Grade 8 English Language Arts Levels – Listening, Reading, and Writing Standards

Level 4	These students **exceed the standards** and are moving toward high performance on the Regents examination. All students scoring from **739 to 830** are in this level.
Level 3	These students **meet the standards** and, with continued steady growth, should pass the Regents examination. All students scoring from **701 to 738** are in this level.
Level 2	These students **need extra help** to meet the standards and pass the Regents examination. All students scoring from **662 to 700** are in this level.
Level 1	These students have **serious academic deficiencies**. All students scoring from **527 to 661** are in this level.

Performance of English Language Learners (ELL)

ELL are students for whom English is a second language. Schools teach these students English so they can participate effectively in the academic program. ELL students without sufficient proficiency in English are not required to take the grade 8 ELA test. Their progress in learning English is measured, using standardized tests, and reported.

Grade 8	English Proficiency Below Effective Participation Level	Making Appropriate Progress
June 2001	0	0

1 For 2001, these students were eligible for the Alternate Assessment (AA). For 2000 and 1999, these students were exempt from this test because of disability as stated in their Individualized Educational Program.

2 These students were not required to take the grade 8 ELA test because they were English Language Learners (ELL) who performed below the 30th percentile on another appropriate English reading assessment.

3 These students were enrolled at the time of testing but were not present to complete some part of the ELA assessment.

To protect student confidentiality, the pound character (#) appears when fewer than five students in a group were tested. If fewer than five were tested in one subgroup, then counts appear only in the "All Students" category.

Level 3	These students **meet the standards** and, with continued steady growth, should pass the Regents examination. All students scoring from **716 to 759** are in this level.
Level 2	These students **need extra help** to meet the standards and pass the Regents examination. All students scoring from **681 to 715** are in this level.
Level 1	These students have **serious academic deficiencies**. All students scoring from **517 to 680** are in this level.

* Similar Schools are schools grouped by district and student demographic characteristics. More information is on the **School** Profile page of this report. Further explanation is available at http://www.emsc.nysed.gov/repcrd2002/similar.html

1 For 2001, these students were eligible for the Alternate Assessment (AA). For 2000 and 1999, these students were exempt from this test because of disability as stated in their Individualized Educational Program.

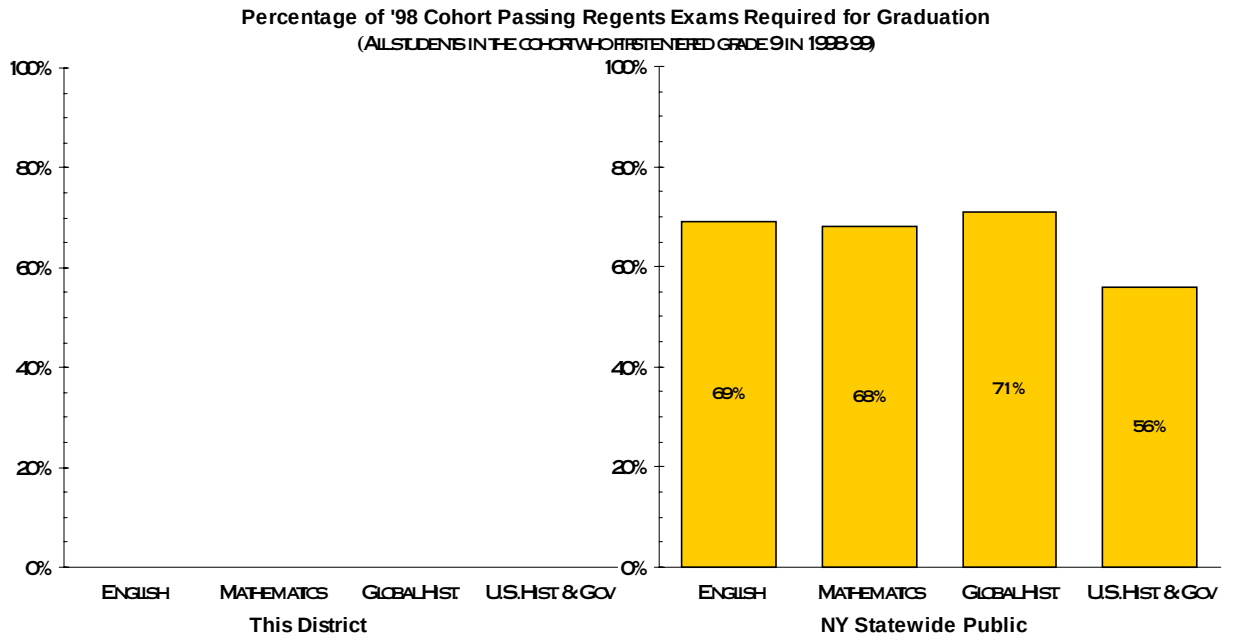
2 These students are not required to take this test because they are English language learners (ELL) who perform below the 30th percentile on an appropriate English reading assessment and there is no test form available in their native language. Other ELL students must take this test, but may take an alternative language form if such is available.

