - “N/A”
 - “Having PPT [PowerPoint presentation] e-mailed to us.”
4. Any specific comment on today’s training?
- “Really feel supported by AIR”
 - “Very nice presentation, knowledgeable”
 - “Great team building; the facilitators did an excellent job.”
 - “Nice flow”
 - “Great presenters/organization”
 - “Would have been more helpful to come up with plan we are using at the school level.”
 - “Thank you for the time to read our own SIG. Receiving the SIG first day, copies for all, would have helped us with today.”
 - “These trainings have to do a better job of ‘taking the temperature’ of the environment and current events.”
 - “The trainers were fantastic.”
 - “There needs to be more funding available this summer so that teams can meet again to plan.”
 - “More funding needs to be available to meet over the summer. Not enough times to do the work.”
 - “Thank you!”
 - “Thank you!”
 - “It was refreshing to build specific plans.”
 - “No”
 - “No”
 - “None”
 - “No”
 - “No”
 - “Thank you!”

**Administrators' Leadership Conference: Building an Effective School Leadership Team
Tuesday, August 27, 2013**

Table A.2. Survey Responses

Elements	Response 1		Response 2		Response 3		Response 4		Total Responses
I felt part of a strong community.	54	52.94%	38	37.25%	9	8.82%	1	0.98%	102
I was supplied with information and knowledge.	65	63.73%	29	28.43%	6	5.88%	2	1.96%	102
I had the chance to practice needed skills.	56	55.45%	35	34.65%	9	8.91%	1	0.99%	101
I saw the links between initiatives and topics covered in this training.	60	58.82%	35	34.31%	6	5.88%	1	0.98%	102
I feel I am building the skills and understandings to be more effective.	63	61.76%	30	29.41%	8	7.84%	1	0.98%	102
I understand how a leadership team can help drive improvement efforts	70	67.96%	29	28.16%	4	3.88%	0	0.00%	103
I identified at least two steps I will take in my building to build an effective leadership team	73	70.87%	23	22.33%	5	4.85%	2	1.94%	103
I feel I know the strengths of my leadership team	56	56.00%	37	37.00%	6	6.00%	1	1.00%	100
Total	497	60.98%	256	31.41%	53	6.50%	9	1.10%	815

- A rating of 1 indicates that the participant strongly agrees with the element listed, whereas a rating of 4 indicates that the participant strongly disagrees with the element listed.

Open-Ended Responses

1. What activities/discussions/presentations today were helpful in understanding the process and your role in supporting high-quality implementation of improvement initiatives?
 - “Actual examples from her experience”
 - “Going through the planning process and constructing our team”
 - “Talking about SLT and planning SLT”
 - “Give SLT members all dates for meetings for the year!”
 - “An opportunity to work in a school team on the specifics of the SLT with a rubric provided”
 - “The difference in the roles of SBMT and SLT were helpful and validating.”
 - “The worksheets provided valuable insights into improving our current team.”
 - “Good presentation; content is applicable.”
 - “Learned the difference between leadership team and SBMT.”
 - “The group discussion and personal experiences shared by presenter were beneficial.”
 - “Time with Leadership (Admin) Team”
 - “Determining when to meet and reinforcing focus of agenda”
 - “Presentation-group discussion by facilitator; facilitators’ real-world experience and problem-solving skills”
 - “Planning with admin team was helpful. We are a new team and are working to restructure our school leadership team.”
 - “Renewing and discussion composition/roles of SLT”
 - “The idea of establishing particular roles and goals for SLT”
 - “Was able to receive pertinent information and then PLAN with my admin team.”
 - “Time allotted to plan and organize the structure of the SLT was very helpful.”
 - “PPT and conversations were wonderful.”
 - “Defining what the role of the members are and setting the course for the year”
 - “‘Admin Team’ meeting was most helpful in being able to streamline the committee”
 - “Designing a meeting schedule for all SLT meetings”
 - “Having time to discuss who should be on the team. This was valuable.”
 - “I enjoyed the process and utilizing structures to narrow our focus.”
 - “Taking time to actually plan.”
 - “I found it helpful to have time to discuss with our administrative team.”
 - “I enjoyed the presentation to reinforce the time being critical to incorporate student achievement.”
 - “Group time with admin team, bulleted PPT data—good information”
 - “Discussion of SLT agenda, roles, team membership”
 - “The discussion about making sure to not include parents/community members in the SLT team”
 - “Focus on how to create an SLT”
 - “Meeting with team members to discuss SLT”
 - “This session was very helpful in having the opportunity to discuss who would be the team, etc.”
 - “Worksheet”
 - “Planning time and conversation”
 - “The WHO—as in, who is really part of the Leadership Team.”

- “Vision and strategies for Leadership Team”
- “Working to complete the handout to maintain focus”
- “Handouts”
- “All of the various parts of the presentation were useful.”
- “How to organize school leadership teams”
- “Defining the role of the SLT”
- “The graphic organizer was very helpful. It guided us through a step-by-step process.”
- “Clarified our role on the team”
- “All of them; we need the presentations.”
- “Meeting as an administrative team and discussing our needs and action steps”
- “Great small-group discussion”
- “Digging deeper into SLT and what does it look like”
- “Filling out school leadership form”
- “All”
- “Time with AP [assistant principal to complete handout what, where, when”
- “Interesting presenter—‘lived’ it”
- “Examples you gave”
- “The handout was helpful.”
- “How to set up the team, the suggestion”
- “Nice presentation”
- “The SLT guide was and is helpful. I hope to share the PPT with our SLT.”
- “Roles of SLT, agenda topics”
- “Role/purpose of SLT”
- “Planning meeting”
- “Great PPT and handouts”
- “Nice review that we are on target”
- “Not interactive—presenter did give concrete, explicit examples, had audience guessing!”
- “School leadership tea”
- “m was helpful”
- “Parameters of SLT”
- “Clarity in what SLT should be”
- “Reaffirmation of our standing SLT”
- “Good Powerpoint”
- “The interactive discussions were great.”
- “Complete form for school year”
- “Delivery and focus”
- “Great information”
- “All activities were effective.”
- “Informational powerpoint.”
- “This was the best session so far!”
- “The ‘what’ to discuss portion”

2. Were any parts of today's training less helpful?
 - "More clear info about who should be member of SLT"
 - "N/A"
 - "No"
 - "No"
 - "N/A"
 - "Review of school leadership team with role and focus"
 - "All parts helpful"
 - "Nothing comes to mind"
 - "N/A"
 - "No"
 - "No"
 - "No; it was great."
 - "N/A"
 - "Not enough time to process and share out"
 - "None"
 - "No"
 - "Yes, I need to let APs lead team members."
 - "None"
 - "Share out after each section (who, what, where, etc.)"
 - "I may be in transition from AP at one building to principal at another building—hard to focus on the SLT in current building because I am thinking of future SLT."
 - "No, would like a bibliography"
 - "Selecting team members"
 - "Strategies for implementing the SLT with central office support"
 - "No"
 - "Felt this was geared toward building level but not so much for Central Office"
 - "No"
 - "Needed more time to talk with our partners"
 - "Not a lot of time for discussion"
 - "No"
 - "No"
 - "I like the meeting time schedule"
 - "None—all of these 'ideas' have been established over the summer—not helpful for our school"
 - "No"
 - "Yes"
 - "More talk time needed"
 - "The presenter spent too much time lecturing."
 - "No"
 - "Applied only to school teams"
 - "Yes"

3. What questions/confusions/needs do you have? What additional information would be helpful?
 - "Sample agendas and topics would have been nice; more talk on current school practices"

- “Dr. Hill was very knowledgeable and passionate.”
- “Thanks”
- “None; training was thorough.”
- “An electronic version of handouts and templates used in the presentation”
- “A digital copy of the presentation (or some form thereof) would be helpful to share portions with my SLT.
- “Ideas for team mission, goals, etc.”
- “To observe a high functioning leadership team meeting”
- “Agendas/focus areas for leadership teams”
- “None”
- “Building an effective SLT in conjunction with our SCEP”
- “More information on books, websites, resources used to present this training”
- “Will be checking ‘Wise Ways!’”
- “I believe that you covered the foundation of what we need to create an effective SLT.”
- “None”
- “Leveraging teachers to change”
- “Need a clear purpose for the team”
- “I would like to have seen an exemplar leadership team in action.”
- “None”
- “It would be helpful to know more about specific duties of the SLT members that are not evaluative.”
- “None”
- “What is the work of this team—provide specific examples?”
- “How to structure team activities”
- “Support in making SLT effective and purposeful”
- “Presentation was a little loose; needed more organization.”
- “No”
- “How often does the team need to meet to be effective?”
- “Would like to continue discussion”
- “None—Will have some at later date, not today”
- “More examples of exactly what people put on agendas”
- “More assistance in planning for SLT”
- “The time for planning”
- “No”
- “Nothing”
- “E-mail powerpoint”
- “Powerpoints!”
- “None”
- “None—all lecture style—not enough collaboration with peers”
- “A copy of the PowerPoint”
- “All clear”
- “None”
- “Would like to explore research on SLTs”
- “Will use; how to set up our team”

4. Any specific comment on today's training?
- "Well spoken and very engaging presenter"
 - "Presenter's style was refreshing and relevant. I felt she understood my daily work as a building admin."
 - "The discussion of a difference between SLT and SBMT was most helpful. I really enjoyed it."
 - "Very Good Presenter"
 - "N/A"
 - "Excellent presenter"
 - "Review of implementation practices"
 - "Presenter was energetic and entertaining; gave insightful information based on experience."
 - "Informative presenter"
 - "Well done. Forcing us to nail down particulars of SLT was very helpful and useful."
 - "Nice to have an energetic and knowledgeable trainer"
 - "Very real! Much appreciated! Admin Teams need more of you!"
 - "I enjoyed listening to material that will be used immediately"
 - "It was very helpful to have the presenter's 'open' matter-of-fact level of communication. She said things that needed to be said and in the way that it needed to be said."
 - "Best session yet"
 - "Excellent and very helpful"
 - "Ursula is an outstanding and motivating presenter."
 - "Would be helpful to have more time and to share out on each section"
 - "Presenter was energetic and organized."
 - "Enjoyed the humor and candor"
 - "Great!"
 - "Thank you!"
 - "The presenter is awesome!"
 - "Made this relevant"
 - "Ursula has the perfect personality for a presenter."
 - "Well-informed presenter"
 - "A lot of interaction"
 - "Dr. Hill was very engaging."
 - "Presenter was very lively and to the point."
 - "We learned a great deal from the AIR presenters."
 - "Very informative"
 - "Great presenter"
 - "No"
 - "Very well prepared trainer"
 - "Dynamic Presenter!"
 - "It was valuable."
 - "Nice job, good ideas, great presenter"
 - "Well Done"
 - "It was great; it helped in guiding."
 - "Great Nancy"

- “We have already completed this work!”
- “This was not helpful to me as a school leader; already have this in place—SLTs”
- “Best/most relevant session so far”
- “The presenter was enthusiastic, a great amount of energy; topic was relevant to all participants, central office, and budding principals.”
- “Enjoying the time to plan, get started, jog ideas”
- “Good group work”
- “Well spent session”
- “Organized, concise”
- “Well organized and delivered”
- “It was good training but not enough time to converse with our teams.”
- “Thank you”
- “Something particular to central office should have been planned. There are many needs at the district level that need to be addressed.”
- “As a central office member, I felt completely alienated from the moment I walked in the door. Being asked to go to the back of the room felt insulting. The core of the session focused only on school level. It could have easily been adapted. Please be mindful of prejudices that carry. If the presenter separates us, how do you think the building administrators view us?”

**Administrators' Leadership Conference: Discover the Stages of Implementation
Tuesday, August 27, 2013**

Table A.3. Survey Responses

Elements	Response 1		Response 2		Response 3		Response 4		Total Responses
I felt part of a strong professional community.	52	42.28%	58	47.15%	12	9.76%	1	0.81%	123
I was supplied with information and knowledge.	54	44.63%	55	45.45%	11	9.09%	1	0.83%	121
I had the chance to practice needed skills.	42	34.43%	55	45.08%	19	15.57%	6	4.92%	122
I saw the links between our reform initiatives and topics covered in this training.	53	43.44%	54	44.26%	13	10.66%	2	1.64%	122
I feel I am building skills and understandings to help me be more effective.	47	38.52%	59	48.36%	14	11.48%	2	1.64%	122
I can define the stages of implementation.	56	45.90%	59	48.36%	6	4.92%	1	0.82%	122
I can describe action steps related to each stage of implementation.	51	41.46%	63	51.22%	8	6.50%	1	0.81%	123
I can articulate specific steps related to my work that can support high-quality implementation.	48	39.02%	65	52.85%	8	6.50%	2	1.63%	123
Total	208	21.27%	316	32.31%	60	6.13%	14	1.43%	978

- A rating of 1 indicates that the participant strongly agrees with the element listed, whereas a rating of 4 indicates that the participant strongly disagrees with the element listed.

