Career & Technical Education (CTE)

BOCES CTE classes, offered primarily on a half-day basis, prepare high school students from component districts for skilled workforce careers. Most CTE programs require two years to complete. *Data source: BOCES Survey.*

Alternative Education *(No program was reported for this BOCES)*

BOCES operates full-day and/or half-day programs for general-education students who have been identified as having special needs not being met in school district programs. Programs may include academics, vocational skills, work-study, specialized activities or a combination of these. The BOCES Report Card includes alternative education program enrollment and outcome data for students in grades 5 through 8, as well as students in programs leading to high school diplomas or high school equivalency diplomas. Alternative Education Outcomes

The objective of the alternative education program is to retain students until they graduate or return to a regular school setting. Students counted as leaving programs may have done so for a variety of reasons including relocation, medical problems, childcare, incarceration or entering other education programs. Adult Basic Education

Based on data reported for the National Reporting System (NRS) for adult education programs, enrollment in adult basic education programs for 2003-2004 was 3,332.

Educational Gain

Under the NRS, educational gain is the primary goal for students in adult beginning/ intermediate programs, adult secondary (low) programs, and in English for speakers of other languages programs. Students are counted as achieving educational gain if they exceed established reference points in their standardized test scores between enrollment and re-testing.

Educational Program	Enrollment			Educational Gain					
	2001-02	2002-03	2003-04	2001-02		2002-03		2003-2004	
Adult Beginning/Intermediate	902	657	713	180	20%	175	27%	169	24%
Adult Secondary (Low)	135	71	65	27	20%	10	14%	9	14%
ESOL	2,008	2,242	2,529	614	31%	712	32%	742	29%

Other Outcomes (2001-02 through 2003-04)

The following outcome measures are consistent with the National Reporting System (NRS) for adult education. Students in adult secondary (high) programs are considered to have a primary goal of obtaining a secondary or high school equivalency diploma. For all other outcomes, the student achievements correlate to the students indicating those goals at intake.

Other Outcomes	Students with Goal			Students Achieving Goal					
	2001-02	2002-03	2003-04	2001-02		2002-03		2003-04

Special Education Enrollment and Tuition

When placing students, districts select among classrooms with different student/staff ratios consistent with each student's Individualized Education Program (IEP). The following are four of the alternatives:

- ❑ 12 students per teacher plus one paraprofessional (12:1:1)
- ❑ 6 students per teacher plus one paraprofessional (6:1:1)
- ❑ 12 students per teacher plus four paraprofessionals (12:1+1:3)
- ❑ 8 students per teacher plus 1 paraprofessional (8:1:1)

An addendum of enrollment and tuition information will be attached to this report if this BOCES provides other options of student/staff ratios.

Tuition rates exclude the costs of related services, preschool and summer school programs. BOCES with multiple tuition rates for a program have calculated an average rate. Data source for enrollment and tuition: 602 Report.

School Library System Services

School Library System Services, a state-aided program sponsored by each BOCES, provide vital library and information resources to public and nonpublic schools throughout the State. Each system operates under an approved plan of service and provides leadership and training through professional development activities; facilitates resource-sharing among its member school libraries; promotes advances in technology for information storage and retrieval; focuses on cooperative collection development of school library materials; addresses the information needs of special client groups and participates in regional library issues with public, academic and special libraries. Students, teachers and administrators in each BOCES service area benefit from the activities of the program. The charts below depict selected school library system services.

State Testing Program for All Component Districts

The State testing program provides data to the State Education Department and local school districts for use in planning, managing, and evaluating educational programs. The 4th and 8th grade English language arts (ELA) and mathematics tests measure student performance on the State standards for the elementary and middle grades, while the Regents examinations are key indicators of student progress in the secondary grades. These data are calculated by aggregating district-level results for general education students and pupils with disabilities for all component districts.

