Chief Administrative Officers of:
Department of Correctional Services
Office of Children and Family Services
Office of Mental Health
Office of Mental Retardation and Developmental Disabilities

Date: October 2006

From: Inni Barone

Subject: PD-3A/4 – State Agency Report: Number of Students with Disabilities Provided Special Education on December 1, 2006 and the Settings in Which Students with Disabilities are Provided Educational Services. **Due between December 1, 2006 and December 15, 2006.**

Attached is a new PD-3A/4 form to be used to report your count of pre-school and school-age students with disabilities provided special education programs and/or services on December 1, 2006. This report also requests the settings in which students with disabilities are provided educational services. This report is due in the State Education Department **between December 1, 2006 and December 15, 2006** and should be submitted to:

New York State Education Department
Office of Vocational and Educational Services for Individuals with Disabilities
Strategic Evaluation Data Collection, Analysis and Reporting
Room 1613, One Commerce Plaza
Albany, New York 12234

To be counted in this report, each student with a disability, on December 1, 2006, must meet the following criteria:

- The student must be receiving special education programs and/or services in the State agency's education program in accordance with the student's Individualized Education Program (IEP) and in accordance with State standards. A student with a disability whose placement in your agency is discontinued before December 1, 2006, may not be included in the count for your agency. A student who is initially placed in your agency and provided special education after December 1, 2006 may not be included in the count for your agency.

Federal law and regulation require that state agencies ensure an unduplicated count of students with disabilities. Before submitting the PD-3A/4 report, please complete local verification procedures to ensure that each student is counted only once. Such verification procedures may include visual scans, computer scans or other methods; and are especially important for agencies with multiple sites where students receive special education programs and/or services.

The New York State Education Department (NYSED) will confirm the accuracy of information included in this report as part of the program review process, or as is otherwise indicated. To facilitate such review for your agency, please maintain a list (hard copy or other readily retrievable format) of all students included in this child count until June 30, 2014. Upon completing local verification procedures, if it is determined that one or more counts are incorrect, a revised report (i.e., PD-3A/4 form) must be submitted to SED.

Compared to the PD-3A/4 report for 2005-2006, the PD-3A/4 report for 2006-2007 has been modified in the following ways:

- Section C, Reports 1-15 have been revised to include a Table 3 to collect the number of students with disabilities who are incarcerated in correctional facilities, home-schooled, or parentally placed in nonpublic schools. In previous years these students were reported in Tables 1 or 2 of Reports 1-15.
- Section C, Report 15 has been split into Report 15A for school-age students with disabilities ages 4-5 and 15B for students with disabilities ages 6-21.
- Section C, Report 16A and 16B have been added to collect the number of school-age students with disabilities ages 4-5 and 6-21, respectively, in each educational setting by gender and limited English proficient status.
- Section C, Reports 17A and 17B request data for school-age students with disabilities ages 4-5 and 6-21, respectively, by disability and race and ethnicity.
- Agencies are provided an option to report some students as “multi-racial – not of Hispanic Origin.” This is an optional reporting category. However, if students are reported in this category on the Basic Education Data System (BEDS) enrollment form, they must be reported in this category on the PD-3A/4 report. In the future, after advance notification, agencies will be asked to report each student’s unique race/ethnicity composition according to the new federal reporting categories. For description of the new proposed categories, see the Federal Register at <http://www.ed.gov/legislation/FedRegister/other/2006-3/080706.d.pdf>.

Please note that the data collected through the PD forms are used in the following reports and activities:

- State Performance Plan and Annual Performance Report for Special Education
- Public reporting of LEA results against State targets established in the State Performance Report.
- Calculation of minimum amount of per-pupil IDEA funds to be sub-allocated or spent on services.
- Pocketbook of Goals and Results for Individuals with Disabilities
- Chapter 655 Report to the Governor and the Legislature on the Status of the State’s Schools
- Special Education Quality Assurance Reviews
- School District Report Cards
- BOCES Report Cards
- Charter School Report Cards
- Calculations to identify instances of possible race/ethnicity disproportionality
- Other reports required by State or federal statutes
- Evaluation of programs and policies

If you have any questions or are in need of assistance in completing this report, please call the Strategic Evaluation Data Collection, Analysis and Reporting (SEDCAR) Unit by using the contact information provided in the letterhead. Thank you.