Open-Ended Responses

5. What activities/discussions/presentations today were helpful in understanding the process and your role in supporting high-quality implementation of improvement initiatives?
- “Explaining the five key steps in implementation”
 - “Developing the stages of Implementation graphic organizer”
 - “Enjoyed Jigsaw”
 - “Group work”
 - “Group work—pictures, words”
 - “Providing a solid framework for program/implementation/evaluation”
 - “Group presentations”
 - “Jigsawing the article; listening to colleagues to hear their thoughts”
 - “The visuals”
 - “The discussion and the activity”
 - “Presenting the stages of implementation”
 - “Groups—explanations of each SOP [standard operating procedure]”
 - “The entire stages of implementation process”
 - “Reaffirmation of transformational framework”
 - “Break down of article”
 - “Data-driven decisions, implementation, and persistence key to change”
 - “Use graphic org”
 - “Discussion/activity”
 - “The group discussion and chart creation was engaging. I actually enjoyed it.”
 - “Dialogue about innovation implementation”
 - “Going through the five stages really helped to see how to adopt a new initiative or program.”
 - “Proper steps before the implementation of new programs”
 - “The draw and steps to explain”
 - “Active participating made it engaging.”
 - “It was great going through all five steps.”
 - “The jigsaw was good.”
 - “Very good; good discussion of implementation”
 - “The artistic expression of stages of implementation”
 - “Going through process of implementation”
 - “How to sustain implementation”
 - “All materials”
 - “Good energy; information and presenter OK”
 - “Role of building leader—discover stages of implementation”
 - “Group presentations were valuable.”
 - “Nice job”
 - “Breakdown of five steps of implementation”
 - “Listening to the jigsaw”
 - “All: Jigsaw activity was particularly helpful in digging down into this process. The group work, discussions, and presentations from the presenter and peers were very helpful and effective.”
 - “Jigsaw; stages of implementation”

- “Working with groups to focus on implementation stage”
- “Interaction with staff to analyze a process”
- “Good information”
- “The stages of the implementation process activity”
- “The article”
- “Focusing on DDI”
- “The group activity clarified the process.”
- “Activity”
- “Using a sample common to all for the stages since I was at the same training in June!”
- “Share out of six steps”
- “Discussion groups”
- “The posters were helpful because they provided visual and action steps.”
- “The powerpoint and discussion of feedback process”
- “Interesting take on innovation and sustainability”
- “The small-group activity”
- “The group work”
- “Sharing by groups; Jigsaw”
- “The article jigsaw was helpful in understanding the process of implementation.”
- “Administrators’ presentation of the stages of implementation of DDI”
- “Discussing the stages for implementing a program that is relevant to our needs”
- “Same stuff, different year!”
- “Dialogue with colleagues”
- “The activity we engaged in to help us understand the stages of implementation”
- “Sharing and comments after all groups shared”
- “The discussions to hear what other admins are doing and how they perceive the change process”
- “The stages of implementation were highly productive.”
- “Love the article.”
- “Having time to converse with other administrators on the process”
- “Stages of implementation sheets that were posted on the walls, which were completed by groups”
- “The Jigsaw”
- “Group work was great.”
- “Learning the steps for full operation”
- “Information was relevant but activity was a bit long-winded. Maybe a different approach could be helpful.”
- “Going through implementation process and jigsaw”
- “The activity supported the kids.”
- “Liked the jigsaw activity”
- “Whole group work”
- “Defining the coaches role”
- “Beginning to understand coaching”
- “Planning for the first 30 days; communication with staff and coach about expectations”

6. Were any parts of today's training less helpful?
- "How do we get past the Day 1 'here's some great thoughts about what isn't working in the district' and get to the IMPLEMENTATION?"
 - "Confirmed prior learning"
 - "Yes"
 - "N/A"
 - "No"
 - "N/A"
 - "The group work; visual explanations"
 - "Article was interesting."
 - "No"
 - "Yes"
 - "Good info"
 - "No"
 - "Not having enough time to delve deeper in to the topic"
 - "N/A"
 - "Visual representation"
 - "Looking at the different aspects of the implementation stage"
 - "No"
 - "Not a fan of process used"
 - "OK"
 - "No"
 - "I do not think everyone was too familiar with DDI to make it a relevant example."
 - "Well done; nice blend of lecture, discussion, and activities"
 - "See above"
 - "N/A"
 - "Most of it"
 - "No"
 - "NA"
 - "No"
 - "The breakdown of the implementation process. I'd prefer to read the whole article. I get that time was a factor, though."
 - "N/A"
 - "The jigsaw"
 - "No"
 - "No"
 - "No"
 - "Some of the discussions were confusing. Presenter could restate or clarify salient points after presentation."
 - "Just brief overview"
 - "No"
 - "Presentation at the beginning seemed to lack enthusiasm and organization."
 - "I like the jigsaw activity."
 - "Yes"
 - "No! All good"
 - "No"

- “No”
 - “Would have been nice to go more in depth on stages of implementation and how it applies to DDI, especially for new administrators”
 - “I found all parts to be meaningful.”
 - “None”
 - “Just tip of the iceberg and more time”
 - “Planning and discussion”
7. What questions/confusions/needs do you have? What additional information would be helpful?
- “How do we support high-quality implementation when those in charge have no patience with the process?”
 - “None”
 - “I’m interested in how to go from exploration and adoption to implementation smoothly.”
 - “None”
 - “How does culture fit into this? I saw it mentioned; however, it was not discussed, and I think it is integral to sustainable change.”
 - “None”
 - “No”
 - “Collaborative work between School and District administration; resistance as we go through the process”
 - “More time to discuss”
 - “OK”
 - “Keep the in-service alive”
 - “OK—presenter did a good job.”
 - “None”
 - “What supports Central Office will provide with implementation”
 - “Have not received DDI training, so some of that would help.”
 - “Not at this time”
 - “More time to dig deeper”
 - “None”
 - “Perhaps diving a bit deeper”
 - “NA”
 - “None”
 - “Who will help us with roadblocks of implementation?”
 - “More about Fixsen”
 - “None”
 - “More in-depth resources and support with this process”
 - “We, as a school and leadership team. need to plan and prepare for DDI.”
 - “No”
 - “Flowchart”
 - “Where I can get the book *Driven by Data*”
 - “I would have liked to see more examples of implementation process in the reading.”
 - “None”
 - “DDI training; *Driven by Data* book”
 - “N/A”

- “None”
 - “None”
 - “None”
 - “More in-depth work; this is critical”
8. Any specific comment on today’s training?
- “Nice job”
 - “The method of presentation”
 - “Thank you”
 - “Information”
 - “Thought provoking”
 - “More detailed info needed”
 - “This was good.”
 - “Good article; I will read it in entirety.”
 - “Jigsaw activity of the article”
 - “Tossing out the old and making ways for the new”
 - “N/A”
 - “It was very valuable, thank you.”
 - “Reinforces data decision making”
 - “No; send PPT please”
 - “Noise level inhibited group discussion.”
 - “Good reminder of increased understanding of purpose implementation”
 - “The presenter was supportive and informative. Very practical.”
 - “Great job”
 - “Great”
 - “Good info; it was great—very real and informative.”
 - “Great interaction”
 - “Open discussion in a nonthreatening environment”
 - “Appreciated Collaborative Jigsaw”
 - “No”
 - “OK—the presenter was very good; we should have been given topic choices.”
 - “None”
 - “None”
 - “Today’s training was very informative.”
 - “Well prepared and knowledgeable”
 - “Thank you!”
 - “More time needed”
 - “Felt it was a waste of time”
 - “Very good”
 - “Enjoyed group work”
 - “Instructor knew the process”
 - “Good”
 - “The process takes at least 3–5 years.”
 - “It was interesting to see the different stages at various points.”
 - “I like the interactive nature of the activities. It helps participants understand what was read much better.”
 - “Need to go deeper”

- “Trainer was not well prepared.”
- “Good”
- “I enjoyed the training.”
- “No”
- “N/A”
- “Too hot, room too small, not enough chairs.”
- “The trainer was very personable.”
- “None”
- “Excellent presentation”
- “Knowledgeable presenter”
- “Thank you”
- “Not enough time”

**Administrators' Leadership Conference: A Learning Session on the New York State Diagnostic Tool
for School and District Effectiveness
Tuesday, August 27, 2013**

Table A.4. Survey Responses

Elements	Response 1		Response 2		Response 3		Response 4		Total Responses
I felt part of a strong community.	6	16.67%	21	58.33%	8	22%	1	2.78%	36
I was supplied with information and knowledge.	7	18.92%	21	56.76%	9	24%	0	0.00%	37
I had the chance to practice needed skills.	5	13.89%	12	33.33%	14	39%	5	13.89%	36
I saw the links between initiatives and topics covered in this training.	8	22.22%	18	50.00%	9	25%	1	2.78%	36
I feel I am building the skills and understandings to be more effective.	7	20.00%	19	54.29%	9	26%	0	0.00%	35
I gained a better understanding of DTSDE tenets.	8	21.62%	16	43.24%	10	27%	3	8.11%	37
I identified at least two action steps district staff can take to move higher on the DTSDE rubric.	16	43.24%	15	40.54%	5	14%	1	2.70%	37
Total	57	22.44%	122	48.03%	64	25%	11	4.33%	254

A rating of 1 indicates that the participant strongly agrees with the element listed, whereas a rating of 4 indicates that the participant strongly disagrees with the element listed.

Open-Ended Responses

9. What activities/discussions/presentations today were helpful in understanding the process and your role in supporting high-quality implementation of improvement initiatives?
- “Our department deals with the diagnostic tool regularly; this was very helpful.”
 - “Taking a deeper look at the diagnostic tool”
 - “I found the roundtable discussions very valuable; listening to the goals of my colleagues was eye opening.”
 - “Working in small group with similar departments to discuss the areas we are focusing on within the tenets to improve”
 - “Talking and dialoguing about improving effectiveness”
 - “Review and highlighting of SOPs”
 - “Listening to all colleagues”
 - “Share out”
 - “Looking at SOP as a group”
 - “Work within our department”
 - “I enjoyed the share out, which helped to see links between departments; I enjoyed knowing what the K–12 side of this district is working on, so that we can support them in adult ed.”
 - “Good to hear other departments and their ideas”
 - “Discussion with department staff re: what we plan to do to address areas of deficiency”
 - “Looking at Tenets Big Ideas; comparing highly effective to where departments actually are”
 - “The small-group activity; discussing ineffective areas and developing a plan to bring them to developing or effective”
 - “Bullet #2”
 - “Team work on various tenets”
 - “Report outs for each group; better idea of where people/departments are”
 - “Group work”
 - “Discussion in groups regarding improving work; discussion with colleagues about action steps”
 - “I found the activity that asked us to identify the tenet that we feel our department needs to improve on.”
 - “Communicating was great between other Central Office Departments; process was good; allowing for specific areas gave same momentum to resolving concerns”
10. Were any parts of today’s training less helpful?
- “No”
 - “Sometimes directions were confusing.”
 - “Too much material—not enough time to break down topics more”
 - “No”
 - “I was already versed in tenets.”
 - “N/A”
 - “Tenet Big Ideas; first time anyone has seen it.”
 - “We aren’t sure we fit into this K–12 training because we aren’t marked on the same rubric and benchmarks.”

- “No”
- “No, all were very helpful”
- “No”
- “Being trained already; I felt this was a refresher.”
- “Will it lead to change?”
- “A thorough evaluation of each area or expectations to the district needs to take place.”

11. What questions, confusions, or needs do you have? What additional information would be helpful?

- “N/A”
- “More time for discussion”
- “Further dissemination of tenets; more time”
- “District/school collaboration (in a room dialoguing together)”
- “A concise overview of the process introduced first”
- “More time”
- “Lots of content in short time frame”
- “With restructuring incomplete, it was hard for some to identify which department they belonged within group activities.”
- “Central Office Administrators should have been split into two groups. Teaching and learning administrators participated in this work throughout the school year.”
- “Presenter didn’t know audience; very confused for the first half as to what we were supposed to do.”
- “More training in DTSDE—first I had seen document”
- “None”
- “Be a part at school and district review of all tenets, especially ones relative to my department.”
- “No”
- “Will there be additional PD [professional development] on this?”
- “How will these rubrics and plans directly impact us?”

12. Any specific comment on today’s training?

- “N/A”
- “Well facilitated”
- “Continued PD and support to improve situation”
- “Not enough time”
- “More time needed”
- “Explicit, even though time was short”
- “Hearing from depts.—non-curricular-and how they work with DTSDE”
- “I felt that I already did this previously.”
- “Loved the honesty.”
- “Effective trainer”
- “Training was interesting.”
- “Many of us in Central Office do not deal with day-to-day academic curriculum.”
- “Thought provoking”
- “Very insightful view of the district DTSDE”
- “I really enjoyed the sharing out. It gives everyone an opportunity to learn the needs of other tenets, not just your own.”

- “A little confusion on tenets; out of order in documents”
- “Nice start!”
- “Not enough time”
- “Directions were unclear.”
- “An overview of the DTSDE would have been more appropriate.”
- “I found the exposure to the DTSDE helpful.”
- “Good start”

Administrators' Leadership Conference: The Role of the Instructional Coach Tuesday, August 27, 2013

Table A.5. Survey Responses

Elements	Response 1		Response 2		Response 3		Response 4		Total Responses
	Count	Percentage	Count	Percentage	Count	Percentage	Count	Percentage	
I felt part of a strong community.	48	56.47%	32	37.65%	5	6%	0	0.00%	85
I was supplied with information and knowledge.	55	64.71%	27	31.76%	3	4%	0	0.00%	85
I had the chance to practice needed skills.	30	36.14%	32	38.55%	19	23%	2	2.41%	83
I saw the links between our reform initiatives and topics covered in this training.	46	54.12%	35	41.18%	4	5%	0	0.00%	85

I can explain the essential elements of coaching and the coaching process.	49	57.65%	32	37.65%	4	5%	0	0.00%	85
I can define roles and responsibilities for instructional coaching in my building.	53	62.35%	29	34.12%	2	2%	1	1.18%	85
I can articulate why coaching is a key strategy for school improvement.	55	65.48%	26	30.95%	3	4%	0	0.00%	84
Total	384	56.72%	244	36.04%	46	7%	3	0.44%	677

A rating of 1 indicates that the participant strongly agrees with the element listed, whereas a rating of 4 indicates that the participant strongly disagrees with the element listed.

