The Report of Included Students: This report includes a listing of students who are included in any section of the VR10 report. These are students that meet the above criteria.

The Report of Excluded Students: This is a listing of students who are excluded from the reports, which are those students that meet some of the above criteria but not all. School districts should use these lists to verify the accuracy of data submitted for each student. The reports with aggregate numbers provide the results the State will use in all Statewide and district level aggregations, reporting to the USDOE and for other reporting and analysis.

The following reasonability checks are programmed into Section B, Report 14 of this VR-10 report:
The total reported in every row of Section B, Report 14 are compared with the same total in the VR-10 report from the 2010-11 school year. The total numbers for both years are displayed for your information. After the data are certified, school districts will be required to provide an explanation of any discrepancy of 10 students and 10 percent between 2011-12 and 2010-11 totals in any row. The request for an explanation does not mean a district or school cannot have a discrepancy of 10 students and 10 percent; it just means that the Department needs an explanation of possible circumstances or change in policy, practices and procedures that may have caused such a discrepancy.
Between Ages 2-5
July 1, 2011 to June 30, 2012
