

## Smart Schools Investment Plan - Revised - One to One - Continuation Plan

SSIP Overview

---

Page Last Modified: 05/12/2022

**Institution ID**

80000037708

1. **Please enter the name of the person to contact regarding this submission.**

Donald Heberer

- 1a. **Please enter their phone number for follow up questions.**

6314748104

- 1b. **Please enter their e-mail address for follow up contact.**

dheberer@comsewogue.k12.ny.us

2. **Please indicate below whether this is the first submission, a new or supplemental submission or an amended submission of an approved Smart Schools Investment Plan.**

Supplemental submission

3. **All New York State public school districts are required to complete and submit a District Instructional Technology Plan survey to the New York State Education Department in compliance with Section 753 of the Education Law and per Part 100.12 of the Commissioner's Regulations. Districts that include investments in high-speed broadband or wireless connectivity and/or learning technology equipment or facilities as part of their Smart Schools Investment Plan must have a submitted and approved Instructional Technology Plan survey on file with the New York State Education Department.**

**By checking this box, you certify that the school district has an approved District Instructional Technology Plan survey on file with the New York State Education Department.**

District Educational Technology Plan Submitted to SED and Approved

4. **Pursuant to the requirements of the Smart Schools Bond Act, the planning process must include consultation with parents, teachers, students, community members, other stakeholders and any nonpublic schools located in the district.**

**By checking the boxes below, you are certifying that you have engaged with those required stakeholders.**

Parents

Teachers

Students

Community members

This plan has been identified as a Remote Learning Plan and meets the criteria per the SSBA Guidance to be submitted and reviewed on an expedited basis, therefore the district did not consult with certain stakeholder groups including parents, teachers, students, community members and/or nonpublic schools in the district prior to submission of the application.

5. **Did your district contain nonpublic schools in 2014-15?**

Yes

Yes, but they have all since closed, moved out of district or are declining use of SSBA funds

No

Smart Schools Investment Plan - Revised - One to One - Continuation Plan

SSIP Overview

Page Last Modified: 05/12/2022

**6. Certify that the following required steps have taken place by checking the boxes below:**

- The district developed and the school board approved a preliminary Smart Schools Investment Plan.
- The preliminary plan was posted on the district website for at least 30 days. The district included an address to which any written comments on the plan should be sent.
- The school board conducted a hearing that enabled stakeholders to respond to the preliminary plan. This hearing may have occurred as part of a normal Board meeting, but adequate notice of the event must have been provided through local media and the district website for at least two weeks prior to the meeting.
- The district prepared a final plan for school board approval and such plan has been approved by the school board.
- The final proposed plan that has been submitted has been posted on the district's website.
- This Plan has been identified as a Remote Learning Plan and meets the criteria per the SSBA Guidance to be submitted and reviewed on an expedited basis, therefore this plan has not met certain stakeholder engagement requirements including, consulting with nonpublic schools in advance of plan submission, having the school board conduct a hearing on the plan and/or posting the plan to the district website for a minimum of 30 days. This district will post the Remote Learning Plan to the district's website upon submission of the application.

**6a. Please upload the proposed Smart Schools Investment Plan (SSIP) that was posted on the district's website, along with any supporting materials. Note that this should be different than your recently submitted Educational Technology Survey. The Final SSIP, as approved by the School Board, should also be posted on the website and remain there during the course of the projects contained therein.**

Board Final Approval.pdf  
 Board Preliminary Approval.pdf  
 Notes - Smart Schools Investment Plan Committee.pdf  
 SSIP - One to One Continuation Plan - 1-18-2022.pdf

**6b. Enter the webpage address where the final Smart Schools Investment Plan is posted. The Plan should remain posted for the life of the included projects.**

[https://www.comsewogue.k12.ny.us/school\\_board/budget\\_information/smart\\_schools\\_investment\\_plan](https://www.comsewogue.k12.ny.us/school_board/budget_information/smart_schools_investment_plan)

**7. Please enter an estimate of the total number of students and staff that will benefit from this Smart Schools Investment Plan based on the cumulative projects submitted to date.**

4,200

**8. An LEA/School District may partner with one or more other LEA/School Districts to form a consortium to pool Smart Schools Bond Act funds for a project that meets all other Smart School Bond Act requirements. Each school district participating in the consortium will need to file an approved Smart Schools Investment Plan for the project and submit a signed Memorandum of Understanding that sets forth the details of the consortium including the roles of each respective district.**

- The district plans to participate in a consortium to partner with other school district(s) to implement a Smart Schools project.