Open-Ended Responses

13. What activities/discussions/presentations today were helpful in understanding the process and your role in supporting high-quality implementation of improvement initiatives?
- “Role of Instructional Coach”
 - “Excellent job of explaining important elements”
 - “Specifying role of the IC [instructional coach]”
 - “Group discussion re: problems and solutions about trust”
 - “Process”
 - “Q+A”
 - “Brainstorming with small-group vision for use of coach”
 - “Understanding coaching process; all”
 - “Yes, the presenter did a good job.”
 - “Great presenter; activity describing what does an instructional coach do was good”
 - “Discussion, small group”
 - “The presentation and discussions were very helpful.”
 - “Questions and answers”
 - “The Four Essential Elements”
 - “All discussions were needed. Elements of process helpful.”
 - “Role of the I. Coach”
 - “Model coaching schedule for school process”
 - “Using the coaches in different roles”
 - “ID role of IC; collaborating with other admin”
 - “More detailed description of what elements of coaching looks like”
 - “Discussing the coaches’ role in instructional coaching”
 - “Tracking tool info”
 - “All were helpful.”
 - “Defining roles of coach”
 - “The teamwork/poster about coaches was great.”
 - “Framework and coaches tracker”
 - “All”
 - “Purpose of a coach.”
 - “Time to plan with admin team for coaches. I love that this workshop is completely relevant.”
 - “Discussion of coach”
 - “Coaches: This information opened my eyes and confirmed the urgency to support staff.”
 - “All of it was helpful.”
 - “Plan the first 30 days for our instructional coaches.”
 - “PPT Presentation”
 - “Defined roles of the instructional coach”
 - “Coaching tool”
 - “Working with team to ensure we all hear same message, able to process info with colleagues”
 - “Working with teams”
 - “Discussing the role of the instructional coach”

- “30-day roll out”
- “30-day plan”
- “Sharing across schools”
- “The discussion of Quick Wins”
- “30-Day Plan”
- “Developing plans to use “
- “IC to improve student achievement”
- “PPT and group work”
- “Clarity on roles and responsibilities of coach”
- “Coaching tracking tool”

14. Were any parts of today’s training less helpful?

- “Unsure of the qualifications of instructional coach”
- “No”
- “No”
- “No; I felt that everything presented was very important.”
- “No”
- “Excellent”
- “N/A”
- “Background re: AIR”
- “The chief wanted to put opinion about the presentation; missed the points of the presentation.”
- “Roles with an instructional coach”
- “None”
- “Info about AIR”
- “All parts were valuable.”
- “Not really”
- “None”
- “The inability to talk to admin of like buildings”
- “No”
- “Foundations of instructional coaching”
- “No”
- “The presentation was very informative.”
- “No”
- “Was just an overview...”
- “No—all good!”
- “Introduction and roles too long”
- “No”
- “Providing more specific examples”
- “More info would have been helpful instead of broad strokes; go deeper into coaching”
- “No”
- “Developing an understanding on the importance of identifying key roles for coach”
- “N/A”
- “Yes; the suggestions were quite helpful.”
- “All was fine”
- “No”

15. What questions, confusions, or needs do you have? What additional information would be helpful?

- “Informal observation piece/scripting issues”
- “Clarify elements (essential) more discussion”
- “No”
- “Good”
- “More in-depth look at Web-based coaching tracking tool”
- “I’m sure I will have many once we begin but now, none.”
- “None”
- “Would love to access coach data entry tool”
- “PowerPoint will be helpful.”
- “She clarified the coaches’ role; not the same as in the past”
- “More time needed to discuss roles/responsibilities”
- “In Buffalo, coaches must be invited into the room by teachers.”
- “Training that is more in-depth for admin.”
- “How do I get my coaches screened?”
- “Can we please be provided with the powerpoints via e-mail?”
- “Presentation is too general; we need more specifics—identification of coaches, model and PD schedule”
- “Need more information”
- “Overview was fine!”
- “Make this a day or two for principals so that they can lead the learning.”
- “More time”
- “Good points presented.”
- “How to get around teachers filing grievances about coaches coming in”
- “None”
- “Information pertaining to the data collected in the coaching process”
- “N/A—PPT”
- “When will our IC be chosen?”
- “More info on the tracking tool would have been helpful.”

16. Any specific comment on today’s training?

- “Excellent presentation”
- “Copies of the PPT during the session would have been helpful”
- “Very well prepared; need much more time. Need time to discuss process with literacy coach more.”
- “Suggestion: Do not read slides to people.”
- “Great training, very useful”
- “Good”
- “Instruction was well prepared.”
- “Ms. Newell knew her material and kept session flowing well :)”
- “Nice job”
- “Exciting—very happy that this coach supports all teachers (specials, etc.)”
- “Great training”
- “More time needed”
- “Highlighted all parts of coach and admin teams’ responsibilities for coaches”

- “Very good—clear explanation of coaches' role, esp. focus of IC on ‘proficients’ and ‘efficients’ first”
- “The presentation was helpful, but additional support will be needed.”
- “PPT Please”
- “Great idea for creating a 30-day plan”
- “It is evident that instructional coaches will need training to be successful.”
- “Would like to have had time to plan and share specific uses of IC.”
- “Great beginning—helped to ask in conversations about what this will look like in our building”
- “N/A”
- “Effective presenter”
- “I now have a good understanding of what is a good/great coach!”
- “Thank you! Very clear!”
- “Excellent”
- “Experienced school leaders sharing specific strategies”
- “Coaching tool—excellent!”
- “Good—I think it needs to be reiterated that coaching needs to be confidential and non-evaluative.”
- “Great presentation”
- “More time needed”
- “It would have been helpful to have the PPT.”
- “More time with instructors needed”
- “Thank you leaders/ladies for a presentation well done. Your real-life experiences were worthwhile.”
- “Not yet :)”
- “Great”
- “Hopeful and guiding”

**Administrators' Leadership Conference: Unpack Your Improvement Plan:
Moving from Compliance to Quality Implementation
Wednesday, August 28, 2013**

Table A.6. Survey Responses

Elements	Response 1		Response 2		Response 3		Response 4		Total Responses
I felt a part of a strong professional community.	9	50.00%	8	44.44%	1	6%	0	0.00%	18
I was supplied with information and knowledge.	9	50.00%	7	38.89%	1	6%	1	5.56%	18
I had the chance to practice needed skills.	10	55.56%	3	16.67%	5	28%	0	0.00%	18
I saw the links between our reform initiatives and topics covered in this training.	10	55.56%	7	38.89%	1	6%	0	0.00%	18
I feel I am building skills and understandings to help me be more effective.	10	55.56%	6	33.33%	1	6%	1	5.56%	18
I gained a thorough understanding of the necessary steps to implement my school's improvement plan.	6	33.33%	10	55.56%	1	6%	1	5.56%	18
I will use or modify the tools and documents introduced today in my role as a leader to implement my school's improvement plan.	10	55.56%	7	38.89%	1	6%	0	0.00%	18
Total	64	50.79%	48	38.10%	11	9%	3	2.38%	126

A rating of 1 indicates that the participant strongly agrees with the element listed, whereas a rating of 4 indicates that the participant strongly disagrees with the element listed.

Open-Ended Responses

17. What activities/discussions/presentations today were helpful in understanding the process and your role in supporting high-quality implementation of improvement initiatives?
- “Getting a clear perspective on how the SMART goals are implemented into the SCEP and brainstorming for the first day of school”
 - “Video and resource for later use”
 - “Do what works...”
 - “Types of ‘quick wins.’”
 - “Explanation of grant”
 - “Talking with AIR coach and having time to read SIG plan”
 - “I have got to get my SMART goals and Gantt chart done.”
 - “The activities were highly helpful and engaging.”
 - “Creating a plan will help us to get on same page with goals”
 - “Time to collaborate as a team”
 - “Have a work session and working with our coach”
 - “Quick Win ideas, pull out of nuts and bolts of SIG; pinpointing our planning!”
 - “The implementation sheet and Gantt calendar”
 - “Quick wins”
 - “Setting goals from SIG plan”
 - “Planning templates”
18. Were any parts of today’s training less helpful?
- “N/A”
 - “No”
 - “No. Everything was helpful!”
 - “No”
 - “The room was noisy and crowded.”
 - “It was hard to concentrate.”
 - “No”
 - “Time—not enough”
 - “N/A”
 - “Too loud and if we knew more ahead of time what we were doing, we could have used time well.”
 - “Yes”
 - “No”
 - “Not everyone followed directives”
19. What questions, confusions or needs do you have? What additional information would be helpful?
- “N/A”
 - “Nothing at this moment”
 - “I will need help from coach identifying priorities.”
 - “No”
 - “Nice to have collaboration”
 - “Prioritizing”
 - “None”

- “None”
20. Any specific comment on today’s training?
- “Having access to a training color is very helpful.”
 - “Nancy was great!”
 - “Very informative. Nancy was/is great!”
 - “Thank you for your support.”
 - “No”
 - “Just need more time with focus on one or two things over the days in the workshops.”
 - “More relevant to our needs”

ABOUT AMERICAN INSTITUTES FOR RESEARCH

Established in 1946, with headquarters in Washington, D.C., American Institutes for Research (AIR) is an independent, nonpartisan, not-for-profit organization that conducts behavioral and social science research and delivers technical assistance both domestically and internationally. As one of the largest behavioral and social science research organizations in the world, AIR is committed to empowering communities and institutions with innovative solutions to the most critical challenges in education, health, workforce, and international development.

Making Research Relevant

3189_10/13

- The breakout session in the afternoon helped to make our objectives more defined and measurable
- Being able to plan together
- I liked writing SMART goals and setting dates with my leadership team
- Organizing initiative/plans/goals
- Great day
- Having time to discuss with whole team
- Working on the Big Rocks, group discussion with other schools

Were any parts of today's training less helpful?

- No
- Crowded, noisy room
- N/A
- none
- Too much talking
- No
- No
- N/A
- There is a lot of paperwork!
- Could not read smart board—did not have some handouts/forms
- There were so many handouts that it was a little confusing
- How to implement new strategies without raising the stress level
- No
- The amount of time spent on quick wins
- When we shared quick wins
- No
- No
- Focusing on the three initiatives
- Learned more about how important the leadership team is to my school
- Not at all
- Not at all
- It all had importance
- I read the required article (and loved it!) and training today did not address it ☹
- N/A

- Working time—talking to other schools
- All was helpful
- N/A

What questions, confusions, or needs do you have? What additional information would be helpful?

- More time to meet with team and become more familiar with SIG plan
- More information needed on specific information the state is looking for in progress reporting
- none
- All questions were clarified
- None
- Videos of plans/meetings in action
- Mapping out our plan of what we needed to do in 30 days—how are we going to get there?
- Need of more work time
- More input from district leadership
- N/A
- Copy of agenda
- Implementing these new initiatives with positive reception from teachers
- Not now
- Not now
- N/A

Any specific comment on today's training?

- Thank you!
- Great working with our AIR coach
- None
- I am new to this process
- Good use of time to collaborate and share quick wins with other wins
- Excellent
- It was great to work with the team to talk about and establish initiatives
- Why did we bring laptops? Why did we read the very long article?
- I thought we would be working on our SCEP document
- Can be very helpful if utilized on actual

- It was very eye opening to what planning and implementing we need to do
- Great work. Always values our time.
- Day moved quickly
- Great!
- Very useful and helpful
- Ursula was great! Very helpful!
- It would be helpful to have the worksheets ahead of time and to have the PowerPoint made available. The print of the sample worksheets was too small
- Thank you!
- Thank you!
- ☺
- Wonderful time to collaborate and plan

Executive Summary of the Transformation Leadership Learning Network Reality Check

Purpose of Session

American Institutes for Research (AIR) facilitated a series of training sessions (referred to as a “Reality Check”) from January 28 through January 31, 2014, for the school leadership teams (SLTs) of 11 Priority Schools in Buffalo Public Schools (BPS). This training session was the second of four quarterly trainings for school leaders and allowed each of the SLTs a full day to reflect on the progress they have made so far, as well as time to consider what improvements could be made in the remainder of the school year.

The objectives of the Reality Check were as follows:

- To analyze the implementation of selected improvement goals and initiatives
- To answer guiding questions related to the quality, depth, and fidelity of implementation
- To determine next steps to develop a 30-day course correction plan

Participants were given time to reflect on and discuss topics related to implementation of improvement initiatives and the district’s “Big Rock” priorities: observation and feedback, common planning time, and data-driven instruction. Participants also were given time to develop a course correction plan that would enable them to implement initiatives related to BPS goals and to their SIG plans.

Evaluation Method

All of the participants were asked to complete evaluation forms. Each evaluation form contained common scaled and open-ended questions related to the overarching objectives as well as unique scaled questions related to the specific session objectives. Any response greater than 75 percent favorable would be deemed “met.” Responses less than 75 percent favorable would be deemed “partially met” and any responses less than 50 percent favorable would be deemed “not met”; however, these less favorable responses did not occur. Overall, this training met all of the intended objectives. Table 1 provides the percentage of favorable ratings on selected objectives from the training. A description and a summary of the open-ended responses for the training follows.

In addition to the participant evaluations, this report contains a summary of the foci for the resulting 30-day course correction action plans. The summary appears in the Appendix Table A.2. Principals were asked to send the completed 30-day course correction action plans to their AIR leadership coach by February 14.

Snapshot of Responses

The response rate for this session was 82 percent, with 70 of the 85 participants completing the evaluation forms. Feedback from the training indicated that the training was well received, with participants noting that they valued the time with their teams, felt the training was productive, and valued the input of the AIR presenters. Participants also requested digital copies of the

materials used, so that they could have easy access to the materials. All in all, they found the Reality Check to be quite useful and look forward to putting their plans into action.

