

The University of the State of New York  
**The State Education Department**

**ANALYSES BY STUDENT SUBGROUP OF SCHOOL  
PERFORMANCE IN ENGLISH LANGUAGE ARTS  
AND MATHEMATICS**

**for**

**North Syracuse Junior High School**

**in**

**North Syracuse Central School District**

Historically, on State assessments the average performance of Black, Hispanic, and Native American students has been lower than that of White and Asian students. Similarly, students from low-income families have not performed as well as those from higher income families. A high priority of the Board of Regents is to eliminate these gaps in student performance. In addition, Title 1 of the federal Elementary and Secondary Education Act includes explicit requirements "to ensure that students served by Title 1 are given the same opportunity to achieve to high standards and are held to the same high expectations as all students in each State." Beginning with this school report card, New York State will report performance data by gender, disability status, racial/ethnic group, English proficiency status, migrant status, and income level. Only high schools that received Title 1 funding have reports showing performance data by gender, racial/ethnic group, migrant status, and income level.

The purpose of the analyses on the following pages is to determine if students who perform below the standards in this school tend to fall into particular groups, such as minority students, English language learners, or economically disadvantaged students. If these analyses provide evidence that students in one of the groups achieve at a lower level than other students, the school and community should examine the reasons for this lower performance and make necessary changes in curriculum, instruction and student support services to remedy these performance gaps.

It is important that programmatic changes be based on valid and reliable data. If a school does not have 20 students in a group in a given year, the school should evaluate results for students in this group over a period of years to make programmatic decisions. To protect the privacy of students, the Department's policy is never to publish data for groups with fewer than five students, nor to publish data that would allow readers to easily determine the performance of a group smaller than five. If the number of students in small group racial/ethnic groups exceeds four, the aggregate performance of students in these groups is shown in the last row (Small Group Totals) of Results by Race/Ethnicity.

# Elementary English Language Arts

A description of the performance levels and summary results for all general-education students and all students with disabilities can be found in the *Overview* of the New York State Report Card.
