

RFP # 21-012 New York State Technical and Education Assistance Center for Homeless Students

Questions and Answers

- 1. The Plan of Operation has 3 categories (page 19 of the RFP):**
 - A. Professional Development/Technical Assistance/Trainings /Website/Materials (20 points)**
 - B. Monitoring / Research/ Data Assistance (15 Points);**
 - C. Collaboration and Coordination (5 points).**

But the description of the services to be performed combines the last two categories together (page 9). Which activities should be included in section C. (Collaboration/Coordination) of the Plan of Operation? Or should the activities for both B. and C. be combined together?

While reading Letter B (page 9) Monitoring / Research / Data Assistance / Collaboration and Coordination seems to be all-inclusive, it is not. Applicants must complete the Workplan Template to reflect the Plan of Operation describing activities, schedule of implementation, benchmarks/outcomes and evaluation tools for all three Plan of Operations Categories on page 18 of the amended RFP.

Collaboration and Coordination is a separate section of the application which prompts the applicant to describe the proposed strategy (including activities, schedule of implementation, benchmarks/outcomes and evaluation tools) to work with NYSED staff, LEAs, local social service agencies, shelters and other homeless service agencies.

- 2. We will not request or receive Personally Identifiable Information (PII) from NYSED as a part of our proposed activities. How should we complete Appendix R (Data Privacy Appendix) DPA EXHIBIT 1 and DPA EXHIBIT 2 to reflect this?**

Please disregard the previously posted Appendix R, Data Privacy Appendix; it is not required to submit with the proposal. The RFP and submission documents have been amended to remove the Appendix R.