PD-3A/4-State Agency Report: Number of Students with Disabilities Provided Special Education on December 1, 2006 and the Settings in Which Students with Disabilities are Provided Educational Services

Instructions:	1. Return one copy of this report between December 1 and December 15, 2006 to the above address. (This report may not be signed or submitted prior to December 1, 2006.) 2. Retain one copy (and supporting documentation) in your school for reference and audit purposes. The required retention period ends June 30, 2014. 3. If you have questions about this report, please call (518) 486-4678 or e-mail your questions to vesidcar@mail.nysed.gov

Certification and Assurances

I have reviewed the information reported on this form and certify that this is a complete and accurate count of New York State students with disabilities served on December 1, 2006. I further certify that the students reported were served in accordance with their Individualized Education Programs and in accordance with State standards.

Chief Administrative Officer Must Sign and Date on or after December 1, 2006.

 Name of Chief Administrative Officer (Please Type or Print)

Instructions and Definitions for Completing the PD-3A/4 Report

1. Wherever information is requested regarding students' race/ethnicity, please use the following definitions to assist you in determining the most appropriate category for reporting students:
American Indian/Alaskan Native: A person having origins in any of the original peoples of North and South America (including Central America) and who maintains tribal affiliation or community attachment.
Asian or Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands, including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam. The Pacific Islands include Hawaii, Guam, and Samoa.
Black or African American (not of Hispanic origin): A person having origins in any of the Black racial groups of Africa.
Hispanic or Latino: A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.
White (not of Hispanic origin): A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.
Multi-Racial (not of Hispanic origin): This is not a required reporting category, however, if schools report students in this category on the fall 2006 Basic Education Data System (BEDS) enrollment report, they must report students in the same category in this report. The definition of this category is, a person having origins in two or more of the categories of people classified as American Indian or Alaska Native, Black or African American (not of Hispanic Origin), Asian or Pacific Islander, or White (not of Hispanic Origin). Note: Any person of Hispanic or Latino origin, in whole or in part, should be reported as Hispanic or Latino.
2. Wherever students are to be reported by age, please report age as of December 1, 2006.
3. If specific instructions for some tables are not provided below, they are included with each table of the PD-3A/4 form.

Directions and Definitions for Section C, Reports 1-14

Section C, Reports 1-14: There are three tables for each disability category- Table 1, Table 2, and Table 3. These tables request placement information for all school-aged students with disabilities, ages 4-21, who are the responsibility of your CSE and are provided school-age special education programs and/or services on December 1, 2006.

Table 1: Report the number of students with disabilities who are educated in regular school buildings and removed from regular classes for "Less than 20%", "21% to 60%", or "More than 60%" of the school day or school week. "Regular school buildings" are buildings for both disabled and nondisabled school-age students. "Regular classes" are classes for both disabled and nondisabled school-age students. Time outside of regular classroom is a measure of the extent of removal from the regular classroom setting, NOT of the total amount of special education programs and/or services provided. It is the percent of each school day or week that a student receives special education including related services, apart from nondisabled students while within a regular school building. For purposes of these data collection, students in the following settings should be reported in Table 1 (regular school buildings):

- All State agency buildings that are attended by both disabled and nondisabled school-age students.

- Students who attend regular school buildings for at least 50 percent of the school day or school week, even though they may attend programs in separate settings that include only students with disabilities for the rest of the day or week.
- All age appropriate community-based settings that include individuals with and without disabilities, such as vocational sites, in which students with disabilities interact with nondisabled individuals other than nondisabled individuals who are providing services to the students.