**9. Please enter the name and 6-digit SED Code for each LEA/School District participating in the Consortium.**

Partner LEA/District	SED BEDS Code
(No Response)	(No Response)

**10. Please upload a signed Memorandum of Understanding with all of the participating Consortium partners.**

(No Response)

**11. Your district's Smart Schools Bond Act Allocation is:**

\$2,813,720

**12. Final 2014-15 BEDS Enrollment to calculate Nonpublic Sharing Requirement**

Smart Schools Investment Plan - Revised - One to One - Continuation Plan

SSIP Overview

Smart Schools Investment Plan - Revised - One to One - Continuation Plan

School Connectivity

Page Last Modified: 01/13/2022

1. In order for students and faculty to receive the maximum benefit from the technology made available under the Smart Schools Bond Act, their school buildings must possess sufficient connectivity infrastructure to ensure that devices can be used during the school day. Smart Schools Investment Plans must demonstrate that:
  - sufficient infrastructure that meets the Federal Communications Commission’s 100 Mbps per 1,000 students standard currently exists in the buildings where new devices will be deployed, or
  - is a planned use of a portion of Smart Schools Bond Act funds, or
  - is under development through another funding source.
 Smart Schools Bond Act funds used for technology infrastructure or classroom technology investments must increase the number of school buildings that meet or exceed the minimum speed standard of 100 Mbps per 1,000 students and staff within 12 months. This standard may be met on either a contracted 24/7 firm service or a "burstable" capability. If the standard is met under the burstable criteria, it must be:
  1. Specifically codified in a service contract with a provider, and
  2. Guaranteed to be available to all students and devices as needed, particularly during periods of high demand, such as computer-based testing (CBT) periods.

Please describe how your district already meets or is planning to meet this standard within 12 months of plan submission.

(No Response)

- 1a. If a district believes that it will be impossible to meet this standard within 12 months, it may apply for a waiver of this requirement, as described on the Smart Schools website. The waiver must be filed and approved by SED prior to submitting this survey.

By checking this box, you are certifying that the school district has an approved waiver of this requirement on file with the New York State Education Department.

2. **Connectivity Speed Calculator (Required).** If the district currently meets the required speed, enter “Currently Met” in the last box: **Expected Date When Required Speed Will be Met.**

	Number of Students	Required Speed in Mbps	Current Speed in Mbps	Expected Speed to be Attained Within 12 Months	Expected Date When Required Speed Will be Met
Calculated Speed	(No Response)	0.00	(No Response)	(No Response)	(No Response)

3. Describe how you intend to use Smart Schools Bond Act funds for high-speed broadband and/or wireless connectivity projects in school buildings.

(No Response)

4. Describe the linkage between the district's District Instructional Technology Plan and how the proposed projects will improve teaching and learning. (There should be a link between your response to this question and your responses to Question 1 in Section IV - NYSED Initiatives Alignment: "Explain how the district use of instructional technology will serve as a part of a comprehensive and sustained effort to support rigorous academic standards attainment and performance improvement for students.")

Your answer should also align with your answers to the questions in Section II - Strategic Technology Planning and the associated Action Steps in Section III - Action Plan.)

(No Response)

Smart Schools Investment Plan - Revised - One to One - Continuation Plan

School Connectivity

Page Last Modified: 01/13/2022

- 5. If the district wishes to have students and staff access the Internet from wireless devices within the school building, or in close proximity to it, it must first ensure that it has a robust Wi-Fi network in place that has sufficient bandwidth to meet user demand.

Please describe how you have quantified this demand and how you plan to meet this demand.