Summary of Responses and Analysis

Table 1. Feedback on Objectives for the TLLN Reality Check

AIR seeks to help Buffalo Public Schools (BPS) create an effective professional community for school leaders.	MET	All (100 percent) of the respondents agreed that the training helped them create an effective professional community for school leaders.
AIR seeks to supply BPS with relevant and meaningful information and knowledge about planning, implementing, and monitoring improvement initiatives.	MET	Ninety-nine percent of the respondents agreed that the training supplied them with relevant and meaningful information and knowledge about planning, implementing, and monitoring improvement initiatives.
AIR seeks to provide school leadership teams (SLTs) with the chance to practice needed skills related to effective planning.	MET	Ninety-nine percent of the respondents agreed that the training gave them the chance to practice needed skills.
AIR seeks to provide BPS with trainings that support district and school reform initiatives.	MET	All (100 percent) of the respondents agreed that the training supported district and school reform initiatives.
AIR seeks to help SLTs be more effective in leading school transformation.	MET	Ninety-seven percent of the respondents agreed that the training enabled them to be more effective in leading school transformation.
AIR seeks to help SLTs gain a thorough understanding of the necessary steps to implement their school's improvement plan.	MET	Ninety-seven percent of the respondents agreed that the training enabled them to gain a thorough understanding of the necessary steps to implement their school's improvement plan.
AIR seeks to provide SLTs with tools and documents that enable them to implement their school's improvement plan.	MET	Ninety-eight percent of the respondents agreed that the training provided them with tools and documents that enable them to implement their school's improvement plan.

In-Depth Analysis and Feedback on Transformation Leadership Learning Network Reality Check

The TLLN Reality Check took place from January 28 through January 31, 2014, and was attended by the SLTs of 11 BPS Priority Schools, who have been working with TLLN throughout the course of the school year. Seventy of the 85 participants responded to the open-ended questions on the evaluation. The objectives of this training focused on the analysis of progress with regard to the implementation of both School Improvement Grant (SIG) and BPS initiatives throughout the school year, as well as allowing leadership teams the opportunity to correct their course. Comments from participants show that they found the training to be quite useful and that they look forward to putting their plans into action.

Key Highlights

A total of 82 percent of the participants responded to the open-ended questions for this session:

- When asked what they found most helpful, 16 percent of participants noted that they found creating the action plan to be most helpful, while another 10 percent found the “Barriers and Bridges” activity to be most helpful.
- Sixteen percent of participants noted that they found the presence of AIR facilitators to be quite helpful in keeping conversations on track and facilitating discussion.
- Nine percent of participants requested electronic copies of the materials, noting that it would be easier to access them on an ongoing basis in digital form.

Representative quotes from the participants’ feedback are as follows:

- *“Looking at the barriers and bridges allowed us to focus [on] what specific actions to take to meet initiatives.”*
- *“The Reality Check worksheet really helped me visualize what we said we would do and its effectiveness.”*
- *“Having an AIR rep as our facilitator was EXTREMELY helpful in guiding our discussions and completing the charts to help us realize our needs and next steps.”*
- *“The activity that took us through action planning was very strategic and step by step [and] helped us determine how we would complete the action. Our coach is terrific and she guided us through the process so it wasn’t so overwhelming.”*
- *“It would have been helpful to have had an administrator at our table to hear our ideas about the action plan.”*

Appendix A. Survey Responses

Table A.1. Survey Responses¹

Rating	Response 1	Percent	Response 2	Percent	Response 3	Percent	Response 4	Percent	No Response	Percent	Total
I felt part of a strong professional community.	59	84.29%	11	15.71%	0	0.00%	0	0.00%	0	0.00%	70
I was supplied with relevant and meaningful information and knowledge about planning, implementing, and monitoring improvement initiatives.	60	85.71%	9	12.86%	0	0.00%	0	0.00%	1	1.43%	70

Total	378	77.14%	104	21.22%	1	0.20%	0	0.00%	7	1.43%	490

¹A rating of 1 indicates that the participant strongly agreed with the element listed, whereas a rating of 4 indicates that the participant strongly disagreed with the element listed.

Table A.2. Course Correction Action Plan Foci

Schools	Coach	Areas of Focus for 30-day Course Correction Plans
#37 Futures Academy	Ursula	Mapping the administration of common formative assessments in math and reading to guide the data-driven instruction process Developing a calendar of activities for implementing data-driven instruction steps
#89 Wright School of Excellence	Dorothy	Identifying needed support and professional learning for effective classroom management Examining qualities and characteristics for effective SSC Incorporating reflective dialogue into teacher observation feedback sessions
#95 Waterfront	Virginia	Leveraging grade level and vertical team meetings to focus on process of data-driven instruction, in particular the step after assessment analysis which is a focus on student work Clarifying roles and responsibilities for instructional coaches to provide consistent training and follow-up in classrooms, specifically with the Step Up to Writing initiative
#59 Charles Drew Science Magnet	Ursula	Clarifying behavior expectations for grades 7 and 8 with hallways and transitions Writing stronger mastery objectives for lesson planning Providing quality feedback to teachers
#33 Bilingual Center	Carla	Developing a rubric for optimal dual immersion program Providing professional development to teachers on dual immersion
#74 Hamlin Park	Carla	Clarified expectations for grade-level and common planning time Defining and teaching schoolwide behavior expectations for hallways and transitions Refining practices related to incentives and celebrations for positive behavior initiative
#31 Harriet Ross Tubman	Virginia	Reintroducing to grade level teams the data-driving instruction purpose, rationale, and process Narrowing the scope of professional development to two or three initiatives Defining and sharing with administrators the "look fors" for observations and instructional walks Analyzing the established Gantt calendar and survey data to identify immediate needs.
#91 BUILD Academy	Dorothy	Clarifying the purpose, structure, and focus of classroom walk-throughs and observations Defining roles and responsibilities and strengthening communication around instructional coaching
#66 North Park Academy	Carla	Tightening up transitions to decrease students unsupervised in the Hallway and increase instructional time Reinvigorating tier one of positive behavior interventions and supports to teach all students

Areas of Focus for 30-day Course Correction Plans		
Schools	Coach	
		<p>schoolwide behavior expectations</p> <p>Refining tier two protocols for assigning interventions and supports for 'frequent flyers'</p> <p>Establishing expectations for lesson plans to support data-driven instruction process</p>
#76 Herman Badillo Bilingual Academy	Nancy	<p>Fine-tuning the data-driven instruction process to address the steps of re-teaching and re-assessing</p> <p>Developing a shared understanding of strong student engagement and collecting data about current student engagement</p>
#198 International Preparatory School	Nancy	<p>Refining the role of the school leadership team to make clear connections to the continuous improvement cycle</p> <p>Maximizing the effectiveness of common planning time (CPT) and embedding professional learning experiences to the CPT work.</p> <p>Exploring and identifying more time for fifth and sixth grade planning time</p>

Open-Ended Responses

Day 1: Tuesday, January 28, Responses

What activities/discussions/presentations today were helpful in understanding the process and your role in supporting high-quality implementation of improvement initiatives?

- The entire day was very helpful. Facilitators provided so much information and ideas!!
- The breaking down of each initiative and discussing every detail to see what is really working and what needs to be fixed
- PBIS review of data
- The action plan; going through evidence
- (Participant did not answer)
- Action plan for the next 30 days
- Discussing where we stand on initiatives; going through the action plan writing process so that we could continue on our own
- Actually digging into our initiatives and having time to make plans
- Breaking down goals
- Beginning action plan
- Our next steps for our school plan and initiatives
- The action plan tool; the process of identifying barriers
- Discussing the process of our action plan; making sure we had a full action plan in place
- The time to work and discuss initiatives and plans with [the] SLT
- To look at where we are with our initiatives

Were any parts of today's training less helpful?

- Nope ☺
- Nope!
- Not really
- I think that the facilitators did a wonderful job, answered all of our questions, and provided assistance.
- Yes
- N/A
- Not really
- No

- Wish we would have time to analyze our five initiatives

What questions, confusions, or needs do you have? What additional information would be helpful?

- Not at this time
- More time with our leadership coaches to help us really build capacity in our building
- More time
- None
- None
- The forms are helpful but would be easier to use digitally.
- Sorting initiatives
- Another Reality Check
- How does all of this fit together into a master document?
- All the resources are great and very helpful.

Any specific comment on today's training?

- Loved working with the facilitators
- Nope!
- It was helpful—a great guide to where I need to go with PBIS [Positive Behavioral Interventions and Supports] coach.
- I think that they did a great job. It was helpful to pull everything apart.
- The training was helpful.
- Useful!
- Very organized and useful
- Great to be able to prioritize our work and think it through
- Very helpful in monitoring our plans
- Very helpful and much needed!
- Nancy did a great job working with us and supporting our initiatives.

Day 2: Wednesday, January 29, Responses

What activities/discussions/presentations today were helpful in understanding the process and your role in supporting high-quality implementation of improvement initiatives?

- Nice to have facilitators as part of our table team
- The table facilitators, the probing questions made the team think deeper.
- I enjoyed the personalized aspect of having trainers at our table.
- Filling in the templates; asking tough questions about goals
- Creating bridges/action steps
- Discussing “Barriers and Bridges”
- All the group work
- Action plan layout and presentation
- “Barriers/Bridges,” then to the organization sheet
- “Barriers and Bridges” discussion was very helpful.
- Taking initiatives and drilling down to workable pieces to evaluate and take steps to fill gaps
- Reality Check worksheet got me focused.
- Action planning
- The planning process was awesome.
- Starting with the goal in mind, identifying barriers, creating action plan
- The organization of implementation process provides a reflection for things that may be missing or that otherwise require further attention.

Were any parts of today’s training less helpful?

- None
- We summarized an awful lot.
- N/A
- Many side-bars
- At some points, it was hard to understand over the discussions of other groups.
- No
- No
- No
- No

- None
- Some of the conversations had already taken place. We also talked about a 30-day plan; however, there was no mention or connection to the long-range goal.

What questions, confusions, or needs do you have? What additional information would be helpful?

- N/A
- N/A
- N/A
- Great calendar-filling
- N/A
- My questions were answered.
- The district leaders were absent. Do you talk to them later, so that our plans are not altered by their needs?

Any specific comment on today's training?

- Great work time!
- Our AIR coaches were great! Why is 1 the highest of your scale?
- Well organized and helpful
- Very helpful in developing future action plans
- Perhaps, next time, have breakout rooms for discussions?
- It was nice to have the time to delve deeper in specific action steps to take back to our various teams at the school.
- Mood—liked the time to work and discuss the action plan. Our AIR persons were great, helpful, and motivated.
- Advisors at each table were very knowledgeable and helpful.
- Thank you!
- Great work day
- I like it. It serves an extremely important function to our school. WE have a need for documentation for all initiatives.

Day 3: Thursday, January 30, Responses

What activities/discussions/presentations today were helpful in understanding the process and your role in supporting high-quality implementation of improvement initiatives?

- I really liked the way the graphic organizers helped us to prioritize and guide our questions and discussions.
- Looking at the barriers and bridges allowed us to focus [on] what specific actions to take to meet initiatives.
- Thirty-day plan, the WHY, and bringing to data
- Looking/clarifying issues/problems with our initiatives
- Using large chart paper to list barriers and bridges to our three initiatives
- I found that all of the activities were very useful. I was able to say things in a safe environment that I might not have at school. This was very productive.
- Studying the data and creating the action plan
- Big picture overall plan and how it creates initiatives
- The Reality Check worksheet really helped me visualize what we said we would do and its effectiveness.
- Having an AIR rep as our facilitator was EXTREMELY helpful in guiding our discussions and completing the charts to help us realize our needs and next steps.
- Having time to work with our team
- Discussing messaging
- The entire process was very helpful.
- Time to discuss honestly and openly about [the] status of initiatives at our school, help monitoring, and ideas from facilitators
- To be reminded to keep it small; action planning
- 30-day action plan
- The entire training. There are times though for work in the school but in a different capacity, [I] feel that some initiatives don't pertain to you; however, through this training, I have an understanding as to how they apply to my particular discipline.

Were any parts of today's training less helpful?

- Topics within initiatives went off on some tangents rather than focus on improvement.
- Review of artifact-data, a lot of copies and collection; energy spent; need more data, actual-less paper
- N/A
- No

- Would be more helpful if we were at our own school
- None
- No
- No
- N/A
- No
- There were times that it would have been good to have less input from facilitators and more time to talk amongst ourselves.
- Lunch out ☹ -> Stay in and work ☺
- No, it was part of precept.
- N/A

What questions, confusions, or needs do you have? What additional information would be helpful?

- This ability to discuss and communicate was very beneficial.
- None
- None
- None—Ms. Mealing has been extremely helpful in clarifying everything for us!
- N/A
- None
- The time was great! More time would be even better!
- N/A

Any specific comment on today's training?

- Great collaborative work to frame
- I am very excited to put our plan into place and share data to support how our initiatives are working.
- Thank you!
- N/A
- Carla and Traci kept us on track. We were able to get more in-depth conversation/work accomplished. Helped admin to realize we needed to focus on fewer things and do them well before moving on to others (this has been a frustration among teachers at our school).
- Focus on specific initiatives and what is lacking to show progress
- Very eye-opening!

- It was great to have mostly team time to work through everything.
- Our facilitators were extremely helpful.
- Very professional
- Thank you!
- Carla and Traci kept us on track and everyone engaged. I was not aware that I would be analyzing my part in a PLC [professional learning community] or presenting—I would have brought in more artifacts (for next AIR Reality Check).
- Thank you to all for clarification!

Day 4: Friday January 31, Responses

What activities/discussions/presentations today were helpful in understanding the process and your role in supporting high-quality implementation of improvement initiatives?

