Union Free School District  
Smart Schools Investment Plan**

## **TABLE OF CONTENTS**

**I. PLAN OVERVIEW**

**II. JUSTIFICATION OF NEED**

**III. SMART SCHOOLS INVESTMENT PLAN GOALS**

**IV. PURCHASE PLAN & ALLOCATION OF FUNDS (USE TABLES AS PROVIDED BY NYSED)**

**V. PROFESSIONAL DEVELOPMENT**

**VI. SUSTAINABILITY**

**VII. INVESTMENT PLAN TIMELINE**

## **I. Plan Overview**

In terms of fulfilling the Port Chester-Rye UFSD mission statement, “Success for Every Student,” our NYSED Approved Technology Plan Survey included long term goals regarding instructional technology. Our students need sufficient technology skills and competencies to ensure that they are college and career ready and this includes the ability to work in a collaborative, dynamic and secure on-line environment. After much research, stakeholder’s surveys and in classroom pilots, we decided that the best way to facilitate the use of Virtual Learning Spaces and Electronic Resources is through the use of Google Classroom and eChalk. In order to build capacity for this change our network has been upgraded to meet and exceed the required standard of 100 mbps per 1,000 students. In addition, we have ubiquitous district wide wireless Internet connectivity. However, it was determined the Smart School Bond Act district allocated funds (\$1,736,663) will be used to increase and replace student computer devices.

## **II. Justification of Need**

With an IT infrastructure in place that will support instruction, our District Technology Plans includes as a priority and objective, an appropriate computer device replacement and refreshment program for student classroom instruction and testing.

Therefore in alignment with this objective, we will use the Smart Schools funding to procure chromebooks to replace and increase student computer devices. With an adoption of GAfE (Google Apps for Education) platform, additional devices will ensure student access to cloud based instructional materials, digital citizenship, and anytime anywhere access to collaboration.

## **III. SMART SCHOOLS INVESTMENT PLAN GOALS (ALIGNMENT WITH TECH PLAN SURVEY)**

**In order to fulfill its educational mission, our school district has prioritized the following long-term goals:**

1. Provide every student with a computing device and connectivity to enable them to access a full range of educational technology tools and learning opportunities.
2. Ensure and provide additional learning opportunities that can be accessed anytime and anywhere.
3. Provide with an educational environment with ubiquitous access to assessment tools and data that will inform teaching and improve learning.
4. Improve teaching and learning; including all students such as English language learners and newcomers to this country; by increasing outreach to parents, the community, and the world.

In order to achieve these goals the district continues to:

- Create leaders at all levels
- Provide online learning for students and teachers
- Implement “pedagogy first”, “access for all” initiatives
- Infuse data into classroom decision-making
- Converge network applications
- Implement software “virtualization” and remote support tools
- Develop long-term software, hardware and infrastructure acquisition and Fiscal Forecast
- Commit to purchasing web-based instructional software
- Support interactive telecommunication technologies
- Implement procedures to clean and maintain all data in district systems

- Implement a security audit to ensure that all data, data systems, and technology assets are secure and to ensure disaster recovery capability.

**IV. Purchase Plan and Allocations**

The district's plans to purchase 990 Dell Chromebook11 Devices, 990 Google Chrome OS Management Console Licenses, 33 Dell Mobile Charging Carts and 33 printers.

Dell Chromebook 11 Specs:

Intel Celeron Processor Label -Intel Celeron Processor - Baytrail-M, 4GB Memory  
 Internal English (US) Keyboard - Black  
 Intel Dual Band Wireless-AC 7260 802.11 ac/a/b/g/n  
 2x2 + Bluetooth 4.0 LE Half Mini Card  
 65 Watt AC Adaptor  
 US Power Cord  
 Fixed Hardware Configuration  
 UPC Label UPC884116176541  
 System Documentation, Multi Language  
 Chromebook 11  
 Placemat 3 Cell Primary Battery  
 Non- Touch LCD Back Cover

HP Laserjet Pro 402dw

- Print only, wireless
- Print speed letter: Up to 40 ppm (black)
- Auto duplex printing; 2 paper trays (standard)
- Uses toner with JetIntelligence

We have also met the requirements of the SSBA Guidance in terms of gathering input from our school community, stakeholders and non public schools. The school district will provide with a loan program for these devices to be shared with non public schools following on the guidance and acceptable use policies.

**Allocation of Funds – Classroom Technology 2016-17**

CATEGORY	SUB-ALLOCATION
INTERACTIVE WHITEBOARDS	0
COMPUTER SERVERS	0
DESKTOP COMPUTER	0
LAPTOP COMPUTER	0
CHROMEBOOKS	\$262,350
TABLETS	0
Other Costs	\$72,171
Sub Total	\$334,521

*\*The district plans to support the purchase of any non-eligible items indicated above via other local funds. The district will seek reimbursement through the SSBA for only eligible items indicated above per the most recent available March 2, 2016 NYSED guidance.*

## **Plan Goals**

The purchase of these new student devices will significantly increase student access to technology, online access, and collaborative student centered learning opportunities. Teachers and students will be able to share in a collaborative environment in real-time and students will have access to work independently with online content that appeal to the individual abilities, needs and interests.

## **V. Professional Development**

The Port Chester Rye UFSD in alignment with its NYSED approved Tech Plan Survey will provide with High Quality Professional Development opportunities for teachers to fully utilize the technology investment via Smart Schools Bond Funding.

The Port Chester Rye UFSD has allocated funds for the current budget cycle to support Professional Development for teachers in preparation to the provision of learning mobile devices facilitating for differentiated instruction, instructional technology integration, active learning, and ubiquitous access to rich content anytime, anywhere for teachers and students.

## **VI. Sustainability**

The District will integrate the Smart Schools Bond purchases into the district's existing equipment increase and replacement cycle. Our increase and replacement program considers a four to five years cycle and is funded via purchase agreement through a BOCES/LHRIC IPA. In addition, to provide sustained technical support for IT infrastructure and Devices we have contracted with BOCES/LHRIC for ongoing technical support.

## **VII. Timeline**

Once the Investment Plan is approved by the State, equipment will be purchased in accordance with the District's purchasing policies. Once the equipment arrives the IT staff will prioritize the inventorying and provisioning of the equipment. Based on the proposed quantities, equipment should be in place and operational within 30 days of its arrival.

The district will include this new equipment in its existing inventory database and monitor it to ensure equipment is securely maintained in its designated locations. The District's comprehensive asset insurance policy and Disaster Recovery Plan will also be updated to reflect the additional equipment.

This document has been posted to the District's website as required by the Smart School Bond Implementation Guidance by the New York State Education Department in order to invite public input prior to the adoption of this plan by the Port Chester-Rye UFSD Board of Education. Public input can be submitted to the following email address: [smartschoolbond@portchesterschools.org](mailto:smartschoolbond@portchesterschools.org)