(No Response)

- 6. Smart Schools plans with any expenditures in the School Connectivity category require a project number from the Office of Facilities Planning. Districts must submit an SSBA LOI and receive project numbers prior to submitting the SSIP. As indicated on the LOI, some projects may be eligible for a streamlined review and will not require a building permit.

Please indicate on a separate row each project number given to you by the Office of Facilities Planning.

Project Number
(No Response)

- 7. Certain high-tech security and connectivity infrastructure projects may be eligible for an expedited review process as determined by the Office of Facilities Planning.

Was your project deemed eligible for streamlined review?

(No Response)

- 8. Include the name and license number of the architect or engineer of record.

Name	License Number
(No Response)	(No Response)

- 9. Public Expenditures – Loanable (Counts toward the nonpublic loan calculation)

Community Connectivity (Broadband and Wireless)

Page Last Modified: 01/13/2022

1. Describe how you intend to use Smart Schools Bond Act funds for high-speed broadband and/or wireless connectivity projects in the community.

(No Response)

2. Please describe how the proposed project(s) will promote student achievement and increase student and/or staff access to the Internet in a manner that enhances student learning and/or instruction outside of the school day and/or school building.

(No Response)

3. Community connectivity projects must comply with all the necessary local building codes and regulations (building and related permits are not required prior to plan submission).

I certify that we will comply with all the necessary local building codes and regulations.

4. Please describe the physical location of the proposed investment.

(No Response)

5. Please provide the initial list of partners participating in the Community Connectivity Broadband Project, along with their Federal Tax Identification (Employer Identification) number.

Project Partners	Federal ID #
(No Response)	(No Response)

6. Please detail the type, quantity, per unit cost and total cost of the eligible items under each sub-category.

Smart Schools Investment Plan - Revised - One to One - Continuation Plan

Classroom Learning Technology

Page Last Modified: 05/12/2022

1. In order for students and faculty to receive the maximum benefit from the technology made available under the Smart Schools Bond Act, their school buildings must possess sufficient connectivity infrastructure to ensure that devices can be used during the school day. Smart Schools Investment Plans must demonstrate that sufficient infrastructure that meets the Federal Communications Commission’s 100 Mbps per 1,000 students standard currently exists in the buildings where new devices will be deployed, or is a planned use of a portion of Smart Schools Bond Act funds, or is under development through another funding source. Smart Schools Bond Act funds used for technology infrastructure or classroom technology investments must increase the number of school buildings that meet or exceed the minimum speed standard of 100 Mbps per 1,000 students and staff within 12 months. This standard may be met on either a contracted 24/7 firm service or a "burstable" capability. If the standard is met under the burstable criteria, it must be:

1. Specifically codified in a service contract with a provider, and
2. Guaranteed to be available to all students and devices as needed, particularly during periods of high demand, such as computer-based testing (CBT) periods.

Please describe how your district already meets or is planning to meet this standard within 12 months of plan submission.

The District has upgraded and is in the process of upgrading necessary infrastructure components, such as its firewall, core main building switches, server farm, and fail-over capabilities to live back-ups. In addition the district currently provides bandwidth of 2000Mbps, which greatly exceeds this standard.

- 1a. If a district believes that it will be impossible to meet this standard within 12 months, it may apply for a waiver of this requirement, as described on the Smart Schools website. The waiver must be filed and approved by SED prior to submitting this survey.

By checking this box, you are certifying that the school district has an approved waiver of this requirement on file with the New York State Education Department.

2. **Connectivity Speed Calculator (Required).** If the district currently meets the required speed, enter “Currently Met” in the last box: Expected Date When Required Speed Will be Met.

	Number of Students	Required Speed in Mbps	Current Speed in Mbps	Expected Speed to be Attained Within 12 Months	Expected Date When Required Speed Will be Met
Calculated Speed	3,650	365.00	2000	2000	Currently Met

3. If the district wishes to have students and staff access the Internet from wireless devices within the school building, or in close proximity to it, it must first ensure that it has a robust Wi-Fi network in place that has sufficient bandwidth to meet user demand.

Please describe how you have quantified this demand and how you plan to meet this demand.