In order to determine the percent of time students receive services outside regular classrooms (i.e., in rooms/groupings attended by students with disabilities only), it is important to consider where the service is provided rather than the type of service that is provided. To calculate the percentage of time outside the regular classroom, divide the number of hours the student receives special education and related services outside the regular classroom each day or week by the total number of hours in the school day or school week. Use the length of the entire school day, including all periods and lunch. The following examples are provided for purpose of clarification:

- A student who attends a resource room for one period each day in which special education programs and/or services are provided to a group of students with disabilities would be counted in Table 1, Line 1 since one period outside of regular classroom would constitute 20 percent or less of the school day.
- A student who is assigned a full-time, one-to-one teacher aide, but who attends regular classrooms for 80 percent or more of the school day should be included in Line 1 of Table 1.
- A student who receives special education programs and/or services for two hours per day outside of regular classrooms would be reported on Table 1, Line 2. If the two hours of special education programs and/or services are provided in the regular classroom, the student should be reported in Table 1, Line 1.
- A student whose first period begins at 8:30 a.m. and last period ends at 2:30 p.m. would have a six-hour day or 30-hour week. If the student attended a special class for four 45-minute periods daily and participated in the general education environment for the remainder of the day, that student's "time outside regular classroom" would be 15.0 hours per week or 50 percent of the week. Such a student would be reported in Table 1, Line 2.
- Special education programs and/or services provided outside the normal school day (e.g., before school or after school) should not be considered time outside the regular classroom, regardless of the type of services or where they are provided. Such students should be counted in Table 1, Line 1.
- Students with disabilities who receive special education programs and/or services in regular classes that include nondisabled students should be reported in Table 1. This includes regular classrooms in which consultant teachers provide special education programs and/or services or regular classes in which special class programs are/or services are located.

Table 2: Report the number of students with disabilities who are educated in separate educational settings. These are settings that are attended by students with disabilities only. The definition of each separate educational setting follows:

Special Public Day Schools- These schools include public school district or BOCES buildings that are attended by students with disabilities only. These schools also include Special Act School Districts if they are attended on a day school basis, and if they include students with disabilities only.

Special Private Day Schools- Approved private schools for students with disabilities that are attended by students with disabilities only, on a day basis.

Public Residential Facility- A public facility in which students reside and attend an education program affiliated with the agency, in buildings that serve only students with disabilities. If students with disabilities receive educational services in State agency buildings that are attended by both students with and without disabilities, they must be reported in Table 1.

Private Residential Facility- A private facility in which students reside, and attend an education program operated by the agency, in buildings that serve only students with disabilities. If students with disabilities receive special education programs and/or services in buildings that include disabled and nondisabled students, such students are to be reported in Table 1.

Home- Use this setting if the State agency's Committee on Special Education has determined that the most appropriate educational placement for the student is in the student's residence (or "home"), and not in a school setting.

Hospital or Other Non-School- These are settings in which students with disabilities are provided special education programs and/or services based on their unique needs.

Table 3: Report the number of students with disabilities for whom the agency has CSE responsibility and who are educated in the specific settings described below.

Incarcerated in Correctional Facilities- Use this setting to report students with disabilities who are incarcerated in county correctional facilities, secure detention facilities or in State correctional facilities. The Department of Correctional Services must report all students with disabilities who are provided special education services as of December 1, 2006 in this category and the Office of Children and Family Services must report all students with disabilities who are provided special education services in secure detention facilities as of December 1, 2006 in this category.

Home Schooled- Use this setting to report students with disabilities who are home-schooled at parent choice, but who are provided special education programs or services at public expense.

Parentally Placed in Non Public Schools- Use this setting to report students with disabilities who are parentally placed in non-public schools at private expense, but who are provided special education services at public expense.

State Agency Name: _____ SED Code: _____

Check here if **no** preschool students with disabilities are provided special education programs and/or services in your agency on December 1, 2006. If so, skip Section A.

Check here if **no** school-age students with disabilities are provided special education programs and/or services in your agency on December 1, 2006. If so, skip Sections B and C.

If **both** boxes are checked, your PD-3A/4 report is complete. Please complete page 1 and return the entire form to the address printed on the top of page 1.