- View of the temp
- The rating of our initiatives, which led to our breaking down whether we have truly done it and re-rating was eye opening and informative on what we still had to do.
- The activities and worksheets completed helped to focus our efforts toward improving our DDI.[data driven instruction]
- Having an AIR facilitator leading discussion—the process, worksheet
- Everything! The worksheets were especially helpful. They keep me organized and hopefully timely. Time to plan this was also an amazing gift.
- The activity that took us through action planning was very strategic and step by step helped us determine how we would complete the action. Our coach is terrific and she guided us through the process so it wasn't so overwhelming.
- The development of the action plan
- Working with the facilitator to define the “problems” in the school and determine the necessary steps to take to correct them
- All the activities throughout the day were very helpful.
- The last step—actually planning how we will go back and monitor the progress
- Collaborating with classroom teachers to find out their needs
- I understood how important an ILT [Instructional Leadership Team] is not only to me but my colleagues as well. It's part of my job to help them carry out the improvement initiatives.
- Reflection and our implementation plan-level 4-most level [sic]?
- Look at where we are and where we are going
- Brainstorming—organizing ideas and plans with facilitator

- Discussing the descriptions/definitions of CPT [common planning time] across the whole building. I realized that for CPT we were pretty much in a bubble by content area.
- Working through the school improvement initiative and creating an action plan
- Discussing what everyone thought CPT meant was very eye-opening since we all had very different expectations.
- It was helpful to hear other people's perceptions of what goes on at Common Planning. It was nice to hear from other grade-level teachers and coaches.
- It was informative to be involved in the process of creating, implementing, and assessing practices that are and are not working at our building.

Were any parts of today's training less helpful?

- Working with the team; needed to mix team CPT and ILT so that we see different perspectives
- Process of the action plan
- No
- No
- No!
- N/A
- I can't think of any.
- N/A
- Too much information
- The issues with "teacher trust" were not a big issue for my department/staff.
- N/A
- All was helpful.
- Yes, all of it.
- None
- N/A; all of what we discussed and or elaborated was very helpful.
- N/A
- All parts were useful.
- All discussion was very helpful.
- N/A

What questions, confusions, or needs do you have? What additional information would be helpful?

- N/A
- None, very clear
- Electronic versions of these templates—on websites?
- Nothing at this time. ☺
- Would love template of the action plan.
- A copy of the booklet and the elements of turnaround
- More time to create an action plan with the facilitator
- Just more time
- Some follow-up with AIR reps is always welcome.
- N/A
- Having the PowerPoint
- No questions
- Our table leader was really helpful. All questions were answered.
- How can an ILT increase and promote positive teacher moral?
- It would have been helpful to have had an administrator at our table to hear our ideas about the action plan.
- If our action plans will go into effect; if the other professionals that aren't here will agree with what we discussed as a group
- N/A

Any specific comment on today's training?

- Went well; give us the templates digital—"save a tree"
- I feel eager to get back to work and plan and then implement.
- No
- Very useful! Lots of help while we were working; time
- I'm not just quickly trying to do the survey. This was one of the most legitimately amazing useful, helpful trainings.
- Really was helpful and knowledgeable in the process to improve our school
- Wonderful, challenging
- N/A
- Our group facilitator helped us to stay on task and keep our end goal in mind, which can be difficult for our group to do.

- Good, open conversations
- Great job! ☺
- Trainers were very insightful; looking forward to next meeting
- Intense, a lot in one day
- Implementation, implementation!! Evidence, evidence!
- The facilitator assigned to our group asked the probing questions and encouraged us to dig deep into coming up with an action plan to improve current practices in our school.
- Table facilitator kept us on track and asked probing questions to make us analyze our situation.
- I think today was very helpful. I was able to voice my concerns and get feedback from other professionals.
- Wonderful and eye-opening

RFP TERMS AND CONDITIONS

Default – Failure of the supplier to comply with any of these provisions may be considered reason for rejection of proposal.

1. The issuance of this Request for Proposals (RFP) constitutes only an invitation to submit a response to the Buffalo Public Schools (District). It is not to be construed as an official and customary invitation to bid, but as a means by which the District can facilitate the acquisition of information related to the purchase or implementation of services.
2. Any and all information presented herein, including drawings, specifications, instructions, policies, engineering guides, questionnaires, methodologies, etc., which is a part of this RFP package, or disclosed during the selection process, is the property of the District, and shall not be duplicated or disclosed except to those employees of the recipient who have a need to know in order to prepare the response.
3. The District neither makes nor assumes any contractual obligations by issuing this RFP, receiving and evaluating supplier response, or making preliminary supplier selection. Providing a response as provided herein shall neither obligate nor entitle a Responder to enter into a contract with the District.
4. This RFP does not commit the District either to award a contract or to pay for any costs incurred in the preparation of a submission. Responders shall bear all costs associated with submission preparation, submission and attendance at presentation interviews, or any other activity associated with this RFP or otherwise.
5. The District reserves the right to determine, in its sole and absolute discretion, whether any aspect of the submission satisfactorily meets the criteria established in this RFP, the right to seek clarification from any Responder (s), and the right to cancel and/or amend, in part or entirely, the RFP, at any time prior to a written contract.
6. Responses should be directed to The Bureau of Purchase, Room 816 City Hall, 65 Niagara Square, Buffalo, New York 14202 no later than the time and date stated on the cover of this RFP with the title and RFP number clearly marked on envelope.
7. The District is not obligated to respond to any submission submitted nor is it legally bound in any manner whatsoever by the submission of a response.
8. Upon submission, all responses become the property of the District. The District reserves the right to use the information and any ideas presented in any submission in response to this RFP, whether or not the submission is accepted.

RFP REQUEST

Academic Supports for District and School Turnaround

1.0 Introduction

In order to fully develop a robust and coherent system of education for the students of New York State, the New York State Education Department (NYSED) is committed to dramatically improving the State's chronically underperforming schools and creating new, innovative, high-quality education opportunities for all students. In December of 2009, the New York State Board of Regents approved a bold reform agenda to meet these goals. This grant application, funded through New York State's School Improvement Grants and School Innovation fund Grants will contribute to the following components of the Regents' reform agenda:

1. Provide every student with a world-class curriculum that synthesizes rigorous content and skills to prepare students for college, the global economy, 21st century citizenship, and lifelong learning;
2. Work with school districts to implement strategies for improving chronically underperforming schools in order to dramatically improve student outcomes; and
3. Raise graduation rates for at-risk student populations (particularly English language learners, students with disabilities, low-income students, African-American and Latino students).

The Buffalo City School District (BCSD) through the Office of Strategic Alignment and Innovation, as part of its requirement to implement the provisions of the School Improvement Grant (SIG) 1003g and the School Innovation Fund Grant is soliciting written proposals from potential service providers for professional development/school improvement services.

If you or your agency has submitted a proposal to RFP 13-14-020 which closed October 16, 2013 you do not need to submit a proposal for this RFP.

2.0 Purpose

Buffalo Public Schools Office of School Strategic Alignment & innovation and is seeking proposals from qualified entities to serve as a partner/support organizations to provide opportunities to:

- Replicate prior experiences of documented and demonstrated school turnaround success with schools or districts.
- Build supportive district-level operating structures, and re-frame district systems to both support schools in improving student academic performance and holding them accountable for needed gains in performance.
- Build the capacity of district and school leaders to co-design and implement school turnaround plans that ensure dramatic gains in student academic performance through the effective implementation of the Common Core State Standards systems for teacher and leader effectiveness, and a cycle of data-driven instruction (DDI)/inquiry and action.
- Coordinate and streamline an LEA's existing school turnaround efforts (through existing

implementation of School Improvement Grant (1003g), Race to the Top Scope of Work plans, Comprehensive Education Plans (CEP), and Consolidated Applications, etc.) and School Innovation fund Grant into one integrated approach to school turnaround.

3.0 Length of Service

The selected organization(s) will partner with the (BCSD) during the 2014-2015 school term, and upon satisfactory evaluation of the provided services, be extended to include the 2015-2016 and 2016-2017 school terms. Vendors may elect to submit proposals for a portion of the requested services; however, preference will be given to the vendor who proposes a comprehensive professional development package.

4.0 Project Overview

The intent of this proposal is to continue the job embedded professional development and on-site consultation that has been provided to teachers and administrators. Professional development activities must be specifically designed to increase academic success of all sub-groups of students as measured by the annual NYS Assessments and Regents Examinations. In addition to professional development and consultation, extended learning time and student support services are also requested. These services shall be provided to the BCSD.

BCSD Office of Strategic Alignment and Innovation will recruit, screen and select partner organization(s) that can work collaboratively with the district and school building leadership teams to build sustainable capacity to turnaround chronically underperforming schools in seven (7) separate capacity-building program opportunities:

1. Leading the implementation of CCSS in ELA and Math in chronically underperforming schools;
 - a. Alignment of classroom instruction with NYS Curriculum, NYS Assessments, Regents examinations, depth of knowledge and performance indicators.
 - b. Model research-based instructional strategies.
 - c. Designing formative and summative assessments mirroring the rigor embodied in the CCSS, NYS Assessments and Regents examinations.
 - d. Differentiated instructional strategies.
2. Instructional/ teacher coaching and training in the following areas
 - a. Assessment
 - b. Instructional delivery
 - c. Technology Integration
 - d. Literacy
 - e. Establishing and sustaining professional learning communities to build capacity and drive change.
 - f. Inclusion/co-teaching
3. Instructional leadership coaching to support principal and school leaders in school-wide improvement initiatives including but not limited to the following:
 - a. Developing data plans to impact differentiated instruction for all students

- b. Analyzing data and using multiple data points to correlate student achievement to teacher effectiveness
 - c. Monitoring alignment between curriculum, instruction and assessment through a comprehensive planning process
 - d. Integrating data systems and instructional programs to ensure student engagement and ongoing improvement.
 - e. Making recommendations on procedural matters such as school safety, organizational planning and scheduling which will enhance the academic achievement of all students.
4. Embedding a system of data-driven planning and instruction (DDI)/inquiry in the instructional cycle of chronically underperforming schools.
- a. Data coaching, analysis and interpretation to assist with implementation of program resources and targeted student interventions.

5. Extended Learning Time Component – Both academic tutoring and enrichment activities

(Excerpt from the SIG)- The major goals of the extended learning time component are to improve student academic performance, provide an opportunity for students to use their out-of-school time safely and productively, provide an opportunity for youth to develop positive relationships with peers and adults, and provide students athletic and cultural experiences to enrich their lives.

(Required per the NYSED ESEA Waiver)The key elements of the Extended Learning Time component for priority schools implementing a School Improvement Grant or a whole school reform model incorporating the ESEA waiver turnaround principles are that schools must: set as a goal serving 50 percent of eligible students; ensure the integration of academics, enrichment, and skill development through hands-on experiences that make learning relevant and engaging; and must have instruction in any core academic subject delivered under the supervision of a teacher who is NYS certified in that particular content area. If the program is intended to count towards a Focused District meeting its set aside requirement for Priority Schools then the program must expand learning time by a minimum of 200 student contact hours per year.

The Extended Learning Time enrichment period will be led by selected community partners with expertise and leverage the skills and expertise of teachers by designing a program based on student interest and need.

6. Student Support. Schools would like to partner with organizations that are able to support student academic, behavior and social emotional well being. Specific areas identified include

- Curriculum-based programs to enhance social and emotional learning
- School-wide program to prevent alcohol, tobacco or drug use
- Parent education regarding student social/emotional development
- Restorative measures (e.g. peer counseling)
- School-wide social skills curriculum program
- School-wide program to prevent violence
- Before/After school social/emotional learning opportunities
- Staff development around social/emotional learning
- Character education
- Family support services
- Mentor Programs
- Mental Health screenings
- Individual and group counseling

7. **Family Engagement.** Historically, family engagement has revolved around and been measured by attendance at school events and dissemination of information from the school to homes and family members. However children whose families are new to the country, struggling with poverty, and who may themselves have had difficulties in public schools require a more comprehensive approach. Specifically, an approach that serves to build positive relationships, and fosters partnerships with families so that there is support in the home for education.
 - Training and on-going support for school-based staff to implement asset-based approaches to family engagement
 - Training and on-going support for school-based staff to grow partnerships with families and strengthen support in the home for education

8. Other training as identified by observations or by Superintendent’s request.

5.0 SCOPE OF WORK

All programs/services must address the following criteria:

- a. The service provider’s record of success as evidenced in improved academic outcomes for students;
- b. Alignment between research and program design;
- c. Alignment with proposal overview/ goals;
- d. Connection to Common Core State Standards and District’s instructional goals;
- e. Defined monitoring process relative to achieving proposal outcomes;
- f. Communication with school and district;
- g. Flexible services to meet the unique needs of each school;
- h. Comprehensive approach to school wide focus;
- i. Ability to build and sustain capacity;
- j. Highly qualified professional staff possessing applicable licensing/certification requirements specific to the proposed services;
- k. Compliance with Federal, State, and Local laws, policies, regulation codes and ordinances.

Entities eligible to apply to provide the requested educational services may include:

- Private educational companies
- Institutions of higher learning

Locations for Professional Development	
Office of Strategic Alignment and Innovation 701 City Hall, Buffalo, New York 14202	Buffalo Professional Development & Technology Center 150 Lower Terrace, 4 th Floor, Buffalo, NY 14202
#3 D’Youville-Porter Campus School 255 Porter Avenue, Buffalo, New York 14201	#94 West Hertel Academy 489 Hertel Avenue, Buffalo, New York 14207

Schools in School Improvement Grant Cohorts 3 and 4 may also seek professional development.

Cohort 3 schools are as follows; Bilingual Center, #33, Marva Daniels Futures' Preparatory Academy, #37, Dr. Charles R. Drew Magnet School, #59.