The Comsewogue School District has wireless saturation throughout the 6 buildings. There are currently over 240 Aerohive AP230 802.11ac dual radio wireless access points managed over cloud based controllers. We maintain this infrastructure through our existing budget.

4. All New York State public school districts are required to complete and submit an Instructional Technology Plan survey to the New York State Education Department in compliance with Section 753 of the Education Law and per Part 100.12 of the Commissioner’s Regulations.

Districts that include educational technology purchases as part of their Smart Schools Investment Plan must have a submitted and approved Instructional Technology Plan survey on file with the New York State Education Department.

By checking this box, you are certifying that the school district has an approved Instructional Technology Plan survey on file with the New York State Education Department.

**Smart Schools Investment Plan - Revised - One to One - Continuation Plan**

## Classroom Learning Technology

Page Last Modified: 05/12/2022

5. **Describe the devices you intend to purchase and their compatibility with existing or planned platforms or systems. Specifically address the adequacy of each facility's electrical, HVAC and other infrastructure necessary to install and support the operation of the planned technology.**

Chromebooks will be purchased and placed in classrooms which have existing electrical, wiring and HVAC. These devices will be used to replace some end of life devices and increase availability for students accessing technology from multiple locations.

6. **Describe how the proposed technology purchases will:**
- > enhance differentiated instruction;
  - > expand student learning inside and outside the classroom;
  - > benefit students with disabilities and English language learners; and
  - > contribute to the reduction of other learning gaps that have been identified within the district.

The expectation is that districts will place a priority on addressing the needs of students who struggle to succeed in a rigorous curriculum. Responses in this section should specifically address this concern and align with the district's Instructional Technology Plan (in particular Question 2 of E. Curriculum and Instruction: "Does the district's instructional technology plan address the needs of students with disabilities to ensure equitable access to instruction, materials and assessments?" and Question 3 of the same section: "Does the district's instructional technology plan address the provision of assistive technology specifically for students with disabilities to ensure access to and participation in the general curriculum?")

In addition, describe how the district ensures equitable access to instruction, materials and assessments and participation in the general curriculum for both SWD and English Language Learners/Multilingual Learners (ELL/MLL) students.

**Please note: If this plan has been identified as a Remote Learning Plan to be submitted and reviewed on an expedited basis, the district should explain how this plan will facilitate remote and hybrid learning, in lieu of responding to the question above.**

Through our one to one initiative, we offer students modern skills and learning opportunities that are independent of time and location. Having a one-to-one platform required us to rethink every aspect of our education system. It demanded more than teaching students to be problem solvers and effective collaborators. Students have had the opportunity to be actively engaged in their learning through the support of a wide variety of technology infrastructure, computer and device hardware as well as support staff. With the 1:1 Chromebook initiative throughout the district, we looked critically at our pedagogy and how we can move to more active learning in student-centered classrooms. Students engaged in active learning are making their own meaning and constructing their own knowledge in the process. All of our planning, teaching, and assessing is centered around the needs and abilities of students. We provide a learning environment that supports the strengths and needs of individual learners, preparing students to be college and career ready. Technology enables teachers to provide students with resources to meet their individual learning styles. We have already provided Chromebooks to all of our High School and Middle School students to bring to and from school so they can learn in school and/or remotely. We have provided our elementary school students with Chromebooks in their Classrooms so they can learn with the technology. We also have opportunities in which the students can bring the devices home as needed. In order to continue with our district 1 to 1 initiative we need to refresh our devices that are nearing End of Life and will no longer receive critical security updates. The Smart School bond money will ensure that secure Chromebook devices are kept in the hands of each student at Comsewogue. This improves access for our students to the myriad resources available through Google for Education and continues access to a number of online resources and environments. Our one to one initiative supports Comsewogue's Problem Based Learning, Social Emotional Learning and Student focused initiatives.

7. **Where appropriate, describe how the proposed technology purchases will enhance ongoing communication with parents and other stakeholders and help the district facilitate technology-based regional partnerships, including distance learning and other efforts.**

These purchases will continue to support our initial vision more so than ever in a pandemic/post-pandemic world. We will continue to enhance our students 21st Century skills and learning opportunities that are independent of time and location. These goals and initiatives will dramatically change the way we teach and the way students learn and open the door to a collaborative environment and a true community and global connection. At Comsewogue we use Google for Education (GfE) which allows students to access their information and instructional tools at school or away from any device. With GfE we integrate Google Classroom which makes the connection to these tools even more seamless.