Counts of Students Tested (General Education and Students with Disabilities)

Percent of Student Scoring at Each Performance Level

Grade 4 English Language Arts February 2004

Grade 4 Mathematics May 2004

Grade 8 English Language Arts January 2004

Grade 8 Mathematics May 2004

Level 4	These students exceed the standards and are moving toward high performance on the Regents examination.
Level 3	These students meet the standards and, with continued steady growth, should pass the Regents examination.
Level 2	These students need extra help to meet the standards and pass the Regents examination.
Level 1	These students have serious academic deficiencies.

Further descriptions for each level by exam are available on the School Report Cards at the New York State Education Department Web site at www.emsc.nysed.gov/irts/.

Regents Examinations

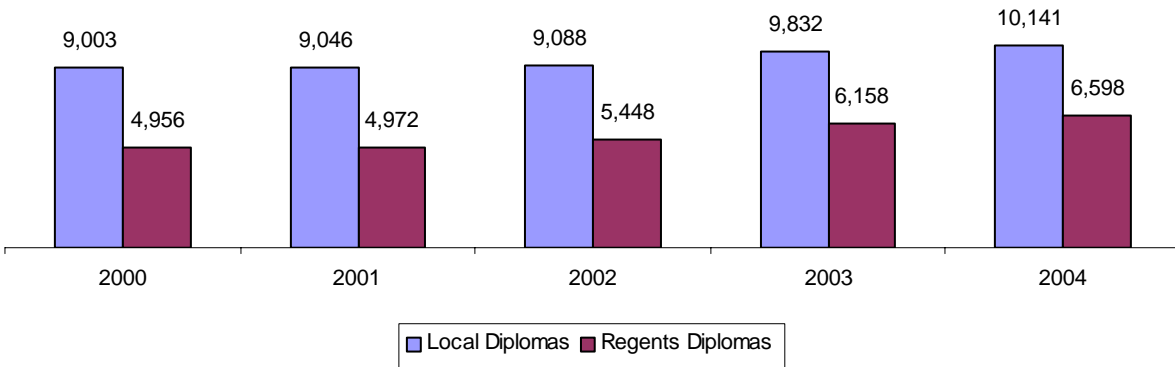

In 1996, the Regents acted to raise learning standards by requiring future students to demonstrate competence for graduation using Regents examinations, rather than the lower-level Regents competency tests (RCTs). All general-education students who entered ninth grade in the fall of 1996 were required to score 65 or higher (55 if approved by the local school board) on the Regents examination in comprehensive English to earn a local diploma. General-education students who entered ninth grade in the fall of 1997 are required to score 65 or higher (55 if approved by the local school board) on the Regents examination in comprehensive English and on a Regents examination in mathematics. The number of Regents examinations required for graduation has increased with each succeeding freshman class. Added requirements for the freshman class of 1998 were the Regents examinations in global history and geography and U.S. history & government. The freshman class of 1999 has to also pass a Regents examination in science.

Data were collected to assess the progress that students are making toward meeting new graduation requirements for their cohort. The following charts show the percentage of cohort members in component districts who scored 55-100 and 65-100 on each Regents examination after four years. The data include results for students with disabilities.

Graduation Results 1999-2000 through 2003-04 School Years

Displayed below are the number of graduates in component districts who received local diplomas with or without Regents endorsement and local diplomas with Regents endorsement during the 1999-2000 through 2003-04 school years. Before the 2001-02 school year, counts include January, June and August graduates. In the 2001-02 school year, counts include January and June graduates. Data for the 2002-03 and 2003-04 school year include August, January and June graduates. In 2003-04, 65.1% of the high school graduates in this BOCES region component districts earned a Regents diploma versus 69.2% of the graduates in component districts statewide.

Distribution of Graduates 2001-2002 through 2003-2004 School Years

The chart provides the percentage of graduates in component districts who specified the postsecondary intentions listed during the 2001-2002 through 2003-2004 school years. Other postsecondary includes trade and proprietary schools.
