About this Report

To view the description of the report including SIRS codes please [click here](#).

This is a report of the number of school-age students with disabilities (aged 4-21) who were receiving special education services in your program according to the least restrictive environment setting in which they are provided special education services and their age range as of October 5, 2022. These data were reported by the school districts that have CSE responsibility for these students as of October 5, 2022.

Directions

Compare your program's record of the number of school-age students with disabilities who were provided special education services from each school district to the numbers reported below by school districts. School-age students are defined as children who, as of October 5, 2022, are age 4 and eligible to attend kindergarten, age 5 and NOT attending kindergarten, and age 5 who are in kindergarten through age 21.

If there are discrepancies between your records and the school district's records, please contact the special education office of each school district to resolve the discrepancy. If the school district's record is inaccurate, they will need to resubmit their district files with the necessary corrections to the Regional Information Center, or the data warehouse for large cities, prior to the certification due date. These data should be consistent with the data provided by the approved special education programs to school districts on the SEDCAR1 forms for school-age students to request a vendor per-pupil funding amount of IDEA funds under NYS §4410-b.