## Smart Schools Investment Plan - Revised - One to One - Continuation Plan

## Classroom Learning Technology

Page Last Modified: 05/12/2022

8. Describe the district's plan to provide professional development to ensure that administrators, teachers and staff can employ the technology purchased to enhance instruction successfully.

**Note: This response should be aligned and expanded upon in accordance with your district's response to Question 1 of F. Professional Development of your Instructional Technology Plan: "Please provide a summary of professional development offered to teachers and staff, for the time period covered by this plan, to support technology to enhance teaching and learning. Please include topics, audience and method of delivery within your summary."**

**Please note: If this plan has been identified as a Remote Learning Plan to be submitted and reviewed on an expedited basis, the district should provide a statement confirming that the district has provided or will provide professional development on these devices to its staff, in lieu of responding to the question above.**

Professional Development - At Comsewogue we have a dedicated Technology Integration Specialist working with administrators and teachers delivering workshops, push-in sessions and one on one appointments. We also have our Library Media Specialist working in their buildings with teachers on technology project planning. The Teacher Integration Specialist, Library Media Specialists and the Instructional Technology administrator work closely to plan and integrate technology throughout the curriculum.

PD offerings will include:

EdPuzzle - Flipped Learning Videos - Flipped Learning is a new concept that allows students to learn the material via online video and then have more time to practice it in class. You can also have online discussions. You don't have to flip everything, maybe just a unit, or a particular assignment. YouTube and EdPuzzle. Come see what's all about!

BrainPop - Come explore some exciting new features included in Comsewogue's Brainpop subscription. BrainPop has more content for teachers to use directly in their classroom, with assessments and activities to accompany every video and topic.

Creating your Own Content Videos - You don't need to have expensive or complicated software to make your own videos for your class. With a simple microphone and a device you can make your own videos for your students to use as a review, absent, or for a flipped learning model. Come see how easy it is to begin!

EdTech Resources: What's new and Exciting! - On the web there are so many tools out there, how do you find the best ones and stay on top of them all? Fear not, if you come to this workshop you will learn the best ones for your grade-level or content area.

Wizer.Me Worksheet and Other Cool Tools - Wizer.Me is a tool for teachers to make cool, interactive online worksheets for their students. Interactive resources online can provide your students a blended learning experience without a lot of legwork in advance. In addition, complimentary tools and apps will be explored in conjunction with Wizer and Google Apps for Education. Participations will see the benefit of making their worksheets, quizzes and assessments digital and interactive.

Chromebooks and Getting the Most of Google Chrome - Are you and/or your students using Chromebooks in the classroom? Want to know all the tips, tricks and best practices for using Chromebooks in the Classroom? Come to this workshop where we will explore the best ways to leverage chromebooks in the classroom as well as apps and extensions you can install to improve the functionality of Chrome and the Chromebook

Google Classroom and Google Drive - Google Classroom is quickly becoming a must-have tool for teachers. Come to this workshop to see the best ways to use this tool and leverage Google Drive to help foster collaboration and student workflow. In addition, we will explore best practices, tips and tricks and few other add-ons and apps that make Google Classroom even better.

Google Forms - Collect Data and Make Quizzes in a Few Easy Steps - Google Forms is one of the most powerful tools in the Google Apps suite. You can use it to collect data from others or give a quiz to your students. All data is collected automatically in a spreadsheet. In this workshop, we will make several types of forms and explore some of the great add-ons, like flubaroo, and others so you can get the most of Google Forms. Come ready with some ideas so we can help develop them during the session.

The New Google Sites- Looking to make a Google Site for your Teacher webpage, the new Google Sites is a great tool. It's fast and easy. It leverages the power of Google Drive, Calendar, YouTube and others to bring you great tools to make your website dynamic and easy to update.