Cohort 4 schools are as follows; Harriet Tubman School #31, North Park Middle School, #66 Herman Badillo Bilingual School, #76, Lydia T. Wright School, #89, BUILD Academy, #91, Waterfront School #95 and International Preparatory School, #198.

6.0 Accountability:

Vendor will be required to submit quarterly written reports to the Office of Strategic Alignment and Innovation regarding the implementation of the program/service.

Vendor should be able to analyze the following products from the professional development;

- student work products (writing responses)
- common formative assessments
- summative assessments

Management Responsibilities:

The BCSD will designate one representative who will act as the primary contact for this project. The representative will be responsible for conferring with any and all parties necessary to resolve unanticipated issues or requirements that might occur during the course of the RFP. All questions should be submitted in writing to:

Marianne Dixon, Supervisor
Office of Strategic Alignment & Innovation
Buffalo City School District
701 City Hall
Buffalo, New York 14202
Phone: 716. 816.3574
Email: mdixon@buffaloschools.org

All questions and answers will be posted on the BCSD Department of Purchase website at <http://www.buffaloschools.org/PurchaseDept.cfm?subpage=3566>.

7.0 REQUIREMENTS

Minimum Staff Requirements

In every case, trainers, coaches and professional development providers must, at a minimum:

- Have a history of successfully raising the achievement of struggling learners that includes demonstrated and documented evidence of school turnaround efforts in priority schools;
- Have experience leading district administrators, principals, coaches, and teachers in the technical component of the assigned strand;
- Have earned a degree in a Special Education specialty or in General Education, with a Master's or Doctorate degree preferred;
- Have experience at the school level as a teacher and/or coach;
- If working with administrators, have experience working with administrators at the district level;
- Be an experienced presenter with excellent evaluations and references;
- Participate in ongoing professional development to continually hone skills;

If the organization is currently providing said services elsewhere or has provided the BCSD with said services in the recent past, attach summary listing:

- Number of schools/participants served
- School districts served
- Grade levels served
- Unique school themes or models in the organization's portfolio
- Type of schools served

8.0 Format Procedures for Delivery of Proposal

Submit one original, two paper copies and one electronic copy of the proposal in pdf format on a USB drive clearly labeled with the vendor's name. Proposal must be received on or before 11:00 AM EST 12/11/2013.

The proposal must consist of four parts (attachments A, B, C, D). Vendors may elect to submit proposals for a portion of the requested services.

Part I- Proposal Cover Page

Part II- Basic Program Description (Include an overview of the programs and support services proposed, which will allow the district to determine the quality of services provided.)

Part III- Cost (provide a specific description of your pricing structure)

Part IV- Assurances and Signature Form

Procedure for Delivery of Proposals

SUBMIT RFP TO: Craig Koeppel, Director of Purchasing, 816 City Hall, Buffalo NY 14202.

Proposals received after the due date and time will NOT be considered. Incomplete proposals will not be accepted and will not be returned for revisions. No faxed copies will be accepted. The proposal must be signed by an authorized official to bind the offer or to the proposal provisions.

9.0 Criteria and Evaluation of Proposals

Proposals must address and will be evaluated on the following criteria:

- size, capacity and experience that includes demonstrated and documented evidence of school turnaround efforts in priority schools and ability to complete the work within the specified timeframe;
- experience in delivering timely, high-quality pre-K through 12 educational products and services; experience working with the Buffalo Public Schools is preferred;
- specific expertise in research-based instruction, professional development, coaching and demonstrated understanding of NYS Learning Standards and Common Core Learning Standards in the identified content area(s);
- familiarity with New York State regulations on Limited English Proficient students and Students with Disabilities.

Each proposal will be evaluated using the selection criteria indicated below.
 Maximum points for each criterion are as follows:

EVALUATION CRITERION	MAXIMUM POINTS
I. Project Description A. Alignment Between Proposal Overview/Goals/Research B. Connection to State Academic Standards and District's Instructional Programs C. Defined Monitoring Process Relative to Achieving Proposal Outcomes D. Communication with Schools and Districts	10 10 5 5
II. Organizational Experience A. Proven Record of Success as Evidenced in Improved Academic outcomes for Students B. Highly Qualified Professional Staff C. Compliance with Federal, State, and Local Policies	10 5 5
III. Program Operations A. Proximity to School District B. Adequacy of resources, including personnel, equipment, financial stability, and other related factors. C. Comprehensive Proposal of Requested Services	10 10 10
IV. Cost A. Total Cost of Proposed Services B. Services and Support costs.	10 10

10.0 TIMELINE

RFP Advertised: 11/15/2013

Questions: 12/03/2013

Answers posted to website: 12/04/2013

Proposals Due: 12/11/2013

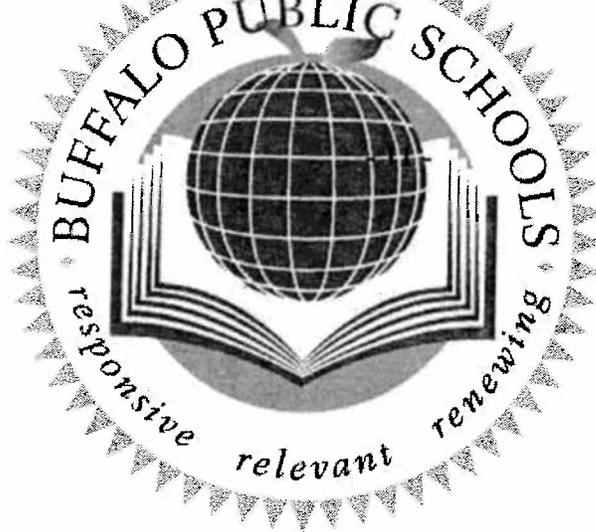

11.0 Responsibilities of an Approved Provider

Approved supplemental educational services providers are required to do the following:

- Ensure that the professional development/consultative services provided and the content used by the provider are consistent with those of the school district and State and are aligned with the NYSED CCSS.
- Enter into an agreement with the district that includes:
 - Statement of specific goals.
 - Description of the services to be provided.
 - Description of how the progress will be measured.
 - Qualifications of staff responsible for the delivery of the services.
 - Timetable for implementing services.
 - Initiation date, frequency, and duration of services to be provided.
 - Written reports to the superintendent, building level administrator, and specified district level administrators following each day of service.
 - Quarterly, on-site briefings with the superintendent and appropriate district level personnel.
 - Payment provisions based on services provided.

Attachment B

II. Basic Program Description

1. Provide evidence that your program has a positive impact on student achievement as demonstrated by state, district and/or other independent student performance assessments, particularly for low-income, under achieving students.
2. Provide letters of reference from previous clients that specifically relate to the School Improvement services of your organization. Provide contact information for each reference. (Submit a minimum of three (3) letters and/or references)
3. Explain how the key instructional practices and major design elements of your proposal are (1) high quality, (2) based on research and (3) specifically designed to increase student academic achievement.
4. Describe your program's connection to specific benchmarks in the CCSS for English Language Arts and Mathematics.
5. Describe the specific process you would use to evaluate and monitor progress toward achieving proposal objectives.
6. Describe the qualifications of your employees who would be providing professional development/consultative services to teachers and administrators.
7. Describe your capacity to deliver quality services over time to the identified population.

Attachment D

Assurances and Signature Form

In submitting this proposal certify that:

1. The organization will comply with applicable federal, state and local policies and procedures.
2. Services will be provided under the supervision of highly qualified professional staff.
3. The organization will maintain professionalism and confidentiality.
4. The organization is fiscally sound and will be able to complete services to the local education agency (LEA).
5. The organization will ensure that the services provided are aligned to the Common Core State Standards (CCSS) and scientifically research based.
6. The organization will comply with applicable federal, state and local health, safety and civil rights laws.

The undersigned hereby certifies that I am an individual authorized to act on behalf of the organization in submitting this proposal. I certify that all of the information provided herein is true and accurate, to the best of my knowledge. I understand that the discovery of deliberately misrepresented information contained herein may constitute grounds for denying the applicant's request for approval.

Name of Organization

Date Signed

NON-COLLUSIVE BIDDING CERTIFICATION

By submission of this bid, each Bidder and each person signing on behalf of any Bidder certifies, under penalty of perjury, that to the best of his knowledge and belief:

1. The prices in this bid have been arrived at independently without collusion, consultation, communication, or agreement, for the purpose of restricting competition as to any matter relating to such prices with any other Bidder or with any competitor; and
2. Unless otherwise required by law, the prices which have been quoted in this bid have not been knowingly disclosed by the Bidder and will not knowingly be disclosed by the Bidder prior to opening directly or indirectly, to any Bidder or to any competitor; and
3. No attempt has been made or will be made by the Bidder to induce any other person, partnership, or corporation to submit or not to submit a bid for the purpose of restricting competition.

This proposal is made without any connection with any person making any proposal for the material herein listed and it is in all respects fair and without collusion or fraud, and also, that no Office or Member of the Buffalo Board of Education, City of Buffalo, is directly interested therein, or in the supplies to which it relates, or any portion of the profits thereof.

If the Bidder is a corporation, the execution of the non-collusive certification on the form of proposal shall be deemed to have been authorized by the Board of Directors of the Bidder and such authorization shall be deemed to include the signing and submission of the bid and the inclusion therein of the certificate as to non-collusion as the act and deed of the corporation.

No bid shall be considered for an award nor shall any award be made to a Bidder where the proposal does not include the statements as to non-collusion as set forth in the form of proposal herein; provided however, that if in any case the Bidder cannot make the foregoing certification, the Bidder shall so state and shall furnish with the bid a signed statement which sets forth in detail the reason.

NON-COLLUSIVE BIDDING CERTIFICATION (cont.)

No award shall be made unless the Buffalo Board of Education determines that such disclosure was not made for the purpose of restricting competition. It should be noted that the fact that a Bidder has published price lists, rates or tariffs covering items being procured or has informed prospective customers of the proposed or pending publication of new or revised price lists for such items, or has sold the same items to other customers at the same price as being bid, does not constitute, without more, a disclosure to any other Bidder or to any competitor within the meaning of the non-collusive certification included in the form of proposal.

RFP REQUEST

Academic Supports for District and School turnaround

1.0 Introduction

In order to fully develop a robust and coherent system of education for the students of New York State, the New York State Education Department (NYSED) is committed to dramatically improving the State's chronically underperforming schools and creating new, innovative, high-quality education opportunities for all students. In December of 2009, the New York State Board of Regents approved a bold reform agenda to meet these goals. This grant application, funded through New York State's School Improvement Grants will contribute to the following components of the Regents' reform agenda:

1. Provide every student with a world-class curriculum that synthesizes rigorous content and skills to prepare students for college, the global economy, 21st century citizenship, and lifelong learning;
2. Work with school districts to implement strategies for improving chronically underperforming schools in order to dramatically improve student outcomes; and
3. Raise graduation rates for at-risk student populations (particularly English language learners, students with disabilities, low-income students, African-American and Latino students).

The Buffalo City School District (BCSD) through the Office of School Innovation and Turnaround, as part of its requirement to implement the provisions of the School Improvement Grant (SIG) 1003g is soliciting written proposals from potential service providers for professional development/school improvement services.

2.0 Purpose

Buffalo Public Schools Office of School Strategic Planning and is seeking proposals from qualified entities to serve as a partner/support organizations to provide opportunities to:

- Replicate prior experiences of documented and demonstrated school turnaround success with schools or districts.
- Build supportive district-level operating structures, and re-frame district systems to both support schools in improving student academic performance and holding them accountable for needed gains in performance.
- Build the capacity of district and school leaders to co-design and implement school turnaround plans that ensure dramatic gains in student academic performance through the effective implementation of the Common Core State Standards systems for teacher and leader effectiveness, and a cycle of data-driven instruction (DDI)/inquiry and action.
- □□□□□□ Coordinate and streamline an LEA's existing school turnaround efforts (through existing implementation of School Improvement Grant (1003g), Race to the Top Scope of Work plans, Comprehensive Education Plans (CEP), and Consolidated Applications, etc.) into one integrated approach to school turnaround.

3.0 Length of Service

The selected organization(s) will partner with the (BCSD) during the 2013-2014 school term, and upon satisfactory evaluation of the provided services, be extended to include the 2014-2015 and 2015-2016 school terms. Vendors may elect to submit proposals for a portion of the requested services; however, preference will be given to the vendor who proposes a comprehensive professional development package.

4.0 Project Overview

The intent of this proposal is to continue the job embedded professional development and on-site consultation that has been provided to teachers and administrators. Professional development activities must be specifically designed to increase academic success of all sub-groups of students as measured by the annual NYS Assessments and Regents Examinations. In addition to professional development and consultation, extended learning time and student support services are also requested. These services shall be provided to the BCSD.

BCSD Office of Strategic Planning and Innovation will recruit, screen and select partner organization(s) that can work collaboratively with the district and school building leadership teams to build sustainable capacity to turnaround chronically underperforming schools in eight (8) separate capacity-building program opportunities:

1. District systems and structures (required of any application);
2. Leading the implementation of CCSS in ELA and Math in chronically underperforming schools;
 - a. Alignment of classroom instruction with NYS Curriculum, NYS Assessments, Regents examinations, depth of knowledge and performance indicators.
 - b. Model research- based instructional strategies.
 - c. Designing formative and summative assessments mirroring the rigor embodied in the CCSS, NYS Assessments and Regents examinations.
 - d. Differentiated instructional strategies.
3. Instructional/ teacher coaching and training in the following areas
 - a. Assessment
 - b. Instructional delivery
 - c. Technology Integration
 - d. Literacy
 - e. Establishing and sustaining professional learning communities to build capacity and drive change.
 - f. Inclusion/co-teaching
4. Instructional leadership coaching to support principal and school leaders in school-wide improvement initiatives including but not limited to the following:
 - a. Developing data plans to impact differentiated instruction for all students
 - b. Analyzing data and using multiple data points to correlate student achievement to teacher effectiveness
 - c. Monitoring alignment between curriculum, instruction and assessment through a comprehensive planning process

- d. Integrating data systems and instructional programs to ensure student engagement and ongoing improvement.
 - e. Making recommendations on procedural matters such as school safety, organizational planning and scheduling which will enhance the academic achievement of all students.
5. Embedding a system of data-driven planning and instruction (DDI)/inquiry in the instructional cycle of chronically underperforming schools.
- a. Data coaching, analysis and interpretation to assist with implementation of program resources and targeted student interventions.

