SIRS-301 Tested/Not Tested Confirmation Reports

SIRS-302 Tested/Not Tested Confirmation All Assessments Report

Level 2 Reporting (L2RPT)
Report Guide

About the Reports

The SIRS-301 Tested/Not Tested Confirmation Report allows districts and schools to view data they reported in the Student Information Repository System (SIRS) for students who should be tested on the selected test year for the New York State Testing Program (NYSTP) assessment for their grade/age. If a student was not tested, the reason why the student was not tested (Medically Excused, Administrative Error, No Valid Score, Incomplete, or No Assessment) is listed. Rules for determining eligibility for receiving a valid score can be found in the Student Information Repository System (SIRS) Manual at http://www.p12.nysed.gov/irs/sirs/.

The Tested/Not Tested Confirmation Reports (T/NT) are available for the following New York State Testing Program (NYSTP) assessments:

- Grades 3-8 English language arts (ELA)
- Grades 3-8 mathematics
- Grades 4 & 8 science
- New York State English as a Second Language Achievement Test (NYSESLAT)
- New York State Alternate Assessment (NYSAA)
- Results for grade 8 students taking a Regents science test in lieu of the grade 8 science test

T/NT reports Contain Summary Reports and Student Detail Reports

**Summary Reports:** include data aggregated by school and district and by student subgroup. To view the data for each measure, select the appropriate subject from the “Subject Area” dropdown. In the “Assessment” dropdown, data may be viewed by grade or for a combination of applicable 3–8 (ELA and mathematics) or 4 & 8 (science) grades if “All Grades” is selected. For the NYSESLAT Assessments: Individual Modalities are listed by Grade Band (e.g. NYSESLAT: 1-2 Listening) and Total Score Modalities are listed by individual Grade (e.g. NYSESLAT: 1 Total Score).

**Student Detail Reports:** show student demographic and assessment information for students in the summary reports. These detail reports will also provide
important information regarding students identified as ELL Eligible, Former ELL, NYSESLAT Eligible, Disability, Former Students With Disabilities, and NYSAA Eligible. The student detail reports will also provide scores and performance levels (standard achieved).

**T/NT Versus Accountability Verification Reports**

The data in the T/NT reports should **not** be used for determining accountability results. Districts and schools should use the Level 2 “High School Accountability Data Verification Report” and “Elementary/Middle-Level Accountability Data Verification Report” (AVRs) to review accountability data. Data between the T/NT reports and the AVRs could be different for the following reasons:

a. All students who were tested on the assessments will appear the T/NT reports. On the AVRs, only continuously enrolled students are included when calculating the performance indices.

b. Data on T/NT are reported by subject and grade whereas on the AVRs, data are reported by subject only.

c. Students who took the NYSESLAT in-lieu of the ELA will appear as Not Tested on the ELA T/NT Report. These students will appear on the NYSESLAT T/NT student report under the column “NYSESLAT Eligible.” NYSESLAT eligible students are included in the AVR accountability calculations.

d. Seventh and eighth grade students who take Regents examinations in mathematics are not required to take the NYSTP grade 7 or 8 mathematics assessment to fulfill the testing requirement in mathematics. Students who take both the NYSTP mathematics assessment and a Regents mathematics assessment in grade 7 or 8 will have their NYSTP score count in the accountability calculations for the district and school responsible for the student. For more information, see the ESEA Flexibility Waiver at: [http://www.p12.nysed.gov/accountability/memos.html](http://www.p12.nysed.gov/accountability/memos.html). Students using the waiver will appear as Not Tested on the corresponding mathematics assessment on the T/NT Reports. Whereas, the AVRs will use these students data when calculating accountability.

**Entities That Can Be Viewed**

Data can be reviewed by the following entities enrolled during the appropriate snapshot periods listed below:

- District
- School (Public, Charter, or Nonpublic)
- Out-of-district placement: Students placed out-of-district by the CSE or a district official, including students with disabilities attending approved private schools for students with disabilities, State-supported schools (Section 4201), a special act district, or a component school of another district; If a student is enrolled in a nonpublic school but is placed there by a public school district (indicating an OODP student); the LEA District BEDS Code will be the public school district’s BEDS Code. Rules for Determining if a student is an OODP Nonpublic student: The first 8 digits of the LEA District BEDS Code does NOT match the first 8 Digits of the Building BEDS Code and the Building’s BEDS Code does not end in
“0888” nor “0777.” On the Student Detail Report, the Out-of-district place of instruction will appear under the column “Location.”

- **Home-schooled:** A home-schooled student is a student who is instructed at home by a parent, guardian, or tutor employed by the parent or guardian and by request of the parent or guardian and has a home-school plan approved and supervised by the district. Home-schooled students need to be reported in SIRS only if they take a State assessment. Public School District’s 12-Digit District’s BEDS Code and the Building’s BEDS Code ends in “0888.” On the Student Detail Report, under the column “Location” click on “HI – District Name” which translates to the “Home-Instructed” students. Students whose district of residence Reason for Beginning Enrollment Code is 5905 (CSE or CPSE responsibility only to report special-education records and assessment records for home-schooled students with disabilities or home-schooled students who are referred to the CSE for determination of eligibility for special-education services) will not appear on the T/NT report but will receive a Score Report.

- **Homebound:** A homebound student is a student who is unable to attend school for the remainder of the school year because of a physical, mental, or emotional illness or injury substantiated by a licensed physician and is instructed at home or in a hospital by a tutor provided by the school district in which the student resides. These students will appear under the district’s data but with the school name “Homebound” Public School District’s 12-Digit District’s BEDS Code and the Building’s BEDS Code ends in “0777.” On the Student Detail Report, “Homebound” will appear under the column “Location” of "HB – District Name.”

- Under Location, if “All Locations” is chosen, only those students who the school and/or district are accountable will appear. This means the Home Instructed students will NOT appear. The only way to see a Home-schooled student is to click on “HI-District Name.”

**Students Included in This Report**

**Enrollment Codes:** For this report, a regular enrollment record is defined as one of the “Reason for Beginning Enrollment Codes” listed below. Definitions can be found in the SIRS Manual.

- **Code 0011 — Enrollment in building or grade**
- **Code 0022 — Foreign exchange student enrollment in building or grade**
- **Code 5544 — Transferred in under the NCLB Title I "School in Improvement Status" transfer**
- **Code 7000 — Transferred in under the NCLB "Persistently Dangerous School" transfer option**
- **Code 7011 — Transferred in under the NCLB "Victim of Serious Violent Incident" transfer option**
Testing Dates - Snapshot Periods

Any student enrolled during ANYTIME during the “Period Start Date” and “Period End Date” for the assessments listed below. See the SIRS Manual, section “Accountability Inclusion/Exclusion for Participation/Performance at the Elementary/Middle Level” in the section “Specific Day 2 and Day 3 Dates by Assessment”