Gmail, Contacts, Google Calendar - The Exciting Transition from Outlook - Gmail, Contacts, Google Calendar will allow everyone to have everything in one place. No longer will you need two accounts as single-sign-on will seamlessly allow users to be able to use your email and calendar alongside Google Drive, Sites and Classroom. Gmail has some great features that helps categorize email and reduce the clutter. With Google Calendar you can share your calendars with colleagues or students for assignments. Having your contacts setup in Gmail will help you be able to email others and students easily. Come to this workshop so you will be ready for the exciting transition!

NEWSELA: Reading for Lexile Levels - Starting this year, Comsewogue has purchased a subscription to NEWSELA! Newsela is a fantastic reading comprehension website that curates news daily articles and rewrites them at different lexile levels for the students. It also has guided questions for each article and allows you to create your own class and monitor student progress. Come check it out!

Learning A-Z: RazKids, Science, ETC -Comsewogue now has a Learning A-Z subscription for all elementary and middle school teachers. This expands upon the popular RazKids tool and gives more options for teachers to assign readings and monitor student progress. Come see how you can

Smart Schools Investment Plan - Revised - One to One - Continuation Plan

Classroom Learning Technology

Page Last Modified: 05/12/2022

use Learning A-Z in your classroom today!  
 SeeSaw for K-2: Seesaw is a platform for student engagement. It is teacher, parent and most of all student friendly. K-2 students have an easier time using SeeSaw than other platforms like Google Classroom. In this workshop, we will take a 90 minute deep dive into the platform led by one of your own classroom teachers using the platform. With SeeSaw, teachers can empower students to create, reflect, share, and collaborate. Students show what they know using photos, videos, drawings, text, PDFs, and links. It's simple to get student work in one place and share with families, and nothing is shared without teacher approval. Comsewogue will be having SeeSaw as the Learning Management System for K-2 teachers. Come take a sneak peak at what SeeSaw can offer you and your students next year, whether through Remote Learning or just providing a way to interact with your students and parents in and outside of the classroom.

9. **Districts must contact one of the SUNY/CUNY teacher preparation programs listed on the document on the left side of the page that supplies the largest number of the district's new teachers to request advice on innovative uses and best practices at the intersection of pedagogy and educational technology.**

By checking this box, you certify that you have contacted the SUNY/CUNY teacher preparation program that supplies the largest number of your new teachers to request advice on these issues.

- 9a. **Please enter the name of the SUNY or CUNY Institution that you contacted.**

SUNY Stony Brook

- 9b. **Enter the primary Institution phone number.**

631-632-7067

- 9c. **Enter the name of the contact person with whom you consulted and/or will be collaborating with on innovative uses of technology and best practices.**

Dr. Craig Markson

10. **To ensure the sustainability of technology purchases made with Smart Schools funds, districts must demonstrate a long-term plan to maintain and replace technology purchases supported by Smart Schools Bond Act funds. This sustainability plan shall demonstrate a district's capacity to support recurring costs of use that are ineligible for Smart Schools Bond Act funding such as device maintenance, technical support, Internet and wireless fees, maintenance of hotspots, staff professional development, building maintenance and the replacement of incidental items. Further, such a sustainability plan shall include a long-term plan for the replacement of purchased devices and equipment at the end of their useful life with other funding sources.**

By checking this box, you certify that the district has a sustainability plan as described above.

11. **Districts must ensure that devices purchased with Smart Schools Bond funds will be distributed, prepared for use, maintained and supported appropriately. Districts must maintain detailed device inventories in accordance with generally accepted accounting principles.**

By checking this box, you certify that the district has a distribution and inventory management plan and system in place.

12. **Please detail the type, quantity, per unit cost and total cost of the eligible items under each sub-category.**

Select the allowable expenditure type. Repeat to add another item under each type.	Item to be Purchased	Quantity	Cost per Item	Total Cost
Laptop Computers	Acer R753 Chromebook	2,319	403.00	934,557.00
Other Costs	Chromebook Licenses/ Fees	2,319	30.00	69,570.00
		<b>4,638</b>	<b>433.00</b>	<b>1,004,127</b>

Smart Schools Investment Plan - Revised - One to One - Continuation Plan

Pre-Kindergarten Classrooms

Page Last Modified: 01/13/2022

1. Provide information regarding how and where the district is currently serving pre-kindergarten students and justify the need for additional space with enrollment projections over 3 years.