6. Extended Learning Time Component – Both academic tutoring and enrichment activities

(Excerpt from the SIG)- The major goals of the extended learning time component are to improve student academic performance, provide an opportunity for students to use their out-of-school time safely and productively, provide an opportunity for youth to develop positive relationships with peers and adults, and provide students athletic and cultural experiences to enrich their lives.

(Required per the NYSED ESEA Waiver)The key elements of the Extended Learning Time component for priority schools implementing a School Improvement Grant or a whole school reform model incorporating the ESEA waiver turnaround principles are that schools must: set as a goal serving 50 percent of eligible students; ensure the integration of academics, enrichment, and skill development through hands-on experiences that make learning relevant and engaging; and must have instruction in any core academic subject delivered under the supervision of a teacher who is NYS certified in that particular content area. If the program is intended to count towards a Focused District meeting its set aside requirement for Priority Schools then the program must expand learning time by a minimum of 200 student contact hours per year.

The Extended Learning Time enrichment period will be led by selected community partners with expertise and leverage the skills and expertise of teachers by designing a program based on student interest and need.

7. Student Support. Schools would like to partner with organizations that are able to support student academic, behavior and social emotional well being. Specific areas identified include

- Curriculum-based programs to enhance social and emotional learning
- School-wide program to prevent alcohol, tobacco or drug use
- Parent education regarding student social/emotional development
- Restorative measures (e.g. peer counseling)
- School-wide social skills curriculum program
- School-wide program to prevent violence
- Before/After school social/emotional learning opportunities
- Staff development around social/emotional learning
- Character education
- Family support services
- Mentor Programs
- Mental Health screenings
- Individual and group counseling

8. Family Engagement. Historically, family engagement has revolved around and been measured by attendance at school events and dissemination of information from the school to homes and family members. However children whose families are new to the country, struggling with poverty, and who may themselves have had difficulties in public schools require a more comprehensive approach. Specifically, an approach that serves to build positive relationships, and fosters partnerships with families so that there is support in the home for education.

- Training and on-going support for school-based staff to implement asset-based approaches to family engagement
- Training and on-going support for school-based staff to grow partnerships with families and strengthen support in the home for education

9 . Other training as identified by observations or by Superintendent’s request.

5.0 SCOPE OF WORK

All programs/services must address the following criteria:

- The service provider’s record of success as evidenced in improved academic outcomes for students;
- Alignment between research and program design;
- Alignment with proposal overview/ goals;
- Connection to Common Core State Standards and District’s instructional goals;
- Defined monitoring process relative to achieving proposal outcomes;
- Communication with school and district;
- Flexible services to meet the unique needs of each school;
- Comprehensive approach to school wide focus;
- Ability to build and sustain capacity;
- Highly qualified professional staff possessing applicable licensing/certification requirements specific to the proposed services;
- Compliance with Federal, State, and Local laws, policies, regulation codes and ordinances.

Entities eligible to apply to provide the requested educational services may include:

- Private educational companies
- Institutions of higher learning

6.0 Accountability:

Vendor will be required to submit quarterly written reports to the Office of Strategic Planning and Innovation regarding the implementation of the program/service.

Vendor should be able to analyze the following products from the professional development;

- student work products (writing responses)
- common formative assessments
- summative assessments

Management Responsibilities:

The BCSD will designate one representative who will act as the primary contact for this project. The representative will be responsible for conferring with any and all parties necessary to resolve unanticipated issues or requirements that might occur during the course of the RFP. All questions should be submitted in writing to:

Marianne Dixon, Supervisor
Office of Strategic Planning & Innovation
Buffalo City School District
701 City Hall
Buffalo, New York 14202
Phone: 716. 816.3574
Email: mdixon@buffaloschools.org

All questions and answers will be posted on the BCSD Department of Purchase website at
(*Insert website here*)

7.0 REQUIREMENTS

Minimum Staff Requirements

In every case, trainers, coaches and professional development providers must, at a minimum:

- Have a history of successfully raising the achievement of struggling learners that includes demonstrated and documented evidence of school turnaround efforts in priority schools;
- Have experience leading district administrators, principals, coaches, and teachers in the technical component of the assigned strand;
- Have earned a degree in a Special Education specialty or in General Education, with a Master's or Doctorate degree preferred;
- Have experience at the school level as a teacher and/or coach;
- If working with administrators, have experience working with administrators at the district level;
- Be an experienced presenter with excellent evaluations and references;
- Participate in ongoing professional development to continually hone skills;

If the organization is currently providing said services elsewhere or has provided the BPS with said services in the recent past, attach summary listing:

- Number of schools/participants served
- School districts served
- Grade levels served
- Unique school themes or models in the organization's portfolio
- Type of schools served

8.0 Format Procedures for Delivery of Proposal

Submit one original, two paper copies and one electronic copy of the proposal in pdf format on a USB drive. Proposal must be received on or before (insert date)

The proposal must consist of four parts (attachments A, B, C, D). Vendors may elect to submit proposals for a portion of the requested services.

Part I- Proposal Cover Page

Part II- Basic Program Description (Include an overview of the programs and support services proposed, which will allow the district to determine the quality of services provided.)

Part III- Cost (provide a specific description of your pricing structure)

Part IV- Assurances and Signature Form

Procedure for Delivery of Proposals

SUBMIT RFP TO: Craig Koepfel, Director of Purchasing, 816 City Hall, Buffalo NY

Proposals received after the due date and time will NOT be considered. Incomplete proposals will not be accepted and will not be returned for revisions. No faxed copies will be accepted. The proposal must be signed by an authorized official to bind the offer or to the proposal provisions.

9.0 Criteria and Evaluation of Proposals

Proposals must address and will be evaluated on the following criteria:

- size, capacity and experience that includes demonstrated and documented evidence of school turnaround efforts in priority schools and ability to complete the work within the specified timeframe;
- experience in delivering timely, high-quality pre-K through 12 educational products and services; experience working with the Buffalo Public Schools is preferred;
- specific expertise in research-based instruction, professional development, coaching and demonstrated understanding of NYS Learning Standards and Common Core Learning Standards in the identified content area(s);
- familiarity with New York State regulations on Limited English Proficient students and Students with Disabilities.

Each proposal will be evaluated using the selection criteria indicated below.

Maximum points for each criterion are as follows:

EVALUATION CRITERION	MAXIMUM POINTS
I. Project Description	
A. Alignment Between Proposal Overview/Goals/Research	10
B. Connection to State Academic Standards and District's Instructional Programs	10
C. Defined Monitoring Process Relative to Achieving Proposal Outcomes	5
D. Communication with Schools and Districts	5
II. Organizational Experience	
A. Proven Record of Success as Evidenced in Improved Academic outcomes for Students	10
B. Highly Qualified Professional Staff	5
C. Compliance with Federal, State, and Local Policies	5
III. Program Operations	
A. Proximity to School District	10

B. Adequacy of resources, including personnel, equipment, financial stability, and other related factors.	10
C. Comprehensive Proposal of Requested Services	10
IV. Cost	
A. Total Cost of Proposed Services	10
B. Services and Support costs.	10

11.0 Responsibilities of an Approved Provider

Approved supplemental educational services providers are required to do the following:

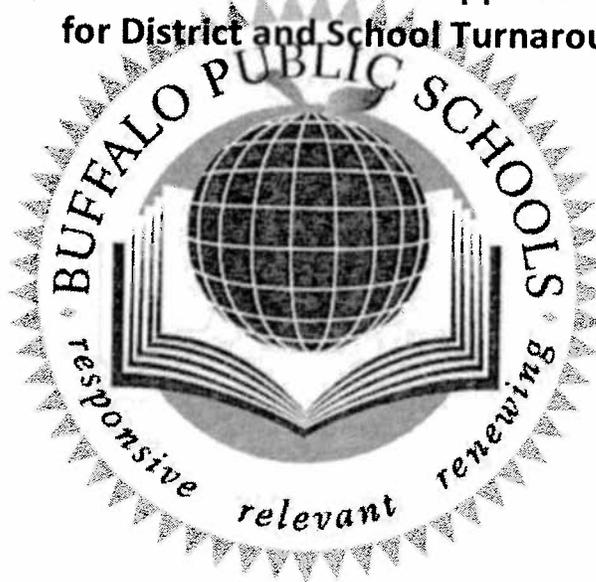

- Ensure that the professional development/consultative services provided and the content used by the provider are consistent with those of the school district and State and are aligned with the NYSED CCSS.
- Enter into an agreement with the district that includes:
 - Statement of specific goals.
 - Description of the services to be provided.
 - Description of how the progress will be measured.
 - Qualifications of staff responsible for the delivery of the services.
 - Timetable for implementing services.
 - Initiation date, frequency, and duration of services to be provided.
 - Written reports to the superintendent, building level administrator, and specified district level administrators following each day of service.
 - Quarterly, on-site briefings with the superintendent and appropriate district level personnel.
 - Payment provisions based on services provided.

Attachment B

II. Basic Program Description

1. Provide evidence that your program has a positive impact on student achievement as demonstrated by state, district and/or other independent student performance assessments, particularly for low-income, under achieving students.
2. Provide letters of reference from previous clients that specifically relate to the School Improvement services of your organization. Provide contact information for each reference. (Submit a minimum of three (3) letters and/or references)
3. Explain how the key instructional practices and major design elements of your proposal are (1) high quality, (2) based on research and (3) specifically designed to increase student academic achievement.
4. Describe your program's connection to specific benchmarks in the CCSS for English Language Arts and Mathematics.
5. Describe the specific process you would use to evaluate and monitor progress toward achieving proposal objectives.
6. Describe the qualifications of your employees who would be providing professional development/consultative services to teachers and administrators.
7. Describe your capacity to deliver quality services over time to the identified population.

Attachment D

Assurances and Signature Form

In submitting this application I certify that:

1. The organization will comply with applicable federal, state and local policies and procedures.
2. Services will be provided under the supervision of highly qualified professional staff.
3. The organization will maintain professionalism and confidentiality.
4. The organization is fiscally sound and will be able to complete services to the local education agency (LEA).
5. The organization will ensure that the services provided are aligned to the Common Core State Standards (CCSS) and scientifically research based.
6. The organization will comply with applicable federal, state and local health, safety and civil rights laws.

The undersigned hereby certifies that I am an individual authorized to act on behalf of the organization in submitting this application and assurances. I certify that all of the information provided herein is true and accurate, to the best of my knowledge. I understand that the discovery of deliberately misrepresented information contained herein may constitute grounds for denying the applicant's request for approval.

NON-COLLUSIVE BIDDING CERTIFICATION

By submission of this bid, each Bidder and each person signing on behalf of any Bidder certifies, under penalty of perjury, that to the best of his knowledge and belief:

1. The prices in this bid have been arrived at independently without collusion, consultation, communication, or agreement, for the purpose of restricting competition as to any matter relating to such prices with any other Bidder or with any competitor; and
2. Unless otherwise required by law, the prices which have been quoted in this bid have not been knowingly disclosed by the Bidder and will not knowingly be disclosed by the Bidder prior to opening directly or indirectly, to any Bidder or to any competitor; and
3. No attempt has been made or will be made by the Bidder to induce any other person, partnership, or corporation to submit or not to submit a bid for the purpose of restricting competition.

This proposal is made without any connection with any person making any proposal for the material herein listed and it is in all respects fair and without collusion or fraud, and also, that no Office or Member of the Buffalo Board of Education, City of Buffalo, is directly interested therein, or in the supplies to which it relates, or any portion of the profits thereof.

If the Bidder is a corporation, the execution of the non-collusive certification on the form of proposal shall be deemed to have been authorized by the Board of Directors of the Bidder and such authorization shall be deemed to include the signing and submission of the bid and the inclusion therein of the certificate as to non-collusion as the act and deed of the corporation.

No bid shall be considered for an award nor shall any award be made to a Bidder where the proposal does not include the statements as to non-collusion as set forth in the form of proposal herein; provided however, that if in any case the Bidder cannot make the foregoing certification, the Bidder shall so state and shall furnish with the bid a signed statement which sets forth in detail the reason.

NON-COLLUSIVE BIDDING CERTIFICATION (cont.)

No award shall be made unless the Buffalo Board of Education determines that such disclosure was not made for the purpose of restricting competition. It should be noted that the fact that a Bidder has published price lists, rates or tariffs covering items being procured or has informed prospective customers of the proposed or pending publication of new or revised price lists for such items, or has sold the same items to other customers at the same price as being bid, does not constitute, without more, a disclosure to any other Bidder or to any competitor within the meaning of the non-collusive certification included in the form of proposal.

Attachment S1- (D. School Leadership)

- Lead data analysis, data-driven dialogue and action planning with grade-level teams in order to continuously improve student performance and curriculum implementation.
- Direct and manage components of School Comprehensive Educational (SCEP) plan which include ELA, Math, Parental Involvement, and PBIS.
- Conduct regular formal and informal observations of teaching staff along with pre and post-observation conferences according to district and NYS protocols.
- Maintain effective communication through daily bulletin, written memos, individual conferences, and regular faculty and school based management team meetings.

