**SIRS-315- Staff Student Course (SSC) or Teacher Student Data Linkage (TSDL) Report**

TSDL is the NYSED data collection system designed to comply with State and federal laws to create a State Longitudinal Data System (SLDS) and assist with teacher and principal evaluation (APPR- Annual Professional Performance Review). More about these laws and the policies governing APPR can be found in the APPR guidance document at: <https://www.engageny.org/resource/guidance-on-new-york-s-annual-professional-performance-review-law-and-regulations>.

A record for classroom teachers (district, BOCES, and, charter school teachers) providing instruction in grades 3-8 ELA/ Math and Math Regents courses must be reported in the Staff Student Course Template. Only these courses will be reported in Staff Student Course. All courses will be reported in the Course Instructor Assignment template. This template includes information to link teachers to the students they teach, including linkage start and end dates and linkage durations. The template allows for linkage duration adjustments to accommodate teacher-student linkage durations that are different than those captured by the course schedule. The *Exclude from Evaluation Indicator* field in the Staff Student Course template should be left blank.