(No Response)

2. Describe the district’s plan to construct, enhance or modernize education facilities to accommodate pre-kindergarten programs. Such plans must include:

- Specific descriptions of what the district intends to do to each space;
- An affirmation that new pre-kindergarten classrooms will contain a minimum of 900 square feet per classroom;
- The number of classrooms involved;
- The approximate construction costs per classroom; and
- Confirmation that the space is district-owned or has a long-term lease that exceeds the probable useful life of the improvements.

(No Response)

3. Smart Schools Bond Act funds may only be used for capital construction costs. Describe the type and amount of additional funds that will be required to support ineligible ongoing costs (e.g. instruction, supplies) associated with any additional pre-kindergarten classrooms that the district plans to add.

(No Response)

4. All plans and specifications for the erection, repair, enlargement or remodeling of school buildings in any public school district in the State must be reviewed and approved by the Commissioner. Districts that plan capital projects using their Smart Schools Bond Act funds will undergo a Preliminary Review Process by the Office of Facilities Planning.

Please indicate on a separate row each project number given to you by the Office of Facilities Planning.

Project Number
(No Response)

5. Please detail the type, quantity, per unit cost and total cost of the eligible items under each sub-category.

Select the allowable expenditure type. Repeat to add another item under each type.	Item to be purchased	Quantity	Cost per Item	Total Cost
(No Response)	(No Response)	(No Response)	(No Response)	0.00
		<b>0</b>	<b>0.00</b>	<b>0</b>

6. If you have made an allocation for Pre-Kindergarten Classrooms, complete this table. Note that the calculated Total at the bottom of the table must equal the Total allocation for this category that you entered in the SSIP Overview overall budget.

	Sub-Allocation
Construct Pre-K Classrooms	(No Response)
Enhance/Modernize Educational Facilities	(No Response)
Other Costs	(No Response)
<b>Totals:</b>	<b>0.00</b>

Smart Schools Investment Plan - Revised - One to One - Continuation Plan

Replace Transportable Classrooms

Page Last Modified: 01/13/2022

1. Describe the district’s plan to construct, enhance or modernize education facilities to provide high-quality instructional space by replacing transportable classrooms.

(No Response)

2. All plans and specifications for the erection, repair, enlargement or remodeling of school buildings in any public school district in the State must be reviewed and approved by the Commissioner. Districts that plan capital projects using their Smart Schools Bond Act funds will undergo a Preliminary Review Process by the Office of Facilities Planning.

Please indicate on a separate row each project number given to you by the Office of Facilities Planning.

Project Number
(No Response)

3. For large projects that seek to blend Smart Schools Bond Act dollars with other funds, please note that Smart Schools Bond Act funds can be allocated on a pro rata basis depending on the number of new classrooms built that directly replace transportable classroom units.

If a district seeks to blend Smart Schools Bond Act dollars with other funds describe below what other funds are being used and what portion of the money will be Smart Schools Bond Act funds.

(No Response)

4. Please detail the type, quantity, per unit cost and total cost of the eligible items under each sub-category.

Select the allowable expenditure type. Repeat to add another item under each type.	Item to be purchased	Quantity	Cost per Item	Total Cost
(No Response)	(No Response)	(No Response)	(No Response)	0.00
		<b>0</b>	<b>0.00</b>	<b>0</b>

5. If you have made an allocation for Replace Transportable Classrooms, complete this table.  
Note that the calculated Total at the bottom of the table must equal the Total allocation for this category that you entered in the SSIP Overview overall budget.

	Sub-Allocation
Construct New Instructional Space	(No Response)
Enhance/Modernize Existing Instructional Space	(No Response)
Other Costs	(No Response)
<b>Totals:</b>	<b>0.00</b>

Smart Schools Investment Plan - Revised - One to One - Continuation Plan

High-Tech Security Features

Page Last Modified: 01/13/2022

- Describe how you intend to use Smart Schools Bond Act funds to install high-tech security features in school buildings and on school campuses.

