

Verification Report 9
Provider Report of School Age Students
Receiving Special Education Services as of October 1, 2008
As Reported by School Districts with CSE Responsibility

Below is a report of the number of school age students with disabilities (aged 4-21) who were receiving special education services in your program according to the least restrictive environment setting in which they are provided special education services and their age range as of October 1, 2008. These data were reported by the school districts that have CSE responsibility for these students as of October 1, 2008.

Directions: Please review your program's record of the number of school age students with disabilities provided special education services from each school district against the numbers reported below by school districts. **If there are discrepancies between your records and the school district's records, please contact the special education office of each school district to resolve the discrepancy.** If the school district's record is inaccurate, they will need to resubmit their district files with the necessary corrections to the Regional Information Center (or the data warehouse for large cities) during the verification time period. These data should be consistent with the data provided by the approved special education programs to school districts on the SEDCAR-1 forms by March 3, 2009 for school age students to request a vendor per-pupil funding amount of IDEA funds.