3 These students were enrolled at the time of testing but were not present to complete some part of the mathematics assessment.

To protect student confidentiality, the pound character (#) appears when fewer than five students in a group were tested. If fewer than five were tested in one subgroup, then counts appear only in the "All Students" category.

High School Achievement – After Three Years of Instruction

This section presents the success of students on Regents examinations required for graduation. Passing is defined as scoring 65 or higher, or earning approved alternative credit. Students who earn credit through component retesting are counted as if they scored in range 55 to 64 or in range 65 to 84 as determined by the results of the component retest. This page presents information about students who first entered grade 9 in 1998-99, displaying results for these students after three years. Safety-net provisions of the graduation requirements allow some students to earn credit for graduation by alternative means. The percentage of students meeting their personal graduation requirements after four years is presented elsewhere in this report as a school accountability measure.



Requirement	Student Category	Students in Cohort [1]	Highest Score[2] From 55 To 64	Highest Score[2] From 65 To 84	Highest Score[2] From 85 To 100	Approved Alternative Credit
English (after 3 years)	General Education	0	#	#	#	#

[1] Cohort is defined in Section 100.2 (p) (8) (iii) of Commissioner's Regulations.

[2] Only the highest score of each student is counted, regardless of how many times the student may have taken the examination.

To protect student confidentiality, the pound character (#) appears when there are fewer than five students in a group. If fewer than five special-education students were reported, then counts appear only in the "All Students" category.

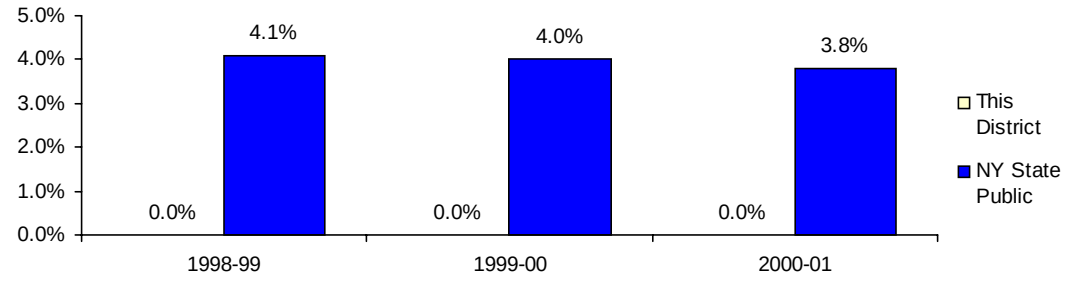
Need to Resource Capacity (N/RC) Group	The State Education Department assigns each school district to a comparison group based on student demographics and the resource capacity of the district. This district is in N/RC Group 5. This district has average needs relative to local resource capacity.

Dropout Rate



A dropout is any student who left school prior to graduation for any reason except death and did not enter another school or approved high school equivalency preparation program. The dropout rate is calculated by dividing the total number of students who dropped out in a given year by the total fall enrollment in grades 9-12, including that portion of the ungraded secondary student enrollment that can be attributed to grades 9-12.

[1] Some district-employed staff serve in more than one school. These shared people are included in counts reported here.