(No Response)

- All plans and specifications for the erection, repair, enlargement or remodeling of school buildings in any public school district in the State must be reviewed and approved by the Commissioner. Smart Schools plans with any expenditures in the High-Tech Security category require a project number from the Office of Facilities Planning. Districts must submit an SSBA LOI and receive project numbers prior to submitting the SSIP. As indicated on the LOI, some projects may be eligible for a streamlined review and will not require a building permit. Please indicate on a separate row each project number given to you by the Office of Facilities Planning.

Project Number
(No Response)

- Was your project deemed eligible for streamlined Review?

- Yes
- No

- Include the name and license number of the architect or engineer of record.

Name	License Number
(No Response)	(No Response)

- Please detail the type, quantity, per unit cost and total cost of the eligible items under each sub-category.

Select the allowable expenditure type. Repeat to add another item under each type.	Item to be purchased	Quantity	Cost per Item	Total Cost
(No Response)	(No Response)	(No Response)	(No Response)	0.00
		<b>0</b>	<b>0.00</b>	<b>0</b>

- If you have made an allocation for High-Tech Security Features, complete this table. Enter each Sub-category Public Allocation based on the the expenditures listed in Table #5.

	Sub-Allocation
Capital-Intensive Security Project (Standard Review)	(No Response)
Electronic Security System	(No Response)
Entry Control System	(No Response)
Approved Door Hardening Project	(No Response)
Other Costs	(No Response)
<b>Totals:</b>	<b>0.00</b>

Smart Schools Investment Plan - Revised - One to One - Continuation Plan

Non-Public Schools

Page Last Modified: 01/13/2022

1. Describe your plan to utilize SSBA funds to purchase devices and loan to the nonpublic schools within your district. Please specify what devices have been requested by the nonpublic schools. If the nonpublic schools have not finalized requests, the district should provide the date nonpublic schools will submit the request by.

Please note: If this plan has been identified as a Remote Learning Plan to be submitted and reviewed on an expedited basis, the district should state that they will reach out to the nonpublic schools upon submission of the application, in lieu of responding to the question above.

(No Response)

2. A final Smart Schools Investment Plan cannot be approved until school authorities have adopted regulations specifying the date by which requests from nonpublic schools for the purchase and loan of Smart Schools Bond Act classroom technology must be received by the district.

By checking this box, you certify that you have such a plan and associated regulations in place that have been made public.

- 2a. Please enter the date each year nonpublic schools must request loanable items from the school district. This date cannot be earlier than June 1 of the previous school year.

(No Response)

3. Final 2014-15 BEDS Enrollment to calculate Nonpublic Sharing Requirement (no changes allowed.)

	Public Enrollment	Nonpublic Enrollment	Total Enrollment	Nonpublic Percentage
Enrollment	3,670	52	3,722.00	1.40

4. Nonpublic Loan Calculator

	Loanable School Connectivity	Loanable Classroom Technology	Additional Nonpublic Loan (Optional)	Estimated Per Pupil Amount - This Plan	Previously Approved Per Pupil Amount(s)	Cumulative Per Pupil Loan Amount	Final Per Pupil Loan Amount - This Plan	Final Total Loan Amount - This Plan
Required Nonpublic Loan	0.00	1,004,127.00		250.00	250.00	250.00	0.00	0.00
Final Adjusted Loan - (If additional loan funds)	0.00	1,004,127.00	(No Response)	250.00	250.00	250.00	0.00	0.00

5. Nonpublic Share

	Final Per Pupil Amount	Final Nonpublic Loan Amount
Pending and Previously Approved Plans	250.00	13,000.00
This Plan	0.00	0.00
Total	250.00	13,000.00

6. Distribution of Nonpublic Loan Amount by School

Nonpublic School Name	2018-19 K-12 Enrollment	Special Ed School? If Yes, not eligible
SUNSHINE ALTERNATIVE EDUCATION CTR	5	No

7. Please detail the type, quantity and per unit cost of the eligible items under each sub-category.