Section A: Preschool-age Special Education Programs and/or Services

Table 1: If this agency operates an approved preschool special education program, in Line 1 report the number of preschool children provided full-time or part-time special class programs and/or special education itinerant teacher (SEIT) services on December 1, 2006. In Line 2, report the number of preschool children provided related services only on December 1, 2006. If children are provided related services as well as special class services and/or SEIT services, they should be included in Line 1 only. Report children by age as of December 1, 2006.

Do not include preschool children receiving evaluation services only in this table.

Please note that for students receiving itinerant services and/or related services from more than one approved preschool special education program, only the program that provides itinerant services or is designated by the CPSE to coordinate all related services must count the students in this report.

Line No.	Type of Preschool Special Education Service	Ages 3-4*	Age 2**
1	Count on December 1, 2006 of preschool children provided full-time or part-time special class services or special education itinerant teacher (SEIT) services. If children receive special class or SEIT services as well as related services, count them in this line, not in Line 2.		
2	Count on December 1, 2006 of preschool children provided only related services.		
3	Total		

*Students who are 5 years of age on December 1 are “school-age” children and must be reported in Section B of this report and not in Section A.

**Students who are 2 years old on December 1, 2006 (who will turn 3 years of age by December 31, 2006) and are receiving preschool special education programs and/or services should be included in the column for students age 2.

Section B: School-age Special Education Programs and/or Services

Table 1: Provide an **unduplicated** count of all **school-age** students with disabilities provided special education, on December 1, 2006, by this agency.

Line No.	Report Each Student Only Once	Age 4 to 21*
1	Count of school-age students with disabilities provided special education programs and/or services in State agency's education programs.	

*Only include 4-5 year old students if they are in your school-age program. Students are eligible to enroll in school-age (kindergarten) programs if they become five years old by December 31 or by a later date established by the school/agency. For example, if a student's birthday is on December 5, 2001, and the school/agency policy for admission to school is "five years of age by December 31", the student could be enrolled in the Kindergarten program and be 4 years old on December 1, 2006.

Section B: Population and Poverty Counts

Table 2: The numbers provided in this table will be used to determine a portion of this agency's federal aid allocation under IDEA, under Sections 611 and 619.

Line 1: Provide the total enrollment of all school-age students (disabled and nondisabled) who were provided educational services in Kindergarten through grade 12 programs, on December 1, 2006. Do <u>not</u> include individuals who are of school-age but are not enrolled in a special and/or general education program.	
Line 2: Of the students reported in Line 1, provide the number of students who were eligible to receive a free or reduced price lunch.	

Section C: Educational Placement of School-age Students by Disability, Race/Ethnicity, Gender and Limited English Proficiency

Directions: Please review directions and definitions for completing reports 1-14 beginning on page 2. The total number of students reported in reports 1-13, reports 15A and 15B, reports 16A and 16B, reports 17A and 17B must be equal to the total number of students reported in Section B, Table 1, Line 1.

Report 1: Report of Students with Autism Placed as of December 1, 2006

Table 1: In Regular School-Based Programs in buildings attended by disabled and nondisabled students

Section C: Educational Placement of School-age Students by Disability, Race/Ethnicity, Gender and Limited English Proficiency

Report 17A: Report of All School-Age Students with Disabilities as of December 1, 2006, According to Race/Ethnicity Category and Type of Disability - Ages 4-5

In the table below, report race/ethnicity data by disability and age group 4-5 for all students reported in Tables 1,2 and 3, age group 4-5 of Reports 1 to 13.

The total reported below in Column G for each disability must match the sum of totals reported in Tables 1, 2 and 3 under the corresponding disability and age group 4-5 in Reports 1 to 13. Also, the total reported in Line 14 for each column must match the sum of corresponding columns of Tables 1, 2 and 3 of Report 15A.

Racial/Ethnic Group for Students Ages 4-5

Line Number	Disability	A	B	C	D	E	F	G
		American Indian or Alaska Native	Asian or Pacific Islander	Black (Not of Hispanic Origin)	Hispanic or Latino	White (Not of Hispanic Origin)	Multi-Racial (Not of Hispanic Origin)	Total