Harriet Ross Tubman School #31, Buffalo, New York

8/08-8/13

Principal

- Supervise teachers and staff in grades pre-K through 8 in a building of approximately 500 students along with all school operations and procedures.
- Regularly conduct professional development, coaching, and feedback to teachers and grade level teams in the primary areas of explicit instruction strategies, Common Core Learning -Standards, APPR, and SLO implementation, along with individual teacher support based on student performance data and teaching performance.
- Lead data analysis, data-driven dialogue and action planning with grade-level teams in order to continuously improve student performance and curriculum implementation.
- Monitor ongoing student performance data through DIBELS, curriculum assessments, and parallel/practice assessments in order to drive and increase student achievement.
- Oversee and coordinate instructional support efforts of reading/math coaches, building reading and math teachers as determined by teachers' needs and as outlined in the district-wide student achievement plan.
- Conduct regular formal and informal observations of teaching staff along with pre and post-observation conferences.
- Direct and support strategies for student support, discipline, and safety.
- Maintain effective communication through daily bulletin, written memos, individual conferences, and regular faculty meetings.
- Facilitate regular school based planning team meetings.
- Communicate with parents regularly along with coordinating family activities and events with parent liaison and parent volunteers.
- Recognized two years in a row for increasing overall student attendance and daily attendance rate.

Bennett High School, Buffalo, New York

Assistant Principal

2/08-8/08

- Supervised teachers and staff in a community of approximately 300 students, grades 9-12.
- Facilitated and directed activities in the Education & Arts learning community, one of three magnet programs within the high school.
- Assisted teachers in the development and implementation of the inquiry-based and student advisory learning initiative through the Institute for Student Achievement (ISA).
- Served as member of school administrative team in direct support of the building principal and also responsible for regular site-based decisions and planning for effective school operation.
- Conducted formal and informal teacher observations along with providing instructional feedback.
- Maintained effective communication through written memos, individual meetings, and community meetings.

Stepping Stone Academy Charter School, Buffalo, New York

Principal

1/05-8/06

- Led the turnaround and renewal effort of a K-8 charter school which had previously exhibited poor academic performance over its first three years in operation.
- Reformed the teacher appraisal process, which included conducting regular formal observations, classroom support visits, feedback meetings, and written performance appraisals for teachers and staff.
- Created and managed an Instructional Leadership Team that provided ongoing professional development and support for new and developing teachers.
- Directed assessment preparation for staff and students along with providing resources and training for data analysis.
- Oversaw student achievement plan which led to significant improvement of scores on NYS assessments in the final two years of the charter, with 4th graders posting an overall 44% gain in ELA and 53% gain in Math, along with meeting several AYP goals.
- Provided oversight of school systems and improved overall school efficiency, organization, student support, discipline, safety, and emergency response.
- Prepared and presented monthly reports to Board of Trustees and regularly interfaced with school's management company and school oversight committee.
- Successfully operated within the constraints of a school budget, monitored student enrollment, made responsible decisions regarding staffing, resources, and services to the overall benefit of the school.
- Worked successfully with families and planned events with Parent Advisory Council.
- Successfully oversaw closure of school operations when the state made the decision to not renew the school's five-year charter at the end of 2006.

Charter School of Science & Technology, Rochester, New York

Academy Director

10/02-12/04

- Served as member of school administrative team and responsible for regular site-based decisions and plans directly affecting school operation.
- Supervised teachers in grades K-3 & 6-8 academies.
- Conducted formal and informal teacher observations and provided feedback to teachers.
- Facilitated weekly academy meetings that focused on professional development, student support, and assessment preparation.
- Designed and oversaw systems to maximize student transition, movement, and safety.

TEACHING EXPERIENCE:

Medaille College, Buffalo, New York

Visiting & Adjunct Instructor

8/06-12/10

- Taught graduate courses in the School of Education including core instructional practice, early field experience, action research, and diversity.
- Chaired Teacher Education Accreditation Council (TEAC) Committee.
- Advised graduate students and served as course leader for Core of Education class; monitored syllabus, core, and common assignments.

Charter School of Science & Technology, Rochester, New York

English/Language Arts Teacher

8/00-2/03

Taught 7th & 8th Grade.

Successfully maintained a positive and structured learning environment.

Served as Lead Teacher for Junior Academy teachers in all subjects.

Served as ELA Curriculum Coordinator; 8th grade scores increased 16% over the previous year.

Thomas Jefferson Middle School, Rochester, New York

9/97-8/00

English/Language Arts Teacher

Taught 7th & 8th grade; improved students' basic skills and developed writing portfolios.

Effectively managed the classroom and established effective rapport with students in a diverse setting.

Substituted for House Administrator on several occasions.

COMMUNITY LEADERSHIP & INVOLVEMENT:

Presenter & Speaker, Various Events

9/97-present

- *The Fisher Creed Keynote*, St. John Fisher College, 8/00

- *Preparing for Student Teaching*, Buffalo State College, 10/05
- *Panelist, 2006 Think About Teaching Conference*, Rochester, NY
- *2006 Trio Achievement Celebration Keynote*, Medaille College
- *2006 Honors Convocation Keynote*, Medaille College
- *Perfecting Our Purpose*, Community Action Organization-Buffalo, NY, 1/07
- *Think About Teaching Conference Keynote Presentation*, Rochester, NY, 3/08
- *Panelist, 2013 NYS Senate Reform Committee of Education*, 10/13

ADDITIONAL ACTIVITIES & TRAININGS:

<i>Buffalo Council of Supervisors and Administrators' Executive Committee & Professional Council</i>	
<i>Data-Driven Dialogue, Collaborative Inquiry & Cultural Proficiency</i>	April '12-June '12
<i>Observation & Analysis of Teaching Skills (OATS)</i>	October '11-February '12
<i>Instructional Leadership Development Academy-Buffalo Public Schools</i>	Spring '08 & '10-'11

Principal Leadership, Edison Schools, Inc., November 2005

Leadership Team & Student Achievement Planning, Edison Schools, Inc., July 2005 & July 2006

S2- (D. School Leadership)

Supporting Leadership Positions—Job Descriptions and Duties

Assistant Principal(s)

Qualifications. Candidates must hold a Master’s degree and one of the following certificates by the time of the appointment: New York State School Administrator, New York State School Supervisor, School District Leader, or School Building Leader. Candidates must have a minimum of five years of certificated teaching or supervisory experience. Candidates with prior assistant principal or administrative experience in an urban school district or in a district with a large urban population are preferred.

Responsibilities. The assistant principal will assist the principal in carrying out the following responsibilities:

Instructional leadership

- Create and communicate a comprehensive education plan aligned with the SIG Plan and the district’s vision and goals to turnaround a Persistently Lowest Achieving school;
- Conduct classroom observations and evaluations of teachers that lead to positive changes in teacher practices and increased student outcomes;
- Assess the strengths and areas in need of improvement of faculty and staff based on a sound knowledge base;
- Communicate school-wide changes and anticipated actions with the support of data;
- Work to develop and maintain clear lines of communication and collaboration between staff, administrators, students, and parents for the purpose of increasing student outcomes;
- Monitor and review all RtT deliverables and metrics as defined by the state and district.
- Meet daily with the principal to schedule instructional leadership time, reflect on impact, and develop a first responder structure in the school.

Teaching and learning

- Establish priority areas for instructional focus and make necessary changes in those areas to strengthen teaching and improve student learning.
- Ensure that all school leaders and instructional staff monitor progress regularly and systematically make adjustments to strengthen teaching and student learning.

Curriculum

- Collaboratively conduct a comprehensive curriculum review to ensure that the curriculum aligns with state and local standards and meets the needs of all students in the school, including students with disabilities and English language learners.
- Rigorously monitor the alignment of the written, taught, and assessed curriculum using scope and sequence documents and pacing calendars.

Collection, Analysis, and Utilization of Data

- Establish a schoolwide data team that sets the tone for ongoing data use to:
 - Define critical teaching and learning concepts.
 - Develop a written plan that articulates activities, roles, and responsibilities.
 - Provide ongoing data leadership.
- Provide supports that foster a data-driven culture within the school to:
 - Designate a school-based facilitator who meets with teacher teams to discuss data.

- Dedicate structured time for staff collaboration.
- Provide targeted professional development regularly.

Infrastructure for student success

- Enthusiastically recruit highly qualified staff members who have the needed specialized skills and competencies for positions in the school.
- Consider common goals for quick wins, such as changing the school's use of time and improving access to resources and the physical facilities.
- Foster a positive school climate where student discipline concerns are addressed in a manner that promotes student responsibility and mutual respect.

Professional development

- Arrange for targeted professional development based on analyses of achievement and instruction and differentiated according to teacher needs and the subject areas targeted for instructional improvement.

Attachment S5- (K. Project Plan and Timeline)

Year 1 Implementation Period Goals and Key Strategies

The table below outlines the specific, measurable, and time-phase actions that district leadership, school leadership, and other stakeholders will take to support the key strategies during the Year 1 implementation period.

Goal 1. Develop an instructional program in all core courses that is aligned with the CCLS and inquiry based.				
Focus area: Curriculum planning and instruction				
Focus Area	Strategies	Indicators of Success	Time Lines	Responsibility
Curriculum planning and instructions	Develop scope and sequence (curriculum map) for core courses that sequence the coverage of standards, content, and skills for the entire year.	Grade-level and content-area curriculum maps and pacing guides for all core courses Teacher collaboration time focused on the anchor standards	Spring– Summer 2014 September 2014– June 2015	Administration, instructional coaches, teachers
	Develop units of study for core courses that are aligned to the CCLS, inquiry based, and student centered	Units of study and curricular materials Teacher collaboration time focused on the anchor standards Lesson plans and activities that are student centered and inquiry based.	September 2014– June 2015	Administration, instructional coaches, teachers
	Implement a common set of instructional practices that reflect the instructional shifts.	Instructional shifts incorporated in all core subject areas	September 2014– June 2015	Administration, instructional coaches, teachers, PLCs
	Align curriculum to student needs based on student goals, common formative assessments, and progress-monitoring data.	Intervention plans and materials aligned to curriculum maps Lesson plans and supplemental resources	September 2014– June 2015	Administration, instructional coaches, student support team, teachers

Goal 2: Implement a student-centered approach to academic, social-emotional, and developmental support.				
Focus Area	Strategies	Indicator of Success	Time Line	Responsibility
Student support	Use the data-driven instruction process at grade-level and school-level meetings to identify students at risk for academic failure and assign strategic supports.	Universal screener administered to all students Secondary diagnostic assessment administered to students identified as being at severe risk All students assigned to strategic reading groups for individualized support	Spring-- Summer 2014 September 2014-- June 2015	Administration, instructional coaches, teachers, PLCs
	Increase Tier I supports within core instruction using the gradual release of responsibility model.	Use of the "I do, we do, you do" format in all lessons	September 2014-- June 2015	Administration, instructional coaches, teachers, PLCs
	Use data from progress monitoring, common formative assessments, and daily checks for understanding to assign students to support groups.	All students assigned to strategic reading groups for individualized support Data analyzed during common planning time	September 2014-- June 2015	Administration, instructional coaches, student support team, teachers
	Refine a universal approach to behavior that supports and nurtures the whole child.	PBIS program, including Tier I and Tier II support mechanisms	September 2014-- June 2015	Principal, school leadership team

Goal 3: Provide and engage in regular, job-embedded professional learning experiences designed to improve teachers' use of instructional practices that reflect instructional shifts required by the CCLS and differentiation for students based on data.

Focus Area	Strategies	Indicators of Success	Time Lines	Responsibility
Training, support, and professional development	Facilitate curriculum mapping.	Completed curriculum maps for each content area	September 2014– June 2015	Instructional coach, assistant principal, IB coordinator
	Provide one-to-one coaching and support for individual teachers and team-based coaching with small groups of teachers.	Coaching schedule reflective of student outcome data Modeling and coteaching	September 2014– June 2015	Instructional coach, principal, Generation Ready
	Conduct targeted instructional walks.	Cowalkthroughs in which Generation Ready coaches and school leaders coconduct classroom observations Collaborative planning to help school leaders plan and lead effective data team meetings, schoolwide PLC meetings, and more	September 2014– June 2015	Instructional coach, principal, Generation Ready
	Develop PLCs.	Common planning time meetings scheduled for all grades and content areas Agenda and protocols for meetings Student work and assessment data reviewed using protocol Improved teacher practice	September 2014– June 2015	Instructional coach, teachers, IB coordinator

INSTRUCTIONS

REVIEWED / RECOMMENDED

Richard Thompson 2/10/14

- ★ Submit the original budget and the required number of copies along with the completed application directly to the appropriate State Education Department office as indicated in the application instructions for the grant program for which you are applying. DO NOT submit this form to the Grants Finance Unit.
- ★ Enter whole dollar amounts only.
- ★ Prior approval by means of an approved budget (FS-10) or budget amendment (FS-10-A) is required for:
 - Personnel positions, number and type
 - Beginning with the 2005-2006 budgets, equipment items having a unit value of \$5,000 or more, number and type
 - Budgets for 2004-2005 and earlier years equipment items having a unit value of \$1,000 or more, number and type
 - Minor remodeling
 - Any increase in a budget subtotal (professional salaries, purchased services, travel, etc.) by more than 10 percent or \$1,000, whichever is greater
 - Any increase in the total budget amount.
- ★ Certification on page 8 must be signed by Chief Administrative Officer or designee.
- ★ High quality computer generated reproductions of this form may be used.
- ★ For changes in agency or payee address contact the State Education Department office indicated on the application instructions for the grant program for which you are applying
- ★ For further information on budgeting, please refer to the Fiscal Guidelines for Federal and State Aided Grants which may be accessed at www.oms.nysed.gov/cafe/ or call Grants Finance at (518) 474-4815.
